THE R. PLATE IN ENGLAND. There is no part of Europe where the River Plate stands in higher esteem than in London, and it is desirable that Argentines should know this. Press, capitalists, and workshops all are friendly disposed towards us, and as proof of this we give the following article from one of the first business papers in England, Herapath's Railway and Commercial Journal, doubting if any Argentine editor could write a better, more truthful or more favorable article about this country than Mr Herapath, who has never set foot on these shores, and judges the land more of one of the most powerful of English communities, and there are nations older and richer than Argentina that present day is so prolific. would feel proud to have as much said about them as Mr. Herapath sponta-

It is not so very many months since this interesting country was temporarily depressed by the grievous sickness which broke out at Buenos Ayres, and now its cre dit stands better than ever it did. Four years of peace and orderly government have indeed achieved remarkable results for the Argentines." In 1868, not quite five years since, they were fain to appeal for a loan of £2,500,000 to that long-pursed body, the British investing public. This loan was issued at 721, and the punctual payment of nine or ten coupons, together with the application of a sinking fund at the rate of 21 per cent. per annum; has carried this loan to somewhere about 97. If we penned columns upon columns in praise of the Argentine Republic, we could not accumulate any stronger proof of the increasing favor with which that country is regarded by the European public-a favor which, by the way, is not only evinced by the bers of whom have found their way to showed decided symptoms of hostility fourteen months.

THE MERCEDES RAILWAY.

To the Editors of the STANDARD. Gentleman.

I have read with surprice a paragraph in the Bolsa article of the STANDARD of the 2d inst.

I am from the Potomac and have something to do with properties in Cordoba and with a well known tan yard, and am, I believe, the only one of the name resident in Cordoba of nothing about the bids or proposals made for the construction of the new Railway from Rio 4. to Mercedes &c. Mr. Thomas of Cordoba.

In spite of the very great pressure on the money which this can be said. But I know market, monoy for produce transactions is not to say tight, and the barraqueros, although they may have to pay a little dearer for it, have as much money as the ordinary requirements of trade call for. The payments on 'Change to day And have nothing whatever to do with for produce were not heavy, the business during he week having been light; whilst the payments for exchange were unusually small, consequent on the shipments of gold. Nevertheless, in all other branches money is so inconveniently tight that stocks have to be brought forward and sold and there is a general pause in the market. How long this stringency will continue is the question -many parties think during all the winter months, but it seems more probable that it will on y hold for this month, and that the opening of the port and arrangements between the Natio al and Provincia! Banks will give a better turn to things in general. None of the private banks to day discount, but the rising exchange market may correct this. > money will now have to come back to this market where it is much required. The greatest c'oud that hangs round our moey market is the new National Bank which, according to general rumour, is to be opened about next August or September, and no arrangement that Mr. Castro can make with the Provincial Bank respecting the payment of the Government deposits can in the opinions of every sound of this National incubus. The question ha become such a vital one that it is daily

the great speculations in stocks and quintas. This

practical business man relieve the market discussed on Change. Many of the native brokers overlook its true bearings and believe that the arrival of six millions of new notes from the States based on the subscribed specie capita mind that the fifteen per cent paid on the stock is sucked from an already overtaxed market whilst the new notes from the States are but

intrinsically paper. That the Bank will cause temporary case of the money market, is ge nerally admitted, and how long that ease will San Rafael last is a question which oven the most farseeing is unable to answer. Mr. Castro in reply to those who urge him to place some of his share abroad, states that they are insufficient for investors here, but it seems every way probable that when the next call in the stock is due, much of the enthusiasm which the starting of this Bank created will have expired.

We estimate that fully 6,000 bales have changed hands, of which about 1,500 consisted of greasy taken for America. Stocks are considerably reduced, and the drought prevalent in the country will tend to keep them low for some time to come. Prices on this account are not ikely to decline; on the contrary, there is every prospect of their advancing. Scouring is very much impeded at the various washing estab ishments owing io the small supply of water and to this is attributable the present scarcity of Uitenfrom a half-penny to a penny; other qualities remain stationary at last quotations. Bristol's sarsaparilla

Is prepared in the most scientific manner, by abroughly educated chemists and Druggists, who are had many years' experience. It is not a imple extract from one article, but is compounded of extracts from a number of Roots, Herbsburks, and Leaves, all of which are possessed of me particular virtue or power in curing the seases that have their source in the blood and these different vegetable extracts e combined in such a way is to rotain, in soll strongth, the special curative virtue possessed by each. The root of the Sarsaparilla pients ed by each. The rost of the Sarsaparila plants onth in Honduras, is that which we use in this oreparation; it is the kind which all inclied as a esteen moss. About fifty per cent of fristel's Sarsagarilla consists of the concentrated xtract, the remainder, as above stad doing omposed of extracts from other powerful, cleansing and healing vehicle substances. It does not contain any this that is discussed with the content of the contain any this state. ng and nearing venerating substances. It does to contain any thirty that is dagerous or inju-ious to health, and in this, as in nearly every ther respect, is entirely different from all other reparations sold under the name of Sarsapa-

By having our own agents at he places where By naving our own agents at me piaces where a various roots, drugs, herbs and plants, composing our medicines, are produced, we are embled to overeige that constant care in selection which insures uninformity of excellence, and respace no money and no effort to procure the est—and only the best—of every article entering into their composition; and it is with the ng into their compositor, and it is soft in all cost abiding confidence we say, to be sich of all ations and all countries; that, in Bristol's Saraparilla you have a remedy more reliable than my before offered to you, and which will no dispoint syou in the curs of. Scald Head.

Syphilis, or Veneral Discose. Nervous and General Debility, Old Sores, Ulcers, Tumors, Abscesses, Boils, Eruptions Scrafula or King's Evil, Female Derangements,

White Swellings,

Fever and Agne, Chills and Fever. As a means of building up the constitution that has been broken down by the excessive use of Mercury, Iron, or other Minerals, one Sersay parille will be found most excellent, and can be administered with safety to the weakest patients. As a purifice of the blood and homors, in the Spring and early Summer, it will the found unfalling. It can be taken freely at seesens, rainy or dry. For some of the above disenses, the use of the Sarsaparilly must be continued a considerable time, especially for those that are hereditary or constitution d in them nature—such as Seroinh: but a mithful componene with the directions will always relieve an it misignte, and in a goest majority of cases will effect a complete cure. It will also be found, in all of the above diseases, that a cure will be greatly haoted by using our Bristol's Sugar, outed Pills, in molliprate, does in equinction with the Sarsaparilla; they carry off large quantities of morbitic or dinased inatter set true in the system by the Sarsaparilla, and in this way facilitate the return termal functions over alone. & Dumb Ague.
