A MEDICAL PHENOMENON.—Is it not amazing to see an involid gaining strength, while under the influence of a purgative? Yet this is the case with every sick person who resorts to Bristol's Sugar-coated Pills. They ope up the system while expelling its imparite through the proper channel. In cases of dropsy they appear to stimulate the absorbent and to prevent the formation of water in the cellular tissues. How these results are produced, physicians must be termine for themselves; but meanwhile there is abundant proof that dropmeanwhile there is abunuant sical affections as well as indigestion and billot complaints are removed by their agency.

The Galileo's Mails.

Yesterday, at 12 o'clock the mails per Galileo were landed. We have received our London files, and extract the following:-

London, April 3rd. The Queen, accompanied by the Princess Beatrice, visited yesterday the Park, at the East-end of London, which bears her Majesty's name, and which has proved a most inestimable boon to many thousands of her humblest and most industrious subjects. Everywhere the Queen was received with the most affectionate loyalty and Rivadavia 1029, & Piedad 882 respect, but the heartiness with which she was greeted by the working class

was especially noticeable. The House of Commons yesterday gave a second reading to the Seduction Law Amendment Bill. The Metropolitan Building Acts Amendment Bill was discussed, but withdrawn; and Mr. Fawcett withdrew his Dublin University Tests Bill.

Confirmed in all its awful signifiance is the awful shipwreck which we announced yesterday morning. Elsevhere later and fuller details are pubished, together with a list of the crew and of the saloon passengers on board the Atlantic. Another step in the process of the persons remaining on the steamer, all unification of Germany was taken yesterday in the Reichstag by the adoption of Herr Lasker's motion for extending the Imperial jurisdiction to the whole criminal and civil courts of the Federation. This motion had previously been resisted on account of the opposition, now overcome, of Bavaria, Wurtemhurg, and Saxony.

merchants who build churches and attend them twice a day on the Sabbath, and send poor sailors to perdition in the week days, has become an institution. Our puritanical, middle class mercantile Government fights shy of a question in which many of its principal supporters are deeply implicated, including great commercial names, some of men living, others of men just gone to their last account, and which I cannot openly pronounce—but they are well known to Liverpool and Glasgow firms in Buenos Ayres. Mr. Plimsoll has, however, bullied the Government into a Royal Commission—a slow process to meet such flagrant cases as now come to the surface every day. What can be more disgraceful than the case of the sailors who were committed the other day to gaol, for not shipping in a craft they said was unseaworthy, and which absolutely proved so when she had been at sea three days? There was very much said on 'Change to-day about the rather extraordinary attitude of the specie market. Yesterday some of the private banks sent to the Provincial Bank large sums of French go'd to exchange for specie notes or certificates. This shows clearly that some of the banks are not over auxious for the Prov. Bank to pay out any more English gold, as exchange at once obeyed the impulse, and the very best English paper was done at §. Now, however, as the Bank pays out francs, exchange has fallen back to its old rate. It remains to be seen how long this can he carried on, The impression of some of the best business men is that the Bank ought to pay out sovereigns just as freely as the market requires This would place the market in a sounder and better condition to meet the bona fide claims of commerce and defeat speculation. Money ruled omewhat tighter to-day than yesterday.

Letters from London state that it is probable the Rosario Railway will be immediately launch ed. The parties who have taken the business in hand are watching the London market for a fa vorable moment to launch it. Possibly the negotiation of the new Chilian loan and the probabilities of a still further rise in the bank rate may check it. According to all the letters monoy is tightening in London, and a crisis in the

Un ted States is apprehended. The Galileo entered this morning direct from England; fine trip, full cargo, full passenger list and no quarantine; the passengers come ashore

"Thursday evening. "Cousols this morning opened at a decline of 1, entirely. but subsequently returned to the quotation of

return had been anticipated. They still show considerable strength, but the proportion of reserve to liabilities, which was last week 43 per cent., is now about 381 per cent. The discount pipes found takers. demand during the day was moderate, but still rather full, considering the large supplies taken Buenos Ayres &c. by the dealers and others during the past 2 days. "A new Chilian Five per Cent. Loan for £2,200,000 is expected to be introduced to-morrow.

"Austin Bidwell is kept in close confinement at Havannah. Arrangements have been made to been announced to-day of Mr. J.B. Wanklyn,

"Valuables which were in the possession of M'Donnell have been secured to the amount of £70,000. "At a dividend meeting under the joint est ite

of Sir Samuel Morton Peto and Edward Ladd Betts, formerly carrying on business in copartnership with Thomas Russell Crampton, as contractors, in Great George-street, Westminster. the official assignee reported that the funds available for division consisted of Consols £21,171 and cash £44,029; and a resolution was passed in the following terms-

"That so mue i of the Consols be sold as will, with the cash in hand, pay the first and second dividends of 1s. 10d. and 10d. in the pound to the creditors who have proved since the last meeting, and that a further d.vidend of 1s.1d. in the pound be paid to all the creditors; a cash balance of about £208 being left to the credit of the estate

" Proofs amounting to £1,120,000 and upwards have already been admitted against the estate, and the payment of the dividend will occupy considerable time.

" Bradford, March 27th. "The wool market to-day has a more cheerful tone. There is more enquiry, and transactions are rather more frequent. Deep grown hogs are most in request, and as stocks are rather light, prices are well sustained. Some business is doing in matchings, including good britch, brown, and neat sorts. Skin wool is in little demand, and has a drooping tendency. Staplers still complain of the difficulty of realising a profit, quotations in the country being still higher than those in this

market." The following changed list of addresses published by the Telegrafo Maritimo is a very speaking proof of what Montevideo has suffered by the late epidemic: the deaths have not been very large, but the fright can be estimated by the wholesale removal of the business houses from the infected quarters. There has been much said about the extravagance of alarm down there but it should ever be borne in mind that three cases per day in this city for a week would reduce it to precisely the same plight as we witness now in Montevideo.

SAVINGS BANK BANK MAUA AND CO.

101--Calle Cangallo--103

Ine immerse advantages of Accounts Current , opened a Savings Bank at No. 103 Calle Cangalle s now so generally felt and appreciated in the great emporiums of the River Plate, Montevidee, and Buenos Ayros, that there are very few Merchants who fail to keep one at the bank in which they place the most confidence. The Bank of Mana & Co. in Monteviden has already provided for the working classes in that city a safe and profitable depository for their savings.

The sums deposited in that very important institution are daily increasing, and already reach

stitution are daily increasing, and already reach a very large amount.

These advantages have not hitherto been enoyed in this city by an immense number of clerks artisans, working men, and servants of all classes and conditions, who are countly interested in puting thefreavings out at interest, thus providing on nelves with a reserve fund in case of need agrees, or old age, instead of spending them in muoral gambling, in lotteries, and other rivolities.

The Bank of Maua & Co. of thiactiy, following ble example of their firm in Montevidee, he same facilities in this city, and has

from Nine a.m. till Three p.m. every day, for the reception of the savings of the classes already mentioned, Sundays and holidays excepted.

As a means of building up the consitution that has been broken down by the excessive use of Mercury, Iron, or other Minerals, our Sarsaparilla will be tound most excellent, and can be administered with safety to the weakest patients. As a purifier of the blood and humors, in the Spring and early. Summer, it will the tound unfalling. It can be taken freely at seasons, rainy or dry. For some of the above diseases, the use of the Sarsaparilly must be continued a considerable time, especially for those that are hereditary or constitutional in their nature—such as Secretula: but a faithful compliance with the directions will always relieve and mitigate, and in a geeat majority of cases will effect a complete cure. It will also be found, in all of the above diseases, that a cure will be greatly hacted by using our Bristol's Sugar-coated Pilla, in moderate does, in connection with the Sarsaparilla; they carry off large quantities of morbific or dinased matter set free in the system by the Sarsaparilla, and in this way facilitate the return to rmal fauctional operations——cj.——46
