TELEGRAPH TO CHILE. OFFICIAL INAUGURATION.

Yesterday witnessed the successful ermination of the Transandine telegraph wires, the works of which were for Asuncion. begun in Nov. 1870 at Villa Maria. Maria, and it has now been the first to receive a telegram from the Pacific to the Atlantic. Some days ago we alluded to the importance of this enterprise, the benefits it is destined to confer on trade, and the debt of gratitude which Chile and B. Ayres owe to the Anglo-Argento-Chilian 'entrepreneurs', Messrs. Clark. Since the event which has occurred on the Ameholding a grand celebration at the Government house, to which the high officials, foreign envoys and leading

At present it is calculated that 100,000 miles of telegraph are being laid down annually, being ten times as great a development as is observed in rail-

phie charge through wires under water, accross the Schuylkill River; in 1794 well furnished and with windows to the street.

The bell rings! His Excellency Pres. Sarmiento enters, accompanied by his Cabinet Ministers, and Mr Burton takes his seat at the telegraph apparatus in the ante-chamber. The company now assembled comprises at least 200 gentlemen of various natio nalities and professions. All the lead ing men of B. Ayres are here:

President Sarmiento is talking to Mr. Wheelwright, having just shaken bands with Mr. Clark. In a group between the windows overlooking Pa seo Julio, are Minister Tejedor and sundry foreign Ministers and Consuls on the best terms imaginable. Gov ernor Acosta is conversing with Mr Armstrong. Mr. Posadas is quite a home with a number of up-country Deputies. Bishop Aneiros of B. Ayres is seated beside Bishop Araoz of Salta the latter a portly-looking man. Beni tes the banker and beef-preserver stands close to Senator Campillo from Frayle Muerto. The officer in gold lace is Major Ipola and we notice also Generals Nazar, Gelly-Obes and Emilio Mitre and Colonels Vidal and Calvete. In a corner is the veteran Velez Sarsfield, who, with all his faults, labored-incessantly, when premier, for the extension of telegraphs. There are a good many Provincials present: we see Pascual Rosas of Santa Fé Moreno and Igarzabal of San Juan, Blanco and Civit of Mendoza. Zavalia of Tucuman, Carranza of Catamarca, and several others. Among the few Englishmen are Mr. Stuart from Rio Cuarto, Mr. Webb from Rosario and Mr, Trant of the B. Ayres telegraphs. It would be impossible to quarrel with so good-humored a diplomatist-Dr. Frias presents Mr. Cardona to President Sarmiento. Respecting the much-talked of coal contract by the Brazilian Government, which caused such mm-ass-attention in this market yesterday, there s every version current, and interested parties ave circulated the rumor that this contract indicates a war policy on the part of the Brazilian Government. There are those, however, who see in it nothing of the least political importance and merely a precautionary step taken by the Monister of Brazil to save the Treasury from the hands of coal speculators, as grave complaints have been made in Rio at the high price paid by the Brazilian commissaries for coals in the River Plate and Paraguay since the termination of the

This business has a far higher significance for the trade and commerce of the River Plate than many attach to it, and so much depends on the success of the movement that the 1 araguayan Government cannot be too cautious in making the most amble arrangements before hand. The business ment cannot be too cautious in making the most uniple arrangements before hand. The business in London is in good hands. The funds have been subscribed, and a committee of management named, and it is to hoped that equally good steps will be taken in Paraguay, as the planting of 3,000 immigrants in that country must either be the making or the ruin of it. The inauguration of the Transandino telegraph line was the event of the day. At an early hour Mr. Clarke spoke through to Valparaiso with the great st ease, hs brother Don Mateo being in the office in Valparaiso at the time. Mr Burton had the wires into the office of the Minister of Interior, and held this part of the South American continent in subjection. The Bolsa was well represented on the occasion, and after the official telegrams had been despatched some answers were received.

Nothing apparently can prevent such a change but a general stoppage of woollen machinery which is not likely to occur. "The demand just now runs principally upon a few desirable grades of foreign wool, which are largely substituted by manufacturors for the domestic article. Of these the now crop Australian and Montovideo fleeces are most wanted and -clling in large lots at comparatively full and firm prices. The London sale of colonial wools

As: means of building up the consilitation that has been broken down by the excessive use of Morcury, Iron, or other Minerals, our Sarsaparilla will be found most excellent, and can be administered with safety to the weakest patients. As a purifier of the blood and humors, in the Spring and early Summer, it will the found unfalling. It can be taken freely at seasons, rainy or dry. For some of the above diseases, the use of the Sarsaparilly must be continued a considerable time, especially for those that are here-ditary or constitutional in their nature—such as Scrofula: but a faithful compliance with the directions will always relieve and mitigate, and in a goeat majority of cases will effect a complete cure. It will also be found, in all of the above diseases, that a cure will be greatly hacted by using our Bristol's Sugar-coated Pills, in moderate does, in connection with the Sarsaparilla; they carry off large quantities of morbific or diseased matter set tree in the system by the Sarsaparilla, and in this way facilitate the return to normal functional operations.
