River Plate produce feels the improved situation; hides are up, and other things steady. Against this unexpected good news we must put the distress ing tales of horror from Cuba, and an expected declaration of war against Spain by the States and England. Eighteen of our countrymen have been shot in Cuba, making the total number of victims to the cold-blooded ferocity of the Spanish authorities over One hundred and eighty. The indignation of the civilized world has been raised by these massacres, though as a mere matter of law, the right to shoot rebels and alieu filibusters taken with arms in their hands may, probably, belong to every government. Be this at it may, the reports of the rifles that sent these enormous stock of cheap and elegant unfortunates into eternity have rever. berated through the world and rung the death knell of Spanish rule in Cuba. The Queen of the Antilles, it is thought by some, may be now annexed to the States; but this solution is unlikely, and a Republic under the protectorate of England and the Unit-ed States is the more probable destiny of this faction-torn island. We have rece ved per Leopold II. London pap rato 17th November, and as the advices are most important we extract as follows --

"Saturday Evening.

"In the discount market to day there was plethora of money, while the d mand was exthree months bills was 81 to 1 per cent, being 1 to 4 below the minimum at the Bank, where there was little or no business. On the Stock Exchange the rate for short loans was nominal at 6 to 7 por cent. As was anticipated, the decline in the Continental exchanges has checked the influx of g ld. taken to the Bank to day. On Monday about £80,000 will probably be sent in from South America, but apart from any return of coin from the trovinces no further influx of importance is likely to be reported till about the 24th instant, when nearly £500,000 is due from Al xandria-The states out that the German Government holds about £7,000,000 in bils on London also tends to confirm the conclusion that the demand for bullion or Berlin may revive during the next

few weeks. "As usual after the completion of a heavy settlement, business in the Stock Exchange was inactive. Nevertheless the transactions showed a decided preponderance of purchases, and an alnost gene al improvement took place in prices The upward movement was due to the great sup rabundance of money, coupled with steady investments by the general public and he rec ip lian, Costa Rica, Egyptian, Portuguese; Russian and Turkish also improved. Spanish 3 per cents were ! higher at one period, but subsequent!v experienced a partial relapse upon the American preparations against Cul'a. Consols were steady at the closing prices of yesterday. An advance, was observable in some of the American Secu-

rities. "At the Bank to-day about £30,000 in ban gold was sent in. "The Boyne has arrived from Brazil with

£85.020 in specie, and the City of Montreal, from New York, with £11,760. The Florida has also reached 15t. Nazaire, fcom Vera Cruz with £10,640.

" The amount of gold coined by the Berlin Mint for the week ending the 1st inst. was £375,639, against £362,766 in the previous

"Telegrams from Pesth state that arrange ments have been concluded with Messrs. Roths child and other firms for the introduction of the new Hungarian six per Cent Loan and that the price of issue will probably be between 83 and 84.

"The amount ement of the death of Mr. Bishoffshrim, the founder and head of the backing ionse of Bischofisheim and Goldschmitt, of London and Paris, was received in City circles with much regret. Mr. Bischoffsheim, who was 74 years of ag , had long suffered from

"The failure of a 'jobber' has be n notified in the Stock Exchange, with limited liabilities." The we khas opened well. Contrary to the expectation of all our merchants and brokers, and in fac all who were well posted up on London noney matters, the bank rate has been reduced to e ght per cent, when the River Plate wiseacres looked forward to 10. Strange to say, closing the port. nearly al. the Argentine brokers and people who did not read the English newspapers or receive advices from abroad confidently insisted that this stramer would bring a reduction of the rate, and so late as last aturday a well-known Argentine broker bought freely on this conviction. This shows what we have often published in this column, namely that, as a rule, parties who hold superior information secure superior losses.

The death of Mr. Leonidas Garcia was an nounced on 'Change to-day, and spread gloom over the ring, where deceased was well-known and much esteemed. Mr. Garcia was one of our most remarkable land speculators; a Chilian by birth, he by mere accident became a resident of Buenos Ayres. Stopping here on his way to Europe for a few weeks, he was induced by the chespness of prices to buy largely down at the Potreros of the Bocha; the purchase yielded most in guifficent profits, going with the current be continued buying and during the height of the land speculation we heard of nothing cave the gigantic profits made by dec. when the crisis came on, Mr. Garcia, found himse f possessed of immense landed properties which were impossible to realize; dec. died seized of large proporties, probably one of the largest property horders about this city. The death of Mr. Henry Zimmerman, in banta Fo, was also announced to-day; dec. has been for some time in declining health, with little hope entertained of his recovery.

The Leo old II. news is of great moment even in a commercial point of view, for it announces the immediate probability of war betwo n the United States and Spain, with the ve y obvious wind up of the annexation of the land by the United States Government.

The uction sales on Sunday passed off very quietly; in fact there was very little property offered for sale. Mr. Ebbeke, who stands in the front rank of city auctioneers, hoisted his flag at Ensenada. The attendance was not to say very arge, which was owing to a scarcity of coaches at the Contral Station and the report during the week of sickness in that district. Nevertheless several ots were sold, and at what may be considered fair prices. Lots 10 x 40 for from \$1400 m/c to \$2500 per lot, and lots with greater depth at higher prices. Taking the lowest price for the lots, 1400, this gives \$78,750 m/c per

square-a good price enough for land out there. There was nothing known on 'Change to-day respecting the new Pr vincial Bank Board, which on the rightst authority we learn will be the same, with the exception of 3 members who go out and 3 n w ones who go in.

The fright in Montevideo about the cholera at Ensena a has so far subsided yet there is still more talk down there of closing the port or putting on quarantine. Our telegram from the Mount this morning, which will be found in anrly the other colum, gives everything in that city betnd Don ter, owing to the tesult of the elections and news from Europe. Things look mending now on both side of the Plate.

the news from the rivers to day was also better. Most of Jordan's officers have surrendered and taken the ath of a logiance to the National Gov rument There was something said on om the Change about a number of pr soners in Entre Rios s. ot, and a rebel 'parte oficial' published; but we failed to get the particulars, and doubt on the the rumors. The Entre Riano war is by the most 2nd of experienced men in the Plate considered over, and

The Lamport and Holt st amer Gassendi has made a fine The week has closed upon an improved money market, the collections are better, the discounts are freer, business is brisker, and things look again coming round; in fact were we but rid of the Eatre Riano war, it little mattered what the Bank of England rate might be. The immense check to everything by this wretched revolution is by no means properly brought before the public, our export and import trade is stoped with one of the very richest of our provinces, the splendid production of some of the finest sala decres in the River Plate is nil. All the wool of the estancias is blocked up, no permit of any the purty who framed it. A leading discount broker is generally put down for it. Strange to say there is much more interest betrayed this year about the Pank Director nomination than in any previous year. This must be considered a good sign. All the above gentlemen are good mean and true, and doubtless well known to the Governor and Bank, but it is considered impolitic to make up a list of the kind and publish it in the newspapers without at least consulting the parties beforehand.

The list of Cedulas drawn at the last amortization, which appeared in to-day's STANDARD, had numerous errors. The list we publish however in it is issue is revised and free from error.

The non-arrival of a steamer from Montevideo this mornous and the delay of the Garonne operated against business to-day, and many merchants have determined to do nothing until they hear from England. The brokers complained that they could do nothing, and as for Exchange, bills were more difficult than ever to pass to-day, owing to the black runnours current since arrival of Niger. The local money market is so much

something, as the export business is at present so brisk, it win as for as wood is concerned be over early, already more than 1 of the wool clip of 73 s gone forward. The Custom House receipts show a very de-

The Custom House receipts show a very decided diminution, and bankers may take note that much of what is at present going on in the States will be repeated in the Plate next year, namely that the excessive import trade which for the last few years has been going on lil be sopped and those will be less to remit for next year; of this there cannot be the remetest doubt; there are specks of some articles in the Plate in the dry goods line to hold not only for next year. The people of the Boca and The Port of San Fernando, when by right the dredge ought to be kept hard at the nouth of the Boca of the Riachuelo, dredgging the mud and sand that blocks up the light test.

The great land auction of Ventura Martinez, behind Gauna road, was stopped to all the proper of the sale.

Beautiful American 's control of the most year of t one-half of that number for strong, able-bodied men, which give a national increase of say five millions pats, per month. As in the States, so in this country, this sudden growth of the producing population must lead to a gigantic industrial development which mocks every effort to hamper, check, or restrain. The growth of the population is the best of all growths; with it everything else must grow. And it is considered by close that it is the state of the second production of this city. else must grow. And it is considered by close observers that in 18.5 the population of this city will be in nothing under half a million, and

perhaps over.

The week has been a difficult one in exchange circles, and there has been much more going on in this branch than it suits trade to ublish. Owing to the delay of the steamer, and the rumors so current of failures in Europe, takers have been very particular, and we heard of one party, a very arge taker, who, having already taken argely, looked for some new paper, but the thing was impossible; every broker was tried, but the drawers and drawers were the same. This shows one thing if it shows anything, namely, that the whole shipping trade of the Plate is in the hands of a f. w, and when the export trade rules very of a f. w, and when the expo brisk those few are obliged than takers care to have in their books.
