number of blows 12.7, and the average weight of powder used per pile was 3.3 lbs, 81 piles were driven in 93 hours, and 12 in a single hour; the actual time employed in driving varying from three and a quarter to one and a half minute per pile.

The wind fell yesterday, and weather was a shade better than on Tuesday. The wintery temperature of the last fortnight has proved quite a godsend to the old clothes men, for judging from the ineffably seedy appearance of the commercial community 'en masse,' those who had not yet given away their winter coats and hats have fallen back on them, and the others have largely patronized the 'hand me down' shops.

The fastest steamer in the World—Such is the title claimed by Messrs. Thornycroft for a boat built to the order of the Government of India for service in the Orissa canals.

The closing of the port is an immense inconvenience. The decree 'nisi' of the Government has brought about a divorce 'a mensu et thera' between this city and Montevideo.

Every monumental inscription, says Dr. Johnson, should be in Latin, for that being a 'dead' language, 'will always live.' This would be a bull in any other writer.

terday. This is singular considering the heavy rain we have had since the fire. The lamp-lighters struck work on Tuesday night because the Municipality has not paid them their wages for 'ever so long.'

A funeral service for the late Dr. Andres F. Lamas will be celebrated to-day in the church of San Miguel, to commence at 11 o'clock.

Governor Barros has issued a decree fixing the 17th inst. as the last day for paying 'patente' tax in the city, and the 2nd December in the country partidos.

The Tribuna of yesterday says the Government is thinking of suppressing another paper. Small by degrees and beautifully less is the number of passengers in the 'Bns' becoming.

The total arrivals of emigrants in the Plate from the 1st of January to the 30th of September last were 30,604, or a falling off of 40 per cent. from last year.

There is a pause in the Colaba market; nothing at all doing cash, and mighty little on time; prices rule about the same.

There was a still rumour on 'Change to-day to the effect that £250,000 stg. gold is shortly expected out for the National Government; it may be true, but we know nothing of it beyond that they are orders by L. B. B. were sent home last month to re-lime some of the bonds.

The stock sales to-day, amounted almost to nothing. For cash nil. End of month, 70,000 772. Dec. 31, 100,000 774. In the liquidation, End of month, 20,000 772. do 50,000 772. do 30,000 772.

The new Argentine iron-ore, Capt. Pagó on board, is expected home at Rio. Mr. Edwards' report of the following sales of wool in the North market:— 700 ar. good wool at 83. 600 do. do. do. at 78. 850 do. do. do. at 78.

in these notes. To suppose, however, that with such a state of the business, but what generalizes the Government that its 21 millions sterling Public Works Bonds are negotiable in the London market, with the country in revolution?

The Provincial Bank of Santa Fe is now issuing its notes, we read that the Government has sanctioned the emission of notes in Bolivian currency. A new amendment to the Santa Fe law is also published, but it amounts to nothing.

The Argentine Bank notifies its creditors that it is now ready to liquidate accounts and deliver 'boletines' as per a remittance. There has been no enquiry in these last few days about these 'boletines' and their probable market value, upon which point owing to the very peculiar state of the market it is difficult to offer an opinion.

We note in the last English papers that there has been a recy in the Brazilian stock, which is a recy, and is now quoted at par. Much sympathy is expressed in commercial circles for Jacques Heintzen, whose splendid premises were destroyed by fire; we learn that the 'finca' belongs to Mr. Gonzalez Moreno, who is living with his family in Paris, and was held on lease by Mr. Baquet at a rent of 15,000 francs per annum, conditional that the tenant Macqueret erect a house on the ground worth 2 million francs, which house at the expiration of the lease reverts to the landlord.

The earth works of the San Jose and Higueritas Railway are made for a distance of 2 miles, this is another River Plate Railway about which the people in B. Ayres know but little.

We note in the provincial papers that the Rio Cuarto Railway having finished its repairs commenced running on 1st November.

No less than four ships have arrived out from England with materials for Mr. Rogers's railway from Rio Cuarto to Mercedes, how far the present melancholy revolution will interfere with the works of this new railway we can't say, but the state of the interior at present is not most favorable for railway enterprises, in fact, it looks as if there pretty much like the bull in the China shop, yet all these materials coming out must be paid for. Again there is a whole fleet of vessels on the way out with stuff for our City Improvements, and the docks here are filled to their utmost with costly materials, all have to be paid for, the country must respond for all, and now to mend matters we have the forced currency 'world hanging over our heads. Damocles was ahead of his time.

The following is the latest from St. Nicolas:— 'In' was very little has been done; I only know of three lots having been sold at the Estancia 1200 ar. regular 566 1000 do good 70 2000 do do 71 The wool about here is very light and clean, so speculators can afford to pay better prices than in former years.

"This above vessel, (with the names whose names have already appeared) has taken all the rails fastenings and fastenings together with all the iron bridgework required for the road, and the timber and iron work for the permanent pier and wharf, at Campana have also been shipped; in fact, a small quantity of sleepers etc. now loading at Glasgow remain to be dispatched to complete the whole of the permanent work of material of every description required for the line.

The rolling stock appears to be well advanced, and has been entrusted to the best English manufacturers. The Hispania Engine Co. Messrs. Manning Wardle and Co., are amongst the successful competitors. From a perusal of the specifications, which are of a most elaborate description it would appear that 'early delivery' is being regarded as one of the points of first importance in giving out the work, as heavy penalties have been inserted to insure this result. In short, we learn that Messrs. Edwin Clark Pritchard and Co. have expressed their determination to have the line completed and ready for traffic by the 1st January in the approaching year, and should they succeed in doing so, it will certainly demonstrate the business like way in which the enterprise has been carried through.

We notice that the names of the gentlemen who comprise the board of directors of the company are: the names of Captain Tyler, Mr. G. Shaw and Mr. Lightly Simpson, being exceptionally known as representatives of the largest English and foreign railway interests. A rumour is current here that the Northern Railway of Buenos Ayres Co. has made overtures to the directors of the B. Ayres and Campana Co. for joint working arrangements and joint station accommodation, &c., but the Campana Company at present appear disposed to adhere to their original programme.
