Showing a decrease of 27.4 por cent in the number of passengers carried, and an increase of 8.4 per cent. in the receipts of the present year. The decrease in the number of passengers carried is attributable to the fact that the City of Buenos attributable to the fact that the City of Buenos Ayres Tramway, from its cheaper fares, more frequent communication, and more convonient route, has almost entirely absorbed the local passenger traffic existing between Buenos Ayres and Barracas. Since the month of November local trains from the latter station have been discontinued. The company of the Salaka extension

"The increase in the gross receipts of the lien line for the year is £28,074, or equal to 20-97 per cent., and the increase in the not profits is £11,372 or 17-4 per cent. The working expenses amount to 52-72 per cent as compared with 51-33 in 1870. The receipts from passenger traffic show an increase of £4405 or 8-4 per cent.; and the receipts from goods traffic show an increase of £18,773, equal to 26-9 per cent. The receipts per train mile have been 14s 4½d in 1871, as against 13s 10d in 1870, showing an increase of 6½d per train mile; while the expense of working has been 7s 8½d as compared with 7s 1d in 1870."

A very serious question has arisen in this market respecting the inviolability of a telegram. It appears some party hore sent down a most villainous message to a party in Montevideo. Application was at once made for the name of the sender of the telegram, which was refused; a judge's order was then obtained, which also faced, and it was rumored vesterate that an order for judge's order was then obtained, which also is eq, and it was rumored yesterday that an order for the arrost of Mr. Furze had been issued. Mr. Furze, however, cannot personally be had responsible, since he is but an employee of the company. The local board of directors is the proper quarter to apply to.

This market has been very quiet to-day. Although the stocks of our export produce were much heavier than what was generally anticipated, in consequence of the sudden change in the weather, and notwithstanding that the attendance of buyers was very fair, yet business was only done to a moderate extent, export buyers having shown great disinclination to purchase any way freely till after the receipt of their commercial advices by the packet.

As will be seen by the following details of the transactions that took place, prices have been well maintained—

Wool.

Wool.

Wool.
No fresh stock to-day.
Ox and Cow-hides.
The lots now coming to hand are in fair quantities and of the best descriptions, which command a very active enquiry at the late extreme prices. The prices of light weights have still an upward tendency, they being now in most request. The asless to-day were—
Three 'ots of good matadere, amounting to 1500 hides, at 175.

Sheepskins.
Stocks to day were much lighter than on Saturday last, and owing to the rather high rates asked by sellers, very little business was done.

100 dozen good matadero skins at 28 rls. per goond

30 dozen camp at 200 per dozen. Horsehides.

Are now in demand, and prices for best quali-

tree have advanced.

The lots on offer to-day were within a narrow compass, and were realised as follows—

loo good matadere hides sold at 60

80 " " " " 59

40 " camp " " 56

20 " " 59

20 "Lambskins.

Best descriptions command again a good en quiry, but others qualities are in limited request The few lots on sale to-day were of an inferior kind, and were sold a \$18 per doz. Corderones.

There was only one lot sold to-day at \$25. Horse hair.
There were only two lots at the station to-day

and of an inferior quality, they were disposed of at \$175 and 172 per ar. both amounted to about

Wheat.
The stocks to-day were heavy, but experienced a very limited demand, and the few sales which were effected, were in favour of purchasers.

Elaiz.
The supplies were also much heavier than for some days part and although the demand was very dull, yet the prices obtained for the lots which were sold, show no decline on former rates. rates, /

Ferruginous Gin

COMPOSED OF THE FINEST TONIC INGREDIENTS SUCH AS

> QUININE BY.

J. FERD. NAGEL, HAMBURG. INVENTOR AND SOLE MANUFACTURER

OF THE FORRUGINOUS GIN. J. FERD. NAGEL'S ferruginous Gin does not belong to that class of wonderful remedies which are being sold at exerbitant prices; on the contrary, the exceelingly moderate price places this most efficacious and valuable preparaplaces this most efficacious and valuable preparation within the easy reach of everybody. The
forruginous Gin is not intended for all possible
maladies and ailments, but is a simple tonic,
imparting to it just the quantity of iron necessary for the growth and sustenance of the body.
The medical testimonial treating upon the excelleat qualities of this invigorating proparation,
runs thus—"The ferruginous Gin having proved
highly officacious in many cases of scarcity of
blood and nervous ailments, Mr. S. Ferd Angel
has supplied himself to the task of preagang it has applied himself to the task of pro, aring it has succeeded in composing a preparation which aken alone or with the admixture of Soda, Selsken alone or with the admixture of Soda, Selers or other offervescoal waters, is not only greeable to the taste, but extremely beneficial nits effects up in the stomach and the whole system. The ferruginous Gin containing besides the best vegetable Bitters (China Root, &c.) may be taken even by people of delicate constitution before and after dinner in doses varying from 2 to 4 tablespoons full,—100 parts ferruginous Gin contain 0,12 parts iron oxyd."

The ferruginous Gin may be recommended as an admirable cure for Green-Sickness, norvous ailments of all kinds, general debility, Fluor albus; it purifies the blood, creates appotite, promotes digestion and contains every ingredient necessary for the development and sustenan e of the body. The excellent process adopted in the preparation renders it extremely mild in its operation, and it will be found valuable in imparting to the system just the quantity of iron required for the well being of the body.

Mr. J. Ford, Nagel's ferruginous Gin was first prepared by him in the year 1850, and has since become a general favorite.

This ferruginous Gin has been used extensively and with eminent success as a renovator of the nervous system, and thousands have derived the greatest benefit from its use, for it not only set a right any irregularity of the stomach, liver, bowels and kidneys, but has also proved highly valuable against cholera.
