be appointed no one will deny, except it may be those who are interested in running steamers which should not be allowed to embark a single passenger.

It might be well to counsel the authorities here to be guided by the existing laws of the marine department of the British Board of Trade as to the duties of an inspecting engineer.

Although it is known that our rulers here are more sympathetic with their brethren of the great Republic of the North in all matters to be copied than they are with us of the old country with our worn-out ideas.

Still we hear of no explosions. Let it not be understood for a moment that I am prejudiced against the American system of river steamers.

I now come to the duties of the engineer inspector. The principal steam companies have always had their inspecting engineers; they are all men well versed in their profession.

Socorro and Pilar, Admiral Murature. Piedad and Balvanera, J. M. Lagos. San Nicolas and San Miguel, Adolphus Rawson.

The secretary read a letter from Mr. A. P. Lamas, stating that he had spoken to Sr. Blanes, who contemplates painting the loss of the America and the scene where Viale gives the life buoy to Mrs. Del Pont.

It was resolved to call for sketches, offering a prize of \$5000 m/c. to the artist whose sketch would be adopted.

Further, to ask the ladies of the Beneficencia to invite the ladies of Buenos Ayres to hold a meeting among themselves, and name a committee to further the object of the Viale fund.

EDITOR'S TABLE. The fine steamer Tycho Brahe entered Montevideo on Monday. She brings dates from England to the 1st of December.

Wales is out of all danger, and slowly recovering. Depression is still remarked in Argentine securities, for reasons referred to in last advices.

Another of our new turret-ships—the Hotspur, of the Captain class—has had a narrow escape from following that ill-fated vessel to the bottom of the ocean, being caught in a tremendous hurricane off the Spanish Coast, and having to run for shelter to Plymouth, where she arrived in safety.

above water, and every life on board could have been saved. We hear that the New Year's celebration at the famed Santo Domingo estancia was of the most convivial description, and the numerous guests of our friend Don Juan Davidson as happy as they invariably are under his hospitable roof.

Dr. Gibbins had also this annual gathering of young people at his estancia, at Ranchos; things always go merrily as a marriage bell in that open-hearted quarter, and the opening day of this year was no exception to the rule.

The first sod of the Montevideo and Figueiras line of railway was opened on the 21st December. Particulars will be found in our leading columns.

The chief support of the new line is expected from the passenger traffic between Buenos Ayres and the sister city, as it will shorten the passage by water considerably.

South America railway express speed (20 miles an hour) will have to be improved on, however, if any gain in the through time between this port and the sister city is contemplated.

Our correspondence from Montevideo mentions that the feeling against Captain Bossi and his crew is still very strong, but slight hopes are entertained of bringing him to trial.

It was rumored here on Sunday that he had shot himself, but happily the report has been contradicted; he is not the man to do this, though his recent intemperate manifestoes betray a face of brass, and a conscience as long as the Equator.

approved and accepted. Previous to such acceptance of the line, it was undoubtedly within the province of the Government to call in question the conditions of fulfillment, but not after doing so now.

The company have done their best to comply with all reasonable requisitions on the part of the Government, and everything was progressing favorably until this part looked for measure on their part, by which the property of the company has already been materially injured.

The honour and good faith of the Argentine Republic are largely mixed up with this question, nor will the British public admit of any quibbles or crochets which it may enter into the head of a Minister to indulge in dealing with it.

The shareholders of the Central Argentine railway look to the Argentine Republic for a fulfillment of its compact, nor will they be content with anything less; if there are matters in dispute as to details, there is the ordinary mode of dealing with them, but the shareholders must be paid their guaranteed interest.—Brazil and River Plate Mail.

ON CHANGE. January 2nd. Onnces 1400. Municipal Bonds, 3,000,000. Flores Road Stock, 7,310,000.

The Municipality paid one dollar dividend on the bank for 200,000 m/c, and to M. Perez Millan for curing the Plaza Libertad from August 1870 to November 1871, 16,000 m/c. The amount of the municipal treasury is rather favorable than otherwise.

arrived at Montevideo, for the purpose of making preliminary arrangements for laying the telegraph cable between Montevideo and Rio. It appears the cable is now on its way out.

A large sale of some 25 to 30,000 arr. Rosario wool, deposited in Montevideo, is spoken of. The wool has been baled, and is now being shipped.

All night on Saturday, and all day on Sunday, there was immense business going on at our warehouses in this city—the object being to ship as much as possible under the old tariff, and before the new tariff for 1872 came in.

On the principal 40 cs in town were thought up with carts laden with wool tubs, all bound for the rivers. Several thousand tubs were shipped that day.

Mr. Walker, the Inspector of Saladeros, arrived from Ensenada on Saturday. His report on the working of the saladeros in the South of this province, we understand, is favorable.

The saladeros are working, and in accordance with the existing regulations. At Ensenada M. Cambaceres is constructing a magnificent saladero, one of the finest in the country.

The Municipality gives the following as its balance on the close of last week: Cash 532,012. Bills received 129,867. Municipal Bonds, 3,000,000. Flores Road Stock, 7,310,000.
