Families continue to leave town for the camp in increasing numbers; and 50.000 persons are estimated to have departed up to Tuesday morning. The rush to the railway stations is still re markable. Nevertheless, none of the wild panic witnessed during the Yellow Fever is now to be seen; few hearses are met with in the streets, and the attitude of the Public is calm and dig-Astounding! A tremendous huff has sprung up between the National Government and the Cordoba Executive. The latter is afraid of cholera invading its fair domain and has stopped all communication with Santa Fe. The trains from Rosario are stopped at Tortugas, and the poor passengers disappear in the maze of quarantine. Colonel Roca, on his way to the Interior, was amongst a lot stopped on Friday, and there is 'old Harry' at the War-Office and Go. vernment House in consequence.

We had a visit yesterday from the gentleman who wished to negotiate with us a Brazilian bill for £100 last week. We had not the pleasure of learning our visitor's name till yesterday, otherwise we should not have fallen into the error, which we very much regret.

Bristol's sarsaparilla

Is prepared in the most scientific manner, by thoroughly educated chemists and Druggists, who have had many years' experience. It is not a simple extract from one article, but is compound. ed of extracts from a number of Roots. Herbs Barks, and Leaves, all of which are possessed of some particular virtue or power in curing the diseases that have their sourse in the blood and humors; these different vegetable extracts are combined in each a way is to rotain, in so full strength, the special curative virtue possesfund strength, the special curative virtue possessed by each. The root of the Sarsaparilla plants
found in Honduras, is that which we use in this
preparation; it is the kind which all medical
man esteem moss. About fifty per cent. of
Bristol's Sarsaparilla consists of the concentrated
extract, the remainder, as above stated being
composed of extracts from other powerful, cleansing and healing vehatable substances. If does ing and healing vehetable substances. It does not contain any thing that is dagerous or inju-rious to health, and in this, as in nearly every other respect, is entirely different from all other preparations sold under the name of Saraapa-rilla.

rilla.

By having our own agents at he places where the various roots, drugs, herbs and plants, composing our medicines, are produced, we are enabled to evercise that constant care in selection which insures uninformity of excellene, and we spare no money and no effort to procure the best—and only the best—of every article entering into their composition; and it is with the most abiding confidence we say, to be sick of all nations and all countries, that, in Bristol's Sarsaparilla you have a remedy more roliable than any before offered to you, and which will no diappoint syou in the cure of.

Chills and Fever.

& Dumb Ague, As a means of building up the constitution that has been broken down by the excessive use of Mercury, Iron, or other Minerals, our Sarsaparilla will be found most excellent, and can be administered with safety to the weakest patients. As a purifier of the blood and humors, in the Spring and early Summer, it will the tound unfalling. It can be taken freely at seasons, rainy or dry. For some of the above diseases, the use of the Sarsaparilly must be continued a considerable time, especially for those that are hereditary or constitutional in their nature—such as Scrofula: but a faithful compliance with the directions will always relieve and mitigate, and directions will always relieve and mitigate, and in a great majority of cases will effect a complete cure. It will also be found, in all of the above diseases, that a cure will be greatly haoted by using our Bristol's Sugar-coated Pills, in moderate does, in connection with the Sarsaparilla; they carry off large quantities of morbific or dinased matter set free in the average by the Sarblack, which colour remains so durable, that neither washing nor perspiration can semore it. Price 4s., 7s, 6d., and 10s. 6d, per bottle.

All these articles have been used and justly, apprecisted by all the Sove eigns and Courts of Europe, the Pops of Rome, and the aristocracy of the world, during the last 70 years, being of inestimable value to those who have once used them. They are sold by all chemists, perfumers, and bazars throughout In ia, Australia, the Colonies, and South America.
