These returns are discouraging to the River Plate, as they show that our trade relations with England have fallen away nearly as much in imports as in exports. New channels of trade are doubtless formed with other countries, but England was our oldest and best customer, the value of her import and export traffic with the River Plate always standing before all other nations. We may make new friends in Germany, France, Italy, or elsewhere, but 'Quien sabe' if they will treat us as well as John Bull.

> BUENOS AYRES BRITISH CHORAL SOCIETY.

The members of the above mentioned society favoured us with auother of their entertainments, on Wednesday evening, at the Coleseum.

We noticed representatives of the English and American families. The concert commenced with an overture 'La Clemenza di Tito' by Mozart, tollowed by a chorus 'The heavens are telling' from Hadyn's grand oratorio 'Creation'. The duet from Handel's 'Israel in Egypt', sung by Messrs. C. E. Tinney and F. Tolkein, was admir-

ably done. After this the beautiful trio Lift Thine Eyes' from Mendelsohn's Elijah', was sweetly rendered by Mrs. and Miss K. S. and Miss H. N. This was followed by the 'Meditazione' on the 1st Præludium of Each, by Gounoud, in the execution of which the

orchestra fully proved its excellence. After this came one of the charms of this musical bouquet. 'Ti prego O Madre Pia', sung by Mrs. F. J., Miss L. S. and Mr. W. H. R. Nicholson in masterly manner.

The chorus and soprano solo on the 42ud Psalm, Miss K. S. taking the solo, concluded the first part of as choice a programme as we have ever seen; and after the usual interval the proceedings were resumed with an overture from 'Martha,' and a chorus from 'Romeo and Juliet'; after which the trio 'Oh, Memory,' was charmingly sung by Mrs. and Miss K. S. and Mr. W. Nicholson.

Then Mr. Alfred Napoleon executed his much-admired composition, 'Carnival of Venice, on the pianoforte, eliciting the most hearty and

Mr Tinney sang with thrilling effect The friend of the Brave.

The next pieces were, a trio from the Mountain Sylph, by Miss K Smith and Messrs Tolkein and Nicholson; and a chorus from 'William Tell.'

We are glad to see that all the English-speaking clergymen are taking a lively interest in the weltare of this new society, and would earnestly recommend other gentlemen of influence to contribute their aid to what cannot but prove a source of instructive recreation to their tamilies.

We feel bound to return the mem bers our sincere thanks, and hope it will be our privilege to be present at many similar feasts of reason. Epinus.

To the Editors of the STANDARD, Gentlemen.

Allow me to correct two wrong conclusions that your correspondent H.M.C. has arrived at in relation to our Concert of Wednesday last.

The orchestra which assists us at our entertainments is composed of members of the Colon orchestra. I have known that to produce from of such a standard of excellence as ours generally exhibits is, to say the least, a thing highly improbable.

Mr. Alfredo Napoleon, brother of the distinguished Arturo Napoleon, is a protessor enjoying rather a celebrated reputation here, and offered his gratuitous assistance in a manner complimentary in the extreme to the Society.

Such mis statements as I have corrected are quite pardonable, as they only too apparently rise from a nonacquaintance with musical circles in

this city. The conclusions your correspondent arrives at on the point of nationalities to the pieces with which some performers were associated. Although that is a circumstance which is not open to be viewed with much satisfaction by those whom it affects. I will pass it over, inasmuch as a perusal of programme can immediately correct

the wrong impression conveyed. Admitting in other respects the impartiality of the article, and the complimentary allusions to the Society's efforts.

The general market improvement which fortnight ago was denied, a week ago disput d, is month ago left a loss-every stock to-day promiss a gain. The reaction is now fully estabtheir eyes to what is going on, the 's will be the loss, and if we analyze the present "let up" we find many sound and good causes to account for it. Our import trade is reduced fully one half; 26 to 3',000 pat:.; more still, we have our own alm at stopped the emission of Codules, and inann se suppose the emission of Galacia, and in ed despatch with all the London and late Egro channel for outsiness purposes, instead of sucking the banks diy of their deposits to buy up the stock cheap on the Bolst. Better for us all here to see Cedulus at 90, and money at 7 and 8 per lisher making arrangements, and we heard to see Cedulus at 90, and money at 7 and 8 per lisher making arrangements, and we heard to see Cedulus at 90, and money at 7 and 8 per lisher making arrangements, and we heard to see Cedulus at 90, and money at 7 and 8 per lisher making arrangements, and we heard to see Cedulus at 90, and money at 7 and 8 per lisher making arrangements, and we heard to see Cedulus at 90, and money at 7 and 8 per lisher making arrangements. the whole a sound radical change has come over the market on the heel of winter, just at the very time when all the moneyed wiseacres of Buenos Ayres apprehended nothing short of a general smash. We saw a list on the Bolsa the other day of the specie in the Plate, which we decline to publish, since it amounts to nothing. The specie nightmare is past, and the flat refusal of the Provincial Bank last week to receive on fixed

In the general interest of the market we feel bound to advert to two measures now before the

The second is Bravo's Boulevard scheme. Already the Bravo boulevar I scheme has seized such a hold of the great property holding public that one hears it spoken of in every circ e. A piece of property in Calle Piedad that last April was offered at a very low price, to-day cannot be bought at doub'e the money. When this boule-vard law is once passed the price of property in Buenos Ayres will depend more upon the bankers in Paris than the money market in Calle San Martin. It looks almost like a dream to imagine the Cabildo, Policia, Riglo's house, and the whole block pulled down; yet that it is upon the cards appears as cortain as the numerous trainway cars that run in every direction through this city to-day. A very experienced architect assures us that the business is not only beneficial for this market, and an immense improvement to the city, but that for the com; any that carries it out it is considered in Europe the surest and best paying description of enterprize that capital can be engaged in. The interest taken in Mr. Stant's Boca improvem at scheme is not known to the general public; men in every walk of life, we may say, called at our office to inspect the plans, and to such an extent did this interest reach that we were well pleased when the charts were taken to Congress. To-day we learned on the Bolsa that in n of high influence have taken up this Statt scheme, and that the probabilities are it will be carried out. Precisely as we threw out the hint, when Cedulas were 78-80; that the market was turning, we now point to what is going on in a different line. The boulevard law once passe i property assumes a new aspect. We know of a party who last Saturday ordered his broker to put 40,000 p.t. into Cedulas, as the best and highest interest

perhaps some people may consider them worth knowing. It is very generally said that Mr. M ll, the Amortiz del Presta form r Manager of the German Bank in this city Intereses del Prestamo A. will shortly return to the Plate.

This week the locemotive runs throughout to meeting to-day good assets were shown and Dolores, and very soon the Government will give its sanction to open the road to public traffic; the so nor the better, for there are no horses in the camp fit to gallop a league, and as for the bullocks their remains are spread over The National Bank balance sheet has taken

the whole market by surprize; pople looked for a falling off in specie and deposit, the very contrary the figures show, the discounts show a great iminution, yet it has not been felt in the market; possibly this diminution springs from the colection of the Municipal bills which the Bank refused to renew.

A very large financial operation, we hear, will probably be concluded this week if the telegraphic communication with Europe is estabished. The matter is so important that we can give no particulars until concluded, but it looks very like as if Mr. Lamas's prediction as to the effect of the cable on this market will prove correct-all very large transactions will be done by the cable; this of course will give a great change to things here. In Rio several aff irs in the way of exchange and advances on stocks have been lone at low rates by me ins of the cible.

Colonel Alvaro Barros, who is to be the new Governor, is well known on 'Change, where he enjoys a great popularity. He has published a very able work on the frontiers, which is highly To-day a printed sheet was distributed on the spoken of. He is a man of great decision of the police are disorganized by the elections and first rate public men.

The Pank to have right of emission; the notes to bear the stamp of the Republic. The Nat. Prices varied from 1490 to 2,050\$ each lot, giving 71,377 mic per square, which is equivalent to 110 millions currency per square league. At first the auction looked dull, but when Mr. Ebbeke addresse the concourse they began to bid. Most of the buyers were Italians. To day was an exciting telegraph day; through

telegrams came in to Mr. Oldham at Montevideo from Artigas, and of course when the news got wind the public was down upon Mr. Furze, who, for the occasion, we may say with Goldsmith, looked "unprofit th'y gay," for there was no wiring through to Rio, and many parties who were omewhat ruffled at this constant running to the talegraph, were sharp enough in their que tions to Mr. Newman as to where on earth Artigas is. Captain Harrison at an early hour however, secured she real news, and Mr. Roger, now admitted. Every stock in this market a of Cordoba, who was werely welcomed on Change, was expect d to satisfy the curiosity of numerous merchants as to the real party who, mis's a gain. The reaction is now and colore or numerous merchants as to the real party who, li-hed, and if people are so foolish as to close according to the STANDARD, lost his pantaloons from the window of the train from Cordova to R sario. The upshot, as far as we could make out at 3 p.m., was that the Bottini land line was finished on Saturday night, and difficulty now is to to know this we require none of overmerchants get the messages from the Rio Grande cable books of invoice -- we have the Custom House on to the land live.
