CELEBRATED SHEEP-DIP.

LICOR DERMATOSICO. Prepared by TORRE and BARTON, Druggists DEFENSA, 65, 67, and 69.

After long and innumerable trials, we have succeeded in preparing the above Sheep Dip, by the use of which we guarantee the thorough eradication of Scab in Sheep.

Besides cheapness and easy application, it has the great advantage over all other similar preparations of being COMPLETELY SOLUBLE IN WATER, a circumstance which admits of our liquid penetrating to the very surface of the skin, without spotting the wool or making it adhere.

New Patent R.R. Grease YELLOW GREASE

Manufactured and Patented by RICHARD GAMBLE. Suitable only for this Climate and Not for Europe.

It is manufactured to suit Summer, Winter and Spring, and is only used for Railways, Tramways and Carriage Wagoning, &c. It consists of Nine different kinds of oils and is solidified by a chemical process.

It is of a suitable consistency, of good lubricating power, attended with but little increase of temperature even at the highest speeds, and leaves but the smallest residue in the axle boxes. A grease which is too firm will remain comparatively solid in the axle and allow the axle to become hot, whilst on the other hand one that is too thin becomes exhausted by a few miles running.
