perment was made under usually unfavorable circumstances. Low freights this year against high last, and water rates from Chicago instead of rail, may overcome the disadvantages of last year's trial from New York. The great obstacle is in cost of shipment, and if it can be overcome, this may be made a profitable commerce between us and Great Britain, provided cattle are not subject to sickness, in which case shrinkage equal to that in men under the same circumstances would greatly reduce their afloat profits, and consequently the shipper's profits.

Designs for three large doors for the new Jesuit Church in Calle Calles are called for. Application can be made at the Conciliar Seminary after "oration."

The total emigration from Europe to the Plata from the 1st of January to the end of September was 39,404; of these only 993 came from Great Britain: there were 15 Mahomedans.

The Operario and Espanol say that Vieyra who murdered Gneumi, the Italian telegraph clerk, in such a cold blooded manner last week, has escaped from prison, but the Tribuna denies the statement, and says that there is no truth in it. It is to be hoped there is not.

The well known and enterprising news-men Messrs. Jacobsen and Soderstedt sent us on Thursday English papers to the 25th ult., late as any in town, or out of it. The journals came just as we were going to dinner, and the paper to press, otherwise we should of course have acknowledged their receipt in our last issue. Very late papers should always be sent to us very early, or there is danger of their receipt not being acknowledged the following day. In these ticklish times we go to press, to dinner and to bed much earlier than when Cadulas were in demand at 95, and no one would sell Gas shares at 3000 mps. Not that we were then even dreaming of buying either security. Quite the contrary.

Another curiosity for the museum. Japanese Bonds, fresh from a leading broker at Jeddah. Can any subscriber assist us to read them? They are really the funniest things in the Bond way we have ever seen, and beat the Rupee affair hollow.

John Wilkes, in a letter, records one of the happiest sayings he ever heard, proceeding from no higher a person than an ordinary servant-maid. The Hon H.S. Conway, Groom of the Bed-chamber, looking at a furnished house to be let, saw a pretty servant-girl, whom he jocularly asked if she was to be let too, as well as the house. "No, sir," said she, "I am to be let alone."

The National of Thursday evening publishes a romantic story of the Viale family, a member of which perished in so chivalrous a manner in the terrible catastrophe to the America. A cousin of his came here from Chile several years ago across the Andes with his infant son. When among the dangerous passes the nurse got frightened, and would not go on. Viale then back to Chile, came on here and settled down. Years rolled on, he never saw his child again and believed it dead; he married again and had two sons, now settled in life up the river at Zarate, near which the old man and his wife reside. A short time ago a young man named Viale came here from Chile, and hearing there was one of his name at Zarate went there, made his acquaintance, and told his story, and that he was looking for his father. He produced a gold locket with his father's likeness which had hung on his neck when his nurse was sent back with him to Chile. To his amazement the Zarate man declared it was the likeness of his own father. The Chilean wanderer had found father, brothers and stepmother at once. Thirteen is really stranger than fiction—pardon the commonplace observation.

Legingoviz is the way the Cable to Europe spells the name of our worthy Minister of Warship Dr. Leguizamon in transmitting the list of the Avellaneda Cabinet. The Finance Minister is dubbed "Custines," Dr. Frias, Frias, and soon. Oh! Cable, Cable! thou art the author of more follies in a newspaper etc!

An American lawyer engaged in a case tormented a witness so much with questions that the poor fellow at last cried for water. "There," said the judge—"I thought you would pump him dry."

ON 'CHANGE.

Table with exchange rates for various locations and currencies, including Buenos Aires, Montevideo, and other regional ports.

Messrs. Woodgate stating "revolution here, suspended shipments," dated Oct. 8th. This gave trouble in London. Messrs. Woodgate never having sent any such message or even any message at all.

Mr. Griffiths agent of the Oriental Telegraph Company notifies that now at his office messages come through daily from Europe.

A very important financial transaction was spoken of on "Change to-day," the business is connected with the National Bank and National Government, also the Provincial Bank; the operation is an important one.

At last there seems to be a saladero move, something done to-day in salted hides under great reserve and hides offering. Mesrs. Silges and Ferrando bought to-day the first troop of cattle for this season 800 head, this shows business but Messrs. Silges and Ferrando always stand first.

It may interest some to know that Mr. Cathcart holds some very important orders to buy good central property; he can be seen at the Bolsa during business hours.

The stock sales were— Cables 1,000 781; do 12,200 781; do 29,000 781; do 3,000 781; Saturday 12,000 781; End of month, 116,000 781; do 5,000 781; do 3,000 781.

In the quotation— End month 6,000 781; For cash 16,000 781; End of year 6,000 781; Exchange rates firm at 500 on England, and at 5.2830 for France.

The best to-day was very much felt on "Change. One broker had a Cucusit silk coat on, which attracted a enviable notice.

The wool business is the business of the day, about 10,000 ar. sold in South market. 100 ar. at 95; 2000 do 88; 3000 do 85; 5000 do 80; 1000 do 78; 1000 do 80.

Antwerp classes rule at 78-82; Fine Havre 83-95; Dry hides falling sales 160-168; In the North Market a large business done— 5000 ar. dry wool 75; 5000 do 77; 5000 do 82; 1000 do 84; 1200 do 82; 3000 do 86; 5000 do 81-87; 650 do 80; 2000 do fine 92; 4000 do 88; 500 do 88.

2 lots sheepskins at 27-28 rls; 2120 dry hides at 157; 1 lot tallow at 147; About 20,000 ar. stands for to-morrow; Messrs. Galbraith & Ramsay report sale of 1 lot wool 90; 1 lot fine wool 97.

bullies included in both. The owner was a Scotch farmer of the South. From Montevideo we have Deuda Interina 609 for end December; Arinos arrived.

The Argentine Bank Director under to-day's date has resolved to receive in payment of 10 per cent. call on shares, boleros of bank let and 2nd, this is important.

A rather busy day to-day owing to the mails, the good stir in produce and the large consignments of goods going out to camp towns. Money shows signs of improvement, really first class bills are scarce: we believe they could be done at 95 per cent. One of our private banks already sends to complete of the plethora of deposits, and has sent notice round stating that henceforward only 2 per cent per annum can be allowed on deposits in account current over \$2,000 pats; this shows how the wind blows: again money was offered on stocks to-day under 12 per cent per annum. The market shows decided signs of recuperation.

The mails from Montevideo this morning brought us a short letter from our correspondent down, there which will be found at foot; we note the following emigrant arrivals: 318; do 120; do 172; do 480; new hands—1919.

Messrs. Lewis & Fynn, have granted in fee simple to the land Society a square of land of the Espido quinta, Arroyo Seco for the National Exhibition. The steamer Cybele took from Montevideo 80 bales wool. The American bark Island City, took for New York 37,196 lbs. hides. There was some talk in the Mount about the San Gonz. Arg. War-steamers and a small vessel of the Cerro, but what it all amounted to was only known to the Port-Captain. The newspaper La Patria has suspended for a few days.

To-day Mr. Nicholas Lowe's wool was delivered, 3000 ar. at 85, also Mr. Maguire's wool from Luxan 1100 ar. at 84.

The mail has brought us London papers to 23rd Oct.; we have looked through them all thinking we should find in some or one a leader article war in the River Plate, but beyond short extraordinary telegrams giving Sarmitano outside the gates of Buenos Ayres defeating the city, and Rivas following up and beating the insurgents we find nothing; and after all is not this nothing, most instructive? There are leads in the London papers on every imaginable subject, but who cares about the R. Plate in Europe? of few bond and share-holders and the correspondents of the houses. In the city article of the Times of 20th there is mention of a telegram received by Mr. Edward Meyer from Mr. Gladstone's Secretary, President of Provincial Bank, stating that with the exception of Rivas in the South, the Republic is quiet. In the same paper on the following day there is a long extract from our columns on the revenue of the Argentine Republic.

The sale of a cargo of Chilean flour in Montevideo is reported as reserved price. Four thousand bushels of French seed potatoes from the southern part of the late ex-Emperador Napoleon III. have arrived out in the Archipelago and are now on sale. The French exporter has identified the season for seed potatoes; they come about 2 months to 1 1/2; however, they will cure in well for the second crop, 2 months hence. So much has been said and published about a few empty remarks of ours on the steady losses suffered by holders of River Plate stocks within the last 2 years that in self justification we feel bound to publish the following list of stocks in which the foreign community of B. Ayres were more or less interested, giving the quotations for the early part of 1874, and the price or position of the stock to-day. The list might be made more extensive, but we apprehend for the purpose required it is sufficiently long. Some few stocks that are in this way but that show out to be finally under the very darkest trials and resolutions any stock, but they are few and far between and will not be mentioned in this article. The list is for the most part compiled from the books of the banks in this city. The list suggests many more remarks, none, however, truer than that the investment in central city property in 1873 stood, what those in stocks are "to money dear."

looked for and at break of day crowds of interested parties were to be seen on the mole, the first person that landed was Mr. Wilkinson of the firm of Messrs. George D. Stetson & Co. who was literally gagged by the crowd to get at information from your city, all of which appears to be good, for what we consider of the greatest importance, and that is our commerce.
