AN EXCHANGE OF DISEASES.—In re-lieving the disease Meroury begets ano-ther. If it suppresses acute liver disease, or syphilitic ulceration, or virulent eruption, it sustitutes therefore some chronic malady very difficult to cure. "Contrast its effects with that difficult to cure. Contrast its effects with tart of Bristol's Sarsapsailla. This pure vegeable disinfectant contains no element that is not revigorative, cleansing, and anti-septte. It does not expel poison by poison. Its operation is kindly, gentle, and in harmony with the efforts made by Nature to rid herself of the virus of disease. To this fact must be attributed the sound and vigorous condition in which it leaves the skin after eradicating its airments. ci-jyl4

"Que voulez yous belle amiel" There is no local news going worth the name; we have been tolerably free from European steamers for a few days; 'high life' is at its country seats, and there is no gossip; can you wonder that we now and then fall back on those inexhaustible topics-the ladies and the weather? The weather is a mere hack which we trot out every day; but the other is a thoroughbred subject, and we reserve t for grand occasions. If we get safely over the summer, we'll cut both hemes the moment Autumn begins.

SAVINGS BANK BANK MAUA AND CO. 101--Calle Cangallo--103

is now so generally felt and appreciated in the great emporiums of the River Plate, Montevilee, and Buenos Ayres, that there are very few Morchants who fail to keep one at the bank in which they place the most confidence.

The Bank of Mana & Co. in Montevideo has already provided for the working classes in that city a safe and profitable depository for their savings.

The sums deposited in that very important institution are daily increasing, and already reach a very large amount.

It is not a simple extract from one article, but is compound, ed of extracts from a number of Roots, Herbs Barks, and Leaves, all of which are possessed, of some particular vortue or power in curing the diseases that have their sourse in the blood and diseases that have their sourse in the blood and humors; these different vegetable extracts are combined in such a way as to retain, in so full strength, the special curative virtue possessed by each. The root of the Sursaparilla plants found in Hondurss, is that which we use in this preparation; it is the kind which all medical mean exteem mess.
