THE HOSPITAL CONCERT.

You do not appear to have taken any notice of the concert which took place here on last Friday night, in the Solis, for the benefit of the Asilo de Huerfanos and British Hospital. It was a brilliant success as regards the performance and attendance; the fi nancial result has not yet come to light, but should it be as favorable as is anticipated, the British Hospital, which last year was tottering, will be again on its legs, and probably the committee of same will be in a position to remunerate their physician, Di

Mullin, who up to the present ha

given his energetic services gratui

tously. The concert committee merit a thanks for their efforts in behalf of the above charitable institutions; they had no easy task to perform, but they worked with zeal, and a crowded thea tre, in which there was not a vacan.

The demand for accommodation from Natives, English and Foreigners was on so large a scale that the committee were forced to exclude many persons desirous of being present at the performance. Never did Solis appear more to perfection, the stage was converted into a species of garden, au the pleasing odours or spring flowers were wafted therefrom to all parts of the house, a fountain played in the background the jets from which were illumined by an electric light.

Amongst the amateur performer were some of the 'Elite' of our Society, and glass falling. It was a hard day and two young ladies of sinless years who made their "first appearance on any stage" were enthusiastically ap planded, the one displayed her talent: on the violin and the other enraptured the audience by the exquisite manner in which she rendered "Home Colon Theatre on Friday night. Business is quite the reverse of brisk here, and auctions of dry goods, lands etc. are the order of the day. A judicial sale of the furniture of the Banco Oriental is now going on, and another of unclaimed goods in the Customhouse. An auction of the internal fittings of the Alcazar Lirico is advertised for the 2nd prox. Money can only be had for trade bills at rates that won't suit takers, and bankers refuse in most cases to advance on Government stock. Brokers look gloomy, and

On the other hand, this monetary cloud is not without its silver lining, for the new B. Ayres loan may be negotiated in time for the wool season, and many think the first specie remittance will come in the Boyne. Again, the Provincial Bank may possibly ship its navarious rumours current about Congress, the push tional bonds to England and draw against the amount. The new Nation of Bank, with its new

> Even the sale of the Mendez Tramway has ing the week in connection with this matter have shown themselves in our exchange market and helped very many parties who have had large sums locked up in the business. There are stit one or two concerns in this market that of right shou d be worked on cheap foreign capital, and which to a certain extent are a weight on this money market: the probabilities are that we shall be relieved of this weight in a few months as they will, like the Mendez Tramway, be passed in London. Could we in like manner move off our Cedulas, it would be well indeed for the off our Cedulas, it would be well indeed for the country; but we suppose there is a hitch somewhere which renders the thing impossible. So long as the demands on our money market were limited to wool, hides, usef and talow, we had limited to wool, hides, usef and talow, we had limited to wool, hides, usef and talow, we had limited to wool, hides, usef and talow, we had limited to wool, hides, usef and talow, and the limited to wool, hides, usef and talow, and the limited to wool, hides, usef and talow, we had limited to wool, hides, useful talow, we had limited to wool, hides, useful talow, we had limited to wool, hides, we had limited to wool, hides, we had limited to wool, enough for eve ything; but the native tramway at seven (7) p. m. companies, telegraphs, railways, gas companies Cedulas, land spees, and what not, have proved altogether too many and too much for the market —and the sooner we dispose of all these netive enterprises, started without capital, and worked enterprises, started without capital, and worked

without credit, the better. A sale of Gas shares at 80 prem .- that is to say, 1800 mic per share—is reported, and for a good round lot. The stock, it seems has stiffened, for this sale has been effected sin e the sale at 40, or 1400 mlc per share, which caused such notice. It appears now that holders are unwilling to sell at such low rates, and buyers are offering.

It was said to-day that on a reconsideration of the application for cedulas, by a well-known company, one of the board was of opinion that 200,0 0 pats, ought to be advanced, but the ma jority of the board opined that 100,000 was quite enough to advance, a sum which is of course re jected by the applicant.

The Santa Fe Mortgage Bank concession which we pub ish in another column, is a very important matter, and will, we be ieve, be placed in the London market. The business in good hands might be made a very splendid affair, as the privileges are valuable, and there is very am p e room for the safe and sound working of such a concern in Rosario, the second city of the Re

Mr. Hargreaves, who has just arrived from England, has inspected the new National Bonds, and reports them precise y the same in every respect as those selling on the London Stock Exchange, with the single exception that those in London have the name of Sterne Brothers stamp ed in the corner. It is a coincidence that the last large order from England for National Bonds came from Messrs. Sterne Brothers, who, doubt-

Our advices from Mont video are as follows: "The sales in Douda Interna were on a large scale to-day, as it is drawing near the close of the month. In the ring nearly \$500,000 changed hands, mostly at 61 per cant. Towards the close prices stiffened, and sellers obtained 613 sactions in other stocks. Money nothing cheaper; 'conformes' discounted with difficulty at 18 p 3, in some cases 21 p 3. is the rate. Exchange-Commercial paper done at 51d. A smalamount of Bank done at 51g. Takers at forme rrate. Very fow drawers. On France business transacted at 5.42 to 5,45. On Antwerp, 5.42. Mr. F. S. Weldon, the new manager of the London and River Plate Bank, was welcomed by his numerous friends on 'Change to-day; on the 1st prox he takes charge of the bank. The news of the safety of the Patagonia and Potosi has caused much satisfaction here. The ss. Ebro left for yours yesterday, but the Post Office here did not notify her departure, consequently most poople were unable to send letters by her. The

The French mails may be looked for in the day and the question was not money or discount quet prior to his departure from that morning per Saturno. 'This morning we rece'ved a through telegram from Valparaiso, which will be found in another column, it aspears the Patagonia had to be towed up to the dry dock at Callao. A special press telegram from Villa Maria an-

nounced that the works of the Rio Tercero bridge were stopped in consequence of the pillars that have come out from England being too short. The storms of the coast of Nova Scotia which we mentioned a day or two ago were reported by marchi and Co, whose agents Messrs. Cranwell left. The John Elder is likely to bring full details as the American mail was entering Rio as the Ebro left. If it be true that 80 vessels are lost, it should make a sensible impression on the lumber market here.

> Mr. Crawford, the representative in the Rive Plate of Mesers. Waring Bros of London arrived up this morning, and was welcomed on 'Change The hull of the wreck d barque Manget at the mouth of the bay of Montevideo, was sold for 200 pats.; the Port Captain has placed certain conditions on the removal of things from the wreck. THE SECRET SESSION

In the Senate on Friday night is now known to the jubic. All the reports about mighty state questions are so many st pid "bolas," the real point at issue was the admission, duty free, of Otard and Dupuy's matchless Brandy, which is desirated by course with a superior of the state o admitted by every one, with an ounce of 'rain', even by Barran and Briet, Calle Cuye, to be the best liquor, " ever introduced" to these countries.

Bristol's sarsaparilla

Is prepared in the most scientific manner, by thoroughly educated chemists and Druggists, who have had many years' experience. It is not a simple extract from one article, but is compound. ed of extracts from a number of Roots, Herbs Barks, and Leaves, all of which are possessed of some particular virtue or power in curing the diseases that have their sourse in the blood and harders. diseases that have their sourse in the blood and bumors; these different vegetable extracts are combined in such a way as to retain, in so full strength, the special curative virtue possesed by each. The root of the Sarsaparilla plants found in Honduras, is that which we use in this preparation; it is the kind which all medical men esteem moss. About fifty per cent. of Bristol'assarsagarilla consists of the concentrated actract, the remaindor, as above stated being composed of extracts from other powerful, cleansing and healing vehetable substances. It does not contain any thing that is dagerous or injurious to health, and in this, as in nearly every other respect, is entirely different from all other preparations sold under the name of Sarsaparilla.

Nervous and General Debility, Old Sores, Ulcers, Tumors, Abscesses, Boils, Eruptions Scrofula or King's Evil, Female Derangements, White Swellings, Fever and Ague.

Ohills and Fever. Of the base of the above diseases, the stant he above in season will be stant the above responsible for means of received and mitigate, and in this way facilitate the return to mat functional operations. & Dumb Ague.
