NEWADVERTISEMENTS.

DEFEATED AT ALL POINTS.-Dyen point DEFEATED AT ALL POINTS.—Dyen psia may be defined as a disease pronounced urconquerable by generalising theorists, but which Bristol's Sugar-coa'ed Pills always corquer. This is bad for the theorists, 'ut intersely satisfactory to the dyspeptio. The mede in which the cure is effected is simple. Three organs are involved in the disease—the stomach, the liver, and the bowels. The pills act in three ways. They atrengthen, cleaned, and regulate—imparting vigor to the digestive finctions, and resularity to all three. Their effect is the same in all vases, and they are adapted to all constitutions and climates. In chronic dyspepsia and liver disease the blood is more or less deuraved, and therefore in such cases Bristol's Sarsapatilla could be used with the Pills as a blood-purative.

Mr. Litzman, the founder, and for many years proprietor, of the well known Greek College, has returned to his old work. It will be remembered that some four years ago he left with his tamily for Europe, there to enjoy the well earned profits of some thirty years of labor. So true is it, custom is second nature! For him there was nothing to compare with 'teaching the voung idea, and for this reason more than the desire of gain has he returned. Mr. L. only takes a few to begin with, so look out, young ladies in search of a thorough education. We had a letter yesterday from 'Leo'

Yarrow, who was badly thrown from his horse on Sunday last at Flores, is rapidly recovering from his injuries. While referring to an accident and the 'Village of the Plain' we take the liberty of asking the Flores Road Trustees if they are asleep or awake? That noble thouroughfare is as full of dangerous ruts as it well can be, yet we see no effort made to repair it, the trifle of shingle thrown on it here and

there being worse than useless. If something be not done speedily this fine road will soon lose the fashionable pre-eminence it has recently attained. The news from Entre Rios is tinged with a little sunshine. The Municipality is on its last legs, and is now begging the Government to take the schools, prisons and hospitals off its hands. Better take the Corporation off its own hands and liquidate it. At present it cuts a most miserable figure before the public, but the fault lies with the Legislature, not with the poor Municipality.

Mr. Tuson's Port scheme is favourably looked on both in and out of the Chambers, and has a good chance of passing. Pozzolini, the favourite tenor, died on Monday night after a long and tedious illness.

FOOTBALL.

The second match of the B.A. Football Club took place at Palermo on Tnesday last. The sides were England against the World, including in the latter all members of the club born outside the 40 counties. The match had been eagerly looked torward to by many, and it was rather disappointing to find that whilst England mustered a full team, their opponents were short of 4 or 5 men.

The condition of the ground might certainly excuse the absence of some (as reminding them too much of their native land), being decidedly moist with occasional lakes of clear standing water.

Play commenced about 1 p.m., the weaker side having the choice of goals, and for some time a very equal fight was maintained, till the English halfback reserve coming to the front the ball was confined more or less to their opponents' side of the field, and at last Mr. Turner by a fine kick managed to secure the first goal for England. After a short interval play was vigorously resumed, so much so indeed that one gentleman's shirt having been stripped off his back he was forthwith knocked down, we suppose to obtain the necessary coating of mud, the latter ma terial being very abundant there-

abouts. The scrimmages and the rolling and tumbling about on the slippery turf were finely seen from the Pavilion, and we have rarely witnessed a more tough and obstinate struggle, the World gallantly defending their goal against superior numbers for about an hour and a half, till Mr. Wallett touched down for England behind the opponents' goal line.

As some of the players were new to Palermo, and this being rather a critical point of the game, a little difficulty a right to go. Never do we recollect a moment occurred in explaining the Club rules when the Bank and ommercial interests were (one gentleman being needlessly anxious to explain how the game was played at Rugby), but Mr White hav- but in the open market money commands a ing the place kick landed the second figure which no legitimate business can afford, three.

Goals were again changed, but time was called before any further advantage could be gained, and England sary, but is certainly a perious stroke, and the goals to none.

On the losing side, Mr Charles Menplay, and Messrs. Tyndale and Hallett were among the most prominent for England,

The return match is fixed for the 9th July, when, wet or dry, a still larger muster is confidently anticipated.

The following were the players: ENOLAND—Aitkens, A Clark, Carbonell, Hallett, Hancock, T Hogg (Captain), Lace, Linwood, Marcom (2), Rolinson, Short, Tyndale, E G Turner, W White, Woodhouse. World - Acker ey, Aitken, Browne, Cobham, Grassick, Leighton, Morgon (Captain), Marshall, C Menzies, T Menzies, Walkinshaw.

There was a great reaction in everything to day on the Bo'sa; Bonds, Cedulas and Gas Shares showed an improvement. The bear of last week are bul s to-day, and the belief is general that bonds are going to 80 and Cedulas to 90. In the latter stock there is the greatest speculation going ou. The passings of the Government measure in the Chambers last night put a new life into everything, and even discount brokers although they sa d money is still tight considered. that there was a better disposition to discount today at 15 per cent than yesterday at :8 per cent. The severe losses by the bears are talked of; seidom have we seen such suff fluctuations in one month as at present, and many who stood to win largely last week are to-day necvous. The let up in the market has been very strong, and the

losses are tremendous. The sales to-day were as follows-

more justly appre iated and less invidiously criticised than the present. The crisis in the Bolea is admitted to be over goal for England about half-past and until things in commercial circles assume an ensier aspect every action taken by the Bank must be guarded. To fling upon the mark tat a moment so dangerous a new emission of 6.000,000 of specie notes may possibly be necesthus remained the victors with two clearest evidence that the Bank Directors regard it as such is that they have raised their rate of interest to 9 per cent from the 'Ist of the month. The newspapers have published so much and people whose opinions are worth having incurred the censure of the press for raising the rate of interest and amortization

about the crisis and the Bank that whatever influence the pre-s night have has been lost oxtract the following ;prefer to judge for themselves than to be misled by erronious editorials. The Bank Directors first they then met with abuse for having previously discounted so freely and at such low rates'; but people overlooked the fact that the Bank was forced into the position which it occupies by the National Government, for the Directors at first refused to receive the National Government deposits at a higher rate of interest than that allowed in account current 2 per cent per annum. which the Minister refused to accept, and therefore to oblige the Government the whole market has been inconvenienced; for, since the directors were compelled to pay 5 per cent interest on the Government deposits they were forced to put the money out in the market as best they could; this at once caused an inflation of, say, 250,000,000 currency, which in a market like this is a very large amount; and this gave rise to an extraordinary case in the money market and helped the speculation which we have a l witnessed. The first notice of danger was published in this journal as far back as last January, and it was clearly shown by the pub ished statements of the Bank that to repay the Government it would be necessary to sell some of the stocks; there was, of course, at the moment a grin in the market at the idea, but as true to the letter proved our

words as our assertion that Cedu'as would go to 85. It is ill to be prophet in ones own country and the probabilities now are that we have seen the worst and that things will right themselves; nevertheless, so lo g as the production of the country keeps so immensely behind the consumption we have but postponed the difficulty; every article that we consume in B. Ayres with the exception of beef, mutton, and perhaps, we may add, bread, is imported. The country is going ahead immense'y but going ahead in credit and in debt." Lahour is now so fast flowing in that it is about time our enlightened Congress men should begin to protect the industries of the country. Let us begin with the shoemaker, and lay on such a duty on foreign made boots and shoes that at least the Custom House peons, the Cartmen the changador in the street, and the mozo of the cafes will be obliged to use native made boots; and this single item will reduce our exchange remittances fully £30,000 per packet. On the contrary, if even our very peons

are shod in high-heeled, elastic-banded, tlunkey-

tasselled, Parisian boots, Mariano Saavedra's

note to day is but more waste paper; and the

bright and enlightened legislators who spend

their whole lifetime in making laws for the

country, helping the Bank, helping the Govern-

ment, and helping the market, may juscribe in large letters on their hatbands "Curso Forzoso, for there is no escape.

New Patent R.R. Grease YELLOW GREASE

Manufactured and Patented by RICHARD GAMBLE.

Suitable only for this Climate and Not for Europe. It is manufactured to suit Summer, Winter

It is manufactured to suit Summer, Winter and Spring, and is only used for Railways, Transways and Carts, Bullock Waggons, &c.

It consists of Nine different fluid oils and solidified by a chemical process. It will resist the hotiest sun, and will not get into a liquid or fluid state. It is only when the action of the axles commences it becomes a rich creamy fluid, and when the action stops it a real reliables. It is of a suitable consistency, of good lasting power, attended with but little increase of temperature oven at the highest speeds, and leaves but the smallest residue in the axle loxes. A rease which is too firm will remain comparatively solid in the box, and allow the axie to become hot, whilst on the other hand one that is come hot, whilst on the other hand one that is too thin becomes exhausted by a few miles

This Grease is of more importance than at firm sight appears; for while the grease account a railway companies forms no inconsiderable itel of expenditure, the waste of motive power and wear and tear of plant chiailed by the use of unsuitable greese is enormous.

The merits of the Grease, in its general utility

LUBRICANT,

and also for its
CHEAPNESS,
are shown, when compared with other kinds hitherto used, that are entirely useless for any pur
pose but that of lubrication.
It is therefore much less liable to be pilfered
to its therefore much less liable to be pilfered and misapplied than the control of the potro oil, rape oil or gallipole oil.

These oils always command a ready market if pilfered, a circumstance which induced the principal railway companies in England to adopt Yellow Grease for their protection and manufactured to suit European climate.

SAVINGS BANK BANK MAUA AND CO. 101--Calle Cangallo--103

The Bank of Mana & Co. in Montevideo has already provided for the working classes in that city a safe and profitable depository for their assistance.

The sums deposited in that very important institution are daily increasing, and already reach a very lege amount.

These advantages have not hitherto been enjoyed in this city by an immense number of clorks artisans, working men, and servants of all classes and conditions, who are equally interested in puting heirsavings out at interest, thus providing the enselves with a reserve fund in case of need sickness, or eld age, instead of spending there in im noral gambling, in lotteries, and other air vilities.

The Bank of Mana & Co. of this city, following ble example of their firm in Montevideo, he same facilities in this city, and has

Ine immerse advantages of Accounts Current are now so generally felt and appreciated in the great emporiums of the River Plate, Montevideo, and Busnos Ayres, that there are very fow Merchants who fail to keep one at the bank is which they place the most confidence.

The Rank of Mans & Co. in Montavideo has posited and withdrawn.

The depositor is permitted at any time to with-driw the whole or part of the sum deposited; in the former case the interes will be exculated up

to date.

The Bank of Mauá & Co. is sufficiently known to the Publis by the benefit derived from the course of its operations, which are regulated on the strictest and soundest principles, and always directed to promote the general welfare.

The Bank of Mana & Co. are also persuaded that this new branch of their business will render immense service to the working classes of Buenos Ayres and its neighborhood.
