LATEST FROM RANCHO. A RAILWAY EMPLOYEE MURDERED. Yesterday we received a despatch from a resident in Rancholes with the following melancholy intelligence—

Gustavo Hamonet Sole Agent in the River Plate for the Manufacturers of Angers (France). SLATES. Of all shapes and sizes for Roofing, Do do do Flooring.

FOR SALE. TO BE SOLD, IN RANCHO, 28 Squares of Land, by 8, close to the Almirante

The day of the authorities at Tandil in the transmission of despatches respecting the late awful tragedy seems to have originated from some accident on the road to the messenger, seeing that the despatches published yesterday by Government are 7 days old, being dated so far back as January 2d.

LATEST FROM TANDIL. THE SCENE OF THE RECENT MASSACRES. The blackest spot on the map of South America, and which will long be remembered as stained with the blood of 50 unoffending foreigners, was hitherto known as the proposed terminus of the Great Southern Railway, and is thus described in the Handbook of the River Plate—

Fresh particulars respecting Solané are published in some of the morning papers to the effect that he is an Indian half-caste who committed a murder more than ten years ago and (instead of being shot) was condemned to military service, in which capacity he was present at the Battle of Pavón, Sept. 1861, but subsequently escaped to Bolivia, where he learned some quack medical art, and returned to this country, settling in Entre-Rios. General Urquiza found it necessary to flog him publicly and expel him from that Province, since which time he led a vagabond life, till settling on the estancia of D. Ramon Gomez, near Tandil.

led to a belief that the neighbours were more frightened than hurt. We greatly fear, however, that latterly parties will disclose the commission of the usual atrocities. We publish all the details to hand in another column.

A subscriber at San Nicolas de los Arroyos writes to us and says:—“We have had a great deal of rain here, 4 1/2 inches in 38 hours, and the sheep have been dying by wholesale, and the camp was as bare as my foot. The camp was damaged a good bit, harvested here is ruined. They are putting up the bridge over the Las Hermanas Arroyo now, but have been bothered a good deal by the weather. The mole, a San Nicolas is a disgrace, it has a good work as for six months, and still remains in statu quo—reason—no pay for the labourers. Mr. P. will soon have another letter of his magnificent retrievers after: early application necessary; prices looking skywards.”

The Pasos Duranas and Molino, at Montevideo, are about to be united to a boulevard. A plaza will be made at Paso Duranas, with ornamental grounds, shady walks, and the place near the landing brick and mortar, stately, etc., and the place may soon bloom into the Passy or Auteuil of Montevideo.

A private firm has proposed to the Municipality to pave or macadamize the route to the Northern Railway. Let us have the macadam, by all means, no more “kidneys.”

The Montevidean monetary world has been rather “in the dumps” since the arrival of the Boyne with its white remittance of 6000000000 on account of the recently launched loan. The Bears feel better, and have started a report that the loan has not been “done,” and that the Bulls only are in that position. If the Garrison brings no coin for Banda Oriental, we shall probably have as sapient and as useless a public discussion as the Varela negotiation gave rise to.

The Justice of Peace at Carmen de Arco, Don F. Castex, has resigned, and will be replaced by Don C. Lopez.

We had the prospectuses of the new American Cable Company and of the Meat Pressure Company in type on Monday evening, but could not find space to serialise them.

more dangerous places to live in than the Camilla Islands. The Rosario Municipality are having their new bonds printed; they are in the style of those of the B. Ayres Corporation.

The Post-office has made arrangements for the reopening of the regular mail service between Parana, Nogoyá, and Victoria.

We hear of an experiment made with tramway carriages in New Orleans which managers of such concerns here would do well to enquire into. Ammonia has been applied to the street cars in that city as a motive power, and it is found that a tramway car can be propelled seven miles by ammonia, at an expense of only 6 lbs. of coal.

Madame Passi, Lemni, and other old public favorites of the Buenos Ayres opera are expected to return to this city shortly from Rio; they will probably form part of the new company under Sr. Pezatti's direction.

Dr. Ensenberg, Octapoo is expected to be in Rio.

There is a new project for disinfecting the cesspools of the city before the Municipality. It has, probably, as much chance of being adopted as the thousand and one schemes already put forward for the same laudable purpose, but which are reposing in the waste paper basket at the Cabildo.

Our advices from the Cape respecting the diamond fields are of a contradictory nature, but the balance of intelligence is in favor of the “Natal” fields. The following extracts from several papers will show the fortunes of the fight. The excitement is increasing through gold prospects being discovered—value having been discovered—

ble, and occasionally his observations are highly original. Thus we are assured in a democracy, every man having the right to be respected as a gentleman treats others the same. A Republican form of government has not a deteriorating, but an improving effect. In fact, it gets rid of roughs of every description. What Mr. Murray means by the “imposing efficacy” of the Republic we are at a loss to conceive, but we think he is the first traveller who has discovered a necessary antagonism between roughs and Republicans. However, Mr. Murray, enjoying his sojourn in Uruguay so much that his pen refuses to record any except pleasant reminiscences. With the second part of the book, which relates to sheep-farming and emigration, we are far better satisfied.

RIVER PLATE MEAT CO. Advice by the Boyne Mills give the prospectus of a new company, as great importance for the country, will be seen by the signed statement. The name is “THE RIVER PLATE PRESERVE MEAT PRESERVING COMPANY,” with a capital of £150,000 in 15,000 shares of £10 each.

Andrew Murray, Esq., C. B., M. Inst. R. E. (Surveyor), late Chief Engineer, Richmond, Surrey, late Chief Engineer of Portsmouth Dockyard, and late Engineer to the Admiralty.

John Law Baker, Esq., Eastcote, Middlesex (formerly of Gundagai, New South Wales).

George Alfred Bartlett, Esq., 58, Queen Anne-street, Cavendish-square, late of Adelaide, South Australia.

George Gowland, Esq. (Chairman of the Original Hartlepool Collieries Company), Downs Park, Lower Clapton, E. C.

Thomas Frederick Honeley, Esq., C. B., 56, St. George's-square, Belgrave, London, W. C.

pressed meat. Professor Wanklyn says:—“The meat is at least twice as nutritious as good salt beef, and very much more digestible.” Other eminent authorities have also reported strongly in favour of this system. The Directors have, therefore, no hesitation in expressing their belief in being able to dispose of every pound of meat and meat extract manufactured by the process to be adopted by this Company.

The only remaining point to which, in the interest of the public from whom they now invite subscriptions for eleven thousand shares, the Directors think it necessary to allude is the probable return that may be expected on the investment. In the first instance, the Directors propose to erect, as before stated, suitable buildings &c., for the treatment of 200 oxen each day, as also a tallow-melting establishment, with the necessary plant for the profitable utilisation of the hides, bones, and, indeed, every part of the animal, and, at a cost, which by a very careful estimate made by Mr. Henley, including purchase of land, will not exceed £2,000.

An ox weighing 600 lbs. (dead weight) will produce as follows:—Tallow (price in Liverpool) at 42s. £1 8 1/2

182lb. pressed preserved meat, without bone, is estimated at wholesale price at 4d. per lb. £3 0 8

100 lb. extract of meat, at 5s. 6d. per lb. 5 6 0

Deduct expenses—The price of a prime bullock, including freight, &c. £1 0 0

Leaves net profit per ox of £19 0 0

The telegram from Montevideo to-day gave the following:—Arrival: Newport, Doroteo Melichior; Valencia, George Washington; London, Elizabeth Hamilton; Cadix, More; Barcelona, Montjuich. One Entre Biano wool at 341-342, Paper 31. Sovereigns 31. Home Debt, 43, 1,000 dry cow hides, 69. 6000 extra Rio 72. 25,000 arr. wool, lat. 2nd and 3rd, at 36.”

In the South wool market this morning there were very large transactions. Some one or two German baraqueros bought up nearly everything offered. Some of the strongest buyers have stopped buying, as they say they are frightened at the high prices. Mr. Latham's wool did not come in to-day, although it was looked for. Mr. Darmister sold to-day 2,500 arrobes good wool at 81.

In the North market the principal seller to-day was Mr. Duggan. The following were the sales:—8000 arr prime fine wool 88

This is the chief business of the day; the other brokers sold little.

The heat-to-day was so great that it interfered with business. There were no rumors of sickness in town, but Mr. Drago, a well-known broker, and whose brother is Chairman of the Medical Board and Board of Health, unfortunately died to-day that he consulted his brother, and that there is not a single case of fever in town.

The Techo Brake took to-day the following passengers:—J. J. Latham, W. Lyde, C. Simpson, Mr. and Mrs. Messing, W. Ralph, M. Casey, H. Rich, Mr. and Mrs. Brookfield, Mrs. Ramsden.

The Techo Brake, Captain Brown, cleared to-day. She takes a full cargo; and we published a Special Edition with all the latest news, which we despatched to Europe by her.
