NEW ADVETISEMENTS

DYSPEPSIA CAN BE CURED!—Let the Martyrs read. One word to Dyspeptics: You endure a living martyrdom, and no one but those who have known what dyspepsia is, can understand what you suffer. But there is a remedy; an immediate, absolute, never-failing remedy, within your reach, at your very door, as it were. It is Brisbane's Sarsaparilla. You have heard of it. Why has not? Use it, and laugh at indigestion and all its concomitants and consequences. In a week it will relieve the stuffy boom of all that perilous stuff," that renders your life miserable. The flatulence, the constriction of the stomach, the incapacity for activity, either of body or mind, the midnight restlessness and daily purging the headache, the nausea, the indescribable feelings which belong to dyspepsia, and to no other complaint, will pass away like shadows. Make the experiment. In many cases of dyspepsia the use of Brisbane's Sugar-coated Pills will greatly enhance each cure. cj..d21

Every Household Should Possess a Bottle

The Right Honourable EARL RUSSELL graciously transmitted to the Inventor of Chlorodyne, Mr. R. Freeman, and to the Royal College of Physicians of London, the following:

Extract of Despatch from Acting-Consul Webb, dated Manilla, Sept. 17th 1864

This remedy most efficacious in its effects (in Epidemic Cholera) has been found to be Chlorodyne, and with a small quantity given to me by Dr Burke, I have saved several lives.—See "Lancet" Dec. 31 t 1864.

Freeman's Chlorodyne is allowed to be one of the greatest discoveries of the present century. It is largely employed by the most eminent Medical Men in hospitals and private practice in all parts of the globe, and is justly considered to be a remedy of intrinsic value and varied adaptability possessing most valuable properties and producing curative effects quite unequalled in the whole materia medica.

Valparaiso Dec. 20, 1873.

Senate Commission reported favorably towards modifying the subvention to the Transandine Railway: will soon be submitted to discussion.

The heavy rains have destroyed the crops in the Southern provinces.

The Rio Grande Mails.

4 DAYS LATER FROM EUROPE.

Lisbon Nov. 24th

The prolongation of MacMahon's regime was definitively voted by the French National Assembly on the 20th inst., by 378 votes against 310, in these terms:—

Art. 1. The Executive Power is hereby confided for the next ten years to Marshal MacMahon, Duke of Magenta, with the title President of the Republic, and in the same manner as at present till modified by constitutional laws.

Art. 2. Three days after promulgating this law a committee of 30 members shall be chosen by the Assembly to examine the constitutional laws.

This question being thus settled entirely to MacMahon's satisfaction the Duke de Brolie, as promised, tendered the resignation of the Cabinet, and was requested to form a new one, which he will probably do after the interpellation which is to come off on the recent elections.

The Berlin Chambers were opened by a Message instead of a speech from the Throne. There is a surplus of 4½ millions sterling of the Public Debt. The Budget for 1874 is put down at 214 million thalers, say 66 millions sterling. The Chancellor of the Empire presented to the Federal Council a project for a Supreme Tribunal for all Germany, leaving Judges of first and second instance, civil as well as criminal, in each country.

The Austrian Finance Minister reports a great improvement, shewing that up to the end of September the crisis had not affected the public revenues, since the receipts were, on the contrary, 3 millions over the same period in 1872.

Most of the European Parliaments are now sitting, and Mr. Gladstone will open that of Westminster on Feb. 5th. In Rome they could not get a quorum, and it was ordered to publish the names of the absenting Deputies.

The Virginius question is to be submitted to arbitration, the Emperor of Germany being proposed as arbitrator.

Affairs in Spain offer no improvement. The advantages gained by Castelar's troops under Morriones at Mount Jurra were so evanescent that the Carlists re-captured all the positions they had lost. Morriones is shut up in Padosa, and Castelar is at a loss to find a man to take the command against the Carlists. The latter are now well disciplined, flushed with victory, and increasing in numbers.

Cartagena still holds out against the Government of Madrid, but Castelar's organs continue to publish satisfactory advices of dissensions among the Communists, which promise a speedy surrender. The siege by land is prosecuted with vigour, new batteries being thrown up to annoy the garrison; but the blockade by the Government fleet is ineffectual, boats with provisions freely passing into the port.

Castelar was obliged to disband the Madrid Volunteers, who were so mutinous that trouble was anticipated; nevertheless their arms were taken from them.

Telegrams from New York, November 18th, showed that the Government had called out all the marine levies of the Union. Later advices of the 22nd say—there is as yet no confirmation of the rumours spread by the newspapers that President Grant had sent an ultimatum to Castelar demanding the following without delay—

1st. Abolition of slavery in Spanish colonies.

2nd. Steamer Virginius to be handed over to United States Government.

3rd. All parties engaged in shooting the Virginius victims to be delivered over for trial by American tribunals.

4th. Spanish Government to pay a sum for indemnity.

It is now rumored that only 23 were shot altogether, instead of 137 as stated.

Madrid papers of yesterday (23rd) deny the statements in the New York journals, of insults offered to General Sickles. The opinion in Madrid is favourable to German arbitration.

London telegrams of 22nd say money is abundant, and the Bank rate continues at 8 per cent. Consols 93.

The Italian Government is negotiating a loan in Germany for 4 millions sterling. Victor Emmanuel's speech opening Parliament was well received. Prince Humbert left Rome for Milan, and the ex-King Amadeo returned to Turin, as the condition of his wife was more critical. The Corps Diplomatique succeeded in inducing the Italian Government to allow the Jesuits to remain in the Collegio Romano, to direct the classes of Science and Theology. Senator Biancheri will probably be re-elected President of the Chambers, without opposition. The Italian Finance Minister, Sella, arrived at Berlin.

The Archbishop of Posen has again been condemned by the Prussian authorities; this time a fine of 2,000 thalers and 13 months imprisonment. Benningsen and Lowe have been elected by the Liberals as President and Vice-president of the Prussian Chambers. Blankenberg has refused the portfolio of Agriculture, on account of the opposition of the Liberals.

Affairs in Denmark look peculiar. The House of Folksting dissolved by the King has already won more than half the seats for the new Parliament.

Rumors are afloat in Hungary of another Ministerial crisis in Austria. Some say the Conservatives under Sennyen will come into power; others think the present Ministry will effect a coalition with Deak and the Left centre.

It is asserted that cholerina has broken out among the Carlists in Estella, and that Don Carlos may have to evacuate that place, marching to Biscay or lower Arragon.

Mr. Layard, British Minister, had a conference with Castelar, the tenor of which seemed to promise that no rupture would occur between England and Spain. It was rumored in Madrid that the German Government would send Castelar a note advising him the best reparation he could make in the Virginius difficulty.

Amiral Chicarro has captured two vessels of Carthagena with merchandise for the Communists, another laden with silver. The 10 inch siege guns throw shells into the city, and its speedy surrender is expected.

Senators Sumner and Cameron have raised their voice in favor of Castelar and the Spanish Republic; shewing that the U. S. Consul at Santiago de Cuba says only 23 have been shot of the Virginius people.

The Portuguese Government has given a concession for the Beira railway, from Abrantes to the frontier, 100 miles. The wine-crop has failed this year in Madeira. The ocean cable to Madeira, Cape Verds and Brazil will be ready about September 1874. The picking-up and re-laying of the first section is now postponed to April, on account of the weather. The Cape Mondego Coal-mining Co. has been formed, with a capital of £66,000 sterling. An insular Exhibition for the Azores is about to take place at St. Michael's, chiefly oranges and other home products.

The battle of Jurra seems to have been really a Carlist victory, as they captured 24 caissons, and killed 1,300 Republicans. A grand Te-Deum was sung at Estella in presence of Don Carlos.

Castelar is said to have quarreled with his Finance Minister, but the latter cannot raise money anywhere, even to pay the recruits. As for civil functionaries they have not received a maravedi for several months, and are reduced to pawn family jewels, clothing, &c. It looks as if Spain were so exhausted that a general Mexican tone of things must ensue. When Castelar received the imperious and arrogant note of the United States Secretary Fish he summoned all the best lawyers in Spain to the palace, and they agreed on a spirited reply to Washington, asserting the clear right of Spanish Republicans to shoot anybody who attempted to start a Cuban Republic.

The Bazaine court-martial drags along. On the 21st Jules Favre was examined, and declared that Count Bismarck told him that Marshal Bazaine would not obey any orders the Government of National Defence might think proper to send him from Paris.

LATEST FROM CHILE.

The concessionaires of the Mejillones and Caracoles railway have obtained the necessary capital for the completion of the line, and that work will be actively resumed in January next.

A lady, Doña Elvira Silva, has been appointed to the post of second telegraph operator in the Illapel office.

A Chillan paper says that the Concepcion line of railway will be finished as far as Bulnes at the end of this year, and by March next to Chillan.

Messrs. Randolf and Elder, Glasgow, are building for the P.S.N. Co. two of the largest steamers yet constructed for the Liverpool and Valparaiso line, which will be named respectively the Iberia and Liguria.

A sad case of stabbing occurred on board the Chimborazo on her passage to Valparaiso. One of the seamen, the worse for liquor, attacked the boatswain's mate with a knife, and so severely injured him that it was found necessary to send him back to Liverpool for surgical treatment. The seaman is sent to England for trial.

In the erection of the monument to the memory of the victims of the Compañia catastrophe was concluded on the 20th instant. The pedestal is of Carrara marble.

On Sunday last no fewer than seven steamers entered Valparaiso, all with full cargoes, and representing a carrying capacity of upwards of 7,000 tons.

Advices from Panamá shew that the filibuster steamer Gen. Sherman has been at last seized by the U. S. Admiral, who writes to the Editor of the *Star & Herald* as follows—

"Aspinwall, Nov. 8, 1873.

"Mr. James Boyd, Panama.

"I have taken possession of the steamship Colonel Ariza, late General Sherman, for using illegal ship papers, and sailing under the flag of Honduras, while it is proved that she has never changed her nationality, and is still legally an American vessel since the only legal papers possessed by her were and are, American register and other papers.

THE SALVADOR COLLEGE.

DISTRIBUTION OF PRIZES.

The Jesuit Fathers of Buenos Ayres seem determined to maintain the high reputation as educationists which their society has acquired in all parts of Europe. During the last quarter of a century the worthy fathers of the Colegio Salvador have been quietly but steadily working at this their favorite occupation, and can boast to-day of a school second to none in discipline and numbers. Of this we had a fair opportunity of judging at the grand annual distribution of prizes last Thursday. The chief 'patio,' the largest in the city, was fitted up to receive the boys and their friends, who mustered strong, notwithstanding the inconvenience of the hour, 5.30 p.m.

An earlier hour would have been named were it not that the large numbers attending rendered it impossible to hold the exhibition in any of the large class or study halls, and in an open air meeting the sun at an earlier hour would be too hot.

Notwithstanding this most of the leading native families were represented, and long before six o'clock the large courtyard was densely packed.

Around the entrance the walls were tastefully hung with the drawings and fancy penmanship of the students. One or two bore the the familiar names of O'Farrell and Galbraith, whilst in others we recognised the youthful scions of many a hero of the past.

Doubtless these youths are destined to play quite as conspicuous a part in the future of their country as any of their ancestors. Nor can any one who witnessed last Thursday's display, and knows the efficacy of good youthful training, doubt their ability to acquit themselves creditably under the most trying circumstances.

At the further end of the yard was erected a platform in front of the Archbishop's throne, and from this some twelve or fourteen students addressed the meeting in due order. The speeches were, in general, well delivered, and in all cases possessed the rare merit of being original compositions.

The prologue was well rendered by Don Ricardo Molinas, a young gentleman of some sixteen summers, but whose serious air and mourning garments lent a most impressive solemnity to his address.

An epic poem, 'Una Lagrima,' by Master Norberto R. Fresco, received general applause, as did likewise De la Torre's ode 'El Palio,' declaimed by Master Alfred Fernandez, a youth of much promise.

Master Wm. Galbraith's poem, "The Pallium," in honor of his Grace Archbishop Aneiros, was carefully rendered by Jose Gregorio Palacios, whose pronounciation, though far from faultless, reflected great credit on his patient instructor Mr. Wm. Martin. The ideas no doubt are original, and for this the young author deserves full merit; but there is a fullness of form and roundness of expression which no talent can supply, and which speaks the careful revision of the master hand.

Several odes and poems followed, keeping up the ceremony until late in the evening. Some inconvenience might have been caused after sundown from the strong wind, were it not for the happy thought of some of the philosophy students, who, with the electric light, saved the situation.

We could wish to reproduce in full the list of prizes in which so many young friends distinguished themselves, but space will not permit, and it would be invidious to mention one where all were so meritorious.

MARTIN GARCIA QUARANTINE.

The presence in the city and vicinity of Buenos Ayres of cholera or diarrhœa, taken in connection with the exposition of the late state of matters at the quarantine station of Ensenada, must leave little doubt in the minds of most, but that genuine cholera has obtained admittance amongst us through the above channel. The very able leading article in the *Pampa* of the 19th inst. explains the reason why, and clearly fixes the responsibility upon the parties truly culpable. What now remains to be done is, to know how the enemy now at our very door is to be successfully combatted? The history of the present wave of choleraic disease has up to the present been that of a mild one; in France, Germany, Italy &c. it has been comparatively such. Therefore we have some reason to hope that it will prove so here, unless (as we hope it wont) our peculiar condition as a city should modify the type of the disease for the worse. How can we best avoid such a modification? Some thing has already been done by the Municipality, through the general order to whitewash with quicklime — the order must be enforced to the letter. The health council have diffused sound advice as regards the mode of living, and every one seems to do his best, for the best. Doubtless the authorities will do 'their' best for the poor, in providing means and facilities for the proper treatment and isolation of the sick, the inspection of the squares and disinfection of suspected places. By such means, swiftly and energetically employed, we may still be able to keep the disease in the form of epidemic at bay, and will certainly reduce its ravages to a minimum. But the entrance of fresh cases must be jealously guarded against; and, although the quarantine station be removed to Martin Garcia, security must be had that a different order of things prevail to that lately known to have existed at this port and Ensenada.

Cholera is often more fatal than war; it impoverishes all, and affects us in many vital points. No efforts should, therefore, be spared in keeping the pest at a distance. To this end three essential objects must be attended to:

1st, A quarantine hospital and station.

2nd. A competent medical staff and employees.

3rd. A really honest and impartial administration.

The first must be already assuming shape in a temporary form, by the rapid formation of a wooden village; a small beginning is only required. The second does not exist, but could at once be organised by despatching one of the present "Junta de Sanidad," with three or four "practicantes," to superintend and take permanent charge of the quarantine station at Martin Garaia, whilst the second should fix his residence on board the guard ship in the Outer Roads. All ships should be required to touch at the guard ship (under heavy penalties) for medical inspection, and then and there the question of quarantine or no quarantine decided. Every vessel from a suspected port should be put under quarantine observation and undergo a fumigation process, to obtain free entry. Every similar vessel that has had a case of sickness during the passage should have an allotted fixed quarantine time under daily observation, and undergo a similar process before free entry is granted; and lastly, any vessel with sick on board should have them at once removed to the quarantine hospital, the vessel, with the healthy passengers and crew, remaining under quarantine until such time as the visiting officers consider her innocuous, when, after due fumigation of baggage and passengers, she could be allowed free practique.

By such simple means, honestly and rigidly administered, there is every reason to believe from experience to be had elsewhere, that the maximum of security, can be obtained with the maximum of economy, and what is preferable to all, the greatest justice and least inconvenience to the passengers or immigrants themselves. Steamboat owners might complain a little, but they would only suffer here what they do in all well regulated countries. They will become more vigilant in so far as they are likely to be more careful in avoiding the embarkation of diseased passengers, and be more stimulated to promote the hygienic condition of the passengers during the voyage.

Until a system more or less in accordance with the principles of the above is adopted as our system of quarantine, we cannot hope to escape perils such as now menace our welfare. Half measures are worse than none, and that the authorities will probably soon learn by practical experience. Rigid, well arranged measures may induce such care at embarkation and during the voyage as may serve altogether to annihilate or render unnecessary a more formal

Quarantine.

EDITOR'S TABLE.

The city newspapers yesterday morning had an insufferable smack of physic and precautions about them. Leading articles, advertizements and news all played the same tune—cholera. Things looked better, however, as no fresh cases were announced. The Municipality is behaving very well. Parish doctors have been appointed at 10,000 m|c per month each (not a single foreign doctor amongst them) two Lazarettos for the sick are to be erected, one at Palermo, and various other precautions, in addition to those in the important decree of yesterday, are to be taken. The casting up on the river bank at Ensenada of the bodies of those who died on the guard ship caused a shudder in the city. The Governor ordered the bodies to be burned. A friend who visited Ensenada this week describes the waters there in a terrible state, the filth from the ships floating about or cast on the banks of the river, spreading a frightful effluvia, which is made worse by the saladero refuse. The vessels with emigrants were not removed a moment too soon. Besides the steps mentioned above, the Municipality has ordered an apothecary's shop in each parish to be kept open night and day, to dispense medicine to all applicants (to the poor free). The following is a list of the 'boticas' which have been selected in the various parishes:—

"In the parish Catedral al Sud—Torres & Barton.
Catedral al Norte—Sr. Terry.
San Telmo—Sr. French.
Socorro—Kelly.
San Nicolas—Emilio Cardalda.
San Miguel—Sr. Vignolo.
Concepcion - Anoedo.
Monserrat—Pasos.
Piedad—Sr. Fusellini.
Balvanera—Malvigne.
San Juan Evanjelista—Sr. Alfonso.
Barracas al Norte—Mariani.
San Cristoval—Riva.

We call the attention of those interested to the meeting called by the Committee of the Flores Chapel of ease, to be held to-morrow at Flores. We understand that matters of great importance will be laid before the meeting.

We had the pleasure of a visit yesterday from Mr. J. Ashbury, owner of the beautiful steam-yacht Eothen, now lying in the Outer Roads. Mr. Ashbury returns to Europe next week in the Sorata, on political business, as it his intention to stand for Brighton at the next general election. The Eothen will take down to Montevideo, this day week, the mails for the Sorata. Respecting the rumor that this yacht was to be sold here, we believe arrangements are on foot in England for her sale when she returns; meanwhile Mr. A. has promised us a handsome commission if we can get him 150,000 pats. for her here. Before Mr. Ashbury purchased her, she had belonged in succession to the Marquis of Conyngham and Mr. Brassey, M.P. She is one of the finest steam-yachts afloat, and we wish some of our merchant or broker princes would make up their minds to secure her for the R. Plate before they lose the chance. Those who can afford a house in town, another in the suburbs, carriages, horses and retinues of servants, ought not to be without a yacht. The crisis is over, so money can be no object to our numerous millionaires.

A meeting in favor of Cuba comes off to-day at the Variety Theatre. Dr. Rawson is President of the Committee.

The splendid Hamburg steamer Luxor, Captain Ad. Kaempffer, entered port yesterday morning; she brought up the Rio Grande and Montevidean mails, also forty five passengers of the Saturno which is in quarantine there. The squeeze on board the Luxor was terrific, as she has only accommodation for 12 first class passengers, 11 berths being occupied. The gentlemen had to do the best they could on deck all night; but six of the fair sex were accommodated below, the captain courteously surrendering his cabin. We salute Captain Kaempffer on his first trip to the Plate.

Messrs. Yarrow & Co., agents of the Pacific line, expected the Cuzco last night, so we shall probably hear of her this morning; she brings Lisbon dates to the 26th ult.

The death rate in the city on Friday was wonderfully low—only 8, five adults and three children. A leading foreign physician informed us yesterday that, although the mortality in the city during the winter was very low, he does not remember so sickly a winter season for 15 years. He does not think that an epidemic this year is likely, unless we have a spell of dry weather.

Gentle and simple capitalists! dont forget that a chance of buying land, such as may never be offered to you again, is ready for you to-day at Donselaar. A French breakfast of the most succulent kind will be ready for all comers. The breakfast is half the battle; the purchase of a good lot secures the victory, and a fortune in the future.

Phillips, dear, old Phillips, will leave on the 30th in the Ebro. The best way to take leave of him is to meet 'en masse' at the Variety Show on Tuesday evening at the Victoria Theatre, 'El Pobre Gringo' is worth going leagues to see.

Amongst the numerous Christmas Gifts recently imported by "dear Daws," is a "humming bird" of a very peculiar kind, which we recommend as one of the articles with which Santa Claus should be provided for the coming festival.

The news from Asuncion is rather glum. The Government has called out a large number of troops to meet the threatened revolution, but no one will shoulder a gun, and the woods are full of fugitives hiding from the recruiting sergeant. Over 2,000 people have crossed over to Corrientes

What's this? 'The Government has paid the Port Captain 2000 pats for the service of the torpedo division.' The torpedo division? We never heard of it before. Who is Colonel Bustillos going to blow into smithereens?

It was rumoured yesterday that General Gainza will transfer the chief command in Entre Rios, to Colonel Ayala and come down to B. Ayres with some veteran regiments, to organize an effectual defence of the frontiers.

Two policemen died on Thursday from eating five dozen of peaches each! Hercules himself would take cholera and 'kick the bucket,' if he made such a beast of himself.

An unfortunate lady named Chelu was sent in to the Convalescencia yesterday from Chivilcoy, being quite out of her mind. Repeated family misfortunes reduced her to this.

Advices from Mendoza announce a terrible fire in that city, and 3 large establishments destroyed.

We publish in another column the latest news from Europe by the Rio Grande. There is nothing worthy of extra comment. The Cuzco, due to-day, ought to bring important intelligence. Many think her advices will give the Bank rate 7 per cent.

While thundering along Calle Artes on Friday a City of B. Ayres tram car gave a sudden jolt, throwing the 'cochero' clean off on the crown of his hat. As this was not a 'pot,' the poor fellow was much hurt, but not fatally injured; he was taken to the Hospital on a stretcher.

The Municipality has its hands full just now. The stiffest part of its work yesterday and the day before was answering telegrams from all parts of the Republic enquiring all about the Cholera, and a good deal more. Half the telegrams could not be answered, such was the press of business of all kinds at the Hotel de Ville.

The cholera fizzle has done some good. A contemporary says that the Salubrity Commissioners have abandoned electioneering and taken to hygiene. The fright that can tear any man or dozen of men in this country from their beloved politics must be terrific indeed.

We had bushels of papers from the provinces yesterday. Jack Falstaff's proportion of bread to sack was enormous compared to that between the news and the paper in our up-country contemporaries.

GRAVE.

Buenos Ayres, Dec. 15, 1873.

To the Editors of the STANDARD.

Dear Sirs,

Having had occasion to accompany the remains of a dear friend to the Chacarita a few days ago, and having arrived at the Bermejo Station, I certainly could not help observing the hygienic state of the neighbourhood. All around the station, and all along the street leading from the San Bermejo Station to the railway bridge of the Western Railway, are to be found pools of stagnant water; and I have been told by some of the neighbours that when it rains the refuse of the curtiembres and the caballerizas of the different tramways have no other outlet but the same street. I think it my duty, Messrs. Editors, to warn the public, through your excellent journal, that such a state of things in the midst of a populous city is at all dangerous to health, and cu now that we are threatened most dreadful epidemic.

I have the honor to be; &c,

A Foreigner.

To-day stocks ruled very firm, and rates advanced. It is clear that the bulls are making an effort to corner the bears, and as it is well known that several parties have sold short there is an object in keeping up prices to the end of the month. Moreover, the news to-day was more favourable: the doctors reported no new case of sickness. At Martin Garcia Island everything goes on well, and upon the whole things looked better every way.

The sales to day were as follows—

In the liquidat on the following sales—

50,000 for cash at 86½

30,000 for end month 86⅝

Market closed very firm—buyers.

Exchange looks decidedly better, and the rates advancing; they may be quoted at 49⅜ to 49¾, and even higher rates were spoken of. Exchange on Montevideo done at par.

Captain Kaempffer, of the Luxor, was welcomed on 'Change and much complimented for his attention in bringing up the mails—29 bags. The Luxor sails on Monday; she takes 120 tons cargo and 80 passengers from here.

The Ebro with telegrams to 29th from Lisbon is looked for at peep of day on Tuesday.

It was said on 'Change that all the clerks' offices of the Provincial Bank will be moved into the new building, there to open, on the first of the year.

In the North wool market, this being Saturday, not much done—10,000 ar sold from 70 to 76; 20 to 30 carts and some 20,000 ar stand over for Monday.

The sale of a valuable property in the very town of San Martin is reported—12 manzanas in the town for 16,500 patacons; Messrs Lamas and Co buyers.

The "Hotel Estrangeros" will be the name of the new German-Argentine hotel at Cinco Esquinas; capital 40,000 pats; shares nearly all placed. The hotel building will eclipse everything in the town; it will cost 200,000 patacons; Messrs Lamas and Co. empresarios. The business looks a good one.

In the South wool market 15,000 ar. sold today at from 62 to 83, very small arrivals about 20,000 ar. stand in all for next Monday.

The following is important to exporters being the valuations for produce for ensuing year—

Salted hides each	$f 5,400	last year $f	4,750
Dry hides each	3,800	"	3,250
Bone ash per mil Kil.	12,000	"	10,000
Horns per mil	12,000	"	11,000
Wool per Kilo	220	"	240

All export duties for new year alike—six per cent.

We have been favored by a leading exporter with the following late London circular—

"London, 17th Nov. 1873.

"Since our review of the 7th inst. the market for salted hides has continued quiet; to induce business it has been necessary to submit to a further decline, and 6,000 Paysandu ox hides have been placed at 7 per lb. from store, a price nearly 25 p% lower than those at which the first sales of the year were made. In Rio Grande hides there are no further sales to report, but the next transactions will have to be at proportionate rates.

"Horse Hides.—No sales, no arrivals.

"Sheepskins.—Without sales.

"Bone Ash and Bones.—Several cargoes sold, at lower prices. Ash £5, £5.5 per ton on 70 p%. Bones £6.15s to £7 per ton.

"Tallow market continues flat, present quotations 40 to 40/6; for beef and mutton of fair average quality demand has been limited."

The Rio Grande and Corcovado mails were delivered to-day at 2 o'clock. We hold our London letter over for our next.

At a late hour in the liquidation prices ruled very stiff—86¼ cash. 86½ for the end month, buyers.

The Municipality have given orders that no excavations can be made in the streets until further orders. Therefore the main and service laying of the Mutual Gas Company will be stopped for a time in Buenos Ayres. Special permission has been given to the Mutual Company to lay their 18-in. main near the Boca, and also full permission to work in the 'fabrica'—so that all the service and main layers will now be placed upon the works situate in Calle Defensa and a rapid conclusion of that important fabric may be certainly looked forward to. It will be remembered, the contractor, Mr George Bower, of St Neot's and London, was under a fine of 2,000,000 m/c to conclude the work by 1st March, 1874. This fine will now be remitted, and Mr Bower may be congratulated on his good fortune—although the engineer has never been in doubt about completion in time. There are few engineers who would have taken this contract with all its fines, amounting to near y £26,000; y f up to now Mr Bower has not paid one paper dollar, and we assert boldly that no English contractor need fear to take contracts in this Republic with heavy fines, so long as proof is given to the authorities that the work is being carried out with spirit.

The payments to-day were large, and the business transacted in the barraqueros' room sufficient to shew that the week has been an active, good one. The wool 'market is very active, although the last news, per Rio Grande, has proved a slight damper, and the fall in sheepskins has affected wool; still a dollar more or less has very little influence on the market; the farmer take the best price going, the wool moves off quickly, and just as fast as the barraqueros can bale it goes forward; this shows a healthy market. The hide market, also, betrays signs of returning activity; many think that after the long depression through the year the article has at last touched bottom, and some few exporters almost prefer hides to wool at present. The Italians, during the week, were the chief buyers of hides. As regards the saladeros, it was said yesterday on 'Change that Sr. Orimi had made a sale on contract, but the business is kept so quiet that no one knows the terms. The notification by the government, and the meeting at the Government House respecting the saladeros at Ensenada, and their probable suspension by decree, inspires other saladeristas with higher pretensions; but the trade this year, as shown by the figures we gave the other day, is greatly paralized, and it is evident the faena will be short and late this year. The week has proved a peculiar one, due to the cholera alarms, which are much calculated to affect trade. The impression, however, is widespread that with such constant rains the season is healthy, and an epidemic improbable. Ample accommodations

BULLRICH & CO.'S GREAT AUCTION

CALLE POTOSI, No. 70

Open from Eight to Five every Day.

THE

GREATEST LAND AUCTION

Of the Year 1873

Will be held by BULLRICH & CO.,

On SUNDAY, the 21st of December,

At the Hotel, in front of the Great Southern Railway Station of

DONSELAAR

Of the fine, high Land, all completely surrounding the Station, which is judiciously divided into Town Lots and Quintas.

Each Block is measured, mojoned, and the mojons numbered; so that you can see exactly what you buy, and where it is; and you can take possession of it at once on payment and on receipt of Title Deeds.

The spacious Plazas are enclosed. Land is ceded for two Churches, Catholic and Protestant, and for Municipal buildings.

DONSELAAR is very little more than 10 leagues from Buenos Ayres, and eight from the PORT OF ENSENADA, being much the nearest to it on the Southern line.

A Short Railway to join them has been solicited from the Government by Mr. Rigby, Civil Engineer, and Mr. Dennehy.

Whoever looks at the maps that are being circulated, and which are to be had at Bullrich & Co.'s, Calle Potosi 70, must see at a glance the great future in store for the new Town of Donselaar; that it is far better situated for commercial purposes on the Southern line than even Merlo on the Western Railway; yet those who invested in lands surrounding the Merlo Station a few years ago have made piles of money. Therefore, now at this first great auction of the place, is the time to go in for an investment in the New Town of Donselaar.

The Town Lots will be put up at only $100 the yard front by 50 yards deep; even the lots near the Station and the Plazas, though THEY must be worth from $2,000 to $3,000 the vara front.

The Quintas, which commence at only 500 yards from the Station, will be put up, to begin with, at a price so very moderate that it is beyond all cavil—only 4 reals, or half a paper dollar the square yard. At the same distance on the Western line, and only 500 yards from even the least important of its Stations, what would be the price of such land for Quintas?

These prices are so very moderate that whoever means to invest in well chosen Town and Quinta Sites should not, on any account, neglect the golden opportunity that will be afforded them by Bullrich and Co. on Sunday, the 21st December.

CALL AT HIS OFFICE, POTOSI No. 70, between 10 a.m. and 5 p.m., for Free Tickets for Train and for a *Feed* fit for an Alderman.

Train leaves Central Station, Paseo Julio, at 8.10, Calle Lima at 8.5, and Plaza Constitucion at 8.25.

Those who attend the Auction from any other Station on the Southern line will be paid their railway fare, on presenting their tickets.

To prevent all false purchasing, each buyer will be called on to deposit $200 on account of each Town Lot, and 10 per cent. on account of each Quinta.
