

A Shooting range for the instruction of the officers of the army in musketry is about to be established at Palermo.

The 'Village of the Plain' had a blow-out on Thursday, its Patron's day. The whole affair was of a thoroughly one-horse description.

The President of the Republic, Governor Acosta and several other high public functionaries went to the Charity Fair at the Colon Theatre last night, and also attended the opera there.

A colleague mentions an old colored lady who serves on the Western frontier in the 5th Cavalry, in which regiment is also the last of her sons.

The Governor Acosta's last official act was in the fiddle and piano and oratory line. He signed a decree yesterday establishing a School of Music and Declamation in Buenos Ayres.

PARIS LETTER.

August 1st. Failing the dissolution the next best thing is to get partly rid of the assembly for four good months under the name of vacation.

Paris is occupied with another increase of her taxes, and which was to be expected; the red is laid as gently as possible on the back, and never are the blows administered all at once.

To know a man's secret on entering a 'salon' the lady who likes best is the one he first looks at and that she salutes the last.

THE SLESVIG QUESTION.

In your issue of Sunday there appeared a letter from "a German subscriber" giving some statements, or rather mis-statements, in reference to what he pleases to term the Slesvig-Holstein Question.

The streets were deserted today; the banks closed at noon, and as for the Bolan, half a dozen of inventoried ring men sat in the solitude of the hall.

worthy persons propose to organise an international exhibition of antiquities. The idea does not appear so extraordinary, for it is quite in accordance with the French character.

The anniversary of the three glorious days of July 1830 were passed over in solemn silence. The Orleanists could not toast that come of their fortunes, as they have expressed contrition and done penance to Henri V for the ungenerous conduct of Louis-Philippe.

This is a busy moment for the 'heads' of families; the boys—and girls—are coming home for the long vacation, and two months at so the sea side, or in a country district, must be indulged in, let the ways and means be arranged no matter how.

The Prussian Government forbids the inhabitants of the duchy even to wear any article of dress of a white and reddish colour, being like the Danish national colours.

Ag extraordinary general meeting of this Company was held on Wednesday, at the offices, Palmerston-buildings, Bishopsgate street, Mr. Brocklett in the chair, when special resolutions were passed permitting members of the company to vote personally or by attorney appointed by deed, or by proxy, subject to special directions.

ON 'CHANGE.

Table with exchange rates for various locations: Quences, Suva, Plata, Nat. Bonds, Cedula.

This being a Bolsa holiday, on account of the Lanus races, there is nothing of the local market news to report. The closing of the market was a fine, fast one, and merchants like to write by her.

PRODUCE MARKETS.

plying thereby more than what is stated, for Flensborg itself, as well as the rest of the Duchy is entirely Danish, a fact which can be proved by the elections, which result invariably in the return of the Danish candidates.

There cannot be a doubt about the alleged expulsion of the Danes from Slesvig. Meantime your German subscriber will beg leave once more to rectify his statements. According to his authority the whole population of Slesvig is set down as being 430,000, of which he computes 145,000 to be Danes.

The Prussian Government forbids the inhabitants of the duchy even to wear any article of dress of a white and reddish colour, being like the Danish national colours. The Prussian Government is certainly frightened, and ought to hesitate from committing such a suicidal political error.

While the sea city of water in Australia might prevent any great development of the meat trade in that direction, there seems no room to doubt that an ample field for the industry exists in South America. At present cattle are raised so cheaply in the vast plains of the River Plate that farmers even find their profit in selling live oxen to England.

The following abstract of the returns of a new River Plate Railway are published in the last number of 'Herald':—The Central Argentine Company of Montevideo—The traffic receipts on this line (4 miles open) for the month ending May 31st, 1874, amounted to £4,499 against £3,995 for the corresponding month in 1873; decrease, £1,496.
