MAUA BANK

101 & 103 CALLE CANGALLO.

The Offices of this Bank having been removed to the above spacious Building, in order to suit the increasing flow of business, the Public is informed that the following transactions are carried on in currency and specie in this Bank:—

First—Bills and obligations with good signatures are discounted on conventional terms.

Second—Money is advanced on mercantile and other securities, approved of by the Manager.

Third—Accounts current are opened with Merchants or other parties who may prefer depositing collateral and transferable securities, against which they may draw up to an amount previously convened under conditions established for such class of operations.

Fourth—Money is received in account current, bearing interest from day of deposit, which is accumulated in favor of the parties every three months, the depositors being allowed to retire at any time, by means of cheques part or the full amount, at their wish, save when the quantity exceeds three hundred doubloons, for one hundred thousand dollars currency, in which case forty-eight hours' previous notice is required to be given to the Treasury of the Bank.

Fifth—Bills or letters of credit are drawn and taken on Montevideo, Rosario, Sta. Fé, Salto Oriental, Paysandú, Rio Janeiro, and other places in the Brazils, England, and France, as also on other places, of which due notice will be given hereafter.

Finally, the Bank undertakes and executes all legitimate transactions, within the orbit of banking operations.

The Establishment is always open from 10 a.m. till 3 p.m.

GOVERNMENT MORTGAGE BANK

Offices—111 CALLE SAN MARTIN.

This Bank will be open to the Public on all business days from 10 a.m. to 4 p.m.

It advances on real estate to be repaid at long dates.

It pays Mortgage Certificates (Cedulas Hipotecarios) for the amount of the loan it advances, which bear an interest equal to that collected by the Bank.

The value of property offered in mortgage shall not be under two thousand patacons, nor the loan be less than 500 nuertes.

No loan can exceed half the value of the property mortgaged.

The Mortgagor shall bind himself to pay an annual sum so long as the mortgage lasts, said sum to represent the interest on the sum lent the amortization fund and commission to the Bank. This yearly sum shall be paid quarterly or half-yearly.

Series A—Quarterly.

Mortgage for 20 years 117 days, 8 per cent. interest, 2 per cent. amortization, and 1 per cent. commission.

Series B—Quarterly.

Mortgage for 27 years 270 days; 8 per cent. interest, 1 per cent. amortization, and 1 per cent. commission.

Series C—Half-yearly.

Mortgage for 20 years 190 days; 8 per cent. interest, 2 per cent. amortization, and 1 per cent. commission.

Series D—Half-yearly.

Mortgage for 28 years 6 days; 8 per cent interest, 1 per cent. amortization, and 1 per cent commission.

Upon the full payment of the yearly sums stipulated in the Mortgage, both property and Mortgagor shall be freed from all further obligation.

The Mortgagor shall be at liberty to anticipate the payments and to discharge the mortgage, all or in part.

Applications for mortgages must be made in writing, specifying the property offered, accompanied by the title deeds, the receipts of the Contribucion Directa tax, and setting forth that the property is free from all incumbrance, or if not the incumbrance that exists thereon, and which is to be paid off by the mortgage. The Secretary of the bank will supply applicants with the forms necessary as also the tables for amortization.

Quarterly mortgagors shall pay from 8th to 15th of each January, April, July and October, and half yearly mortgagors shall pay between the 8th and 15th of each January and July.

With the amortization fund, mortgage certificates (cedulas) shall be redeemed at par by quarterly and half yearly drawings.

The mortgage Bank pays the interest on the quarterly cedulas or mortgage certificates between the 31st December and 6th January, the 31st March and 6th April, the 30th June and 6th July, the 30th September and 6th October every year, and on the half yearly cedulas from the 31st December to 6th January, and from 30th June to 6th July.

The Mortgage Bank can act between the capitalist and mortgagor, free of charge in the way of realizing the cedulas, and for this purpose will receive deposits without interest, which will receive a preference, and which sums will be deposited in the Provincial Bank.

On and after the 15th February 1872 the Mortgage Bank will be open to the public.

Having received several very important improvements viz.:—

Morrison's wonderful little Engine, for cleaning and excavating decayed teeth, preparatory to filling, which does the work with such rapidity and beautiful exactness, that in a very few seconds an otherwise sensitive tooth is prepared for the Gold in a manner unatt inable by the disagreeable method of scraping and burning, so well known by those who have experienced the operation.

Also Green's Electric Engine, which took the grand Diploma of Honor at the Vienna Exhibition. The feat of harnessing lightning is fairly done in this neat, efficient, and truly wonderful little machine. By this we manipulate the gold into the most difficult of frail tooth, with the most exquisite exactness, and without danger of fracturing the most delicate enamel, Then, with the same engine, we finish and polish the filling in less than one quarter the time formerly required, and without pain. No patient who has had teeth filled in this manner once, will ever willingly consent to the use of excavators or burr again.

We have also received an immense quantity of the most beautifully carved Artificial Teeth comprising thousands of different shades and forms, from which with our long practical experience we can match any style or feature, complexion, or expression, with such artistic incence that detection is impossible.

The Plate we use for the atmospheric pressure is the Whalebone Rubber, the lightest and strongest known.

We have been using Nitrous Oxide Gas for the painless Extraction of Teeth for nearly four teen years, and have administered over

20,000 Times,

2,140 times in this City alone, since August 1872,

And recommend it as the safest anesthetic known. It is nothing new, as it has been tested by thousands of Dentists, and hundreds of thousands of people.

Persons from the Camp and neighboring Towns, can have their Sets of Teeth made in time to return same day, by making an appointment before hand,

NEW ADVERTISEMENTS

TELL US WHAT CURED YOU?—Tired to death. When the sick ask everybody can tell what they died of. Is it not right, then that when the sick recover, all the world should know what cured them? And yet thousands are cured of deadly ills by Bristol's Sarsaparilla, whom the public never hear. Cases that approach the sublimity of miracles—such as that of the boy, James Wyckoff, who was literally wrenched from the jaws of death, when more than half devoured by scrofula—of course find their way into print. Perhaps a hundred such have startled society through the columns of leading journals and medical periodicals. But Bristol's Sarsaparilla has wrought thousands-aye, tens of thousands, of cures, after physicians had shaken their heads and said, "no hope." Everywhere, at all seasons, it is selectly working wonders. Would that, for the sake of humanity, the whole truth in relation to its properties were universally known. As a rule, Bristol's Sugar-coated Pills should be used at the same time with the Sarsaparilla. They take off from the system the diseased humors secreted on the latter. cj—al

CITY IMPROVEMENTS.

Now that summer is over it is advisable by all means to press forward actively the drainage works so long promised and so necessary for the public health. The contract is signed, the money has been obtained, the works have been commenced; but all is suddenly brought to a stand-still by contemptible difficulties which the Government and Legislature should at once remove.

At four different points the works are simultaneously obstructed, and although the matter has now been under Government deliberation for the last 15 days nothing has been done to arrive at a desired solution and profit of the cool weather for the prosecution of the works.

A proprietor named Mejia, at the foot of Calle San Martin, objects to the tunnel that is passing under his house, and has succeeded in checking progress in that direction.

At Calle Charcas a question has arisen with the Billinghurst tramway, and at Calle Cangallo another with the Lacroze line. Finally at the Convalecencia another barricade has been raised against Newman and Medici's workmen.

As regards Mr. Mejia his complaint may be well grounded, for we remember a case in which the constructors of the Metropolitan underground Railway got into a gentleman's kitchen, and others in which the engineers had to prop and bracket the houses, for fear of their falling. By all means let proper steps be taken to protect Mr. Mejia and his family, but surely this does not require a total cessation of works for a fortnight. If so, the present City-improvements will last over the present century.

The difficulty with the Tramway Companies seems to have been fully foreseen in the several concessions, all of them containing the clause that the rails must be taken up whenever and as often as the public convenience require it.

It is almost incredible that the obstacle at the Convalecencia comes from the Government of B. Ayres, which is supposed to be carrying out the improvements in question. The borers cannot drive a tunnel under the Convalecencia till the Government give its sanction.

Meantime the favorable season is passing, and who can say what will be the condition of the public health next summer? If the workmen are to to be brought to a halt at every house that shews signs of falling, or where ever a tramway crossing occurs, we might have spared ourselves the trouble of the Aguirre Loan and the bother of making a contract for such gigantic works.

MAGELLAN STEAM-TUGS.

Governor Viel is gone in the war-steamer Abtao, not to annex Gallegos and Santa Cruz, but merely to see what steps the Argentines have taken. His orders are to avoid a collision.

Gold-washing still occupies many people, who earn a couple of dollars daily, but a Frenchman has recently commenced works on a larger scale, employing Europeans and Californians, who report well of their finds.

The establishment of Chilian steam-tugs in the Straits is about to be carried out; 6 powerful tugs, to cost 70,000$ each and consume 15 tons coal daily, making the passage through in 4 days. Estimates are based on 8 vessels daily pay $400 each, at the rate say of fifty cents per ton. This would give $1,200.000 yearly or £230,000 sterling. The tugs would stay near Misericordia Bay on the Pacific, and Dangerous Point on the Atlantic side.

The Magellan Coal Co. has a privilege for 30 years, and pays Chile $1 per ton of coal sold. The Co, was formed at Santiago in January 1873 with a capital of 1,000,000$, in shares of 1,000$ each. The coal is very abundant, the present mines being about 5 miles from Sandy Point; it improves as the depth increases. As soon as the railway reaches the mouth of the pit 200 tons daily can be got down. During January and February the quantity supplied to the Pacific, Kosmos, and Belgian steamers was 764 tons at 6$ per ton, say 23 shillings. The iron lighters take 40 tons each alongside, and there is a floating deposit for rough weather.

The Colony is progressing, cereals are raised in some quantities, copper has been found of superior quality, and timber is abundant for exportation as railway sleepers.

LATEST FROM BRAZIL.

Rio Janeyro, March 22nd:

The Ambassador having laid the shore end of the cable which is to connect this city with the River Plate set out from Copacabana beach accompanied by the war-steamer Mearim, but the latter had not gone far when one of her boilers burst and she was obliged to return hither. The cable-steamer proceeded alone on her voyage, paying out the cable towards Santa Catalina. The Mearim had shortly before accompanied the Ambassador in sounding the route, and Mr. Klingelhoter acknowledged the services rendered by her, in a letter to the Government.

Messrs. Lamport and Holt have launched another steamer for the Rio Grande mail service: She is called the Cervantes, and is shortly expected.

The Emperor has commuted the sentence on the Bishop of Pernambuco to 4 years of detention at Fort Santa Cruz, in the bay. His Majesty will assist on the 25th at the opening of the Normal School in the upper part of the Conservatorio de Musica.

Grand crosses and decorations have been awarded to Baron Hauptman, German Minister, Alexander Wood, manager of the Brazilian Telegraph cable, Princes Charles and Regnier of Austria, Mr. Gunther and others.

The London and Brazilian Bank has appointed a new manager for the Angelica Coffee-estate the late manager, Philipson, having absconded with some money.

The railway from Port Alegre to San Leopoldo is to be opened next week: the contractors are Messrs. Watson and Smith, of London, whose agent, Mr. Sawer, has completed the line (26 miles) in two years through a woody and mountainous country, at £10,000 per mile, narrow gauge.

A general Railway Law for Brazil was promulgated on the 28th ult.

European papers announce the demise at Heidelberg, on February 9th, of Councillor Silva, Brazilian Minister at St. Petersburg; and on the 15th Mr. Henry Ratton, secretary of Brazilian Legation at Paris.

The Merrimac broke down on her last trip to New York, and stayed some days at Pará to mend machinery.

A conflict occurred at a village in the Province of Paraná, in a tavern, between the military and some Germans, the latter being accused of using bad language: 21 of them were arrested, but afterwards set at liberty.

A lot of 24 English colonists have left Assunguy, and gone to Tripodi's Alexandra colony.

On the 8th inst. the authorities of San Paulo opened the Sorocabana Railway, and Mr. Spetzler entertained them at a 'dejeuner.' Small pox is making ravages in this province, one village of 2000 persons losing 106 in two months. At Campinas two merchants named Claro and Magellans had a fight with knives and revolvers, in which Claro was killed. Sr. Castello has returned from Spain with 30 Gallegos for the San Paulo railway works to San Carlos. The surveys of Baron Maua's line from San Paulo to Matto Grosso and Bolivia are going on faster than before.

Mr. Silva has been sent to Rio Grande do Sul to inspect and report on the gas and water-supply projects for Rio Grande and Pelotas. The Bolsa committee of Rio Grande for 1874 comprises Messrs. Lins, Kohler, Pradel, Ferraz, McKenzie, Ewel, Breyer, Dietiken and Moreyra.

The heirs of a merchant named Castro have manumitted 18 slaves.

All the capital has been subscribed for the Count D'Eu Railway at Parahyba, of which £50,000 in that town.

In the same Province a band of robbers entered Pombal, broke open the prison, and liberated 42 malefactors.

At Ceará the light-house of Aracaty was inaugurated on the 3rd instant. The Ceará Gas Company's statutes have been approved.

The President of Bahia and other dignitaries took a steamer and proceeded after 4 hours voyage to the new Agricultural School of the Province, a splendid establishment, now ready to be opened. It has a library of 6,000 volumes.

Padre Oliveyra, who died at Bahia, was in his 93rd year and had served as a soldier in the war of Independence, before taking orders.

At Ituano a merchant named Pinto left some property to Padre Miguel, who at once distributed the same among the public schools, to buy clothing for the children.

Dreadful thunder-storms occurred at Rio Grande do Norte, causing some loss of life.

At Piratiny a female slave murdered her mistress and the daughter of the latter while asleep, and stole the sum of 5 dollars.

Yellow fever has been carrying off three or four persons daily at Rio de Janeyro: one of the deaths reported last week was Mr. William Casey.

ROSARIO.

March 28.

To the Editors of the STANDARD.

Gentlemen,

What do you think of the succesful placing of the Santa Fe Loan? The news is so stupendous that I am almost afraid to believe it. However, it appears to be a fact—three hundred thousand pounds at 92, 7 per cent interest and two per cent amortization. I question it Buenos Ayres could do better. Still, viewing the subject seriously, the loan is a safe investment. The province of Santa Fe, with her thirty odd colonies, her splendid agricultural and pastoral lands, and a seaport town like Rosario, her railways concluded and in prospective, and her three hundred miles frontage on one of the largest rivers in the world, give her a guarantee of future prosperity that may well inspire confidence in the London market. The revenue of the Province amounts to about four hundred thousand patacons, and the debt probably the same amount. But for this debt we have to pay an interest of from fifteen to twenty per cent, for the Government has had to pay dearly for all advances made to it. With this debt wiped off and a balance of eight or nine thousand dollars in hand, with an unembarrassed income, the province of Santa Fe ought to secure a development as rapid as that of Buenos Ayres. All depends on a good and upright administration, and I consider that the most fortunate part of the business is that the loan has been negociated simultaneously with the election of an honest man as Chief Magistrate.

The question now is, what is to be done with the surplus funds? I understand that the Government thinks favorably of the institution of a Provincial Bank on the principle of the National Bank, allowing the public to subscribe for a million, and becoming shareholders to the same amount. With a capital of two millions, the Bank might emit four or five millions; the profits of the Government shares would amply cover the service of the loan, and the province would be blessed with a relative abundance of capital. Mr. Bayo, I hear, is favorable to this solution, and also to the idea that the Government shall have no active interference in the Bank, except that, as in the case of the National Bank, they shall have the power to name a certain number of the directory.

All we want now is the Hypothecary Bank, the concession of which Mr. Storck is now in London for the purpose of negotiating, and we shall have your Buenos Ayres big-wigs in Rosario founding a Bolsa, and, 'mirabile dictu,' possibly a branch of Standard Court.

It is somewhat curious the wheat harvest in Chile should have been characterised by the same false appearances as that of this country presented. The *Mercurio*, of Valparaiso, gives us the following account of the harvest:—

"It must be confessed that the greater part of our farmers have been disappointed with the yield this year. The fields of wheat looked very promising, and no one could imagine that the yield would be disappointing; but the fact is that the farmer has not secured a production of more than five for one.

"If we look for the causes of this unexpected result, we shall probably find them in the heavy rains that fell in December, although it is evident to us that these could not have been the only cause. The ears of wheat were generally only half full of grain; some unknown cause prevented the rest of the ear from developing its grains, although its outward appearance did not denote any defect."

It is very evident that neither climate, soil, nor a rainy harvest, have been the cause of the short crop this year. Some secret influence, some description of sun stroke or wind stroke, must have caused the phenomenon of a defective ear on a healthy stalk; and that this phenomenon should have been so general that it has even extended to the region beyond the Andes. The exceptions make the case still more curious. While the wheat of half a dozen farmers would be found thus defective in its totality, that of a neighbour would be found quite perfect, giving a satisfactory yield. Another singularity of the last harvest is that lands generally considered the best wheat lands gave the worst results.

I observe that the *Operario Italiano* publishes a sensible article giving advice to its compatriots as to the best locality where to settle. The *Operario* evidently has a hankering after Entre Rios, but it goes into a description of the present state of that unfortunate province, and tells the Italian immigrant that Entre Rios is no place for him just yet. Perhaps in four or six years the objection may disappear. Here we have another grave result of the ridiculous gaucho attempts of Lopez Jordan. Immigration papers taboo the province, and with reason.

The *Operario* pronounces in favor of Santa Fe as follows:

"Notwithstanding the misfortune of being at the present moment misgoverned, Santa Fe is the most favored province of the Republic for immigrants. Its lands, its climate, its facility of communications with the metropolis and the high seas; the development of railways, telegraphs, steamers; all have contributed in making Santa Fe one of the wealthiest of our provinces; good laws and legislation, a liberal and wise government, would greatly increase the impetus of its progress."

The *Operario* delicately suggests to Mr. Iriondo's successor that the more he deviates from the beaten track followed by Mr. Cabal and Dr. Iriondo, and the more he copies Mr. Oroño's administration, the better it will be for himself and the province.

The owners of the guaranteed concession for the Gran Chaco Railway are in the field. I understand they will be wise enough to divide their line into three great sections, and commence operations with that between Rosario and the colonies of Santa Fe, which undoubtedly will pay seven per cent. from the outset, as the wheat of those colonies can be brought to Rosario by railway cheaper than it can now be taken to Santa Fe. It is suggested that this line should tap the Central at the nearest point to the Santa Fe colonies, and thus economise a million and a half of dollars.

Yours truly,

W. P.

The nicest novelty out in Paris this spring is cloth made from the feathers of barn door fowl. It is light in appearance and weight, but very warm, and excellently adapted for keeping out the delightful 'wind from the East, neither good for man nor beast,' which forms such a comfortable component of a European spring, but which we know not of in the Plate, "grace a Dieu."

EDITOR'S TABLE.

"Opening" is the order of the day. The first accurate news in town yesterday morning was to the effect that the dear old Mount had thrown quarantine, fever and physic to the canine tribe and her port wide open to all vessels from this Republic. Better late than never; but we must say that in this matter of port opening the sister city has shown an amount of willy-nillyness, affected apprehension, and genuine determination to give as much trouble as possible that would do honour to the most inconsistent of her sex. However, we forgive her, though the chances are she will do it all over again on the very first opportunity. Rio is now falling in for it, and every vessel from that port has to endure ten days quarantine. However, the Fluminenses don't care particularly about the Queen City or her affairs, which might shut up for ever and a day without affecting them to any uncomfortable extent.

The Ebro will sail this afternoon. 'Tant mieux.' She takes a positively awful amount of gold, and if she postponed her sailing for another day or two would, probably, take every gold coin in the country. For a long time past no ocean steamer has taken away such a lot of coin. Ironclads, powder and shell can not be had for nothing; and if we want them we must 'shell out,' the very thing we are doing, to a most uncomfortable extent. It's all for the good of trade, perhaps, and perhaps not. Time will tell.

"Where are you going for the holidays?" is now the favourite question of button-holding bores. This is a free a very free country, and no one is obliged to go anywhere if he prefers staying at home. For those mercurial people who cannot keep quiet during holidays, however, the best thing out is the excursion up the Uruguay to Concordia and all intermediate ports, in the fine steamer Rio Uruguay, which will leave to-morrow morning, returning in time for business on Monday. We know of nothing better than this holiday trip to set up seedy and overworked subscribers.

We intend to start a special column for Mr. Latest-paper Daws, as every day there is something fresh to say about him. Yesterday he was appointed Agent in the Plate for Mr. Geary's new illustrated London paper; and to-day we find that the mantle so worthily worn by Mr. Shoobridge as Agent here for the Art Union Society of London has fallen on the shoulders of Mr. D., Mr. Shoobridge having retired. What's on the cards for to-morrow morning, Daws? More STANDARD luck of some kind?

The sacred ceremonies of Holy Week commence this evening in all the city churches. To-morrow High Mass at the Cathedral at 10 o'clock a.m.; the Washing of Feet at 4 p.m., and Tenebræ in the evening. On Friday the ceremonies commence in all the churches at 9 o'clock a.m.; Passion sermon in all (except the Cathedral) at 1½ p.m.; Father Quiroga preaches in San Francisco. In the evening a grand procession will leave the Merced church. On Saturday Grand Pontifical Mass at the Cathedral at 9 o'clock a.m. On Sunday High Mass at the Cathedral at 10½ o'clock a.m., His Grace the Archbishop subsequently giving the Papal Benediction, by special favour of His Holiness. The Procession of the Resurrection, not seen for years in this city, will leave the Santo Domingo church in the evening.

In a small country village lives a well to do farmer who has a nine-year old hopeful by the name of John. One day the farmer told Johnny that the minister was coming to take dinner with them, and that he must be careful and behave better than usual; and whenever the minister spoke to him, to answer 'Yes, sir,' or 'No, sir,' as the case might be. At dinner they had, among other things, some beans and being nearer to them than Johnny was, the minister asked him if he would have some. 'No,' was his blunt reply, greatly to the mortification and astonishment of his parents. The father looked angrily at the lad, and in slow accents said. 'No—what!' intending it as a reminder. 'No beans!' answered Johnny, promptly.

The new Provincial Bank opens today. It was whispered yesterday amongst a select few that there will be a 'rare old Port,' ham-sandwich and Havana cigar blow-out, to give due importance to the auspicious occasion. All the customers of the Bank are affectionately invited to attend, and the brokers are in tremendous spirits. "I know a Bank to which the 'hard up' go," was the favorite air on 'Change yesterday afternoon. After all, the Provincial Bank is, always will be, and deserves to be the pet of the Buenos Ayres market. The general interest taken in the opening of its new building is a proof of this. If any other bank wishes to measure the feelings of the public towards it, it must shut up for a few hours; as for the opening business, the Provincial has it all its own way.

The practising of musketry exercise in the Plaza Lorea on Sunday by some companies of a Line-regiment led to three citizens being wounded, projectiles of some kind being introduced into the rifles, whether maliciously or not, can never be known. The mail has brought out the result of the great Coursing contest of the year for the Waterloo Cup. England and Ireland were left to fight it out with their champions Magnano, belonging to Mr. Morgan, and Surprise, to Mr. Swinburne. The verdict was given in favour of the English dog; but the *Field* and other sporting papers declare that the Irish dog was treated untairly when running off the previous ties, as he had to run three courses to his opponent's two, otherwise he would have won; as it was, Surprise 'rau up' splendidly, and only lost by a single point. Strange to say 1,000 to 7 was laid in the beginning against both dogs. For the last 17 years the Waterloo Cup has always been carried off by a North country dog, but Mr. Morgan has now broken the spell with Magnano, who is Southern bred.

CITY OF BUENOS AYRES IMPROVEMENTS.

EXTRACT

From minutes of meeting held at Mr. Sampson's Chambers, 4, Westminster Chambers, S.W., on Wednesday, 12th November, 1873.

The reports of Mr. Bateman and Mr. Moore to the commission in Buenos Ayres, dated respectively the 28th August, and the 23rd September, 1873, on the tenders for the works were read, and the decision of the commission in Buenos Ayres that they had accepted the tenders of Messrs. Medici and Newman was officially communicated by the president.

A letter from Messrs. Ogilvie, Wythes, and Aird, formally protesting against this decision on the ground that their tender was in reality the lowest, and that the decision of the commission in Buenos Ayres was given upon improper information, and a singular manipulation of the figures of the tenders, which showed erroneously that of Messrs. Medici and Newman to be the lowest. Mr. Sampson suggested that the letter of Messrs. Ogilvie, Wythes and Aird, should be remitted to the engineer for his observations, and that another meeting of the special commission be summoned to consider the same when ready.

This suggestion was unanimously agreed to.

City of Buenos Ayres Improvements.

16, Great George-street, Westminster,
12th November, 1873.

Dear Sirs:

I am directed to inform you that your letter, addressed to the president of the special commission in Europe, dated this 12th instant, was read at the meeting of the special commission held this day, and it was determined to refer your letter to the engineer, Mr. Bateman, for his observations, and the commission will again meet to consider the question.

Mr. Bateman has promised to lay his observations before the commission as soon as he had an opportunity of considering the report of the commission in Buenos Ayres, an official copy of which is expected by the mail due on the 17th inst.

Yours faithfully,

GEORGE A. ROWBOTHAM,
Sec. to the Special Commission.

Messrs. Ogilvie, Wythes and Aird and Sons.

Buenos Ayres Improvements.

4 Great George Street, Westminster
November 17th 1873.

To the Secretary of the Special Commission in Europe, 4 Westminster Chambers.

Sir,

We beg to acknowledge your communication of the 12th inst. and have received futher letters from our Agent Mr. Hancox, accompanied by a Copy translation of the Report of the Local Commission at Buenos Ayres which fully comfirms the views and remarks we had the honour of addressing to the President of the Special Commission on the 12th current.

If the Translation before us be reasonably correct, we cannot but regret its character and spirit and deprecate the pretences upon which Tenders have been invited from this country.

We take the opportunity of mentioning that Mr. Hancox informs us of the alteration of the 'Reference' Clause. Awaiting the explanations to be afforded us connected with this important matter.

We are, Sir
Yours obedient servants
Ogilvie, Wythes & Aird & Sons.

ON 'CHANGE.

March 31st, 1874.

Ounces	400
Sovs	122½
Pats	25
Nat. Bonds	81
Cedulas	84

This being the last day of the month the business in Cedulas was large; the 'vencimientos' were marked at six millions, but in reality the business amounted to 12 millions. All during business hours Cedulas kept up wonderfully, and people who knew what was going on wondered tha there were so few Cedulas offered; but at half-past 4 there was a real stir at the liquidators' table; 137,000 Cedulas sold for cash at auction at 84. When this news got wind of course there was much excitement; one or two sharp brokers had come supplied with ready money and paid down on the spot. The fall is very stiff. Cedulas closed on 28th Feb at 86 cash, and on 31st March 84. The bears believe in the fall as permanent, but at low prices there are plenty of buyers.

It was announced to day on 'Change that another of the foreclosure sales of the Mortgage Bank was stopped to day by the Mortgagor paying up. The auction was called for 18th April—three square leagues of land near the Volcan.

The French mail steamer Mendoza sailed today. She took a crowd of passengers for Montevideo; also some specie, am unt not stated.

There was a great hubbub on 'Change this afternoon, when the telegram was put up stating that still there is two days quarantine. Every merchan contradicted the statement, the Consul a so, and the affair was most perplexing for those going to the Mount. However, the general impression is that there is no quarantine and Mr. Santa Maria, who was on 'Change to day, stated that the Italo-Patense passengers that left here last night are all on shore, and have sent up telegrams. This recruited the hopes of those who have to go down. Mr James Lowry goes to morrow in Ebro, also Mr Nordenholtz, German Consul; a so Mr Robert Crawford, representative of Messrs Waring Bros; and Mr Newman, City Improvements contractor, who goes to see about getting some brick machinery which is down there.

The well-known bar aquero firm of Beckhaus and Co. is dissolved and the business will henceforward be carried on by Mr. William Beckhaus who during his absence in Europe has given full powers to Mr. F. Oestorhe d.

The sale of cargo of salted hides in the Moun was announced to day at 84

Discount brokers report money much tighter to-day, and particularly on stock; this of course is caused by the heavy demand for money to-day be carry Cedulas, the deliveries were very stiff and completely swamped the speculation for a rise which about a fortnight ago we adverted to; spite of all the efforts of the bulls Cedulas came on the table too fast, and it was freely said one well-known broker had given way.

National Bonds showed a rise to-day, and sales effected at 81.

The sales to-day were—

Nat. Bonds.

	4,000	81

Cedulas.

For cash	45,000	85⅛
do	65,000	85

do	40,000	84½
do	5,000	85
do	127,000	84⅞
do	360,000	85
April 30th	10,000	85½
do	70,000	85¼
do	20,000	85½
do	70,000	8 ⅜
do	90.000	85¼
do	80,000	85⅛

Sale in the liquidation at 5.30. It was decided to sell the Cedulas on the table by auction. The amount was 70,000, Mr Wilkie auctioneer. The first two lots. of 10 000 each brought 84½; then 20,000 at 84⅛ For the remaining 30,000 the bidding was more spirited—knocked down at 84¾—after which some outsiders rushed in, offering 84½. but nothing done. Buyers for end of April at 85.

Much of to-day's liquidation stands for tomorrow owing to absence of one party.

Market closed sellers at 84 cash, and for end April 84½.

Exchange done at 19½, and on Antwerp 5.21. The Provincial Bank paid out to-day condors and French gold, and it is said on 'Change that the gold brought out per Ebro is French gold.

Messrs. Wright Kelso's line of teamers from Liverpool to Buenos Ayres and Rosario is stopped.

At last all doubt about the Montevideo port and quarantine is removed. Early this morning Mr. Beccar received his telegram stating that the Board of Health had met at Montevideo and decided to abolish all quarantine restrictions, as the epidemic had at last disappeared. The telegram spread joy through town, and some 250 people at once set about packing up to leave tonight in the French packet for Montevideo. It was said on 'Change that the Mendoza takes specie and that the Ebro takes close on £200,000 sterling.

The discounts of the Provincial Bank reached 15 millions currency. The applications at the National Bank show a great falling off, which is attributed to most parties holding back till after 1st of April, in order to avail of the reduced rate of discount—10 per cent.

There was much said on 'Change to-day about a new map of Chilo published at Paris and hung up on the Bolsa. On this new map all the territory in dispute down at the Straits is marked Chileno. Mr. Beccar, the Bolsa manager, seemed somewhat surprized when his attention was called to the matter.

We publish to-day Mr. Bateman's letter on the City Improvements contract, the document is a most important one, and will interest our commercial community.

Mr. John E. Clarke concessionaire of the Transandine Railway has after a journey across the Andes arrived safely at Valparaiso

The 'Gomez' is the name we find in the Rio papers of the steamer that brings the remainder of the Platino Cable to connect Santa Catalina with Chuy. She is probably at Rio by this, so we may expect the communication to be through to Rio, if all goes on well, in a few weeks.

Amongst the passengers leaving to-morrow in the Ebro is Mr. Huthwalcker and family. Mr. Huthwalcker is well and favorably known in commercial circles here and we hope to see him soon return.

The new Provincial Bank in Rosario is the talk of the market. We hear that the proceeds of the Santa Fe loan will be applied towards founding a bank; the business in very good hands may prove all right, but it is a dangerous experiment, and many parties would be better pleased to see the money invested in new colonies.

Holders of Entre Riano bonds are notified that the coupons of the bonds held in this market are payable from 1to 15th at Messrs Llavallols' office in Calle Cangallo, nearly the whole issue is held in this market.

Messrs. Gandolfi Rossi and Co, report the following as the exports of the fortnight from 14th to 30th March.

Horns 32,600.
Patre hides 330.
Sheep-kins bales 12.
Dry cow hides 39,973.
Salt do. 6,000.
Horse hair bales 52.
Tallow pipes 95.
Garras bales 6.
Wool do. 4,413.
Hay do. 719.
Jerked beef kilo 904,372.

The export business for the fortnight shows a very small return.

Our steamboat traffic on the river is at last reopening. To night the Mendoza goes to Montevideo; to morrow the Saturno and Silex, of Mr. Risso's line, start for same port. The Rio Apa, for Rosario, leaves on Thursday; the Silex, for Uruguay, sails on Friday, and the Primer Argentino on Saturday, whilst Captain Bruce's steamers from the Tigre run as usual, and always crowded with passengers.

The Municipality has granted permit to Mr. F. Goizue to start a sheep graseria alongside the Puente Alsina; and we hear of another graseria about to be started at Azul. It seems that the working last year of these graseria establishments has given great satisfaction.

The contract, we hear, for the carriage of the bricks for the city improvements works with the Northern Railway has been concluded. It begins on the 1st November, and engages for the carriage of one hundred thousand bricks per day for three years. Good business this. The Pyramids of Egypt were, after all, a small concern in their day to this brick contract with the Northern Railway.

The new credit for £200,000 just opened by the War Office is to meet the drafts coming out on account of the ironclads. There is much said about this business. It seems that the large exchange business for £100,000 sterling which we mentioned the other day has been done, and the brokers now admit it. The amount disbursed on account of these ironclads is estimated by the brokers at over four millions patacons: heavy business this. In the *Boletin* of to-day we find a payment of 392,228 pats. to Mr. Alkaine for exchange.

The Treasury balance at the Bank stands so—

	Pats.
Provincial Bank	3,458 000
National Bank	3,000 000

The Buenos Ayres Custom House receipts on 23rd inst. were 33,593 pats. This shows a falling off.

All the brokers, bankers, merchants, barraqueros, shippers, depositors and dealers are invited to-day to the Provincial Bank, where banking business for the first time will be carried on in the new edifice. No special invitations have been sent round, but a general invitation to all parties dealing with the bank is given and we hear that Mr. Cuyar and the chief clerks have been supplied with splendid Havannah cigars 'ad libitum' wherewith to regale their visiting friends on so auspicious an occasion.

The following important advices we have received from the States—

"An important question is now pending in the United States Circuit Court, and will be tried in the coming week before Judge Nathanial Shipman. The firm of N. D. Carlisle and Son imported into this city a quantity of wool. The Collector, General Arthur, imposed on this wool a duty of ten cents per pound and eleven per cent ad valorem in addition, claiming that he was entitled and empowered to do so under the act of Congress of March 2, 1867. The duty thus imposed by the Collector amounted to $20,000, and the importers paid this sum under protest. Carlisle and Son now bring an action against the Collector, as representative of the government, to recover this sum back, and they set up that the act of Congress under which this duty was imposed is unconstitutional, on the ground that it was not signed by the President until the 4th of March, 1867, and that, according to the general acceptation of the terms of the constitution, the act did not actually become law until the very day upon which it was signed by the President—the 4th of March, 1867. The wool which is the subject of the present litigation was not imported until the 3rd of March, 1867, the day before the act was signed. A deposition in relation to the controversy has been received from ex-President Johnson. The deposition is to the effect that Mr Johnson did not sign the act until early in the morning of the 4th of March, 1867, but that, according to the practice then existing in regard to the signing of bills passed by Congress, he signed the one in question as of the day of its passage, March 2nd, 1867. The question to be determined in this case seems to be this—When it is not claimed that an act of Congress is unconstitutional, can evidence be given to show that it was signed by the President on a day other than that on which it purports to have been signed by him? In this very interesting suit Mr J H Choate of the firm of Evarts, Southmayd and Choate, appears for the plaintiff, and an assistant from the District Attorney's office for the Government.

"In the suit of Carlisle against Smythe in the United States Circuit Court to day, Judge Shipman sustained plaintiff's contention that an act of Congress which by its terms is to take effect on and after the day of its passage is not, although passed by both houses of Congress, to take effect until signed by the President. The suit was brought to obtain restitution of duties which Collector Smythe has exacted on goods entered March 3rd, 1868, the act having passed through Congress March 2nd, and been approved by the President March 4th. Judgment for plaintiff.

We received per last American mail the following important review of the wool market:—

"It was not until the last of November that there was any noticeable advance in prices, when the better financial feeling, the growing belief that domestic wool had come forward to manufacturers and the market, and gone into consumption to a very unusual extent, the knowledge that stocks of foreign fine wool were at the minimum, and that the gross supply would not be equal to the demand, if all the machinery again started, led to a sharp advance, and wools that were sold in October at 40 to 45 cents fetched 50 to 56.

"Accordingly, the year 1874 opens with a smaller amount of both domestic and foreign wool for sale than any season since 1870, in which year, just before clip time, there began that immense importation and excessive rise in values which brought us to, rather than averted, disaster to the trade and our mills. Circumstances then were not visibly more favorable to so wonderful a change than now, except for the fact that some of the machinery is idle, though we cannot see that the inconsiderable amount can seriously affect the result.

"We have nine million pounds more foreign (largely for carpet kinds) now than then, and vastly less domestic for sale or in manufacturers' hands, and very, very much less to arrive from any known orders. Indeed, it would be difficult to say what now would be the prices of wool in our markets if it had not been for the great troubles of September.

"The clip and the pulled wool of the U. States has been placed by one broker at 174,000,000 pounds for 1873, and for 1872 at 160,000,000 pounds. The statement is not susceptible of satisfactory proof, except on the theory that the consumption of the U. States exceeds 250,000,000 pounds of wool, exclusive of shoddy and other materials used with wool.

"In addition to domestic wool, we used in 1872 89,000,000 pounds of foreign, as demonstrated in our Report for January, 1873, and 66,000,000 pounds for 1873, as shown by statistics herewith, or an average for each of two years of 77,000,000 pounds. The average domestic, if the above statement of product be correct for each year, is 167,000,000 pounds, which would give an annual consumption of 244,000,000 pounds, provided the stocks on hand at the commencement and close of the term were equal, and the stock of all wools is undoubtedly less at the close, making consumption larger. Applying the same test to four years, the result will be very nearly the same. This amount is more than the full running capacity of every set of machinery in the country for the full number of working days in a year. We place the wool clip and the pulled wool of the United States for 1873 at 135,000,000 pounds, based on all well-digested information.

"All evidence concludes that so long as woollen mills are kept in full operation, and until such time as the production of domestic wool shall be equal to consumptive requirements, we must import to supply the deficiency; and since in 1872 we consumed 89,000,000 pounds foreign, and in 1873 66,000,000, and the increase in the clip cannot exceed 14,000,000 for 1873, the amount to be imported for 1874 will not be inconsiderable. The quantity of fine long wools now for sale being very light, and not enough to meet demands till shearing time, it seems important that we look for a source of supply."

SAVINGS BANK
BANK MAUA AND CO.
101--Calle Cangallo--103
BUENOS AYRES.

The immense advantages of Accounts Current are now so generally felt and appreciated in the great emporiums of the River Plate, Montevideo, and Buenos Ayres, that there are very few Merchants who fail to keep one at the bank in which they place the most confidence.

The Bank of Mauá & Co. in Montevideo has already provided for the working classes in that city a safe and profitable depository for their savings.

The sums deposited in that very important institution are daily increasing, and already reach a very large amount.

These advantages have not hitherto been enjoyed inthis city by an immense number of clerks artisans, working men, and servants of all classes and conditions, who are equally interested in putting their savings out at interest, thus providing themselves with a reserve fund in case of need sickness, or old age, instead of spending them in immoral gambling, in lotteries, and other frivolities.

The Bank of Mauá & Co. of this city, following the noble example of their firm in Montevideo, offer the same facilities in this city, and has opened a Savings Bank at No. 103 Calle Cangallo from Nine a.m. till Three p.m. every day, for the reception of the savings of the classes already mentioned, Sundays and holidays excepted.

The Bank will deliver to each depositor a pass book, in which will be entered the amount deposited and withdrawn.

The depositor is permitted at any time to withdraw the whole or part of the sum deposited; in the former case the interes will be calculated up to date.

The Bank of Mauá & Co. is sufficiently known to the Public by the benefit derived from the course of its operations, which are regulated on the strictest and soundest principles, and always directed to promote the general welfare.

The Bank of Mauá & Co. are also persuaded that this new branch of their business will render immense service to the working classes of Buenos Ayres and its neighborhood.

Buenos Ayres, 2nd January, 1867.

P. P. MAUA & Co.,

M. A. DE FREITAS AMORIM

CONDITIONS.

First—The Bank receives at interest any sum rom Twenty-five Dollars currency or one Silver Dollar upwards.

Second—The interest allowed is six per cent. (6 p. %) per annum, which is liquidated every six months.

Third—The depositors can at any time retire the whole or part of the money deposited.

Fourth—Once the money deposited exceeds a y-ix ta sand dollars currency, or one thousand dollars silver, the depositor, if he wish can open an account current, according to the rules estabished by the Bank.

Fifth—In case the depositor loses his pass book it can be replaced by another on paying twelve dollars currency, and advertising the loss in the public newspapers.

Bristol's sarsaparilla
Is prepared in the most scientific manner, by thoroughly educated chemists and Druggists, who have had many years' experience. It is not a simple extract from one article, but is compounded of extracts from a number of Roots, Herbs Barks, and Leaves, all of which are possessed of some particular virtue or power in curing the diseases that have their source in the blood and humors; these different vegetable extracts are combined in such a way as to retain, in so full strength, the special curative virtue possessed by each. The root of the Sarsaparilla plants found in Honduras, is that which we use in this preparation; it is the kind which all medical men esteem most. About fifty per cent. of Bristol's Sarsaparilla consists of the concentrated extract, the remainder, as above stated being composed of extracts from other powerful, cleansing and healing vehetable substances. It does not contain any thing that is dagerous or injurious to health, and in this, as in nearly every other respect, is entirely different from all other preparations sold under the name of Sarsaparilla.
By having our own agents at he places where the various roots, drugs, herbs and plants, composing our medicines, are produced, we are enabled to exercise that constant care in selection which insures uninformity of excellence, and we spare no money and no effort to procure the best—and only the best—of every article entering into their composition; and it is with the most abiding confidence we say, to be sick of all nations and all countries, that, in Bristol's Sarsaparilla you have a remedy more reliable than any before offered to you, and which will no disappoint you in the cure of

Abscesses, Boils, Eruptions
Scrofula or King's Evil,

As a means of building up the constitution that has been broken down by the excessive use of Mercury, Iron, or other Minerals, our Sarsaparilla will be found most excellent, and can be administered with safety to the weakest patients. As a purifier of the blood and humors, in the Spring and early Summer, it will the found unfailing. It can be taken freely at seasons, rainy or dry. For some of the above diseases, the use of the Sarsaparilly must be continued a considerable time, especially for those that are hereditary or constitutional in their nature—such as Scrofula: but a faithful compliance with the directions will always relieve and mitigate, and in a great majority of cases will effect a complete cure. It will also be found, in all of the above diseases, that a cure will be greatly hasted by using our Bristol's Sugar-coated Pills, in moderate does, in connection with the Sarsaparilla; they carry off large quantities of morbific or diseased matter set free in the system by the Sarsaparilla, and in this way facilitate the return to mal fnuctional operations. —c— 46
