

INDIANS NEAR ROSARIO.

LATEST PARTICULARS.

The Press has the following documents and despatches with reference to the latest Indian razzia near Rosario.

North Salado, January 6th. The Indians have come in near Cañada de Varillas, killing many of the half-breed neighbours who attempted to check them.

The Chief of Police at Rosario received the above note at 10.30 a.m. on Saturday, and at once telegraphed to the War Minister at Buenos Ayres.

Major Ortega gave chase to the Indians, and found at Cañada Salado, near lake Pajaro Blanco, the bodies of the 3 Christians killed there.

Major Ortega is badly off for arms and has no ammunition, but is leaving him a few rounds of cartridge to defend his position.

When Ortega started on the 5th he borrowed all the horses about here.

An interesting series of experiments took place yesterday among the Guardia Provincial with rifles of the newest invention lately received from England and France.

The non-arrival of the mails per Garonne yesterday morning caused a gloom in commercial circles.

The report of the Saladero Committee of Inspection respecting the duties in the Villa Mercedes has been laid before the Government.

Yesterday was the hottest day of the season. In the morning the wind was dead north, and kept up pretty much at the same point all day.

Ice, ice, was the shout yesterday. Will no man send up some of the pure Lake Wendham ice now melting away in Montevideo.

My voice is still for war, is the shout of the Banda Oriental, is the cry of the revolutionists in the camp districts are worse than ever.

California. We shall give to-morrow all the particulars as yet at hand. One of the lucky fellows who discovered an American sailor, has received over one million of dollars for his right to the mine in question.

Lord Mayor Sargun seems in the right place. No sooner did he hear the report about the case of yellow fever in town, than he sent all the Doctors in the city to the house in question.

We have received no reply from our Corrientes correspondent, which is explained by the Pressa statement that the telegraph wires are cut beyond Bella Vista.

The Montevideo loan in London has after all, had much to do in the argument demands of the Blancos, who will hardly now be content with the bonus promised them of £290,000.

Where is Captain Bossi? That's the question. People from Montevideo say that he is somewhere living quietly at his own house down there, whilst others say that he has been seen in this city.

As yet there is nothing positive known about President Sarantinos's trip, assuming that he is going to Buenos Ayres in a few weeks at the request of the Republic.

There seems to be some hitch in the Government telegraph line to Corrientes—posts down or wires cut—something wrong. We wired to the ubiquitous Stand-by O'Gorman in Corrientes on Wednesday afternoon.

Our old Rio Correspondent 'Cabral' writes us that whatever title our new Montevideo correspondent may assume, he has no right whatever to the name, name, or style of 'Cabral'.

On Wednesday a fire occurred at the corner of Calles Reconquista and Piedad, facing the R. Plate Bank.

Four new professors for the National College of Parana are called for by Mr. George A. Sterns. This is a very good chance for well educated young men looking for employment.
