owing to postal irregularitees, that it often arrived in company with the first issue of the following month.

To obviate this delay, and to ensure punctual delivery, in future the issues of the 9th and 23rd of the month will from January 1872 and henceforward, be sent by the two leading mail routes, viz—the English royal mail from Southampton and the French mail from Bordeaux. We hope thus to ensure punctuality in delivery, and to add yet further to our usefulness. The respective issues will still contain all the special, mercantile and shipping news, which has procured for us such a large measure of support while the general news of the day will be made up to within a few hours of the steamer's departure. The subscription for 1872 will be for the Argentine Republic \$350 mpc. instead of as heretofore, \$500 mpc.
