Valparaiso, Wednesday, Dec. 3rd. Pilotboat Rebolledo foundered at Port Constitution. Fire broke out yesterday in front of he Intendencia; losses trifling.

Steamer Magellan arrived. Steamer Somershipe, with 200 pasengers from Melbourne to Liverpool, put in here badly damaged and leaky.

GREAT SOUTHERN RAILWAY

The flattering result of this railway is not only highly satisfactory to the shareholders, but also tends to keep up in England the favorable impression that has always prevailed regarding Buenos Ayres. If you run your eye down the list of South American stocks you will find the Argentine securities stand high in the estimation of English capitalists, and if you ask those capitalists what securities of ours have given the best returns for moneys invested they will mention the Southern Railway among the foremost. It is true that the shares are no longer at 40 per cent. premium, and that the dividend, which used to be 9, is now only 7 per cent. But this seems the inevitable consequence when trunk-lines begin to throw out branches, as it CONDENSED MILK takes some years before the branches can give as profitable returns as the parent line.

The report to be read at the annual neeting of Nov. 13th in London shows that the net profits per train-mile have increased considerably over those of the corresponding half-year in 1872, while the working-expenses have been reduced. Furthermore Mr. Cooper shews that a great increase of traffic may be looked for in the second halfyear of 1873, consequent on the reduction of fares from Oct. 1st as authorized by the Directors.

The statement for half-year ending June 30th 1873 may be summed up

At the same time working expenses fell to 56%, equivalent to a saving of 4 per cent. as compared with the previous year (59 per cent.), and as increase of traffic means a relative decrease of expenditure, we may expect that Mr. Cooper will soon bring this down to the desired figure of 50 per

LYNUH LAW IN MONTEVIDEO.

The Siglo has a very temperate and of popular vengeance at Montevideo, defied the laws, and at last met his death at the hands of the people.

The criminal was a Brazilian mulatto, well known for his daring crimes. On the night of November 24th be murdered a whole family named Scutari, at the Cordon, the 'serenos' arriving too late to capture him. Next day he was recognised at the Old Market, and some one raised a cry to seize him, but he rushed into a shop at No. 12 Calle Soriano, hard by, the owner shutting the door, and refusing admit tance even to the police. "This is the case in notorious assassins that we see walking about our streets with impunity. Awful murders are repeated with fearful frequency, society has lost all guarantee, and the rights and privileges of the country become an odious deceit."

To the above well-timed comments we have only to add, that the awful crimes reported in the Montevidean papers during the last tew months, without a single case of capital nunishment to protect society, are causing the impression abroad that the River Plate is a most uncomfortable Oriental a notoriety of the most painful character. IRISH CAMP SCHOOLS.

A petition has been presented by some of the Irish chaplains and Canon Dillon to Govern or Acosta, for the establishment of 10 district schools in those partidos chiefly settled by Irishmen, who have at present no means of educating their children except by private teachers. Two district schools of this description have been already established by Mr. George E. Deehan, on whose behalf it is now sought to obtain the sum of 100,000\$ mic (say £800 sterling), towards the creation of 8 others. The parents in every case The Directors have at last come into are willing to provide the requisite our way of thinking as regards cheap salaries and other current expenses, fares, and seeing that the bullock-carts and the clergymen are anxious to have Mr. Deehan appointed or recognized by Government as Head-master of these schools, always subject to the control or the Education Board. The cost entailed to the state would be room for Mr. Parish, whose appoint trifling, compared with the value of such a boon, and as the Irish sheeplocal director, Mr Krabbe, and the ma | tarmers contribute so largely to the nager, Mr Cooper, are men in the right revenues of the province their petition is the more likely to obtain favorable consideration from the Government of

The abutments of the Salado Bridge have been altogether taken away, and new ones rebuilt in their places, with good machine bricks from the Company's yard at Bursaco; the ends of the girders have also been placed upon collers to allow of expansion without straining the brickwork.

The brick yard at Bursaco has been closed, the great length of carriage over the line making it unprofitable to employ the machine bricks on the extensions; good handmade bricks, manufactured close to where wanted, and the plant for which can be easily removed, being considered better.

General Remarks. Notwithstanding that the traffic of the last three months in the half-year has been very light, owing chiefly to the dearness of money, and the consequent stoppage of trade, the result has been an improvement on the corresponding period of 1872. The working expenses, though high, are somewhat half-year, and the extra cost of coal and iron, and the establishment of new stations upon the forty miles of newly-opened line, will account for the present figures of 56.76 per cent. -
