We had the pleasure of another visit from Colonel Romero yesterday, who informed us that the Government is most auxious to give the Press the least possible inconvenience under existing circumstances, and with this view has withdrawn its order of Monday in reference to the proofs of all printed matter being laid before the War Office before publication. All that is required now is to send the first four copies printed to the Minister, who retains a "Stop Press" power in case anything objectionable should meet his eye, the editors being, as usual, responsible for all they publish. This is fair enough, and shows that the Government is anxious not to deprive the Public of its daily mental bread, provided that the loaf be judi. ciously baked, and free from matter likely to bring on inward termentation when swallowed.

Bristol's sarsaparilla

It is not a simple extract from one article, but is compound, ed of extracts from a number of Roots, Herbs Barks, and Leaves, all of which are possessed of some particular virtue or power in curing the diseases that have their sourse in the blood and bumors; these different vegetable extracts are combined in such a way as to retain, in a full strength, the special our-tire virtue possessed by each. It does not contain any thing that is dagerous or injurious to health, and in this, as in nearly every other respect, is entirely different from all other preparations sold under the name of Sarsaparilla.
