It must be borne in mind that Great Britain takes only a small portion of our produce, Belgium being our chief customer. As soon as the Finance Minister sends in his report for 1873 we can compare it with the British trade returns. Meantime, suffice it to say that the gross import and export trade between the River Plate and Great Britain reaches ten millions sterling per

> PUNTA LARA WHARF. OPENING FOR PUBLIC TRAFFIC.

Under date Friday 15th inst. President Sarmiento issued the following decree for opening the Punta Lara pier for import or export trade. A few months ago we had the satisfaction of seeing an American vessel dis charging her cargo there with the greatest ease, when no lighters could load or discharge in the roadstead of Buenos Ayres on account of the rough weather. The utility and convenience of the pier in question, which is 3,000 feet long with a tramway the entire length, were abundant reason for

FOOTBALL

The first match of the Buonos Ayres Football Club under their new rules (Rugby Union) took place on Thurs day, the 14th inst., when a very fair muster attended.

Play commenced about 11.30 p.m., under the respective leaderships of Messrs. Trench and Hogg, by whom the sides were chosen. Notwithstanding the heat of the mid-day sun, the play was very spirited for some time, Tomkinson and Ackerley being untiring in their efforts to get the ball away, and Mackern always on in the scrimmages, which were almost too frequent. Later on a good run in by W. Tyndale resulted in W. White scoring the first goal for Mr. Trench's side, and the players adjourned for a or before the 14th August. This empresor is dis

On commencing again, the losing party played up so vigorously that the ball was kept up near their opponents' quarters all the rest of the afternoon.

Messrs. Menzies and Ackerley and others ran exceedingly well, and with great judgment succeeded in obtaining 5 or 6 touches down, but owing to the very bad place kicking no goal was scored, and the victory remained to Mr. Trench's side.

A little too much anxiety was dis played by some players to pick up a ball when a well directed kick would have done their side more service, and the useless zigzagging across the ground would be better avoided. The following is a list of the players-

The contract for 26 kilometres of earthwork has been given to Mr. Jeseph Wells, to commence from the Rio de las Conchas towards Campana, reaching nearly to the Rio Lujan, which rather fermidable stream will be crossed by substantial iron bridge, now on route from Englan !. Mr. Wel s' contract has to be completed on playing a very commendable activity, and w hear there are five v ssels with rails and other ma teria's on the w v from the old country. We are nformed that in connection with this important ling there is in course of formation a company to provide the requisite steamers to comprehend all the requirements of the Parana. Once complete we shall be able to dine in Buenos Ayres. breakfast in Rosario, and dine again in Cordoba

This is progress. Lette:s from Cordoba say that nothing is alked of up there at pr sent save the new branch of the National Bank to be opened to the publi on or about the 25th of May. Through some ndiscretion on the part of the local board, the private instructions sent up about getting a nouse, &c., have leaked out, and have fairly startled Cordoba for their severe economy. The D.rectors are limited to 60 pats, per month rent, and 500 pats. for furnishing the house, offices &c. Although the sums seem small when compared with the magnificent out av of the Bank in Buenos Ayres, still it a very healthy, good sign to see the National Bank willing to make so humble a start. When the Bank grows into s large business, then it will be time enough to start brass railings and mahogany counters. For the size of the place and the business at its com-

nand, Cordova has altogether too many banks. The Provincial Bank of Cor ova. London and River Plate Bank. Otere and Co's Bank. Argentine Bank, and now National Bank.

Five banks in such a place as Cordova are too nany for the p ace; its industry is limited, and its trade a mere cypher. Even with four banks in the place we read that the government is hard up, and the public employees so long without th ir sa'aries that a provincial Cordovese loan i ow being made with the National Bank for 300,000 pa's. But why name a commis sioner at a l? we had understood that Mr. George W. Drabble had undertaken to take the whole oan for account of the River Plate Bank, and, why not : ccept the offer?

The Governor of Buenos Ayres has just lrawn one of the largest bills of exchange ever pa-sed in this market. The bill, strange to say, was for 'seventy thousand ounces,' or say £250,000 -terling, on Messrs. Waring Bros., and in favor of the Provincial Bank. There is still a balance of several thousand pounds sterling, which the Governor has directed Messrs. Baring to pay over to Mr. Sampson, the money editor of the Times, Argentine Consul General in London, and President of the London Water Board.

Advices from Rio Grande are most unfavorable, the money crisis it appears is as bad the.e as ever, and faitures continue to be the order of the day, business at a complete stand still; the faena (sa'a iero) shows a heavy deficit. Anima's killed to date 237,147, against 295,000 same time last year, showing a deficit of 57,853 head on last year, and 102,853 for year 1872. Owing to the news of a fall in exchange in Rio Exchange has fallen suddenly in til Grande.

The following table shows to a certain extent the working of the San Fernando Whirf Co. The company applied to the Northern Railway for 26 American waggons, and only received 13; for 12 covered waggons and only received 9; for 14 open waggons and only got 9; showing 52 waggons applied for and only 31 received. This shows how deficient is the rolling stock of the Northern Railway, and the rapidly increa ing traffic of the San Fernando Wharf Co.

We publish in another column the new decree of the National Government respecting the Punta Lora mole, allowing vessels to load and di charge here the same as in the port of Buenos Ayres. This is a move in the right direction, and will prove an immense convenience to the shipping trade of Buenos Ayres.

Bristol's sarsaparilla

Is prepared in the most scientific manner, by thoroughly educated chemists and Druggists, who have had many years' experience. It is not a simple extract from one article, but is compound, ed of extracts from a number of Roots, Herbs Barks, and Leaves, all of which are possessed of some particular virtue or power in curing the diseases that have their sourse in the blood and bumors; these different vegetable extracts are combined in such a way as to retain, in so fall strength, the special curative virtue possessed by each. The root of the Sarsaparilla plants found in Honduras, is that which we use in this preparation; it is the kind which all medical man esteem moss. About fifty per cent. of Bristol's Sarsaparilla consists of the concentrated extract, the remainder, as above stated being composed of extracts from other powerful, cleansing and healing vehetable substances. It does not contain any thing that is dagerous or injurious to health, and in this, as in nearly every other respect, is entirely different from all other preparations sold under the name of Sarsaparilla.

THE MANAGING COMMITTEE bog to an-nounce these races for the

and have received such unqualified support in a their efforts to organise this Rounion that they have much pleasure in efforing to the public the following exceptionally good programme.

The Navarro Races have deservedly attained much popularity in the Camp. The Articles are distinguished for their liberality, and the Committee venture to anticipate, with such inducements, that the ensuing meeting will be an unusually successful one.

Through the indefatigable exertions of the Committee, they have succeeded in obtaining the same ground as they had lest season, and some necessary improvements will be made in the Course; and they hope that nothing has been left un one to render the September Meeting a thorough success.
