RIO CUARTO RAILWAY. DR. SARSFIELD'S REPORT.

B. Ayres, Nov. 25th. To the Minister of Interior Dr. Uladislas Frias.

Pursuant to the wish of the Nat Government as communicated to me on the 24th Oct. I proceeded to Rio Cuarto and inaugurated the Railway on the 13th as I advised the President from falling in. by telegram. The interest felt by

one. The Bishop of San Juan, supported by the clergy, blessed the locoof the line, in front of the terminus. Among those present were several foreigners from B. Ayres and Rosario, of the Rio Cuarto, Tucuman, Mercedes and other railways, and all the principal families of Cordoba as well as those from Villa Maria and Villa Nueva. The inauguration fetes lasted 3 days, with banquets and balls.

I must here observe that the contractors, Messrs. Jackson & Co., and their representative and constructing engineer, Mr. Peter Stuart, have fulfilled perfectly their contract with the Argentine Government. In the opin ion of the many engineers there assembled the line from Villa Maria to Rio Cuarto is the best yet constructed Provinces.

The bridge over Rio Tercero is about 140 yards long, and nothing can be more solid or magnificent than that over the Rio Cuarto, about 600 yards in length. The stations are comterminus at Rio Cuarto may compare with the finest edifices in B. Ayres, for beauty or solidity: there are spacious workshops and goods' sheds adjacent to the terminus. In fine the National Government may be proud of having got Messrs. Jackson & Co.
