Having received several very important improvements viz.:—

Mornison's wenierful little Engine, for cleaning and excavating idecayed teeth, preparatory to filling, which does the work with such rapidity and beautiful exactness, that in a very few seconds an otherwise sensitive tooth is prepared for the Gold in a mannor unatt inable by the disagreeable method of scraping and burning, so well known by those who have experienced the operation.

Also Grien's Electric Engine, which took the grand Diploms of Honor at the Vie ma Exhibition. The feat of harmesing lightning is fairly done in this next, efficient, and truly wonderful little machine. By this we manipulate the gold into the most difficult or fail book, with the most exquisite exactness, and without danger of fracturing the most delicate enamel, with the same engine, we finish; and polich the filling in less than one quarter the time formerly required, and without pain. Not patient who has had teeth filled in this manner once, will ever willingly consent to the use of excavators or burrasgain.

We have also received an immense quantity of the most besutifully carved Artificial Teeth, comprising thousands of different shades and forms, from which with our long-practical experience we can match any style or feature, complexion, or expression, with such artistic inceness that detection is impossible.

The Plate we use for the atmospheric pressure is the Whalebaae Rubber, the lightest and strongest known.

As a means of building up the constitution that has been broken down by the excessive use of Morcury, Iron, or other Minerals, our Sarsaparilla will be found most excellent, and can be administered with safety to the weakest patients. As a purifier of the blood and humors, in the Spring and early Summer, it will the found unfalling. It can be taken freely at seasous, rainy or dry. For some of the above diseases, the use of the Sarsaparilly must be continued a considerable time, especially for these that are hereditary or constitutional in their nature—such as Secofuls: but a faithful compliance with the directions will always relieve and mitigate, and in a geesat majority of cases will effect a complete cure. It will also be found, in all of the above diseases, that a cure will be greatly hacted by using our Bristol's Sugar-coated Pills, in moderate does, in connection with the Sarsaparilla they carry off large quantities of morbific or dinasted matter set time in the system by the Sarsaparilla, and in this way facilitate the retura to mal functional operations.—————46

Is prepared in the most scientific manner, by thoroughly educated chemists and Druggists, who have had many years' experience. It is not a simple extract from one article, but is compound.

ed of extracts from a number of Roots, Harbs Barks, and Leaves, all of which are possessed of some particular virtue or power in curing the diseases that have their sourse in the blood and humors; these different vegetable extracts are contained in such a way as to retain, in estable that have their sourse in the blood and humors; these different vegetable extracts from the powerful strength, the special curitive virtue possessed of full strength, the special curitive virtue possessed by each. The root of the Sarsaparilla plants found in Hondurs, is that which we use in this preparation; it is the kind which all medical man esteem moss. About fifty per cent. of Bristol's Sarsagarilla consists of the concentrated extract, the remainder, as above stated being composed of extracts from other powerful, cleansing and healing vehetable substances. It does not contain any thing that is dagerous or injurious to health, and in this, as in nearly overy other respect, is entirely different from all other preparations sold under the name of Sarsaparilla.

By having our own agonts at he places where the various roots, drugs, herbs and plants, composing our medicines, are produced, we are enabled to evercise that constant care in selection which insures uninformity of excellence, and we spare no money and no effort to procure the was part on money and no effort to procure the most abiding confidence we say, to be sick of all nations and all countries, that, in Bristol's Sarsagarilla yon have a remedy more reliable than any before offered to you, and which will no diappoint syou in the curre of.
