ON AND AFTER APRIL 1ST.

In the filling of Honor at the Vier na Exhibition. The feat of harnessing lighting is fairly done in this neat, efficient, and truly wonderful little machine. By this we manipulate the gold into the most difficult or frail tooth, with the most exquirite exactness, and without danger of fracturing the most delicate enamel, Then, with the same engine, we finish and polish the filling in less than one quarter the time formerly required, and without pain. No patient who has had teeth filled in this manner once, will ever willingly consent to the use of excavators or burrasgain.

We have also received an immense quantity of the most beautifully carved Artificial Teeth comprising thousands of different shades and forms, from which with our long practical experience we can match any style or feature, complexion, or expression, with such artistic incenes that detection is impossible.

The Plate we use for the atmospheric pressure is the Whaleboae Rubber, the lightest and strongest kn-wn.

We have been using Nitrous Oxide Gas

strongest kn.wn.
We have been using Nitrous Oxide Gas
for the painless Extraction of Teeth for

nown. It is nothing new, as it has been tosted by thousands of Dentists, and hungreds of thousands of people.

Persons from the Camp and neighboring Towns, can have their Sets of Teeth made in time to return same day, by making an appointment before hand.

The chief objects of this Society, as expressed in the bye-laws, have never been lost sight of by its officers, but due to many adverse causes, its usefulness has been less extended than what its founders aimed at.

After much expense and exertion a large reading-room with offices for the Society were provided, but the Statement of Receipts and Payments to small attendance of camp members at the reading-room during the year has proved that either the locality was inconvenient, or that the Directors were disbursing a large sum to meet a want that in the present state of Irish affairs in the Plate is not really felt or does not exist.

With far more success has the Board carried out another elementary object of the Society, namely "To foment Irish emigration to the Plate." Foreign Directors were named throughout the different counties of Ireland, and from the letters received, the publications in the Irish papers, and the statements of many of the more recently arrived passengers from Ireland, the board with pleasure congratulates the members on the beneficial influence of the Society in this regard.

Another important object of this Society was to afford useful, reliable information to all newly arrived countrymen, and during the secretary ship of the Rev. W. Walsh, on the entry of every steamer with Irish passengers, the halls of the Society were countrymen, who found at our doors a welcome and a friendly hand. Furthermore, an agent of the Society awaited the stran ers on the Molehead to care them, and every possible measure was taken to carry out the

Many claims to property and disput-louestions between Irishmen in the Mr. Edward Morgan moved an ed questions between Irishmen in the camp have been from time to time brought before the Society, and the term allowed to Irishmen to join this board feels much satisfaction in stating that through the sole arbitration of the Rev. W. Walsh several cases have been settled that would otherwise have been the subject of costly litigation. Since the departure of the Rev. Mr. Walsh this branch with some from date all Irishmen wishing to join others have fallen into abeyance, owing the Society, and who were in the Plate to the difficulty in bringing parties at the period of its organization, must together or finding a competent person who had time at his disposal to hear and decide such cases.

Resolutions were passed at one of the ordinary meetings for the nomination of sub-committees, &c., in the various camp towns, but this matter was finally overlooked, owing to the difficulty in getting the members to attend committee meetings in the

country towns. Since the resignation of the Rev. Mr. Walsh, the duties of Secretary have been ably discharged by Mr. James Browne, the Hon. A very staff question about anchorage of war vessels in Mon evideo, srose tast week. On the entry f the ussiancory tte Haydamck the port captain intimated to him that he should ancho farther out; the commander stiffly replied that he would not stir from his position. Then the port captain sent him a written note, but the Russian, instead of going farther out, came closer inside, and by some mistake came so close that he got his vessel on the rock facing the fort San Jose. At once the Port Captain sent two small steamers to get him off, the other war vesse s helping also. Ultimately she was got affoat and he then went a mile further out than his first anchorage.
