CARNIVAL AT MONTEVIDEO.

The Carnival just closed has been by far the most magnificent, orderly and agreeable public festivity ever known in this part of the continent of America, and might advantageously compare with similar fetes in European cities. It was quite Italian in character, and nothing could exceed the taste, elegance and good temper displayed throughout. . The people of Montevideo had made up their mind to enjoy themselves in a rational manner, and the streets, while it is said that a spirimake good any deficit.

line of Corso, such as Calles 18 de Ju lio, Ituzaingo, 25 de Mayo, Sarandi &c. were lined with arches of evergreens along the side-walks on either side, and at each crossing a floral trophy instreamers of every color.

In front of the Confiteria Oriental a pyramidal festoon-work of flowers and banners rose to a height of 80 feet, and another was in the next square of Calle 25. By day it was quite a fairy scene, the street appear ing covered in for its entire longth. from Dr Fleury's house to the Calle Ciudadela, like an immense ball-room. No tramways were permitted to run, while comparsas with lively music were heard at intervals, and the atmosphere was redolent with the fragrant Australian gum, of whose branches most of the arches were formed. 🐪

The sale of the day was the old American church in Callo Cangallo, opposite the Hotel Provence; this property it may be remembered was sold to Sr Malbran at auction for \$1,400,000 m/d. It was resold to-day by Sr. Malbran to Don Fernando Perez, almacenero, for \$1,550,000, and we understand the old church edifice, will now be pulled down and a handsome building erected.

The fine Lamport and Holt's steamer Olbers entered Montavideo to-day. She left Liverpool on the 3rd inst., and called at Madeira. Mr. Raymond sold off to-day at the South Batracas the whole 'existencia' of the famed Beef Preserving Society, started down there some little while ag , under such bright auspices. The price the place realized was not known up to the closing hour of the Bolsa.

At 3 o'clock, p.m. this afternoon both the Patagonia's mails and the American mails were deivered. There was unutterable joy in American circles when the news ran that the letters were being delivered, as the merchants felt certain that the bags were yet at Pelotas.

We hold for to-morrow our dates from London, they are of much importance. Our London correspondent says: "The Germans are again in the market for gold. Everything was quiet in the city to-day, but I should not be surprised to see a reaction, to-morrow on account of the unavourable telegrams in the Russian affair. If my prediction be correct, be not over alarmed, as it is yet understood that the Russian and English governments are amicably settling the Khiva question. The subscription list to the Higueritas Railway ran up to £700,000, when shut up on account of Calvo affair. Central Uruguay also fell 2 per cont., but like since recovered.

There was great delay to-day in the telegrams with the Patagonia, s mails. As she entered last night, people looked for her news early this morning. The Club got the first message, and that did not come before 11 o'clock. The news of the rest of his companions at eight o'clock lowering of the Bank rate was we'l receiv d on 'Change, but there is a rumor amongst the broten years hence, as they had dined that kers that the Bank rate is down to 3 per cent. and not 3} as the telegram stated. It appears same seat, and, as nearly as possible, that one telegram came up giving 3 per cent. as the rate fixed by the board on 30th ult. Hides still look up. Tallow is improving, but wool-

For the information of River Plate men in England, we publish to-day the last Bank statement. The figures show well, and also the very splendid business the Bank is doing.

The most important news of the day is that concerning the Port Works of Buenos Ayres Mr. Bateman's representative here, Mr. Moore has discovered that due to the currents in the Lanusse, Peyredien and Bradley, Patino, Arias, Esteves, Ball, Guimanens, Otero, Sagasta, Bellocq, Sosa, Ramos Otero and Co. at \$71, 78, 80, 82, 87, 88 ar. river or other cause, the natural channel, some three miles inside the Outer Roads, has been deepened, and to such an extent that of the estimated six millions of cubic yards to be dredged there are now only 2} millions to be done, which will be a very important saving in the Port Works. We trust shortly to be able to gather more detailed particulars of this important dis covery, as it is probable Mr. Moore will send in a full report to the Government.

Mr. Cechi the well known agent of the Italo Platense line, leaves to-morrow on a trip to his native hills. Mr. Cechi's departure means much for this Republic, and will probably put a stop to the tricks of emigration runners who have been sending emigrants for B. Ayres to New York As one of the founders and agent of the Italo Platonso line. Mr. Cechi has a direct interest in putt ng things right in the Mediterranean. Mr. Cechi is well and favorably known to the commerce of B. Ayres, and his departure to-morrow will doubtless be made the subject of an ovation

It was mentioned on 'Change to-day that measure is about being introduced before the Provincial Legislature, ordering the removal of all the railway stations beyond the city limits except for the novelty of the thing we cannot well see the merit of the proposed bill, the chief object seems to be to got rid of the Central Station, put the Southern Railway terminus in Barracas, the Western at Flores and the Northern we suppose at the Retiro, doubtless the Legislature will throw the bill out.

The Tribunal has finally given judgment in

A meeting of the creditors of Don B. Balcare Letters from Rio to-day state that so far, of all is called for the 4th prox., and of Don. C. Righet

There is great complaint made about the care essness of Custom-house peons in the deposits, and the very imminent danger of a tremendou fire some of these days. It seems that not only do the peons smoke cigars at will, in and out of every part of the building, but, worse still, they cook and take mate in most of the deposits. This is real y consurable, and we are indebted to Mr. Ifernet for calling notice to such outrageous ne glect. The Insurance Companies' agents ought to wait in a body on the Custom-house Collecto about this scandalous abuse, which, if tolerated any longer, must certainly end in a conflagration he whole Custom-house burnt down; and if the Custom-house did take fire, who would put i out? The whole place must necessarily be re duced to ashes, notwithstanding our bomberos.

Arrivals since the commencement of

Since our last report our market shows a further decline, in some cases of \$3 to 4 per arrobe gium. for Antwerp wools. Many sellers cannot meet this fall, for want of uthority from the speculators, who, as large

holders, are already suffering severely from the high prices they paid outside. With few exceptions nearly all sales inade have be n for Antwerp. We note a transaction yesterday of 18 to 20,000 ar for that market; price

eserved, supposed to be 75 to 80. For Havre litt'e has been done. For U. States several extra lots good reached 103 to 105.

For Liverpool we hear of no sales. Our quotations are-United States superior lots, \$100 to 105. Havre do, 95 to 90. . Do. good, 85 to 88. Antwerp good No 1, 75 to 73.

Do. defective, 62 to 68. Lambs wool according to condition, 60 to 75. Sheepskins-In mataderos little has been done Stock in denosit is calculated at 800 to 1.000 hales for which 31 to 30 rls. is asked. Full wooled camp skins are scarcer, and mostly in rather inferior condition.

Our quotations are: Matadero'skins, superior, 31 to 30 rls. Do. good, 27 to 28. Camp, superior, 24. Shearlings, 45-40 per doz.

Hair-Demand brisk; south is to-day worth 1200 to 205 per ar., and north, 175 to 180. Nutria skins-Sales have been made at \$4.4 to per lb.

ANALYSIS
Professor Kyle.

The Iron exists in the form of a protocalt; one fluid cunce of the Gin containing 3-10ths of a grain of Protoxide of Iron. The Perrugihous Gin may therefore take its place amongst chay heate preparations, and be employed with advantage where the administration of a tonic alcoholic wimulant is indicated.
