BONCHITIS, LOSS OF THE VOICE—A change of climate however benefic al in itself, will not cure bronchitis or the loss of voice; but Lanman and Kemp's Pure Cod Liver Oil will effectually care it. Rav. Heber Rapelye, of Milwaukee, at present in Valparaiso, whither he removed, and entertaining hopes that the gen'a lity of the climate would benefit him, from a chronic affection of the throat with which he had been suffering for a number of years, speaks of the results as follows—"The change itself did not help me much, but whilst residing in Valparaiso I was induced to take Lanman and Kemp's Cod Liver Oil, and after using it steadily for two months, am happy to say, that I find myself much better. My voice is quite as clear and strong as before, and I cherish the hope of recovering entirely. Providence be praised for my deliverance, in having so ordained it that I stould have been prevailed to try this excellent remedy. Other similar oils may be efficacious; but I am thoroughly convinced that Lanman and Kemp's Cod Liver Oil is all that it is represented to be, and therefore, I do not hesitate to recommend it." Persons, to whom oil of any kind is repulsive, will do well to mix it with, or drink immediately afterward, two spoons full of Pectoral of Anacahuita.

Mr Day made a few remarks relative to the providing of boats suitable for ladies; and the general opinion of the members present was, that the Club would be only too glad to make any arrangements which would facilitate the presence of the fair sex, either as active or passive partakers of the enjoyments of boating.

The desirability of holding a regatta as soon as the members were in proper form' was also discussed, and a hope expressed that the latent talent to be developed would enable the committee to fix an early date in the coming sea-

In calling the first half-yearly meet. ing the committee have much pleasure in congratulating the members of the Club on the very satisfactory position of affairs. Though started in a time of crisis, the club, unlike many similar institutions, has not been created on borrowed capital; on the contrary, as you will find on reference to the Treasurer's statement, there is a good balance in our favor, which is all the more pleasing as it is well known that in a club of this nature at the outset the expenses are very heavy. Several things have combined to bring about this favorable position and to materially assist the Committee in their eiforts to get the most they could at the least possible expense. As you are doubtless aware the boats have been brought out from England free of charge, for which the Club owes a debt of gratitude to Messrs. Ryde and Co. and Messrs. Lamport and Holt; again, the National authorities have kindly permitted them to be landed free of duty, another important concession; and last, but not least, Mr. Chas. J. Bridgett of London merits the warmest thanks of the Club for the kind interest and unremitting attention he has bestowed in the selection of the boats.

Subscriptions.

Those for the current half-year are now due, and Mr. T. C. Bennett has been appointed to collect same.

In conclusion, the Committee would draw the attention of members to the fact that in a month or two the Rowing Season proper may be said to be gin, and it is their earnest hope that members will endeavour to fit themselves for work, so that when the summer comes on and an opportunity' offers for trying our mettle the flag of the Buenos Ayres Rowing Club may be always to the fore.

There was great conversation on 'Change mongst the Ral an merchant, about the Duk, who already has made most favorable finpressions. It oppears that the Duke has been eduhad a long and apparently interesting cated in Eagland, and speaks Eaglish as fluently is Spanish.

The Meinion will be up in the morning. A soon as she discharges she will feave in billast. A gentleman in from the North camps to-day states that things at last show an improvement Outside pasturages good, sheep coming round but cattle and hor es are still dying. Coming at a moment when our tanners begin to lay in stock and on the evo of our really active season the movement which has set in will greatly benefit importers.

When it was found early this month that our South American orator, or read in the stock of wool had attained so high a figure newspapers, such a sentence as this: buyers assumed a more reserved position, but meet the demand has encouraged operations, the willingness shown by holders to which sum up with lo,000 bales. The inquiry is principally for combing wools for France. Our next auctions will probably open on the 28th inst. and are likely to present a large proportion of common and defective River Plate wools which may have some difficulty in holding their ground. Good, well grown wools will be well competed for.

inside out, and to such an extent that at noon on the Bel-a to-day the only news up was the arrival of the Douro in Montevideo yesterday. The Lamport and Holts's steamer Memnon, enered yesterday; her news at the moment was

fresh, she brought the news of the death of Rothschild. Mr. George Wickham, 2nd officer of the

Douro, came up with the mails, and we are indebted to him for our English files, he reports all well on board, Douro to be up in the morning. Mr. Turner, of Montevideo, was warmly welcomed on 'Change to-day; he reports things improving down there, and a new tramway to the

Office to-day in front of the Bolsa, this gentleount of loss, only 39 days after the man is the agent of the well-known Oriental Telegraph Agency London, established throughost the world wherever telegraphic communication exi ts. We advise all parties to register in this Agency as it will be the means of a great saving in the cost of the massages, as the addresses after Registration only count for one word We heard that to-day Mr, Weaver had registered

apwards of a hundred names. In the South Plaza this morning dry hides were sold as 186, in deposit and in the market some lots at 182, dry hides keeprising.

To-day we heard that the locomotive ran out on the Southern Railway as far as Dolores, this is great news for the camp: we believe Mr. Moores' and the other Directors went out the whole way to-day.

The first victory of the telegraph has been the recovery in Rio Grande of the 19,000 pats. stolen by the confidential peon of the Saltena Company. We congratulate Mr. Ollham on this brilliant success. But for him it is probable that the company would have lost the money. And here we may state what, perhaps, is not generally known-that but for the extraordinary exertions of Mr Oldham, we should not for probably two months to come be in direct communication with Rio. When the hitch in the Chuy and Maldo nado section of the cable occurred, Mr. Oldham came up here to make arrangements with the Platino people for running a branch line; but the matter could not be arranged, as it had to go to Rio to the head board. Meanwhile news arrived of the lass of the Gomes, with the third section of the Platino cable. This was a most unlooked-for event: but Mr. Oldham at once saw It was said amongst English merchants to-day | the true situation, and, having then in charge

Plate Telegraph Company.

A new project of tramway has been laid before the government, narrow gauge, and for vasura and goods traffic. The scheme might pay.

We are glad to notice that Mr. Mendez's live at le steamer brought out a very respectable assorted cargo from Glasgow, besides some valuable animals for some Buenes Ayres estancieros. Mr. Mondez after all may make this live cattle trade a success. All the animals sunt over sold well, but people at home write out that what gave the best results were the horses. Things seem evidently on the mend in Asun-

ion, since we hear by last mail that the governnent has ordered the streets to be paved with adoquines,' contract signed and work begun This looks like business.

The Lavarello steamer Europa, just entered, has brought out 586 emigrants; a valuable cargo for a young country.

A contract for 12,000 matadero hides, deliverable up to the end of the year, at 70 rls. per pesado of 75 lbs. is reported in Montevideo; also 1,300 hides, at 73, and 1,000 ar. of wool, mixed at 3.45.

It was said on 'Change to-day that Messrs D.C. Thompson & Co., agents for the renowned Chubb safe manufactory, have just concluded a contract with the National Bank for no less than 17 strong iron rooms. This is about the largest order in this line we have beard of.

The Custom House returns for the month of July are published. They reach only 948,919 pats. Here we have a most serious falling off which fully bears out what we have frequently adverted to, namely, the great falling off in River Plate trade. In our last issue we showed by the English Board of Trade returns the great diminution of both Import and Export trade with England, but now, we have figures which carry firmness and activity to our Hide market, and us still further, and show that River Plate trade appreciation of a holiday, and take it the lot is from One Acquainted with may had to an advance in price if corroborated is falling off with the whole world. Not since Spanish Republics, who says: "Mr by letter advices. A large business is doing in the di astrous opech of the fever have our Custom House re cipts been under one million of dry indes : tine full quotations contained in my pats, per month. There has be n no diminution last printed circular whereas for a cargo of 9 10 of taxes. The tariff valuations are even perhaps higher, yet the receipts are less. After all, we hail this as a healthy sign. Our import trade was most shockingly overdone, and yet the tre mendous overstocking going on hal to be remit tod for. Next season we shall feel the beneficing effects of this, and gold, as in 1good old years of

yore, will come out for produce purchases -Import duties, July 619,419

And the balance is made up of sund ies. We take from our colleague La Libertad the following interesting table of the killing at the various graserius in the camps of B. Ayres. The list is a useful one since it shows what is doing in that line-

LARGE AUCTION

Adolfo Bullrich & Co.

From the well-known Establishment, LOS REMEDIOS, Belonging to Senores Ulivera, Brothers.

PURE

At our Auction Mart, 70 POTOSI,

Tuesday, August 18th, At 12 Noon, sharp.

We purpose selling for cash, and without reserve, to the highest bidder, by order and for account of the Gentlemen referred to, 34 spl ndid Negretts, born and bred in Los Remedios near the town of Floresta.

It is notorious, that the Breed referred to has become one of the best case in the country, or perhaps the only one, on account of the excessive care which, from the year 1856, has been devoted to it, no expense or sacrifice baving been spared—even during the crisis of 1865 to 1868—to render it perfect.

even during the crists of 1000 to 1.

It perfect.
It is, on the other hand, well-known, that from the years 1858 to 1870, new blood was imported, the decent from Ho hlitz, and from the principal German Breeds of Passoro, Jolkenhagen and Mordentin.

Especial attention is called to the reserved numbers, 42-67-38-52, all bord in 1873 in Passoro, and 233 in Santa Maria.
