As written in his own words, and completed a
few days before his lamented death, giving the
record of travels, and his political, social, and
philosophical observations and reflections, together with his interviews and taiks with Presidents, Kings, Emperors, Su tans, Khedives, Tycoons, Mikados, East Indian Potentates, and His
Holiness the Pope. Crossing nearly all the
mountains, rivers, and oce no of the Globe, Mr.
Seward was received in the countries which he
visited as no private tourist has ever before been
received in all history, accompanied by the largcat demonstrations of respect, Emperors and
Kings vying with each other in extending courtesies due only to the most distinguished gu-sts,
furnishing to his countrymen the evidence of the
exalted position the occupies in the world's regard.

PACIFIC STEAM NAV. CO.

Apropos of the death of the muchesteemed Mr. Wheelwright the Patria of Valparaiso gives a historical sketch of this great steamboat company founded by him in 1840, now one of the most prosperous and powerful in the mercantile world.

The shareholders who joined Mr. Wheelwright in the enterprise were, Messrs. Samuel Lang, William Hodgson, James Sutherland, William Duff, William Reid, C. R. Pflucker, H. Ken. dall, Frederic Pfeiffer, John McLean, Valentine Smith, John Thomas, John Farmer, Christopher Briggs, George Parker, C. F. Bergman, George T. Scaly, Charles Higginson, William McLean, Thomas Young, H. Witt, R. H. Calvert, D. W. Leadley, and J. S. Platt, merchants of Lima and Callao, besides whom H. M. Consul General, Belford Hinton Wilson, lent every as sistance. So far back as 1836 Mr. Wheelwright had obtained from the Governments of Chile, Bolivia and Peru a concession for 10 year's ex clusive steam navigation on the West Coast.

On Oct. 15th 1840 the first two steamers arrived from England; the Peru under Capt. Peacock, the Chile under Capt. Glover, each 700 tons re-

The very femarkable communication which we published yesterday from a Hamburg merchant on the Cunapitu gold mines has produced its effect. A party of Englishmen and Americans, some twenty, are preparing to leave for the mines. We trust they will prove successful: in fact, we place so much confidence in the statement of this disinterested party that we feel certain they must succeed. Mr. --- says any ober, steady labouring man can work on his own account, and with no further capital than a spade, shovel and pick-axe, earn £2 sterling per day. Our friend further states that if Cunapiru was in Australia, instead of B. O., there vould-be 500 gold diggers at work out there in ess than a week. We believe him.

Mr Iglesias, of I ondon, attended. The saladeristas present put mony que tions, and betraved high interest in the matter. Mr Silveyra's answer were received [as highly satisfactory, and Mr S was requested to make an estima e of working expenses, and at a future meeting arrangements to be made for developing this most important industry.

Mr Peter Stuart, contractor, was welcomed on 'Change to day on his arrival from Rio Cuarte. That railway cost the country £440,000 stg.

sarsaparilla

Is prepared in the most scientific manner, by thoroughly educated chemists and Druggists, who have had many years' experience. It is not a simple extract from one article, but is compound. ed of extracts from a number of Roots, Herbs Barks, and Leaves, all of which are possessed of Barks, and Leaves, all of which are possessed of some particular virtue or power in curing the diseases that have their sourse in the blood and bumors; these different vegetable extracts are combined in such a way at o retain, in so full strength, the special curative virtue possessed by each. The root of the Sarsaparilla plants found in Honduras, is that which we use in this preparation; it is the kind which all medical man esteem moss. About fifty per cent. of Bristol's Sarsagarilla consists of the concentrated extract, the remainder, as above stated being composed of extracts from other powerful, cleansing and healing vehetable substances. It does not contain any thing that is dagerors or inju-rious to health, and in this, as in nearly every other respect, is ontirely different from all other cada una, y que tocan respectivamente al boleto que antecede y a el que sigue a cada uno de los boletos premiados en la liata que acompaña.
