E. and Co., and many others.

Bristol's sarsaparilla

Is prepared in the most scientific manner, by thoroughly educated men, who have had many years' experience. It is not a simple extract from one article, but is composed of extracts from a number of Roots, Herbs, Bark, and Leaves, all of which are possessed of some particular virtue or power in curing the diseases that have their source in the blood and humors.

The course of instruction is such as to prepare the Pupils thoroughly and efficiently for Professional and Mercantile pursuits; for the Civil Service Examinations; for the Oxford and Cambridge Local Examinations; for Matriculation at the Universities; and in general to fit them for honorable and independent positions in life.
