### 108 CALLE MAIPU

Having received several very important improvements viz—  
Morrison's superior Little Engine, for cleaning and excavating decayed teeth, preparatory to filling, which does the work with a rapidity and beautiful exactness, that in a very few seconds can extract sensitive teeth, and prepared for the Gold in a manner unattainable by the disagreeable method of scraping and burning, so well known by those who have experienced the operation.  
Also Green's Electric Engine, which took the grand Diploma of Honor at the Vienna Exhibition. The feat of harnessing lightning is fairly done in our most sensitive teeth, and with the most exquisite exactness, and without danger of fracturing the most delicate enamel. Then, with the same engine, we finish and polish the filling in less than one quarter the time formerly required, and without pain. No more of those agonizing fillings, and the same manner, will only willingly consent to the use of excavators or burrs.  
We have also received an immense quantity of the most beautifully carved Artificial Teeth (comprising thousands of different shades and forms, from which with our long practical experience, we can select the most perfect, and the most pleasing to the eye, and most natural in complexion, or expression, with such artistic incomes that detection is impossible.  
The Paste we use for the anti-septic presence is the Wash-bone Rubber, the lightest and strongest known.  
We have been using Nitrous Oxide Gas for the painless Extraction of Teeth for nearly forty years, and have—  
20,000 Times,  
and recommended it as the safest anesthetic Agent. It is nothing new, it has been tested by thousands of Dentists, and hundreds of thousands of people.  
Persons from the Camp and neighboring Towns can have the best of To-day and Time to return, save day, by making an appointment before hand.

PUNTA LARA PORT. Treasury Department, Buenos Ayres, May 20th, 1874. Decree.

The port of Ensenada having been declared a port of entry for home and foreign commerce, and the office of collector at that port having been created by the law of Revenue and Expenditure; the President of the Republic, with the view of avoiding the inconvenience to commerce of two entries of vessels, when, from the proximity of the two ports, Buenos Ayres and Ensenada, their operations may not be confined to one alone, decrees as follows:

1st. The collector's office at Ensenada shall be opened on the 1st June next. 2nd. The functions of this office, in those cases where vessels may use both ports for their operations, will be limited to the simple duties of the preventive service, as a dependency of the Custom-house at Buenos Ayres.

3rd. This decree to be published, communicated to whom it may concern, and inserted in the National Register. (Signed) SANTIAGO S. COPIER.

EDITORIAL TABLE.

Yesterday overflowed with news. The Cotopaxi and Hipparchus's mails were delivered, and they contain much interesting intelligence.

The City Improvements progress rapidly. The men working the Calle Bolivar and Mexico shaft met yesterday those from the Calle Defensa tunnel, so that there is now free underground communication at a depth of more than 40 feet, and one may descend in Calle Bolivar and come up in Defensa. The shafts in Calle Cordoba are also advanced.

Half our time at the Court yesterday was occupied in receiving visitors. First came numberless fair subscribers who wanted about half-a-million questions answered in five minutes. We did it, and survive. Then we had the pleasure of saluting the new American Consul, whose coming to B. Ayres is a regular piece of STANDARD luck, as he was thinking of going to Europe, but changed his mind in favour of the Plate at the last moment.

Mr. Waldeck, the translator, prefaces the pamphlet thus—My object in giving to the German public this work is, that they may become acquainted with so important an essay. The clearness and conciseness with which the matter is handled will give strength to one of the pillars of our new edifice of civilization, by enlightening our public on so important a matter.

At the reception of the new U. States Minister on Thursday, by President Sarmiento, when the official speeches were spoken, General Osborn approached the President and begged the favour of an introduction to General Mitre, whose fame as an Argentine statesman, soldier and scholar is well known in the Great Republic.

Our esteemed Iberian colleague the Correo has changed its quarters to our old editorial lodgings in Calle Belgrano. The place is naturally teeming with inspiration, and there are but few better sites in town for a newspaper; but if the new tenants expect to find any Onces under the patio flags they will find themselves woefully mistaken.

Dr. LOPEZ ON CIVIL MARRIAGE (From the Deutsche Zeitung.) We have much pleasure in reproducing to you the Spensche Zeitung of Berlin the following remarks on Dr. Lopez's pamphlet, in justification of the views published by him 6 years ago both here and in Germany, and which are now made law in the German Empire.

historical. He shows that in the oldest times the validity of marriage depended on the civil contract, after which the benediction by the Church took place; until in the Middle Ages the power of the Popes came to modify the law and establish as a right what was only a concession. Among other examples is quoted the case of Pope Adrian II., who forbade the Bishop of Chalons-sur-Marne to nullify a marriage celebrated according to civil rite and without ecclesiastical benediction.

There was much of a panic feeling in the Cedula market to-day. New Cedula from the bank, and old Cedula from outsiders came in fast, the bills were nowhere and the bars triumphant. Some said the news from Europe affected the market, others that all the banks had suddenly stopped discounting, others that exchange was falling, and not a few lay the whole cause of the market's weakness to the state of things in Montevideo.

At a late hour in the liquidat on brokers reported Cedula's shado firm. The quotations of Argentine stocks in the Times of 24th show little alteration on the prices given in the telegram. The Argentine Huan Dollar is quoted at 82, and Public Works at 90.

The advices per Cotopaxi are most important. It seems that all our predictions about the injury to River Plate credit the conduct of the Municipality towards the Gas Company was likely to cause abroad have been fulfilled, and the merchants' letters received by the mail all speak in the most unmeasured censure of the conduct of the Municipality.
