ORIENTAL Telegram Agency.

(Opposite the Bolsa)

Names and Addresses, if registered through these Agencies, are counted and charged as ONE word only. No charge is made for this registration.

The charge for the first word also covers cost of transmission by Telegraph of the place from which the Message is sent, date, and time of despatch.

A special feature of these agencies consists in telegraphing the number of words in each despatch.

It will greatly facilitate business if the registered number is placed upon Messages before being handed in for transmission.

Extracts from the Oriental Telegram Company's Rules.

Rule 3.—Implicit secrecy is to be observed with regard to Messages, not only as to their content, but not information is to be given as to whether any person or firm has or has not sent a message.

Rule 4.—Complaints of error, delay, or of any other nature, should be made by the person forwarding the message. The Receiving Agent cannot give any information on the subject, and should be very careful not to speculate upon the causes of delays, &c.

Rule 9.—Every message must be signed by the sender.

Rule 10.—All messages are to be prepaid to their destination.

Rule 34.—In the event of doubt arising as to the correctness of a message, the Cable Company may be prevailed upon to repeat it; but the Rules of the Cable Company must be regarded in this matter, and the message cannot be rectified at the expense of the Oriental Agency.

The system adopted exclusively by these Companies insures a degree of accuracy in the transmission of telegrams acknowledged by the chief Cable Companies never to have been attained by any other agency.

NOTICE IS HEREBY GIVEN, that Messrs Lamas and Co. are definitely installed by the Head Office, London, as Agents of the above Telegraphic Agency, in the River Plate.

Merchants, Bankers and others are invited to register their names without delay. Registration gratis, after which the names and addresses of firms and their correspondents count as ONE word only.

The Registration Book is now opened, and we earnestly request those intending to register to come early, so that the lists may be ready for the first steamer.

POETS IN ALL AGES HAVE DEVOTED LAVISH PRAISE upon that which is justly constitutes the pride of womanhood, a shiny, silky, wavy and rich head of hair. Baldness in olden times was considered a great imperfection, and still greater now in modern times, when an unfailing, safe and agreeable means to avoid it is within the easy reach of all. Even in cases where the application of he Oriental Tonic is not exactly demanded by disease, it is prudent to adopt it as a hair dressing, since it cannot do any harm, and will, on the contrary, keep the scalp free from all blemish, and impart to the hair an enhanced appearance becoming to all. Gentlemen of taste adopt it as a hair dressing, and extend its use to the beard, because it imparts to it a rich gloss, giving an appearance of refinement and neatness not to be overlooked in the most refined. For sale by all dealers in perfumery and drug stores throughout the world.

The steamer America recently launched at Newcastle-on-Tyne is now almost ready to leave for the Brazils, supposed to be for the San Paulo line. The ironclad Independencia has been docked.

Consols 93, Brazilians 99½ to 100, hides firm, prices sustained.

FRANCE

Prince Napoleon's manifesto has caused much noise: he blames the Bonapartists for intrigues calculated to disturb France. The Imperial papers say he has gone over to the Republicans. Emile Ollivier, ex-prime-minister of Napoleon III, accuses Prince Napoleon of having borrowed 41 million francs (£1,640,000 sterling) from the Emperor which he never paid. It is not clear whether the money belonged to the State or to the Emperor, but it seems to the latter as the Empress and Prince Imperial claim payment from their cousin. One of Prince Napoleon's organs promises to explain the transaction. Ollivier denies that the Imperialists are precipitating a movement for the restoration.

The Minister of War has ordered the construction of forts around Paris to be pushed forward actively.

The Government has ordered a French war-vessel to Athens, to watch the troubles between Greece and Turkey.

MacMahon's message for the opening of the Assembly is the subject of speculation. Some say the Ministers are not agreed upon it. The official organs declare that all are agreed to uphold the Septennate. Some think that MacMahon will send no message, but it is probable he will, although no one can guess its purport.

The Permanent Committee will only hold one more meeting before the Assembly opens, and this will be to interpellate the Ministry on the question of returning Nice to Italy, and the works of the Brussels Congress.

Castelar has been well received by M. Thiers. It is rumored he returns at once to Spain, to try and reconcile parties at Madrid, but this is not correct, as he means to assist at some sessions of the French Assembly.

Victor Hugo gave a dinner to Castelar on the 26th Oct., all the prominent Republicans being present. In proposing Castelar's health he praised his conduct as President of the Spanish Republic, and said that democracy was making such progress in Europe that shortly the four Latin nations (Italy, France, Spain and Portugal) would be sister Republics. Castelar, in returning thanks, said it would be necessary for all parties to proceed with extreme caution if they would not see their countries plunged into a whirlpool of misfortunes.

MacMahon publicly congratulated General Ducot on the discipline of his Division in the recent manœuvres.

Deputy Hernault interpellated the Ministry before the permanent Committee about the relations of France with Spain. The Ministry replied that France was on a friendly footing with all the Powers.

Prince Napoleon declares that he has no idea to separate himself from the Imperialists, under whose flag he has so long fought; that he is simply opposed to those of his party who are provoking agitation for a hasty restoration of the Empire, and that the responsability of such imprudence must fall on the heads of those who provoke it.

The French army is now to consist of 156 regiments of infantry, 80 cavalry, 36 artillery, and 28 of engineers, on peace footing.

GERMANY.

The Emperor William opened the German Parliament on October 28th in presence of both Chambers. In the speech from the Throne he described the present condition of Germany, called attention to the matters most worthy of attention from the Reichsrath, declared that Germany was on the most cordial footing with all other Powers, that the peace of Europe was perfectly secure, that the standing armies were hardly necessary any longer even as a guarantee for defence, that the Parliament should adopt suitable measures for the welfare of Alsace and Lorraine as integral parts of the Empire, and that the Government would consult the Parliament on the present march of affairs.

The Archbishop of Posen is about to be released from prison.

The Emperor William has abandoned the idea of a trip to Italy this year; but it is positive that Prince Bismarck goes to Rome shortly.

Kullmann's trial for shooting at Bismarck ended with a sentence of 14 years imprisonment.

The Emperor has accepted the guarantee of Count Arnimi's family, and allowed him to go to the south of Europe for his health. He was previously offered his liberation on condition of a secret-agent accompanying him in his travels, but he refused the offer as an indignity.

ITALY.

The Italian Government has ordered two war-vessels to Greek waters, as a rupture with Turkey seems inevitable.

The garrisons in the Romagna have been doubled, in view of the elections. The Catholics presented no candidates in the north. The elections in Sicily are postponed.

The Pope has at last taken a drive, outside the walls of the Vatican, at the urgent solicitation of his physicians. It is the first time since Victor Emmanuel entered Rome. The Catholic papers deny the rumor of an arrangement with the King.

RUSSIA.

The Czar leaves for a tour through the southern Provinces. On his return from the Crimea he is to have an interview with the Emperor of Austria.

TURKEY.

Troubles are hourly expected between the sublime Porte and Greece. A Turkish fleet has received orders to proceed to the Greek waters and the Greek Government has protested against it as an act of hostility.

The American and French squadrons in the Mediterranean have received telegraphic orders to send each a vessel of war to the Piræus, Athens; to watch the course of events.

An arrangement has been arrived at by Turkey and Austria to appoint Commissioners to revise the Commercial Treaty in such points as it may now seem inconvenient.

SPAIN

It is rumoured Don Alfonso de Montemolin has abandoned the cause of his brother, Don Carlos, and retired to Switzerland. Also that Dorregaray will not return, and that Don Carlos is making great changes in the army. The Carlists are in great strength on the fortified heights of Puente La Reyna, and defeat all attempts of the Madrid troops to relieve Pamplona. The Cabinet at Madrid is discussing the appointment of a new General for the army, and the proposal to sell the island of Cuba. Letters have been sent to Castelar, begging him to return from Paris. Serrano visited Topete, who is now out of danger.

PORTUGAL.

The King held a levée at the Ajuda palace on his birthday, 31st October, and received the congratulations of the Foreign Ministers, Privy Council, officers of the garrison, &c. The city of Lisbon was illuminated at night, the King being cheered as he drove through the streets to the Opera-house.

The murder of Portuguese residents in Parà has caused dissatisfaction. A corvette has been equipped for that destination.

UNITED STATES

New York telegrams report New Orleans in a great state of excitement. The Federal troops support Governor Kellog, who is friendly to the black voters. All the factories are stopped, as also the cotton harvest. Most of the shops and mercantile houses are closed, as there is little hope of releasing the merchants arrested for sedition.

The U. S. Government rejects the proposals of the Postal Congress at Berne.

New York advices of Oct. 30th report gold 110¼, exchange 4.85, cotton weak and falling; all trade at New Orleans suspended.

LONDON LETTER.

(Our Own Correspondent.)

London, Oct. 8, 1874

The mournful news from Buenos Ayres comes by driblets via Rio Janeyro. Sift it as we will, it disgusts and disheartens everyone. Up to this moment we know that the Mitrista forces are around Buenos Ayres and have had a skirmish with the inside party. There seems to be a very general opinion here that as both parties are strong an early arrangement will take place. Consequently the Argentine securities which since the arrival of the first telegram announcing the insurrection have gradually fallen five or six per cent, again rose this afternoon, and if one or two strong buyers were to appear in the market would probably reach their old quotations. This says much for Argentine credit, and no doubt it will be sustained by whatever party comes into power, but the reputation of Buenos Ayres is soiled. She is no longer the bright spot we could point to when Spanish Republics are the subject of abuse by commonplace politicians. The trouble could not have occurred at a worse moment. We have had a long financial holiday, and the appetites of investors were voracious. Cheap money, an abundant harvest, apparent political calm, had prepared the way for the placing of any tolerably respectable undertakings in London. River Plate business of all kinds will now barely recover this financial year, which begins on Nov. 1st and ends in June. To show how easily we are frightened, all foreign stocks more or less were affected by the news from Buenos Ayres. Besides, as far as that place is concerned, it was known that importing houses had done little for one or two years, and that they were looking forward to this season to recoup. It is feared that another period of large outstandings overdue may cause more inconvenience. The serious minded Argentines who are now in London on special financial business are naturally ashamed of their country, and keep to their hotels. What an inauguration of the cable communication with Europe!

We are not altogether white and spotless in this half of the world. We do not so grossly falsify elections or so stupidly take up a blunderbuss to remedy an evil, but we kick our wives to death if they do not walk as fast as we wish, as a hop-picker did yesterday. But both he and the deceased lady were in a state of beer. We still break heads and windows at elections, as Mr. Bradlaugh's supporters have just done at Northampton. The sins, however, are not all on the side of the rough. In Germany, for instance, the middle and upper classes are committing errors which sooner or later will result in great political troubles. Whilst in more sensible England the scions of the aristocracy are joining the London Stock Exchange—Lord Walter Campbell has just become a member, and will no doubt make an immense fortune out of snobbish city men—the von Dieses and von Jeniges will not sit at table with commoners. I send you "German Notes" from the *Globe* of 7th inst.

The Court, that is to say Prince Bismarck and the Emperor, have, independently of the Ministry, ordered the arrest of Count Arnim, who, as you will hear long before this, is supposed to have held back important documents compromising Prince Bismarck, and with the intention of publishing them. We have not yet heard both sides of the question; but, of course, the London *Times* at once flies to the aid of Prince Bismarck and gives us a lecture on the enormity of Count Arnim's offence. There are, however, some who will wait to hear the Count's justification, and in the meantime have grave suspicions that the rather high-handed behaviour of the German Chancellor may lead to a change in the Emperor's 'entourage.'

The only cloud at this moment in Europe is the ever-re-appearing Eastern question. We have long heard that the Sultan was making great military preparations, and it seems that the object is to oppose a threatened attack from his Christian dependencies Servia and Roumania, allied with Montenegro. Should hostilities commence we may presume that history will repeat itself. The great powers will watch the struggle and gradually range themselves diplomatically on one side and the other, and the peace of Europe will hang on a thread. In such circumstances Lord Derby is as safe a man as we could have at the Foreign Office. The only danger is that his colleagues who have bantered Mr. Gladstone on account of his timid policy will feel bound to uphold the dignity of this country and that kind of thing which is expensive and generally unprofitable. Perhaps Lord Derby, the Sultan and Prince Bismarck are only poppets moved by a higher power. A divine told me yesterday that the 1260 years, or whatever it is, from the Hegira is up; and according to the book of Revelations, the great war cannot be postponed longer than three years from this time.

Consul Magee, of Guatemala, has got his £10,000, and has become a member of the South American Club, which, by the way, is on the eve of deciding its permanent 'status.' It is to be hoped that it will merge into a grand West End club, either under the same name or some other which will include all Americans. It is found impossible to maintain a first rate club recruited from particular sections of society or particular communities. The expenses of London clubs are enormous. One or two of the older clubs formed of special communities, scholastic, professional or military, are in a healthy condition, but all imitations have failed or are in difficulties; Exclusiveness does not pay; and as the new clubs are all on the proprietary system, quantity rather than quality is the present rule. Military and naval men, noblemen, and even parsons get tired of 'shop' and their own class and acquaintances, and join other clubs for change of ideas.

The debts of the Prince of Wales are still a subject of conversation. I cannot do better than transcribe the sentiments of the orthodox *Guardian* on that point, as they represent those of sensible men, and cannot offend the loyalty of that small section of your society in which half-cultivated twaddlers and itinerant Jefferson Bricks pass for authorities. The *Guardian* says:

"The statement which the *Times* has been authorised to make with regard to the supposed debts of the Prince of Wales has given real but imperfect satisfaction. It appears that though the Prince may not have been of late in a position to meet at the moment every demand that could be made on him, he has probably at the present date sufficient money at the banker's to discharge all claims in full. But his ordinary income is less than his expenditure; and his accounts are balanced by drawing on the accumulations which were yielded during the minority by the Duchy of Cornwall. We are further reminded that in representing the Royal House in Paris and Vienna, on the banks of the Suez Canal and amid the splendours of the Russian capital, he has been burdened with extraordinary expenses, which would not under all circumstances fall on the heir to the Throne. This explanation, which is wonderfully moderate in purport and dimensions when contrasted with the indefinite proportions of the rumors that called it forth, has been received with feelings at once of relief and regret. It is a relief to know that the causes which have kept the Prince of Wales from living within his income are more creditable than ordinary carelessness or extravagance; at the same time, we must be sorry to learn that he has been obliged to fall back on his private property in order to discharge duties for which it is generally supposed that sufficient public provision has been made already."

The Prince of Wales might follow the example of the Duke of Hamilton, who, when in difficulties, gave up his estate to the management of a man of business for five years, receiving in the meantime only an allowance. The Duke has just married and got back his estate, giving him a clear rental of about £135,000. You will see from a printed extract I send you that Mr. Marmaduke Blake Sampson has retired from City editorship of the *Times*. You may have received that news by cable. Indeed it is not easy to know what you may not receive by that means. Some of the telegrams you publish are truly astounding, and it is encouraging to correspondents to think you have still to wait for reasonable versions of things in general, if you are at all particular. On our side it is pleasing to have done with bank rates and bits of news in small compass.

With great deference to the cable, if you have received at this date any important news it is inconsistent with fact; for there is nothing stirring of interest. Even the death of Don Carlos is not confirmed.

THE SITUATION

FORTY-SEVENTH DAY.

The Minister of War returned to town on Sunday, and had a long interview with President Avellaneda, after which it was known that Minister Alsina was to assume command of the combined Government army at Dolores. His Excellency sent his tent, carriage, horses &c. to Dolores. Col. Balsa will remain in charge of the War Office during the Minister's absence.

The latest advices from Dolores are to 9 o'clock on Sunday night, as follows:

"To-morrow at daybreak the army sets out. At 2 o'clock this morning the enemy was retreating in all haste by Laguna de Yegua.

"Martinez and Donovan's battalions had their flags blessed at Dolores today, Sunday. Everybody applauds the Minister of War's stay."

The National Government reports having received telegrams to the effect that General Arredondo has not invaded the Province of San Juan.

President Avellaneda has appointed Governor Barros commander of the garrison of B. Ayres.

The *Nacional* reports General Rivas retiring towards Laguna de los Padres.

The *Tribuna* gives the following particulars of a pilotboat captured by the Argentine fleet:—

"She had cleared from Montevideo as if for the Falklands, with a pretended cargo of flour, and when a port officer at Montevideo was about to detain her, seeing that her cargo was of arms and military supplies, one of the sailors presented him a letter, whereupon he returned to his boat and allowed her to leave port.

"She left M. Video on Oct. 23rd, and on reaching Tuyu found there two other pilotboats: they all received orders to proceed further south and land the arms. In the storm of last week she was separatsd from her companions and carried before the tide till falling in with the Argentine fleet.

"The armament found in her consists of 1,000 carbines, 400 Martini-Henry rifles, 2,000 sabres, besides tents, clothing and ammunition, the total value of which is estimated at £10,000 sterling.

Respecting the revolution in Corrientes we have dates to the 1st inst. The Governor says he has now 2,000 men under Colonel Reguera, who is directed to pursue the 3 revolutionary forces under Calvo, Monzon and Martinez. It was supposed that Colonel Monzon was marching to San Roque to effect a junction with Colonel Martinez, as the 3rd rebel division under Colonel Calvo was at the Santa Lucia, where Calvo had issued a proclamation to the Correntinos. Nevertheless the Government forces under Colonel Reguera passed through San Roque on the 28th October without seeing any of the rebels, until passing the woods of Ambrosio where numbers are supposed to be assembled. The Governor says he hopes in a short time to report that the movement has been put down, as Colonel Azcona is going to mobilize the National Guards of the central department, Mercedes.

An article of the *Republica* entitled "Chiefs in Exile" pays a flattering compliment to Lopez Jordan and General Juan Saa for not availing themselves of the present opportunity to set the Provinces of Entre Rios and Cuyo in a blaze. The same paper has an article on the Minister of War at Dolores which seems to indicate that Colonel Adolfo Alsina takes the direction of the campaign; a happy omen, says the *Republica* for the increased activity of operations at a period when the country is already tired at the length of the war and the diminished prospects of a speedy conclusion.

Colonel Lucio Mansilla starts to-day for Cordoba, to organize the contingent of that Province for the Reserve Army at Rosario.

Colonel Rocca is at San Luis preparing to fight General Arredondo, according to latest telegrams.

Advices from Villa Occidental mention that Major Aparicio Islas had taken leave of friends, to proceed to Buenos Ayres and join the Government army.

The Governor of Corrientes has called on his Legislature to grant grades of Lieutenant Colonel to several officers whom he considers worthy of promotion.

When the Argentine fleet arrived at Montevideo on Friday the Argentine Consul-General, D. Jacinto Villegas, proceeded on board the flag-ship Uruguay to salute Admiral Py and inspect the vessels. At the same time several persons ascended the Matriz beltry to witness the expected seafight, as the Parana and Montevideo were visible off Flores Island. Messrs. Yarrow and Co., the indefatigable and obliging agents of the Pacific Steam Navigation Company, lent the Argentine Consul General their steam-yacht, and when Mr. Villegas had come ashore the Argentine fleet steamed out of port at 1 p.m.

The Government of Santiago del Estero returned without an answer the last note from the Government of Tucuman about armed inroads.

Private letters from Salta to the *Republica* say that several gentlemen are raising volunteer companies in favor of Nat. Government and will shortly have over 1,000 men ready for the field.

The authorities in Rosario are giving out relief to the families of Nat. Guards called out for service, at the rate of 6$ m|c. each per day.

The telegram of Colonel Campos about General Mitre moving to Bahia Blanca, to wait there till General Arredondo come down from the Provinces, is received with much doubt in Buenos Ayres, as it would seem to prolong the campaign very much. It is more generally believed that Generals Mitre and Rivas will move westward to meet Arredondo, for whom (according to Col. Campos) couriers have already been sent.

One of the old settlers at the Isles of Shoals seeing the name of Psyche on the hull of a yacht, the other day, spelt it out slowly, and then exclaimed: "Well, if that ain't the durndest way to spell fish!"

RECEPTION OF THE AUSTRO-HUNGARIAN MINISTER.

On Saturday at 2 o'clock His Excellency Baron Hofer von Hohenfels was received at the National Government-house, the usual guard of honor being drawn up at the entrance. The new Minister, formerly Charge d'Affaires, in presenting his credentials to President Avellaneda, said:

"His Majesty the Emperor-King, my august sovereign, being anxious to draw closer the friendly relations happily existing between the Austro-Hungarian Monarchy and the Argentine Republic, and to contribute efficaciously to the development of commercial relations between the two countries, has been pleased to appoint me Minister Resident near this Republic.

"I have the honor to hand Your Excellency my credentials in this capacity, and at the same time, interpreting the sentiments of my august sovereign, I offer the most sincere wishes for the prosperity of the Argentine Republic.

"The special circumstance of my having already spent some time in this country, which I have learned to love, and where I have been so kindly received, will facilitate, I am sure, the fulfilment of my mission, especially provided Your Excellency lend me a kind co-operation, which I shall do my best to deserve."

President Avellaneda then replied:

"It is highly gratifying to me, Count Hofer von Hohenfels, to receive from you the credentials naming you Resident Minister for the Empire of Austro-Hungary. It draws nearer both our countries, and forms a bond between the Monarchy of majestic traditions which you represent and the rising Republic whose destinies are in my care. I accept not as a mere formality your kindly expressions in the name of your sovereign, in return for which the Argentine people will always offer your countrymen hospitality, work, and the exercise of all liberties.

"Your own magnanimous spirit and distinguished personal qualities, which have been so manifest in your dealings with the Argentine Republic, have already gained for you here the highest good-will and esteem. I have, therefore, only to repeat such assurances, and to say that while I feel certain you will fulfil your mission in a loyal and friendly manner, I hereby recognise you as Resident Minister of the Austro-Hungarian Empire."

EDITOR'S TABLE.

The delivery of the mails from Europe by the Royal mail steamer Douro brightened things up a bit yesterday. The principal anxiety was to see the English papers and learn what effect the Revolution here has had on the public mind in England. Bad enough, River Plate securities fell 10 per cent on first shock, and were for a time unsaleable, but the latest quotations represent a recovery. The telegrams published in the London papers respecting the revolution are most amusing. One of them represents the Government Army as under the command of Arredondo and Rivas; another recounts a battle in the suburbs of Buenos Ayres, Government troops beaten, and so on. Private letters give a gloomy impression of the feeling excited in London by this unfortunate flare up.

The capture of a boat full of arms by the National Squadron and the march of the Southern Army from Dolores, destination not stated, were the only novelties of the Situation yesterday.

One of our oldest British residents gives a grand farewell pic-nic to-day to a charming spot on the Ensenada Railway, previous to his departure for England in the Douro.

We find the following in the *River Plate Mail*.—"The residence of Captain Musters, R. N., the explorer of Patagonia, in the capital of Bolivia, is (says the 'Geographical Magazine') producing much valuable geographical work. He has fixed the position of Chuquisaca or Sucre, the Bolivian capital, with the aid of Captain Cilley, late of the United States Navy, and Mr. Minchin, C. E. The longitude, from the mean of thirty lunar distances, is 65 deg. 30 min. W; the latitude, 19 deg. 2 min. 30 sec. S; the height above the sea, 9,233 feet. Mr. Minchin has fixed the latitude of Potosi at 20 deg. 18 min. 33 sec. S.

The United States gunboat Wasp, Captain Malian, will sail for Montevideo to-morrow. The trigate Lancaster is shortly expected down from Rio, and a war ship new to this station—the Frolic—is also coming down from the States, under the command of Captain Kirkland, so well and favourably known in the Plate, and married into a Montevidean family.

Our private advices from London mention a superb banquet given at the famous Star and Garter, Richmond, by an old resident, at which all the leading River Plate people now in London were present. Also that Mr. Robert Crawford, C. E., so well known here, has opened an office in London. Another piece of intelligence is that the South American Club is going to amalgamate with another concern and be a first chop American Club, members from North, South, East and West to be equally warmly welcomed. Our subscribers will also be glad to hear that the Handbook is finished, and is a very nice looking book (the cover is nothing to the contents). Among the passengers who are coming out in the Neva are Mr. W. Moll, Mr. Rhodius, Mr. and Mrs. Hudtwalker and Mr. Bove.

According to the *Allgemein Zeitung*, the direct cost of the war between France and Germany amounted to £418,000,000. Of this sum only £47,000,000 was paid by Germany—France paying £371,000,000, besides the value of the ceded provinces, estimated at £173,000,000 more.

Our esteemed colleague dear Daws delivered yesterday to his subscribers London weekly papers to Sunday 11th of October, the very latest in town.

The suffocating heat during the forenoon of Sunday brought on a burster of cold water about 2 o'clock, which cooled both the air and the population. At Flores nothing less than hailstones could restore them, and down they came. The evening was vastly improved by the shower.

We received the *America Ilustrada*, from New York, by the mail. The best picture in it is The Deluge, after Dore. After all, shipbuilding does not seem to be very different to-day from what it was then. The Ark, with the skipper taking a squint from one of the port holes, looks very much like the ironclad frigate Independencia, when stuck on the launching ways, with the addition of a sort of wool galpon built on its deck. There is scarcely anything new under the Sun.

Irishmen in the Plate will be grateful to learn the result of the great Rifle Match between the team that left Erin in September for New York to try conclusions with an equal number of their American cousins. After a most exciting competition the Irishmen were declared the winners by three points, showing how very closely they were pressed for victory.

In Paris they call gray hair "a little dust from the road of life."

Now that ladies are parting their hair on the side young men will be imitating their example.

A little boy at Saratoga was sure a woman there must be a lady, because she wore so many diamonds. The little fellow had seen but few cooks.

We are passing through a very troublous time, commerce at a stand still, and business in general at a dead lock, and everyone's spirits at the lowest ebb; but in the midst of this we are exceedingly pleased to observe that our enterprising countrymen Messrs. Pollard and Clark have been during the whole of the crisis up to their necks in business. They have just concluded a large contract for the Provincial Government, and have also in hand various works for the National Government; and what must be very gratifying to them, they have been highly complimented on completing the repairs of the war steamer Pavon in three days less than contract time; more especially as their contract gives them $3000 m/c per day for this promptitude. Commend us to these gentlemen for any kind of work wanted in a hurry, or for good and substantial work of any kind, whether ship work, house work, conservatories, or any class of furniture, in all of which branches they seem quite at home; and the success they met with is a sufficient guarantee that whatever is entrusted in their hands will be carried out fully to the satisfaction of their patrons. We also observe they have in their work shops two suites of bed-room furniture in course of completion, one in pitch pine, and the other in ash; and certainly the Gothic designs of these are very handsome, and are being worked out most artistically. Those gentlemen deserve all the support they get for their bravery in pushing so persistently the "Gothic" idea into this country, which is wrapped up in "classic" almost as much as Italy herself.

We presume few of our readers will object to be reminded that to-morrow will be a holiday, when they can all go amuse themselves, or 's'ennuyer,' if they prefer it, as many people do. The Festival is a great one in, honor of the Patron Saint of Buenos Ayres, Saint Martin, St. Patrick's uncle.

A mad dog interviewed a lady in Calle Callao a few days ago. The result was unsatisfactory for the lunatic. A rampart of gown, petticoats ect. saved the lady's legs, and the alarm being given, 'canis' had to run for dear life without even a mouthful, pursued by some valiant small boys.

Señora de la Vega mother of the famous poet Ventura de la Vega, has just died at ripe old age of 94 years. She was an Argentine.

Nearly all the four hundred emigrants by the Italian steamer Po have gone into the Interior, where there is a great demand for labour, particularly in the provinces of Cordoba and Tucuman.

A letter from Lieutenant Colonel Campos's army, published in the *Tribuna*, says: "We have not a moment's rest; three leagues a day through 'bañados' is our usual march. Medicines are much wanted, but I hear a supply is coming.' Considering the dreadful weather we have had it is really most surprising that we hear of so few of the troops being knocked up and on the sick list. The rain, wind and cold since the campaign began would have sent at least 20 per cent of the very best European troops into hospital with dysentery and other diseases.

We are again impelled to call the attention of the English-speaking Catholics of the city to the fact that the severest distress now prevails amongst the humbler members of Canon Dillon's flock, in consequence of the want of work, high prices of provisions, and other drawbacks incidental to the Situation. To use his own words—"The number of poor people that apply to me and the shocking misery I see every day are almost incredible." We bring this sad state of things to the knowledge of the public, so that those of his flock who are charitably disposed may assist Canon Dillon in the emergency, as it is not to be expected he can bear the whole burden. Many persons are now in sore distress who would not make their secret known to any but a clergyman, and such people, suddenly reduced, apply to him daily. We hope sincerely that something may be done at once to mitigate this distressing state of things.

The rowing-men are requested to bear in mind that to-night at 7.30, in the Gymnasium, Florida, 123, the crews will be chosen for the races to come off on the 8th of next month. The committee will also be glad to receive any suggestion from members as to other races besides those already advertised.

The true cause of the cannon shots heard on Friday night has not yet transpired. We opine it must have been some gunboat whose commander was treating his sailors to "night-quarters."

There will be no sermon at the Scotch church on Sunday next, as the Rev. James Smith intends preaching on that day (D. V.) at Cañuelas or Guardia del Monte, according as the war, the weather and other circumstances may permit.

"I hope, Mrs. Giles," said a lady who was canvassing for a choir at the village church, "you will persuade your husband to join us. I am told he has a very sonorous voice." "A very sonorous voice, marm!" said Mrs. Giles. "Ah! you should hear it comin' out of his nose when he's asleep."

VALUE OF DOUBLOONS.

B. Ayres, Nov. 9th, 1874.

To the Editors of the STANDARD.

Gentlemen,

Permit me to call your attention to a document from the Junta of Public Credit in Montevideo, in the *Siglo* of November 6th, wherein the Board of Credit enquire from the Finance Minister whether they are to continue taking doubloons that may be 4 grains light (as merchants do), or are to insist on the standard weight of 27.045.

So far is plain enough, but then it goes on to say that merchants receive, as agreed on, doubloons weighing only 26.180. If this were so it would amount to receiving doubloons wanting 17¼ grains, or 865 milligrams, which is absurd.

The fact is, that in Buenos Ayres we admit an allowance of 6 grains (say 300 milligrams). That is to say, we tolerate a loss of 13 cents in Montevideo or 20 cents in Buenos Ayres, not 57 cents in a doubloon, as the Board of Credit supposes.

Meantime the Ministerial decree to enforce the full weight of 21 kilats, or 27.045 grammes, is very mal-apropos, since the Government ought to allow the same margin of toleration as the merchants, especially at a time when doubloons form the bulk of our gold currency, and when the Oriental Republic is passing through a difficult crisis.

ON 'CHANGE.

Ounces	400
Sovs	122½
Pats	25
Nat. Bonds	
Cedulas	77½

There were no cash transactions in Cedulas and everything was done on time; prices rule weak, and the sales effected indicate nothing.

The great plethora of gold in Barraquero circles on Saturday was much talked of. Several wool men state that at some of the Banks and export houses they were paid in gold, which was a monstrous inconvenience; one party refused to take from a private Bank 15,000 pats because the cashier could give only gold; the matter is worthy of attention at a period like the present.

A leading German merchant just down from San Nicolas reports having witnessed a 'manga' of locusts, the sight was truly awful and caused temporary darkness; suddenly the wind changed and they were all blown back to the Islands.

The auction of the fine Ochoa house in calle Reconquista 17½x55, and losing in the rear 2½ varas giving but 15 varas width, came off at the appointed hour; the attendance was small; there was only one bid 2,435,000, being 5,000 m/c over the valuation. The auctioneer Mr. Perez del Cerro suspended the sale.

The stock sales were—

Exchange was done to-day at 30d, billson Barcelona payable in London; regular London bills 49½; on Antwerp 5,27-29; on Montevideo ¼ dis.

Mr. John Krabbe, of the leading firm of Darbyshire Krabbe and Co of Montevideo, was warmly welcomed on 'Change, also Mr. Marks, Purser of Douro, who reports hard times coming down from Rio; terrible gale and an accident to the great Douro bell on board, the sea struck the Bon and knocked the tongue out of it; the Potosi that left Rio 17 hours before Douro only arrived 3 hours before her.

Messrs. F. Treudelbourgh & Co. have conferred full powers on Mr. E. Hauenschild.

Loans on Cedulas that fell due to-day were renewed at 12 per cent.

The Italia Platense sailed from Genoa for Plate on 31st Oct. with 762 passengers.

Messrs. Woodgate report Cybele all full, she takes 2,500 bales, 4,141 hides, and will sail about 12th.

A late telegram from New York, Nov. 5th, was spoken on 'Change it gives:—

"New decline in hides".

On the Mole to-day two villains tried to cut Mr. Meyne's gold chain and make off with his watch, he was however too fast for them, and they got his stick instead, and pretty heavily.

The Nat. Government has chartered the fine Brazilian steamer Doña Francisca at the rate of 4,000 pats. per month as a war transport. Three other steamers are also spoken of as taken up.

Mr. Wehmann sold this morning one lot of Mr. Robert Will's wool at 93. Not much doing in the South market as yet. 10 carts old wool entered not sold, 4 carts new wool, Casares, not sold. about 3,000 ar. in at station

This was a busy day enough in town, what with the arrival of the Douro's passengers, the clearance of the Leibnitz, the mails from Europe and long extracts from all the London papers with the most extraordinary news from Buenos Ayres, people had quite enough on hand to attend to.

The week has opened with the landing of prize guns, sabres, and uniforms captured at Tuyu by the Government squadron, the landing scene at the Mole to-day was a satisfactory business for the Government, and sentries were posted. The passenger mole also was guarded, and a large crowd of Douro passengers held the mole for several hours, the wind was high and river very rough, and coming ashore this morning was as tight a business as the whole voyage from Southampton to the River.

The best news on 'Change is from the Punta Lara cable expedition. Mr. Newman, one of the expeditionary party, has returned, he reports that on Saturday they spoke through from the office here to Montevideo by means of a temporary splice. The Naposta went a cross to Colonia for more cable pieces; thus we may look for telegraphic communication in a few days if the wind subsides; the heavy gale to-day very much interfered with the "transit of Oldham."

If we except produce news, everything from Europe to-day was unpleasant and unfavorable; we give further down copious extracts from the London papers, also extracts from a private letter received from Lombard Street. Mr. Rogers, contractor of the Government railway from Rio 4° to Mercedes has returned in the packet, and was warmly welcomed on 'Change.

The fine Lavarello steamer Europa has brought out this trip over 800 passengers. The Po has brought 700, and the Senegal 600, in all 2100 emigrants within the last few days; this shows well.

It appears that some of the creditors of the Argentine Bank object to the manner in which the liquidation is going on, as regards the computation of interest, which instead of being on the 5 per cent paid every 90 days by the Bank, they consider should be on the gross amount of the capital or debt; the point is an important one.

We are asked by an Entre Riano correspondent what about the Entre Riano Bank, and when will it open. We are not in a position to answer the question; the amount of bills out in circulation 537,000 Bol. Dollars and 3,444 pats. The Bank owes in account current 264,000 pats, which seems to be a very large amount for such a mighty small concern.

The Buenos Ayres revolution has caused more anxiety in Italy than elsewhere, the Italian papers teem with articles on the Plate and its misfortunes; a strong Italian squadron composed of two turret iron clads and some gun boats is ordered to the Plate.

The news from Paraguay to-day was rather better, Mr. Gill has been duly elected president there has been no row whatever, everything goes on peaceable and quiet, and business shows a little better.

Attention is called to the number of false Hundred Dollar bills now in circulation, the police are looking up the forgers but meanwhile the bills are going about, and people must be on their guard.

Letters from the rivers report the locusts last seen near San Nicolas; as yet they have not done much damage.

Several sales of Entre Riano wool are reported, on contract; the prices generally rule about 4 pats., the wools are said to be very clean and light; it seems probable that most of the Entre Riano wool this year will be bought in this market, and not in Montevideo.

The following we take from the latest London papers received per Douro—

"London 6th.

"The tone of the foreign market has been very depressed to-day from various causes. The news of the serious revolution which has broken out in the Argentine Republic so shortly after the repression of that in Entre Rios has brought down Buenos Ayres and Argentine Securities sharply. Those of Egypte have also fallen considerably, owing in some degree to the news regarding a rise of the Nile. In a few instances, however, there was a slight rally at the close, but Argentine are quoted lower without business, and other stocks close weakly. Argentine 1871, 86 to 88 a fall of 3; do. 1872, (hard dollar), 75 to 77 a fall of 2; Buenos Ayres six per cent, 1873, 85 to 87 a fall of 3.

"London 7th.

"Argentine continue to be quoted low, but business is not being done to any extent, the lower quotations being nearly preventive—less, that is, than the price at which holders now value the stock: Argentine six per cent 1871, 82 to 84 a fall of 4; do six per cent 1872, 70 to 75 a fall of 3.

"London 9th.

"There is some recovery in Argentine securities, the impression apparently being that the rebels are not likely, even if they win, to do anything inimical to the interests of the State's creditors, and 'bona fide' buyers have come in at the low prices. Mexican are flatter, simply because of weakness in the market, the dealing being only speculative and dependent upon the state of the money market.

"Argentine 6 per cent. 89, 92, (89, 8, 90, 89' 91)

"Do. 6 per cent 1872 (Public Works, 86, 89) (85, 6, 7, 6½)

"Do. 6 per cent 1872 (Hard Dollars) 70, 74, 69, 70. 68, 9.)

Entre Rios 7 per cent 1872, 91, 98.

"B Ayres 6 per cent 1870. 85, 88.

"Do. 1873, 84, 87 (85, 6).

"Royal Mail Steam receded 1, to 78, 81.

"Bank Shares showed very few changes. London and River Plate New fell ½ to 2½, 3 prem.

"Santa Fe 7 per cent 92, 95.

Paraguay 8 per cent 18, 21.

"Do. 1872, 15, 18.

"Uruguay Con. 6 per cent 1871, 61, 65 [61½, 5½, 4½.]"

"Advices from America announce the bankruptcy and assignment of the United States Watch Company, one New York firm being creditors to the extent of £50,000. About a year ago the concern was reckoned to be in a flourishing condition, with assets put down at £500,000. The Citizen's Bank of New Orleans had resumed business with a cash surplus over its cash liabilities of £18,000. The total value of its solvent assets amount to £12,000.

"According to a telegram from Rio, several commercial houses have suspended payment in Buenos Ayres, and a crisis is imminent. The Banco Argentino has closed. It is also announced that the Brazilian Government has issued through the German Bank a 6 per cent loan for £5,000,000, at the price of 98.

"The Glasgow *Daily Mail* states that the latest mail advices from New York report the suspension of Messrs. C. Ludmann and Co., of 4, South William-street, general commission merchants and exporters; liabilities not known. Their stoppage is due to their bills of exchange being protested by their correspondents in Europe.

"The directors of the Royal Mail Steam-packet Company have decided to recommend to the shareholders, at the meeting to be held on Wednesday, the 21st inst., a distribution of £3 per share, including dividend and bonus, for the half-year ended the 30th of June last, free of income tax. The distribution at the corresponding period of last year was £4 6s per share."

The following letter we have received from London its explains every thing:—

"London, Oct. 8th, 1874.

"I scarcely know how to begin this paragraph which must be dedicated to remarks on the astounding news just received by cable-gram in reference to the fatal ill-omened revolution which has broken out amongst you! Such consternation and excitement has rarely been witnessed in our now widely extended circle of River Plate people in London, and I may also add the general public, who are deeply interested in the welfare of those states! The first wire received on Friday 2nd seemed a 'bola', but subsequent confirmatory telegrams left no doubt as to the gravity of the event. I may briefly say that this "pronunciamiento" is considered to have at least a ten years retrograde effect on the prosperity of the country, and your politicians must be blinded by selfish and ambitious aims to a degree beyond credence when they lend themselves to such a suicidal policy. The result has been for the present a fall of over 10 o/o in all River Plate securities, and a marked want of confidence in the stability of republican Institutions, however, apparently well founded and lasting may have been their previous prosperity. 'The 'bears' on the Stock Exchange gloated over the intelligence as hungry wolves are said to do over their dying victims in the desert, heavy sales were offered, but lo! no one would buy. Such is the panic and consternation that no speculators however bold will risk a purchase of stock which in a week from this date may be unsaleable at any price, hence the quotations which to-day's mail may take out must be considered as purely nominal.

"The newspaper especially *Telegraph* and *Pall Mall Gazette* occupy their columns with the hourly announcements from our side and comment freely on the consequences of every movement or change. Uruguay has been affected in sympathy, and a few day's ago the long neglected Paraguayan bonds which for months past occupied a 'fixed' position in the official list made a terribly convulsive effort and struggled up to 26, a rise of 10, on the news (only a bola) that Brazil was about to guarantee it. To-day it has gone back to its nominal 16, but as "commissioners" are expected soon to treat as to the over due coupons and endeavour to make provision for a future regular service of the debt, we may soon see another spurt in this putrid water.

"This seems to be the era of astounding events and sensational occurrences. On the same day when the electric wire flashed us the news of your calamitous insurrection, the Regent's Canal and Park were the scene of a terrible catastrophe; 4 tons of gun-powder being conveyed in a barge at 5 a. m. was by some accident (which will never be elucidated) exploded, blowing up a bridge, crumbling into ruins a large number of houses, and killing (as yet an unknown) number of people. Then from Egypt comes the news of the overflow of the Nile and destruction of property and life. Again from Japan a most disastrous storm which sank over a thousand vessels, and killed and drowned several hundreds of people.

"Yet notwithstanding all this, business is very brisk and money although a little dearer is abundant. No change in the Bank rate has taken place and the general aspect of financial and commercial affairs is rather reassuring than otherwise.

"Mr. Sampson has finally withdrawn from the *Times* since the 1st inst, and Mr. Crump, of the *Pall Mall Gazette*, has replaced him. I must leave you to judge of the difference in tone of the *Times* city article. Mr. J S Rogers, of Rio 4° Railway goes back by this steamer after having completed the purchase of the material for this line, how far the passing events may interfere with this and analogous undertakings is a problem which anxiously demands a solution."

The following is the latest circular from Liverpool per Douro:—

The arrivals from the River Plate since our last have been the steamers Leibnitz and Kepler from B. Ayres, &c.; the Disingamio, from Montevideo; the Jane Lamb, from Rosario; and from the Uruguay, the Suez, Dulcimer, Restless, Oga Spes Nostra, and Lidia, whose united cargoes comprised 3,635 dry and 72,000 salted River Plate ox and cow, and 11,435 salted river Plate horse hides, 2,902 pipes tallow, 34 bs. hair, bones, bone ash, sheepskins, &c. From other quarters the principal imports have been 311 West Coast, 5,950 Brazil, 22,000 North American, 1,350 West Indian, and 13,000 East India Kips and Buffalo hides.

After the active business of the preceding month the market for salted River Plate and Rio Grande ox and cow hides has been comparatively quiet during the past, Tanners freely supplying themselves from the cargoes which had been previously sold to arrive. Prices, however, have continued very firm, though the stock has gradually increased, and there are no sellers for arrival except at an advance. A cargo of salted Rio Grande ox and cow has been sold during the last few days at 8¾d. per lb., which shows a further improvement of 3/16d; per lb.

There has been a good general business in leather, and tanners are again asking higher prices.

Sales. 41,444, chiefly sold previous to arrival. Buenos Ayres, heavy ox (matadero) 65½ lbs. light ox, 51½ lbs., and extra heavy ox, 87½ lbs. at 8½d. per lb., tare 7 lbs.; cow, 47½ lbs. at 8d per lb., tare 5 lbs., landing weights, ex quay. Uruguay extra heavy ox, 80¼ lbs. at 9¼d per lb, and 7 lbs' tare.

The present stock consists of 32,355 hides, viz River Plate—18,162 heavy ox, 520 light ox, cow 317, landing 13,356, total 32,355.

Dry Hides.—Import, 3,685. There has been a good demand during the month, and prices have advanced ½d to ¾d per lb. Sales, 5,126. Buenos Ayres, 24½ to 28 lbs. 1st class at 10½d to 11½d: 2nd class at 10d per lb. 34 to 38½ lbs., 1st class at 10¾d to 11¼d; 2nd class at 10d to 10½d; 3rd class at 9¼d per lb. Rosario, 24½ to 27½ lbs., 1st class at 11d to 11½d: 2nd class at 9¾d to 10¼ per lb. 34½ to 35½ lbs., 1st class at 10¾d to 10½d; 2nd class at 9¼d per lb. Stock, 3,174.

South American Tallow.—Import, 2,902 pipes. During the early part of the month the market was very dull and inactive, but a slight improvement, which has all the appearance of being maintained, has taken place during the last few days, and several cargoes of beef have been sold off the Coast at 42 and 42/6; and yesterday the latter price was refused for 150 pipes on the spot. For arrival there is a very good inquiry, but no cargoes are offering. Nothing doing in mutton, which we quote nominally at 41s. per cwt. The sales for the month are equal to 2,934, and the stock to 7,152 pipes, of which 4,872 pipes are beef, and 2,280 pipes mutton.

SAVINGS BANK
BANK MAUA AND CO
101--Calle Cangallo--103
BUENOS AYRES.

The immense advantages of Accounts Current are now so generally felt and appreciated in the great emporiums of the River Plate, Montevideo, and Buenos Ayres, that there are very few Merchants who fail to keep one at the bank in which they place the most confidence.

The Bank of Maná & Co. in Montevideo has already provided for the working classes in that city a safe and profitable depository for their savings.

The sums deposited in that very important institution are daily increasing, and already reach a very large amount.

These advantages have not hitherto been enjoyed in this city by an immense number of clerks artizans, working men, and servants of all classes and conditions, who are equally interested in putting their savings out at interest, thus providing themselves with a reserve fund in case of need sickness, or old age, instead of spending them in immoral gambling, in lotteries, and other novelties.

The Bank of Mauá & Co. of this city, following the example of their firm in Montevideo, offer the same facilities in this city, and has opened a Savings Bank at No 103 Calle Cangallo from Nine a.m. till Three p.m. every day, for the reception of the savings of the classes already mentioned, Sundays and holidays excepted.

The Bank will deliver to each depositors a pass book, in which will be entered the amount deposited and withdrawn.

The depositor is permitted at any time to withdraw the whole or part of the sum deposited; in the former case the interes will be calculated up to date.

The Bank of Mauá & Co. is sufficiently known to the Public by the benefit derived from the course of its operations, which are regulated on the strictest and soundest principles, and always directed to promote the general welfare.

The Bank of Maua & Co. are also persuaded that thie new branch of their business will render immense service to the working classes of Buenos Ayres and its neighborhood.

CELEBRATED SHEEP-DIP,
LICOR DERMATOSICO.
PREPARED BY
TORRES & CO., Druggists,
DEFENSA, 65, 67 and 69.

Guaranteed Infallible for the Cure of Scab in Sheep.

After long and innumerable trials, we have succeeded in preparing the above Sheep-Dip, by the use of which we guarantee the thorough eradication of Scab in Sheep.

Besides cheapness and easy application, it has the great advantage over all other similar preparations of being
COMPLETELY SOLUBLE IN WATER,
a circumstance which admits of our liquid penetrating to the very surface of the skin, without spotting the wool or making it adhere.
