IL TROVATORE.

(By Figaro) Having promised the STANDARD a fair and impartial critique on Pestalardo's new opera corps and its 'debut' in Trovatore I assisted at the 3 performances of that piece on Saturday, Sunday and Tuesday, the better to be enabled to judge. Let me pay a com-pliment in limine to Sig. Pestalardo for overcoming the many difficulties that usually beset a new enterprise at the first appearance, and presenting to the public of our city an array of talent that may well be termed respec-

table. The prima-donna, Signora Giulia Marziali Passerini, is beyond question a soprano singer of great skill, although she has the defect of giving too much vibration both in her low notes and in those passages which are very high and difficult: this jars a little on the ear. The grand duet Tonda del suoni mistici' was rendered with great spirit and expression, and would have been perfect but for the vibration. An artiste possessing so clear, full and well-trained a voice as Mme. Passerini need not seek any fictitious art to captivate public enthusiasm: I would recommend her not to cater to any in-

judicious applause of this kind, but stick to the laws of music. The tenor, Sig. Giulio Perotti, who made his 'debut' at La Scala in Milan a short time before coming out here, in clear and rich, going up to Do (c).

tional Bonds to pay off the soldiers and officers in the Indopendence war, was what shook the market yesterday. The bill was laid before the house about noon: two brokers heard the news, and at once made for the Bolsa, where for account of an absentee holder they sold beavily. This emission would probably not much affect the market, were it not that behind it is another emission to fund the whole floating debt of the Republic. This latter business has not as yot been brought before the house, but there are those who know of it, and have taken measures accordingly. It is to be regretted that Ministers and Legislatures consider themselves at liberty to fall back on this security, and water the stock ad libitum. The future price of National and Legislatures consider themselves to the total back on this security, and water the stock ad libitum. The future price of National Bonds in the presence of such threatened emission it is hard to say. Dr. JACKSON'S BALSAMIO PECTORAL. Dr. JACKSON'S BALSAMIO PECTORAL.

1s a remedy long employed by the eminent Physician whose name it bears, and is carefully prepared from the original Recipe by the present Proprietors. It is composed entirely of vegetable products, and combines valuable expectorant qualities with those of a soothing curative nature. It has already wen golden opinions to Europe by its wondrons effect in allaying pulmonary irritation, and its prometing a healthy iaction of the membranes lining; the threat and lungs, arresting toe progress of disease and decay, and even, when used at an early stage, arresting that most terrible of chest disease—Pulmonary Consumption.

The value of a remedy, within the reach of all, which by its therapeutic action controls and cures a vast bulk of the diseases to which mankind is liable, cannot be overrated. A brief no tice accompanying each buttle, of the principal complaints for which it is specially appicable will be found useful; and, instead of presenting a host of to-timonials of nors or less value the Proprietor simply begs "One Trial," which will far better establish it reputation and gain the confidence of those who need the relief it affords than the repeated experiences of other sufferers all of whom may be strangers to the

WE had a visit yeaterday, from the man whom we look upon as a Great Benefactor to the human race. Need we say that we reject Turmeau. The pen of a Lempriere is required to enumerate the many virtues of this remarkable man. Would you be surprised to hear that Turmeau states with a solemn face that he is perhaps too best singing master in Buenes Avros: His lessons are easy and agreeable. They cost dollars apiece neatly put up in tins and labelled Everton Toffee.
