The foll wing is the lat at market report from Antwerp:

This article rules extremely quiet, and notwithstanding several holders appear willing to make concessions, the demand does not show the least sign of revival. The few lots of Buenos Ayres saladero ox sold

were disposed of at low figures, and nobody knows how far prices will have to recede further in order to clear off the old and excessive stocks weighing on the European markets. In presence of this many people began to doubt whether the rates of f. 70 to 75, wh ch ap-

For some time back my attention has been lrawn to the argo money payments that take dace every week on Change, between merchants and produce-brokers.

In c mmon with other parties I have calculated he amounts, and found them so large as to pass be icf. But if anyone take the trouble to observe the matter for a couple of hours on Saturdays he will be astonished that no plan has been nit on to save the round-about system of carrying large sums of money:

These sums probab y pass through five or six minds before leaving Change, causing great los, of time, and more or less risks.

Having well pondered the matter over, and tudied the Liquidation hal s of New York and London bankers and ailway companies, I have now the honor to submit the following plan. It is necessary first of ail to have the patronage of the Bolsa Chamber, and at least for the present o establish my headquarters at the Bolsa.

1. I propose to establish in a part of the old Reading-room a Paying-office, with regulations to be hereafter laid down. 2. The Office to receive money or certified

heques from such persons as may wish to make heir payments through it. 3. To charge a commission to such persons.

4. The office to be open all day on Saturdays and from 10 to moon on Mondays. 6. The busine s to have me for responsible ma a-ger, with suitable at ff of c erks.

6. The Chamber to require a guarantee from ne if thought proper. , 7. A council to be formed from a Member o

he C amber and two merchant, one appointed by the Chamber, he other by me: but to have no interference in the management. For so important a busin as I am ready to give full particulars and explanations.

ISAAC C. SMALL, of London. LUIS K. NEWBERY, of New York

Is prepared in the most scientific manner, by thoroughly educated chemists and Druggists, who have had many years' experience. It is not a simple extract from one article, but is compound, ed of extracts from a number of Roots, Horbs Barks, and Leaves, all of which are possessed of some particular virtue or power in curing the diseases that have their sourse in the blood and humors; these different vegetable extracts are combined in such a way as to retain, in so full strength, the special curative virtue possessed by each. The root of the Sarsaparilla plants found in Honduras, is that which we use in this preparation; it is the kind which all medical man esteem moss. About fity per cent. of Bristol's Sarsagarilla consists of the concentrated extract, the remainder, as above stated being composed of extracts from other powerful cleaning and healing vehetable substances. It does Is prepared in the most scientific manner, by

extract, the remainder, as above stated being composed of extracts from other powerful. cleaning and healing vehetable substances. It does not contain any thing that is dagerous or injurious to health, and in this, as in nearly overy other respect, is entirely different from all other preparations sold under the name of Sarsaparilla.

By having our own agents at he places where the various roots, drugs, herbs and plants, composing our medicines, are produced, we are enabled to evercise that constant care in selection which insures uninformity of excellene and we spare no money and no effort to procure the best—and only the best—of every article entering into their composition; and it is with the most abiding contidence we say, to be sick of all nations and all countries, that, in Bristol's Sarsaparilla you have a remedy more reliable than any before offered to you, and which will no diappoint syou in the cure of.
