The first news in town vesterday morning were those by the Galicia

from Europe, and the intelligence was certainly of a most stunning character. First and foremost, our troops on the Gold Coast have suffered a most cruel disaster, falling into an ambush of the savage Ashantees; every man and officer of the detachment being killed or wounded, among the former a commander in the Navy. Next comes the stoppage of the banking house of Jay Cook and Co., of New York and London, agents in the latter place for the United States Go. vernment: their smash bringing on a money crisis, in which over twenty Wall-street brokers bit the dust. The latest accounts stated that the Government had to come to the rescue with an order to its brokers to buy up everything before them, and that the crisis at once stopped. An awful fire is reported from Chicago. Spain is going down hill. Constitutional guarantees suspended; the next step will be a military 'Saviour of Society.' The burst up in New York has not affected the English market, which remains quiet, with the Bank rate the same. More movement in wool is reported.

Nothing fresh from France. The Royal Mail steamship Boyne sailed yesterday afternoon with a very "Don't mind, captain, said the man tallen into ruins and the coffins of the both for the Mount and home. simple extract from one article, but is compound, ed of extracts from a number of Roots, Herbs Barks, and Leaves, all of which are possessed of some particular virtue or power in curing the discases that have their sourse in the blood and bumors; these different vegetable extracts are combined in such a way as to retain, in so full strength, the special curative virtue possessed by each. The root of the Sarsaparilla plants found in Hondurss, is that which we use in this preparation; it is the kind which all medical msn esteem moss. About fifty per cent. of Bristol's Sarsaparilla consists of the concentrated extract, the remainder, as above stated being composed of extracts from other powerful, cleansing and healing vehetable substances. It does not contain any thing that is degerous or injurious to health, and in this, as in nearly every other respect, is entirely different from all other preparations sold under the name of Sarsaparilla.
