

Two boys of respectable families fought a harmless duel at Palermo, the other day, to induce some young lady to think they had risked their valuable lives for her sake.

The horses attached to Dr. Rami rez's carriage ran away the other day, in Montevideo, and the Minister, horses, carriage, and all would have been in "Kingdom Come" in five minutes but for the bravery of a young Englishman who rushed forward, clung to one of the horses, and stopped them, though dragged a considerable distance by the excited animals; but he was not hurt.

We have very distressing news from Chascomus. The mortality in that place was never so high before. In the town four or five funerals take place every day, and there is a great deal of sickness of all kinds, small pox included, amongst the inhabitants. Last week it rained consecutively for thirty-eight hours; and the crops are getting green, and the locusts disappearing gradually.

Yesterday was the eighth anniversary of the inauguration of the Southern Railway. A contemporary announces that a wrestling match took place at the Alcazar on Sunday, and says in the same breath that "one of the gladiators died in the contest," a "ruction" amongst the audience being the result.

There is cheering news from Chacabuco. Flocks and herds in prime condition, and crops good. Wheat crop in all parts fine, and maize yield excellent. Steam thrashing machines are now used in the partido.

The Berlin correspondent of the Times, in his report of the proceedings upon the celebration of the thirtieth birthday of the eldest son of the Crown Prince of Germany, makes mention of a particular usage of the German Royal family under which each male member has to learn some handicraft.

At Arenates, Tandil and Ayacucho the cattle and sheep have been attacked with epidemic disease, and the losses are already considerable. An Irishman at the South African Diamond Fields writes as follows:—"As instances of luck I mention the following:—A Catalan, at work at De Beer's and Colesberg Kop, has found 140 diamonds. He has been four months on the fields. Most of his gems are beautiful stones."

There are a party of young Englishmen who have just returned to the city, and they are all well. They were in the country for some time, and they have seen a great deal of the country. They were in the country for some time, and they have seen a great deal of the country.

The announcement of the death of the Societal Rural, after a long and painful illness, was premature, that excellent body is again publishing its Avances.

The Junjuy people are in the habit of pressing bulls into the service of King Carnival. This year the playful brutes did not seem to like it, and intimated as much by means of their horns, tossing some ladies and their dresses about in a very ungentlemanly manner, and some boys into the middle of next week.

Some medical students have coolly petitioned the authorities to allow them to rifle "the cemeteries of bones and skeletons, to assist in their anatomical studies. The petition was indignantly refused, and the authorities might take it on themselves to impress the same on the future Abernethies and Nelatons of the South American Athens.

citizens did not leave their houses without advising the police, burglaries could be easily prevented. Tonight the members of the Volunteer Fire Brigade met at Messrs. Mitre and Co.'s auction mart in Calle Cangallo, as per advertisement.

More masked balls on Saturday next. Even Bohemia is getting tired of the game. "Basta" till next year. A Montevideo female was arrested on Monday by the police here, and sent back to the place from whence she came. The fair dame is married, and is charged with "inconsistency" and robbery. There is strong circumstantial evidence of the first charge as she came with the "bosom friend" of her husband, and at the same time helped herself to 4,000 hard pesos belonging to her hooch-winked partner, whose feelings can be more easily imagined than accurately described.

The estimates for supporting the Municipal schools this year are \$2,500,000, or 630,000 dollars more than last year.

THE BATTLE OF BRANDYWINE is fought over again. General Balleboen has cut up the rebels right and left. Messrs. Barrud and Briel, 145, Peru, solo agents of the Chilean Government, arrived yesterday from Corrientes stating that Balleboen gave his men a nipper charge before the fight began. Their charge was irresistible. The rebels were flooded, and the General on the left did drink both and success to Otard's brandy—more powerful than gunpowder.
