CONSUL HUTCHINSON'S

SKULLS. Report of the Anthropological Society.)

This important and interesting collection of ancient Peruvian crania was forwarded during the year 1872 by Consul Hutchinson, who has devoted much time and labour in the exploration of the ancient burial places in the

country around Callao. The first instalment consisted of 8 skulls from a ' huaca,' or ancient burying-ground near Santos, to the north of Callao. They are considered by Mr. Hutchinson to be those most likely of the tribe of Chinchas, or Huancas, or perhaps, as he surmises, of Qui-1. Every merchant in town asks what in Beaven's name are Vedia, Gainza and the whole Gov. army doing: we for our part decline to go further in the matter; but could the Gov. people see themselves as others see them, and hear the honest indignation expressed on all sides, they might possibly awake

namely that the excessive import trade which for the last few years has been going on will be stopped and there will be less to remit for next year; of this there cannot be the remotest doubt; there are stocks of some articles in the Plate in the dry goods line to hold not only for next year but for all 1875. The country will next year dry goods line to hold not only for next year have a little breathing time, and if our emigration re urns but keep up to the mark, trade balances will find their own level. Owing to the delay of the steamer, and the rumore so current of failures in Europe, takers have been very particular, and we heard of one party, a very large taker, who, having already taken largely, looked for some new paper, but the thing was impossible; every broker was tried, but the drawers and drawees were the same. This shows one thing if it shows anything, namely, that the whole shipping trade of the Plate is in the hands of a few, and when the export trade rules very brisk those few are obliged to draw for more than takers care to have in their books. This matter was talked of in commercial circles, and
