# EXAMINATIONS AT THE BRITISH ACADEMY.

Tuesday was the last of six days' hard work within the classic precincts of the above named educational institute. The steady increase which for a long time back has been visible in the number of scholars in this establishment would be sufficient to prove its great popularity among those who are able to appreciate the inestimable advantages of a good English education, even if we were not permitted to judge for ourselves by being admitted to the yearly examinations, where every boy is thoroughly examined by impartial and competent judges. The ly fortunate this year in the election of with me its examining committee, which was needful and some good men set to 6 per cent, and simultaneously the Bank of composed of the following gentlemen: Mr. R. Bird, the director; Mr. Genetet, of the Colegio Nacional, and Professors Killian, Kitt, Armandos, Hargar and

A. J. White. It was very gratifying to see the interest taken by the boys in their stndies, and we can only artribute it to the attractions which are held out at the Academy, added to a wise cooperation with the masters, of the parents. Knowing, as we do know the interest which parents take in the advancement of their children, we had expected to see a larger attendance of parents at the examinations, but we suppose that the fact of their being held during the business hours of the day rendered attendance impossible to many who would otherwise have been there; the audience however, though limited, was very select, comprising some of the first protessional talent in the city. We could not help noticing the look of satisfaction which overspread the venerable countenance of Dr. Gutierrez, on hearing his little son wade through the intricacies of an English verb nor can we omit making mention of the heroic manner in which Dr. Costa's youthful scion grappled with and overcame English Grammar, Arithmetic and History, but it would be superfluous for us to make mention of all those who did honor to themselves and their tators and parents by the promptness and accuracy of their answers, and the clearness of their com-

It will suffice therefore to say that, though all the classes brought up for the amount of the month and year's 'venciexamination surpassed our most san-mientos; the opinion is, however, general that guine expectations, the English, French and Arithmetic classes were those last month, and that it is more than and Arithmetic classes were those which, all things considered, carried The decree by the National Government open the palm; and when we consider what ing the ports of Entre Ries was signed, publishvery important branches these are, ed and declared to-day. The Bank of Mana & Co. in Montevideo has already provided for the working classes in that city a safe and profitable depository for their savings.

The sums deposited in that very important institution are daily increasing, and already reach a very lige amount.

If these advantages have not hitherto been enjoyed inthis city by an immense number of clerks artisans, working men, and servants of all classes and conditions, who are equally interested in putting their savings out at interest, thus providing the nselves with a reserve fund in case of need sickness, or old age, instead of spending them in im noral gambling, in lotteries, and other sivolities.

The Bank of Mana & Co. is sufficiently known to the Public by the benefit derived from the course of its operations, which are regulated on the strictest and soundest principles, and always directed to promote the general welfare.

#### COMMERCIAL NEWS.

Dec. 18th, 1873. This was a most exciting day on 'Change, and the market, due to the alarm about cholera, is in a critical state, the bears whose great interest? is to drive things down, shudde at every rumor which they themselves industriously circulate whist the bulls on the other hand dend there p rts and even contradic; what most peo le cept as facts. During business hours to-day a sort of rumours were current about cho era i the Boca and in town; the bell rang out 2 o'cl uk on a fast falling market; meanwhile Mr. Lindsay entered the Bolsa at 3 o'cloor, fresh from the Municipality with the news that two of the best doctors have declared the case in Calle Mo-reno not to be cholera. Dec. 19, 1873.

The stock market rolled firmer to-day, and spite of all the fuss and noise made about cholerasto ks seem hardening, and the bears who have sold short may find it hard enough to cover. The feeling in the market is, that even in case of an epid-mic this summer plope will project to have their money in stocks than in pagar s, and hence the great fall which the bears counted on yesterday has not as yet shown itself and case. Dec. 19, 1873.

The result of the post mortem examination at the Ch carita was announced at noon. Thirteen doctors attended; three declared it was not chotera-Drs. Aguirre, Gutierrez and Herrera Vega: the others pronounced it cholera, but without many of the symptoms of cholera morbus. The Municipality to day published a new

dec ee which was much approved of, fruit sellers in street to be prohibited, markets examined twice a day—and the conventillos only to hold half their present number of occupants.
