#### RACING

PALERMO-SEPTEMBER 5.

After a previous three days rain, last Sunday was as near perfection as possible, the beautiful spring-like weather being a pleasant contrast to the miserable conditions experienced the few preceding days. The going was, of course, rather heavy, but was very much better than one was led to expect.

The day's sport opened with the Premio Epsom, 1600 metres for which all the entrants came to scratch, Lanza Seca having the call in the wagering. Mirabeau, however, who was made second favourite, won with the greatest ease by over two lengths from the favourite.

The Selling race brought out half a dozen, of whom Combate obtained most support and won easily from Crack, while Efrain finished but a moderate third.

A fair field of thirteen turned out for the Premio Maison Laffitte, and of these Hugonote, Daine, and Partisan had no lack of support, but only one of these, Daine, was placed, she being easily beaten by Tetrarca, who won anyhow after making all the running.

Eleven turned out for the classic and Mirabeau. on the strength of his recent performance, started favourite, though plenty of money was forthcoming for Doblete, and Rosalvina was by no means neglected. Mirabeau made a very game effort and before coming into the straight looked all over a winner, but it was not to be, as the Stud Calchin's | Stud Manantiales' Pegaso, 57 k............J. Gomez mare scored a clever win by a length, and no other was in the race.

The long distance provided us with the race of the day. Rose Royale and Brandzen running neck and neck from the bend into the straight, and in spite of the most vigorous efforts on the part of each jockey, the Judge was unable to separate them at the finish. It is only fair to point out that the mare was given away nine kilos, which was naturally a serious bandicap in a finish of that nature.

Seven contested the Premio Ascot and again we had a good finish. Eléctrica, who was a very warm favourite, having to play second fiddle to Nobleza by a little more than half a length.

The final race of the day gave the favourite another chance, Salteador, who was greatly fancied, getting home cleverly by half a length from Voltigeur.

The following are the details:

#### PALERMO-SEPTEMBER 8.

Last Wednesday was an ideal day for racing. and how much the beautiful weather was appreciated was shown by the enormous crowd present at Palermo. Under these conditions, and with the track in splendid order and the Jockey Club Stakes figuring on the programme, a good day's racing was looked forward to and we can say with truth that these expectations were fully realized.

The first race brought out a fairly large field of seventeen, of which Austerlitz and Hidalga were the most fancied, and these two quite ran up to expectation, finishing second and third respectivelv.

Pilcomayo was made a very hot favourite for the Premio Rivadavia, but Tiradentes brought about a surprise by winning easily by nearly a couple of lengths from the favourite. The winner paid the useful dividend of \$39.50.

According to our prognostications last week. Daza retrieved his recent bad luck by placing the 1200 metres race to the credit of the Prisionero stable in spite of getting a very poor start, de-

feating Orleans by a neck. This brought us to the great race of the day the Jockey Club Stakes of \$20,000. A nice field of eleven turned out for this including the three cracks. Pillito, Orange, and Balcarce. The meeting of these three was looked forward to with great interest, and each had a large number of supporters though Orange started a warm favourite. Of the others Paris and the Los Cardos. pair were considered good outside chances. Of the race itself there is little to be said as Orange had matters all his own way, although Pillito, as usual, came with one of those magnificent late rushes for which he is so renowned, but he could not get up to the leader though he accounted for Balcarce all right. Of the others Gonin and Citoyenne showed up prominently at times during the race, but Orange had an easy time of it and was never in trouble.

The long distance gave another outsider a chance of securing winning brackets as Duque running gamely got home in front of the favourite and top-weight Oriel by half a length.

A small field of five did duty for the Premio Ontario, and Brick, who was carrying 64 kilos, scored a very clever win by a neck from Meteoro, :to whom he was conceding no less than eighteen kilos.

Only four put in an appearance for the last race of the day, the other four eutrants not coming to o scratch. Voltigeur was made favourite, a confi dence he fully justified by stalling off a vigorous challenge by Kose Royale and winning a good flag and making all the running led the field to the race by half a llength, after Ortegal had made most of the running.

The following are the details:

PREMIO AMIANTO, for three-year-olds that have not won, colts 56 kilos, fillies 54 kilos, \$1,800 to the 1st, 200 to the 2nd, 1100 metres.

The prevailing spell of fine weather will probably bring an immense crowd on Sunday to witness the race well represented on Wednesday for the Premio Jockey Club, will probably assemble in greater numbers for this | Sir R. Waldie-Griffith's Asterie. 3 y, 6 st..... Dalton 3 meeting, always a favourite one, and which presents a much better programme than the last, though the big prize will probably be contested by very few, as the presence of Porteño will make the lot small and select. The younger horses left in may be reduced to Colombia, Mr R. Lebaudy's Kopely, 4 y, 7 st 4 lb (car. Argentino and Alacran, of which the last should be the best, but hardly able to compete with Porteño in 3500 metres. Sebastopol and Ney may be more serious rivals, more than one surprise, and if in form is not too old to do it again.

The meeting opens with a Selling Plate which Osmond should run away with, but if retired as lately on per, 100 to 7 each agst Palm Oil and Merman, and 20 to a similar occasion, Sincera would have a good chance.

The 1400 metres may go to Tantalo or Guttemberg, worth looking after.

Crucero ought to win the Gentlemen Riders.

If without a win in the Premio San Martin, Guttemberg should make a good show in the mile for threeyear-olds, and the distance is also suitable for Plaisan-

Stamboul must have a chance in the 2200 metres, though Brandzen made too good a race last Sunday to be left out.

Tiradentes, with 47 kilos including penalty, could well repeat his performance of Wednesday, and Meteoro may be coupled with him, as the only consistent runner of late in the race.

My selections are: Premio Remate—Osmond or Sincera. Premio San Martin -Tantalo or Guttemberg. Premio Ituzaingó—Oriel or Electrica. Gran Premio de Honor-Porteño or Sebastopol, Premio Gentlemen Riders-Crucero. Premio Revancha—Plaisanterie or Guttemberg. Premio Landseer-Stamboul or Brandzen. Premio Cartouche II - Tiradentes or Meteoro.

#### HOME RACING.

The Sussex fortnight was concluded in beautiful weather, and the attendance on both days at Lewes, which included the Prince of Wales, was one of the best ever known at the place.

The Lewes handicap was worth £990 to the winner. and ten of the acceptors went to the front, of whom Balsamo, who was nicely handicapped, was made first fa-

vourite.

The distance of the race is a mile and a-half, and Asterie, Bonny Blade, Clipstone, and Carlton Grange were the pacemakers for nearly half a mile, when Northallerton took up the running. Mr. Rucker's colt held his place until they were half way up the straight, when Merman went to the front, followed by Carlton Grange and Asterie. Between the three the race was a good one, but the outsider just cleverly held his own, beating Carlton Grange by half a length, with Asterie close up third. Merman is an imported Australian, in the ownership of Mr. Jersey, and trained by Webb but, though a five-year-old he had only 6st. 12lbs. to carry.

The meeting at Redcar, which marks the commencement of the Yorkshire campaign is always one of the pleasantest of the year, and this time there was plenty of good sport.

The most interesting event on the first day was the Redcar Two-year-old Stakes which was won by The Bittern, who is undoubtedly a very useful colt.

The Grand National Breeders' Foal Stakes was spoiled by the presence of Silver Fox, whose class is quite firstrate. It was, however, surprising that Silver Fox should win by a short head only from Unseen.

There was fair sport at Kempton on August 10th and 11th. On the first day the Kempton Park International Two-year-old Stakes was included in the programme, for which a very useful field of ten did duty, the swells including Chon Kina, Heir Male, and M.D., while the Samaria filly, Sylvestris, and Stream of Gold had all shown useful form, if they were not actually winners. Chon Kina had much the worst of the weights, but he was at once installed favourite, and only 5 to 4 was procurable at flag-fall, with Sylvestris backed at 4 to 1, and double the odds on offer against Samaria filly. The last-named cut out the work, and just holding her own to the end, beat M.D. by a head, with Green Room a neck behind, and Heir Male close up fourth.

The principal event on the second day was the City of London Breeders' Foal Plate, which though the stake was worth £1180 to the winner, only attracted three of a large entry. Ardeshir was undoubtedly the swell of the trio, but he was penalised 7 lbs., whereas the Manton-trained Jacobus was entitled to to the full allowance, and was in receipt of 18 lbs. from Mr Theobald's colt. The latter opened favourite, but there was so much money for Jacobus that he started in first demand at 11 to 10, while Ardesbir stood at 5 to 4. The third runner, Merle, was on offer at 7 to 1, and she made running to the bend for home. Long before this point was reached Jacobus was well beaten, and when they were fairly in the straight Ardeshir raced past Merle without an effort, and won as he liked.

Below we give the particulars of some of the more important events:-

LEWES SUMMER MEETING-AUGUST 7. Lewes Handicap of 1500 sovs; 1½ miles. Mr Jersey's ch h Merman, by Grand Flaseur -Seaweed, 5 y, 6 st 12 lb.....Sharples 1

W. Jones 0 and might give the favourite hard work to beat them in Mr C. Hibbert's Palm Oil, 3 y, 6 st 1 lb...... T. Dunn C this long distance. The first named has given the public Mr H. T. Barclay's Bonny Blade, 3 y, 6 st.. H. Perks 0 Betting-11 to 8 agst Balsamo, 6 to 1 agst Kopely, 8 to 1 agst Northallerton, 10 to 1 each agst Carlton Grange, and Asterie, 100 to 8 each Clipstone and Golden Slip-

l agst Bonny Blade. Asterie jumped off with the lead, followed by Bonny and if the latter is kept for the mile, Gavotte would be Blade, Carlton Grange and Clipstone, Northalierton lying next, and the favourite last. There was very little Oriel, if better ridden than on Wednesday, should | change in this order for the first two furlongs, when again be a winner in the Premio Ituzaingo, and if he Northallerton ran to the front, with Asterie, Merman, comes too late Electrica may just stay long enough, as and Clipstone in close attendance, and Balsamo's position very little improved. Entering the rails Merman

was Northallerton's immediate attendant. Descending

REDCAR SUMMER MEETING-AUGUST 10. Redcar Two-year-old Stakes of 600 sovs; 6 furlongs. Capt. Greer's ch c Bittern, by Gallinule-

Mr R. Sherwood's The Khedive, 8 st 12 lb..... Hind Mr W. R. Reid's Royette, 8 st 2 lb . . . . . F. W. Lane Mr R. Heaton's The Kirk, 8 st 9 lb..... O. Madden Mr J. Lowther's Hagiolite, 8 st 6 lb..... Finlay Lord Zetland's Santos, 8 st 6 lb...... Black

Betting-7 to 4 on Bittern, 100 to 30 agst The Kirk,

and 10 to 1 agst any other.

On fairly settling down, Bittern crossed in front of his field, and came on in front of Royette, with Santos next on the rails, and so they came to the distance, where The Khedive ran into second place, but could never get on terms with Bittern, who won in a canter by three lengths; a length and a half between second and third; Hagiolite was fourth, and The Kirk last.

Redcar Handicap Plate of 300 sovs; about 1 1/2 miles. Mr Tidy's b h Oswestry, by Glasshampton -

Mr W. I'Anson's Durannus, 4 y, 7 st 2 lb. Chandley Lord Durham's Son o' Mine, 6 y, 8 st 11 lb., Rickaby 3 Mr C. H. Hannam's Auroscope, 5 y, 8 s- 8 lb

cope, 4 to 1 agst Oswestry, and 10 to 1 agst any other. Son o' Mine made play from Sirene, Ali, and Black Lion, with Oswestry next, and without material change they ran until half way up the straight, where Sirene September Stakes, handicap for ponies 58 in. or under. 5. HACK RACE, 3000 metres, for hacks regularly ridden was beaten, and Ali also dropped away. Durannus and Oswestry now improved their positions in attendance upon Son o' Mine, who, on approaching the distance, refused to gallop, swerving all over the course, whereat Oswestry, full of running, took command, and, easily stalling off a challenge from Durannus, won by six lengths; three lengths divided second and third. Scrivener was fourth, Ali fifth, Black Lion next and Auroscope last.

August 11.

Eighteenth Great National Breeders' Foal Stakes of 600 sovs; one mile straight.

Mr J. G. Joicey's ch c Silver Fox, by Satiety Mr P. Buchanan's Unseen, 8 st 4 lb.... Lane 2 Mr J. Joicey's Dick Whittington, 9 st. .... Madden Betting-9 to 4 on Silver Fox, 3 to 1 agst Unseen, and

10 to I each agst Langmoor and Dick Whittington. Unseen showed the way to Dick Whittington, with last-named became second, heading Unseen at the distance, and driving her almost on to the rails. Unseen passed Lohengrin and went after Speculation at a better came again after being interfered with, but just failed to get up to the favourite, who won by a short head; four lengths between second and third.

KEMPTON PARK AUGUST MEETING-AUGUST 10. Kempton Park International Breeders' Two-year-old Stakes of 1000 sovs; 5 furlongs.

Capt. Bewicke's ch f by Swillington-Samaria,

8 st 6 lb......Allsopp Mr F. Cartwright's M.D., 9 st 3 lb..... F. Leader Mr Cresswell's Green Room, 8 st 2 lb..... Rumbold M. R. Lebaudy's Chon Kina, 9 st 7 lb.....S. Loates Sir M. Fitzgerald's Heir Male, 9 st 7 lb...... Ward Capt. Machell's Black Dove, 8 st 11 lb.... M. Cannon Mr T. Sherwood's Stream of Gold, 8 st 7 lb. Wingfield Lord Radnor's Carholme, 8 st 2 lb..... Bushel Mr L. Brassey's Sylvestri's 8 st 2 lb . . . . . . Bradford

Betting-5 to 4 agst Chon Kina, 4 to 1 agst Sylvestris, 8 to 1 agst the Samaria filly, 10 to 1 agst Heir Male, 100 to 8 agst M.D., and 100 to 7 agst any other.

The Samaria filly, on the right hand rails, led away, with Sylvestris wide on the left lying close up for half the journey. Stream of Gold, Green Room, M.D., Chon Kina, and Heir Male were the next batch, but Chon Kina never became prominent. Sylvestris fell away, Mr G. McMorran's Amigaso, 78 k .......... Owner 2 and approaching the distance, M.D. began to draw upon Mr M. G. Fortune's Tommy, 72 k..... Mr Clunie 3 M.D. looked like catching the Samaria filly, but she | Hatrack and Amigaso made the running at a good Kina fifth, and Stream of Gold sixth.

August 11.

City of London Breeders' Foal Plate of 1500 soys, for three-year-olds; Jubilee course.

Mr Theobald's b c Ardeshir, by Ayrshire-Sir R. W. Griffith's Merle, 9 st..........Rumbold 

Betting-11 to 10 agst Jacobus, 5 to 4 agst Ardeshir,

and 7 to 1 agst Merle.

Merle led away at a good pace, with Ardeshir lying somewhat, and in the straight Jacobus was the first beaten, Ardeshir coming along on the outside and winning by four lengths; six lengths between second and third.

# PONY RACING

#### HURLINGHAM-SEPTEMBER 8.

In lovely weather the last meeting of the season was brought to a most successful conclusion on Wednesday. There was a large and fashionable attendance and although the programme was numerically weak, the racing was first class, and the finishes in many cases excellent.

The Ayrshire Cup did not look much of a race on paper, and was generally considered a walk over for Speculation, but contrary to expectation it proved quite the reverse. For Rayon after being held back for the first half of the journey and put on his best behaviour. fairly bustled the National winner along in the second round, and when the latter nearly came down at the wall for a moment it looked any one's race. But Mr White rode with splendid judgment, and won we fancy with a bit up his sleeve. Nevertheless Ravon showed what a fine stayer and jumper he is when in the humour, and Mr Thorold deserves every credit for the way in which he handled him.

Cuervo once more proved what a "clinker" he is, and apparently over any distance, as he won without an effort.

It was very pleasing to see a Hurlingham trained pony win a flat-race at last, and Duchess II. is such a game mare that it is to be hoped she will win a few 1. CRIOLLO FLAT RACE, 800 metres, for criollo more races for her popular owner.

The following are the details:

Sport—Duchess II. \$2.70.

Maiden Stakes, for ponies of 58 inches and under that have not won a race at Hurlingham. Distance 700 metres. Prize \$100 in addition to entrance fees.

Mr Leon Grisar's Boy, 75 k...... Mr Thorold Mr J. R. Gomez's Rataplan, 69 k..... Owner 3 Duchess II. was first away, and although challenged by Boy in the straight won easily by a couple of lengths.

Distance 550 metres. Prize \$100 and entrance fees. Mr E. Lambruschini's Viejo, 80 k. .... Mr Canevari Mr A. Herran's Mistigris, 78 k..........Owner Mr Glynne Williams's Castaño, 60 k..... Mr Haig ()

show in front were Tano and Viejo, but the latter always had the legs of Tano and won comfortably by a length, Mistigris with a late rush defeating Tano for second place.

Sport-Viejo \$4.00.

AYRSHIRE CUP, for all horses, (thoroughbred excepted). Prize a Silver Cup (value \$1500) and entrance fees. The cup to be won three times before becoming the absolute property of the winner, 4000 metres.

Mr A. L. Williamson's Ravon, 76 k ... Mr Thorold 2 Mr W. A. Kettle's Lohengrin, 69 k. Mr G. McMorran | kilos per inch under stipulated beight.

Speculation jumped off in front and made the running i in, for the first circuit. After jumping the water Ravon pace. The latter was two lengths ahead at the "regulation," but made a mistake at the last fence, the mud wall, and pecked badly. Mr White, however, soon had Speculation going again, and although Ravon running very gamely held his own to the last hurdle, Speculation's superior pace told on the flat and he won cleverly by two lengths. A bad third.

Sport-Speculation \$2.80.

2 FAREWELL STAKES, handicap for ponies of 58 in. or under. Distance 1000 metres. Prize \$100 and entrance fees. Cuervo took the lead at the start but soon gave way to Negrito who made the running to the straight, here he was done with and Cuervo again took command and won by a length from Duchess II.

Sport-Cuervo \$3.45.

MIXED STEEPLECHASE, handicap for horses and ponies (excluding thoroughbred and those entered for the Ayrshire Cup). Distance 3000 metres. Prize \$150 and entrance fees.

Mr M. G. Fortune's Hatrack, 78 k..... Mr Thorold

finished the straighter of the two and won by a head; a pace to the first fence, the wall, which the former hit neck separated second and third; Heir Male, who was hard, and Amigaso led by a length over the water, gaining fast at the end, was a good fourth, with Chor Tommy and Picaso 10 lengths away. At the next fence Hatrack caught the leader, but the latter swerved and ran out carrying Hatrack with him. Both were soon set straight again, Amigaso six lengths to the good, and quickly caught the ponies. Hatrack got to Amigaso's girths on entering the straight, and a good race between the pair ensued to the last hurdle, which Amigaso Private and Confidential. refused and again swerved on to Hatrack, and nearly knocked him over, but he just managed to scramble over somehow and won at his ease. A fine race for third place resulted in favour of Tommy by half a length. Sport-Hatrack \$3.85.

last a few lengths away. Nearing the bend they closed Consulto Stakes, for ponies of 58 in. or under, that have not won at this meeting. Weight for ins. Distance 800 metres. Prize \$75 and entrance fees.

> Mr Herran's Mistigris, 69 k.................................. Owner 1 Mistigris walked over.

### 1735—AYACUCHO—1735

In the Street that is called San Martin, There lives at one hundred nineteen, A Man named OLD CARR, Who imports BOOTS from afar, And better footgear was ne'er seen. If to this Old Sinner you'd go, Your dollars and cents you must show, For the' he's a brick, He never gives tick, But his BOOTS are the best that I know.

A general meeting of those interested in cricket was was held on Monday evening last at the Britannia Hotel for the purpose of making preliminary arrangements for the formation of the usual League competition, when the following gentlemen were present: Messre D. O. Le Bas (in the chair), Besserer, Lowndes, G. Brown, Hamill, R. Dorning, Keen, Lynch, Martin, Penman, Usher, Spicer, Boardman, Stewart, Calder, Bird, Lamb, Clarke, Kean.

It was decided to convene a meeting for Monday evening next of the delegates representing each club taking part in the competition, to form a general committee and arrange the fixture list.

There is a probability that five or six clubs will compete and every prospect of a successful season.

In their match with Lancashire, Essex were fortunate to win the toss; but their batsmen made the most of their opportunities, and 290 was a fine score against the bowling of Mold, Briggs, Cuttell, and Hallam. A. C. Maclaren started with some vigorous and effective play; but, with his score 32, and when looking well set, he excepting Frank Sugg, the Lancashire men gave a 15 not out. wretched and entirely unsatisfactory display. Sugg carried out his bat for a brilliant 88, with which little fault could be found. It was a wonderful innings, considering the failure of the others on his side. The total reached 168. It is questionable whether there were not too many bowlers in the eleven. Lancashire, following on, soon lost the services; of Maclaren, who only made 3 when bowled by a beautiful ball from Bull. Then Ward and Sugg had a splendid partnership. Runs were not put on at a great pace, but they came steadily and regularly, and the two professionals did all they knew to extricate Lancashire from a bad position. Ward scored 68 and Sugg 81, and both showed remarkably good cricket. Baker, managed to make 22, and Smith, with rare patience, put together 30. The others again failed, and the innings closed for 251, and Essex wanted 130 runs to win. These were obtained by Carpenter, assisted by Fane (5), Perrin (17), M'Gahey (14), Turner (10), and Russell (13 not out). Carpenter at the end was 57 (not out), and so much was his batting appreciated that a collection was made for him, which realised nearly £50. Bull bowled admirably, taking altogether fourteen wickets for 176 runs, and Kortright also did good work. Briggs was the most successful Lancashire bowler, Cuttell also doing fairly well.

The Canterbury week was distinctly disappointing from a cricket point of view, as Kent lost both matches, and both defeats showed how indifferent their batting is this season. The Kent executive do not seem to be able to put a strong eleven into the field. One misses the names of Rashleigh, W. H. Patterson, Leslie Wilson, Weigall and Burnup, who, by the way, is in South Africa playing football. Even Easby, who ought to be worth his place, for some reason or other is not chosen, or is nuable to play. Yorkshire won the second match of the week by ten wickets, but had the bad luck to have Brown and Moorhouse badly hurt. The latter is especially unfortunate. Once again Haigh was not playing for Yorkshire, but his bowling was not perhaps wanted with Ernest Smith in the eleven. The Yorkshire first innings, realised 366. Kent batted wretchedly, and lost nine wickets for 75 runs; but then, to everybody's surprise, a stand was effected for the last wicket by Walter Wright and W. M. Bradley. In seven matches last year Bradley had only scored 16 runs, and he was looked upon as one of the worst batsmen who had ever taken part in county cricket. This time however, he rose to the occasion, hitting grandly, and with such success that he made 67 runs out of 95 in 45 minutes, and, well backed up by Wright's 37, the score was taken to 170 before the professional was caught off Jackson for 37. The Kent men batted a little more consistently in the second innings, but they only gave Yorkshire the easy task of getting 7 runs to win, which were obtained without loss. Jackson in the match took eleven wickets for 122, Smith, Hirst, and Wainwright also bowling well.

Gloucestershire's match with Middlesex had been set aside for the benefit of Roberts, but rain stopped play on the second day, and on the other two days there were not big gates, so that the fast bowler was decidedly unfortunate. Middlesex, with an unsatisfactory record, are nothing like the attraction they were a year or two ago. The match at Bristol ended in an uninteresting draw. Middlesex scored 175-218 for nine wickets, while Gloucestershire's one innings realised 178 runs. The most satisfactory feature of the game was the return to form of H. B. Hayman, who in each innings put together fine scores of 84, both of which he made by the attractive style which everybody began to think he had lost. To the Gloucestershire total W. G. Grace contributed a slow, but otherwise good, 51, and Jessop a bright 43. The next highest score was Wrathall with 22.

Aided by the weather, Sussex inflicted a severe defeat | playing extra time win by 5 goals to 4. on Somersetshire, who lost by nine wickets. Both sides completed their first innings on a good wicket, but the lead of 42 runs went a long way towards making Sussex's win a matter of certainty, as the wicket played very treacherously on the last day of the match. Somerset's first innings produced 165 runs. Somerset only ville boys on their first appearance.—I am, dear Sir, and Children. put together 77 in their second innings; of this score yours very truly,

Lionel Palairet obtained no fewer than 42 runs. He went in first, and was ninth out, and gave a grand display of good batting under exceptional difficulties. Sussex got the 36 runs necessary to win for the loss of one wicket-that of Marlow.

Although having the best of the cricket, Hampshire did a smart performance in beating Leicestershire by an innings and 195 runs. The Hants score was 378, and was compiled by some thoroughly good all-round batting. Leicestershire could do nothing against the Hampshire bowling, and were put out for 91-92. Heseltine took seven wickets for 65, Baldwin eight for 58, Soar three for 27, and Quinton two for 0.

As there is likely to be an exciting finish for the county championship, the Lancashire public will be well pleased with the easy victory over Leicestershire. The wicket was never easy on the first day, but the Lancashire batsmen did not find the Leicestershire bowling very difficult, and ran up 200 runs. Briggs and Hallam bowled finely, disposing of the visitors for 79, of which H. H. Marriott scored 35. Following on, Leicestershire did better, the second innings realising 172 runs. Lancashire got the runs necessary to win for one wicket, was caught off Bull. A. Ward only made 9, and, that of Maclaren (16). Ward was not out 16, and Sugg

> Against Derbyshire bowling W. Gunn is often seen at his best, and in the last match at Trent Bridge he gave one of his most brilliant exhibitions of stylish and correct batting. He never scored at a great rate, but plodded away carefully, making many beautiful strokes, and very few bad ones. He was at last beaten by Chatterton, but not before he had beaten his previous record. His 230 will better his position in the averages. The other Notts batting was not dashing but sufficiently useful, and the total score was 415. Messrs Evershed and L. G. Wright not a bit dismayed at going in against so many runs, made a grand start for Derbyshire. Evershed ran up 90 without giving a chance, and L. G. Wright played a great innings of 135. Both amateurs played better. Notts lost one wicket for 23 runs, and were 132 runs behind. So far Derbyshire are not Sweepstakes, the latter being won by Mr W. Agar. credited with a single win.

The Yorkshire bowling was against Sussex again severely punished, W. Newham and George Bean showing to the greatest advantage. The professional has not batted at all consistently of late, and his success was most popular with the Sussex crowd. He made an attractive 115, and Newham carried out his bat for a finely-played 96. The total 327 was satisfactory, but Sussex had the best of the wicket. The Yorkshire scores were 175-269. Sussex had to make 118 to win, and lost four wickets in getting them. Marlow made 4, Brann 25 (not out) Ranjitsinhji 12, Murdoch 18, and Fry 55.

Surrey beat Hampshire at the Oval by an innings and 303 runs. The scores were: Surrey, 579; Hampshire, 149 and 127.

### ROSARIO LAWN TENNIS CLUB.

An open tournament (handicap) has been arranged by the above club for the following events: Gentlemen's Singles (entrance \$2), Mixed Doubles (entrance \$3), and Gentlemen's Doubles (entrance \$4). Entries, which close to-morrow, should be made to Mr E. Cooper of the Administracion, F.C.C.A., Rosario.

Matches may be played on any court by mutual arrangement, with the exception of the semi-finals and finals, which must be played on the club courts. Mr James Neil is the hon. secretary.

San Jorge, F.C.C.A., Sept. 8. To the Editor River Plate Sport and Pastime.

Dear Sir,-

In reading the account of the polo matches in the late t urnament held at Cañada de Gomez I feel it only justice to contradict the statement that the play of the Bellville team was uninteresting to their opponents, whereas they gave them a good galloping game and were not beaten by 9 goals to love as stated, but by 7

Being a club formed only within a month or so, I think it highly to their credit to have got together a team at all, and gone to the expense of coming down, when they could hardly have hoped to win.

I saw them play a capital match with the Jubilee team, consisting of Wall, Matthews, Bradney and Major Porteous, and own was surprised to see them tie, and on

In another account I note your reporter states that Victoria II. were beaten by 6 to 1, whereas the score was only 4 to 1 after a very close game.

Hoping you will give publicity to these remarks, as it seems hard to discourage good sportsmen like the Belle-F. E. KINCHANT.

# FLORES ATHLETIC CLUB.

On the 5th inst. a team went up to Rosario to play a return match against the Fisherton Golf Club and had a very enjoyable day's golf. The team wish to thank the Fisherton Club for the hospitable way in which they were treated, and look forward to a couple of matches next year with much pleasure. Flores won, but most of the matches were very even.

On Wednesday the 8th the finals for the Miller Cup batted with considerable freedom, and put plenty of were played off. The day was very windy, and the power info their plucky hitting. The full score was greens very tricky, which will account for the high 570, and the midland county's batsmen have rarely scores returned. The Cup, a very handsome silver bowl, was won from scratch by the captain, F. Carlisle. The when stumps were drawn had nine wickets to fall, and following are the scores returned for the Cup and

# ATHLETICS

The half-mile match between E. C. Bredin and C. H. Kilpatrick at Stamford Bridge on August 9 was decidedly something new in the annals of professional running. It is almost an entirely new thing for two educated gentlemen to run for a money stake and gate money combined, and both were extremely popular with all sorts and conditions of sportsmen. Both men in their own countries were, at half a mile, far and away in front of everybody else. The evening was fine, warm, and with a very light wind. The attendance of about 1800 spec- sed off. tators included champions of all classes of sport. W. M. Chinnery, Guy Nickalls, O'Malley, Tindall, W.G. George are very fair specimens of first-rate men at their own games. When they came on their marks Kilpatrick looked very pale and nervous, very different to the man we saw make the half-mile world's record on Sept. 24st, 1895, in New York. Bredin looked well trained, but also slightly anxious, the close race at the 600 yards having somewhat surprised him. When the pistol was fired Kilpatrick went away first, but not very fast; Bredin jogged behind, and when the American took 57 1/4 sec. for the Englishman knew his pace must tell, and that he the American; they raced shoulder to shoulder down the straight, and then superior pace told, and Bredin came away round the bend and won by three yards in 1 min. 55 3-5 secs. Both were well cheered, and the Queen's match. Club seemed quite inclined to take on some more similar professional matches, so well was this one managed. All Bredin's friends congratulated him, and in an interview with Kilpatrick afterwards, the American openly stated he had no excuses to urge, and that he was fairly beaten. Not very American this. Kilpatrick's conduct all through his visit to the Old Country has won him he ps of friends.

## KENNEL.

Some two or three years ago two of the best collie dogs in England, Champion Sefton Hero and Rufford Ormonde, were purchased at a very high figure by Mr Pierpont Morgan to go to America. These two dogs have recently earned a reputation which will cling to them even longer than their successful wins on the show bench. They were being taken in a boat across a wide river by Armstrong, their keeper, who was accompanied by his wife and child, and a Irrend. The boat was capsized through Rufford Ormonde jumping out of it to try to get at a fish that had risen. Armstrong swam to the bank with his child, and when the women finding themselves sinking, screamed, the two dogs went to their assistance, Mrs Armstrong clung to Selton Hero, who with difficulty conveyed his charge to shallow dogs were sent out to bring the boat to shore.

A famous dog recently died in France. He was a Newfoundland named Sultan and he counted among his exploits the arrest of a thief, the capture of an assassin, the rescue of a child from drowning in the Marne, and of a man who attempted to commit suicide by jumping from the Pont-Neuf into the Seine. For this gallantry the Society for the Protection of Animals presented him with a collar of honour three years ago. Latterly Sultan was owned by the Comtesse Foucher de Careil who relied on him to protect her castle at Pérdy, near Corbeil. Quite recently he prevented the castle from being robbed. The brave dog sacrificed his life to duty, for last week he was found dead in the park, poisoned it is supposed by his enemies.

## HOME NOTES.

The Provincial Polo Clubs' tournaments were continued this week at Cirencester and Bournemouth, whilst Deauville and Dublin will wind the two new clubs at Whitton Park and Wine up the season later on in the month (August), bledon. As regards the play itself it is as difthough at Rugby polo is still played till well into | ferent to the game of ten years since as is the September. The Leamington tournament was a great success, and the Warwickshire Club must be congratulated on the way everything pas-

I think I told you in my last notes that the Rugby, Warwick, and Hurlingham were left to fight out the final of the Warwickshire Club tournament at Leamington, and after a magnificent game Rugby won the Cup. The Handicap Tournament was won by a team that included two of the winners of the open tournament, Messrs Rawlinson and Freake, who had Messrs McCreery his first quarter, and Bredin was told so by his trainer, and Selwyn as partners. This team had previously beaten Messrs Ravenscroft, Balfour, Scott | would win. At the top of the ground Bredin ran up to Robson, and Rice in an earlier round. The Buenos the race in hand. The German Emperor's Yacht Aires team in the open-tournament had the bad has had a full share of bad luck so far this season. luck to meet the eventual winners in their first

This bad luck followed them to Rugby, where after beating Warwickshire as they liked they had to meet the eventual winners again, Rugby Winwick, in the second round, and, after as good a game as one could have wished to see, were beaten by the narrow majority of eight goals to six. At one time the score was four goals all, and but for two lucky goals scored in quick succession by Mr Rawlinson I question if Rugby would have won. By the way for a correct account of the match do not read "Land and Water."

The teams were: Buenos Aires-Messrs H. Scott Robson (back), J. Ravenscroft (3), F. J. Balfour (2), and Joe Ravenscroft (1), Rugby Winwick-Capt. Sir H. Rawlinson (back), A Rawlinson (3), F. Freake (2), and Ch. Miller (1). Sir H. Rawlinson played No. 1 during most of this match, but in the final last Saturday, again against Hurlingham, changed to "back," the place which his brother had occupied against water. Rufford Ormonde had more difficulty, however, Buenos Aires. It is noteworthy that hardly one at Canterbury, and though Kent have not been with the other woman, whom he had seized by the of the ponies played on the Rugby side had bost brilliant in the cricket field, there has been plenty shoulder. After the human beings were all safe the less than £300 and few of them now could be of entertainment. Mr Maclaren played a wonderbeaten.

> useful No. 1, whilst Mr Robson at times showed scored thirtee runs. some of his old form. He goal he scored was especially brilliant. The took the ball the best part of the length of the ground, hitting alternately with either hand and completely baffling all efforts of the other side to ride him off. Mr Rawlinson was, of course, a host in himself, and backed up by three perfectly mounted men, his side made a very strong combination, in fact l know of few much stronger qualified to play in such a tournament.

Not more than two players who had won the Open Cup at Hurlingham during the past five years could play in the same team either at Leamington or Rugby, and only one such winner in the Cirencester Clubs' tournament. To the latter SANTOS, Dog, winner of First Prize River Plate | meeting Rugby sent a combination consisting of Messrs H. Scott Robson, J. Ravenscroft, C. D. LOUISIANA LOO, Reserve, Buenos Aires Canine Miller, and Count de Madre, but these were beaten by a team in the first round consisting of Messrs Dryburgh, Beattey, Capt. Pedder, and Mr Freake (playing substitute for Capt. Egerton Green). As Mr Freake is also in another team his place will have to be taken in the final by another player.

This leads me to say something about the slack way some of the tournaments are managed at home, and the way some of the teams are got up. Were Hurlingham in the polo world a club like the M.C.C. is in cricket and capable of legislating for polo in general aad managing all tournaments nothing could be better, but unfortunately this does not seem to be so, and there is practically no centre. Surely the time has come for a polo association to be formed for the government of the game, or else for Hurlingham to draw up a set of rules for tournaments such as those now being held in different parts of the country,

Looking back on the past season one cannot help being struck with the immense strides polo has made during the past five or six years. Both Hurlingham and Rarelagh were overcrowded with players this season, and so everyone welcomes cricket of to-day compared with the cricket of our grandfathers, and both men and ponies who wish to do any good in a match now must be not only well trained and in perfect practice, but also fit as fiddles.

Although the Cowes week has been favoured with magnificent weather the winds have hardly been favourable for correct trials of the yachts. Great interest was aroused by Mr C. D. Rose's new boat. Aurora, but it has been impossible to form any idea of her qualities. Britannia had a little luck in winning the Queen's Cup on the opening day of the Royal Yacht Squadron's Regatta, Meteor running into a calm when she had

The end of the season has been marked by the finish of the racing careers of two great horses, Persimmon and El Diablo. The Prince of Wales' horse was so shaken after his race with Velasquez at Kempton that he will probably never be run again, and El Diablo I expect ran his last race at Brighton this week. This was the Sussex Plate, for which he was well backed, but the old horse pulled up very lame at the finish.

I notice that both the Montevidean horses, Imperio and Cartouche are entered in the Cesarewitch and Cambridgeshire. Both are trained privately here by Tortorolo and may have a chance at the right weights. No less than two hundred and one foals and yearlings are nomina. ted for the Eclipse Stakes at Sandown for 1900. including the produce of Isinglass, Carbine, and several French and American horses. This is a record entry for the great race.

This week has been that of the famous festival bought at that price, so no wonder our men were ful innings for Lancashire of 241 on the opening day, and Yorkshire piled up a big score against the home county later on in the week. Abel for Surrey against Notts at the Oval made a great Mr Joe Ravenscroft, playing for the first time score, but his effort was spoiled owing to his for some months, and on stray ponies, was a most having been badly missed when he had only Воота.

## SPORTING NOTES

The Lomas new ground will be really in use for the first time this afternoon, when the Lomas Academy hold their annual athletic sports. A long programme containing twenty-six events, most of them well filled will give the youngsters plenty to do and the open races for boys of other schools, past members, and members of the Lomas Athletic Club will lend additional interest to the meeting.

The Rosario Lawn Tennis Club have decided to hold an open handicap tournament consisting of Gentlemen's Singles and Doubles, and Mixed Doubles, the entries for which close to-morrow, and should be sent to Mr E. Cooper, Administracion, F.C.C.A. The particulars of the tournament, entry fees, etc., may be found under "Lawn Tennis."

after suffering one disappointment in the postponement of the Rosario sports, the weather prevented the championship meeting at Lomas coming off. Eeveral intending competitors had been in strict training for some little time, and had just brought themselves into the pink of condition, all of which is very disheartening especially as last Wednesday turned out a splendid day and after all the sports might have been held.

The Lomas committee, however, under the existing circumstances could not have acted otherwise than they did, as when they decided, very reluctantly, to postpone the sports, it was raining hard and the bad weather appeared to be thoroughly set in. Telegrams were at once dispatched to various parts, and an hour afterwards the sun was shining! I 'ave heard several grumbling at the postponeme, and some even blaming the Lomas committee, but I think if they knew the extra work it gave that body of hardworkers, they would be more than satisfied that it was done for the best.

I am requested to inform the members of the Flores Athletic Club that the new colours are ford answered:-to hand and may be obtained at James Smart's, club are also reminded that the new Hon. Treasurer is Mr E. B. Macadam, Piedad 341, to whom all subscriptions, payments, etc., should in future be made.

The first annual general meeting of the Belgrano Athletic Club will be held on Monday, the 20th inst., at the English Club, Belgrano, when the report for the past year will be presented. Among other subjects down for discussion I notice that the question of admitting dogs on the club ground will be brought up, and I hope all the the highest authority on the cricket of this coun- another for every class of jumping, both restricted members will be unanimous in passing some rule or bye-law to the effect that dogs should be kept If then he considers we can not only give them the pony who can clear the highest jump. next at the St. John's Church School-room at 8.30 wishing to play should send their names in to Mr A. Lace, Banco Británico, as soon as possible.

At a special meeting of the Argentine Association League committee held in these offices on Thursday last, it was decided that the match between Lomas and Lanus should be replayed tomorrow at Lomas, Mr B. B. Syer being appointed referee. It was further decided that time allotted for play should be left in the hands of the referee, so that should the day be a warm one, only two "thirties" will probably be played, but should the day be cool the full time must be played.

Flores Athletic Club by Mr C. R. Miller as a prize for a golf competition, has been won by Mr F Carlisle, who won from scratch with the following scores: 58, 55, 50, 50 = 213. The finals were played last Wsdnesday in a high wind, and as the greens were somewhat rough the apparently high scores are easily accounted for.

The golf team representing the Flores Athletic Club played their return match with the Fisherton Golf Club, Rosario, last Sunday, and returned victorious after spending a very enjoyable time indeed, the Rosarinos, as usual, entertaining them in their well known hospitable manner. A high wind prevailed which ra her spoilt the play and the earth greens puzzled the Flores men, in spite of which they won by 21 holes in the singles, Messrs Carlisle and Boyd being responsible for 9 and 7 respectively; and 11 in the foursomes, Messrs Boyd and Theobald being 10 up against! Messrs Clarke and Day.

In the last issue to hand of "Cricket" an excellent portrait of Mr James Gifford appears accompanied by a lengthy interview, in which he up" who feels diffident about riding an ordinary It was particularly hard on our athletes that gives a general idea of the game as played in this steeplechase and oftentimes after having tasted country. It will please our cricketers here to know that "Cricket" has the following to say in regard to Mr Gifford's capabilities: "He has played in several first-class matches since his arrival, and is regarded by the critics as a distinctly good bat, who only wants opportunities of playing in good company."

> Although nothing has been definitely settled with regard to the English cricketers coming out here this season, I regret to say that I have heard indirectly that many of the moving spirits consider the plan impracticable under the existing state of affairs generally. As far as I can understand the chief reasons for this decision are expenses are paucity of matches, the former may well be left until later when we may know more or less what is required and what may be done in this direction. The latter I have already expressed my views on and will now quote Mr Gifford's own words in the interview I have already mentioned.

> To the question "Why don't you persuade a team of English amateurs to visit you?" Mr Gif-

For the first he gave Austerlitz or Hidalga and they ran first and second. For the second Tiradentes or Redoutable, the latter scratched but the former ran and won. For the third he gave Daza and Orleans, and they ran first and second. For the fourth he gave Pillito, who ran second, and for the fifth race he gave Oriel, who only lost by a neck, through lack of good judgment on the part of his jockey.

The result of the St. Leger will be hailed with delight by the numerous Irishmen in this country and indeed by all good sportsmen, as that excellent Irish horse, Galtee More, added another victory to his already brilliant list. As most of my readers know, Galtee More is the property of The handsome silver bowl presented to the Mr J. Gubbins, and is by Kendal-Morganette, He has now won the Guineas, the Derby, and the St. Leger, and is undoubtedly the possessor of exceptional qualities. According to the cable, Chelandry ran second on this occasion, and St. Cloud was placed third.

> The programme, somewhat originally worded, which appears in another column, of the Point to Point Steeplechases under the patronage of the Hurlingham Hunt, is a very sporting dish, and as some of the riders are booked to ride in all three races they must be in better condition than most men keep themselves in out here. To ride three races of four miles each over a country is a very fair tax on a man's staying powers and shows the good that hunting does to its votaries during the winter. It is an axiom that a man cannot hunt comfortably or be in his proper place in front if he carry a superabundance of flesh.

> It is a pity more meetings after the fashion of "Point to Points" do not take place, as their informal character induces many a man to "get the pleasures of racing in this way becomes a zealot of sport between the flags. There is a distinct shortage of riders for jump races and always will be, I fancy, until there are more races, this year there have only been two meetings at which steeplechases were run, it is hardly likely that men will be gpt to do the necessary amount of work with so little chance of tasting the fruits of his labour, even if he is lucky enough to get a mount.

> If some enthusiastic sportsmen were to provide the necessary funds to start a national hunt committee who would encourage steeplechasing by offering prizes, say at Cañada de Gomez, Venado Tuerto, and somewhere in the South, I am sure good horses would be produced, and plenty of good men to guide them, and such a thing as happened at Hurlingham this week of two horses which were entered being left in the stable for want of jockeys would never happen again.

#### RUGBY,

#### B.A.F.C. v. OLD BEDFORDIANS.

The Rugby football season was brought to a close on very strong combination, and hardly a weak spot could substitute, a position he filled last year in this match.

The wind was blowing from goal to goal and Bellamy, who won the toss for B.A. decided to utilize it in the first half, the Old Boys thus defending the Temperley end goal. L. Corry-Smith set the ball in motion, and some very rapid exchanges resulted in play settling down in the Bedfordian quarters, and in the ensuing scrummages the B.A. pack thus early showed superior foot-work, and the scratch forwards of the Old Boys were foul a minute or so later gave Lomas a free kick almost bition of football ever witnessed here. It was indeed a quite unable to get possession. A series of throws-in from touch resulted in L. Corry-Smith at length obtaining and the danger was averted, and once again the ball was result was not only a fair and just one but also most the ball, and with a fine dash, he brought play up to the carried to the Lomas quarters where Miller tried a long satisfactory, for neither side deserved to be defeated B.A. lines. This was a grand chance for the Old Boys high shot which, however, went wide. From the kick after the capital style they kept going for two solid to open the scoring, but the forwards failed either to take possession or to heel out and kicking too hard, brought the scrummages dangerously near the Bedforforwards received and they in their turn became the The excitement among the spectators was intense to a dians' goal line. The Old Boys, however, worked for attackers, and after some very energetic work very degree, and some of the actions and words of various all they were worth and were just gaining ground when their opponents heeled out, but Rumboll got possession Mr B. Again from the kick out play settled down in the Old Bedfordians' quarters, but at last after much sharp scrummage work, J. O. Anderson dashed away, and getting well up the field gave F. Jacobs a clear chance of running in, but the latter player failed to take the pass, and Elliot picking up smartly, brought the ball back to mid-field. The club pack were certainly heeling very smartly at this period, and but for brilliant work on the part of the Schools' half backs, the three-quarters would have had many more chances. As it was they had several and the back division of the Bedfordians were able to give a taste of their tackling powers. At length the ball was well passed to McMorran who handed to Elliot, and the latter with a smart dodgy run crossed the line, and amidst great cheering opened the score for Buenos Aires. The kick was a failure, the Old Boys being allowed a charge before the ball touched the ground, though to all appearances it had done so. Shortly after the whistle sounded for half time.

With the wind in their favour the Old Boys were decidedly hopeful of pulling off the match. After a three minutes interval Bellamy restarted the game, and contrary to expectation the club pack playing with dash the opposing backs, appeared to have the goal at his wind, which was blowing strongly from goal to goal, and determination, immediately assumed the offensive, and literally rushed the ball into their opponents quarters where some fast and exciting play followed. Strictly speaking, they have not had a very success-J. Stokes and A. This season, however, must be considered a successful one, as for the first time; since the match was instituted, the Old Bedfordians suffered defeat at their hands, and this more than atoned for any club reverses.

## PAVILION GOSSIP.

The Rugby football season was concluded last Sunday when a picked team of the B.A.F.C. played the Old Bedfordians at Lomas. Among other schools represented in the B.A. team were Fettes, Blair Lodge, Haileybury, Forest, and Glenalmond. For the first time the club representatives proved successful, but not without a very hard fight, the final result being quite uncertain until the whistle sounded for cessation of play, when the B.A. team retired victorious by two tries (six points) to one try (three points).

All the members of the winning team played a good hard game, but I cannot help thinking that the victory was principally due to the play of the forwards, who one and all showed up splendidly and put in some sterling work. Their scrummage work was decidedly good, but the greatest improvement was shown in their tackling and following up The Old Boys worked, for all they were worth, but they lacked the combination of their opponents and several were, of course, out of practice and wanting in condition. The game, however was a very enjoyable one and we shall hope to see many more such meetings.

After the match a most pleasing ceremony took place in the shape of a presentation to Mr Leslie Corry-Smith in recognition of his valuable services to the B.A.F.C. as referee Mr Denny Stokes on behalf of the members of the B.A.F.C., after a few well chosen words presented Mr Corry-Smith with a handsome silver cigarette case, with his monogram on one side of it, and the following inscription on the other: "Presented to L. Corry-Smith, Esq., by the members of the B.A.F.C. in recognition of his services as referee. 1896-1897." Mr Corry Smith made a suitable reply, and it was evident that he was quite taken by surprise. need hardly point out here what a great interest Mr Corry-Smith takes in the game or how good he has been in giving up his time to journeying about and taking charge of the various games.

The third match between Lomas and Lanus to decide the championship of the Association League for 1897, took place last Wednesday at Lomas, and provided one of the finest exhibitions of foot ball ever seen in this country. Apart from the play, the old field at Lomas presented a wonderful sight as a record crowd was in attendance, which took the keenest interest in the day's play and followed every movement of the players with the closest attention.

There were many amusing scenesand some very funny remarks overheard during the course of the match. One of the spectators interested me greatly; he first attracted my attention by the extraordinary volume of sound that he produced

which was accounted for, partially, by the exceptional size of his mouth which he kept very wide open. After cheering lustily without ceasing he suddenly stopped when a goal was scored against his side, but he forgot to close his mouth which remained rigidly fixed wide open for some few minutes while the rest of his face expressed the Ormuz. utmost dismay! On another occasion when one of the players upset one of his opponents rather roughly, a young lady was heard to remark "How unkind of him and he did not even beg his pardon when he got up!"

given. The two sides were exactly matched and match against South Australia, who administered strive how they would neither could secure the to Mr Stoddart's 1894 team their first reverse. A upper hand of the other. In such a match I should week is allotted for each of the eleven a side deserving of special praise, but I must say the meet Victoria at Melbourne, New South Wales at in combination, which it might be well for them to Sydney, they will commence the first match to follow. The fourth meeting of these teams against All Australia on December 10. The other has been fixed by the League committee for to- four test matches have been arranged to take morrow at Lomas, with Mr B. B. Syer, the Vice- place as follows: December 31, at Melbourne; Government." President of the League, as the official referee. I January 14, at Adelaide; January 29, at Melonly trust we may see another such game as that | bourne; and February 25, at Sydney. of last Wednesday.

I have so often pointed out the trouble and bother some people give in not keeping their dogs under proper control after having brought them on to our various athletic grounds. We have had instances of the games being interfered with both football and cricket, of dog-fights, and the other day of a disgraceful scene by the owners in England in 1896, has again been engaged as gigantic reptile must number its years by centuries, for of two dogs that were fighting. Now, however, umpire.

I have to chronicle a still more serious instance, for just before the Old Bedfordians match at Lomas last Sunday, a wretched cur brought Mons. Chédel off his bicycle, giving him a nasty fall which resulted in a bad dislocation. Mons. Ché lel is a very keen athlete and was training bard for the Lomas Sports. I hope we shall soon see him on his wheel once again none the worse for his unfortunate accident.

The meeting of cricket secretaries was held in these offices last Tuesday when it was unanimously decided by the clubs represented that a cricket championship should be formed. The following six clubs entering for same: Hurlingham, Lomas, Flores, Belgrano, Lanus and Banfield. It was further resolved that the question of a second division of the championship should be left over till next season, by which time we shall have had

sufficient experience to enable us to form a championship for both first and second elevens.

At the same time the second elevens have been by no means neglected or forgotten, and each club will this year have a properly arranged second eleven fixture list. This is a move in the right direction and it is to be sincerely hoped that all the fixtures made will be faithfully carried out, so that there need be no blank days or disappointments.

As my cricketing readers know, there have been several cases in recent years of bowlers giving away a few extras in order to prevent the opposite side from following on, but for the first time on record we have an instance of the batsman outwitting these manoeuvres. In the match between Essex and Lancashire Mr F. G. Bull endeavoured to prevent the northern county from following on, by bowling wides, but Mold knocked his wicket down and so prevented Mr Bull's tactics sbeing uccessful. We therefore have yet another example of the great necessity there is of revising the follow-on rule.

This week I have to chronicle another cricket record-379 for the first wicket. It will be remembered that quite recently Brown and Tunnicliffe for Yorkshire against Sussex, broke the existing record for the first wicket by putting on 378 runs before being separated. Now, however, the honour has gone to a Southern county as Abel and Brockwell scored 279 for Surrey against on tobacco smoke for their control over these huge Hampshire. As a matter of fact when Abel had only acored 50 several present thought Captain journeys, the dromedaries are, in many cases, required Wynyard had caught him, but in spite of a general appeal the umpire decided in favour of the batsman.

Mr A. E. Stoddart has at last fixed upon bis team for the forthcoming tour in Australia. The thirteen members of the team are: -A. E. Stoddart (capt.), Middlesex; K. S. Ranjitsinhji, Sussex; A. C. Maclaren, Lancashire; Capt. E. G. Wynyard, Hampshire; N. F. Druce, Surrey and Cambridge University; J. R. Mason, Kent; Hayward, Surrey; Wainwright, Yorkshire; Storer, Derbyshire; Board, Gloucestershire; Hearne (J. T,), Middlesex; Richardson, Surrey. All the members of the team, except Maclaren, who starts a fortnight in advance, will leave for Australia on the 17th inst, by the Orient Line s.s.

If time permits they will stay at Colombo for one day and play a match against fifteen of Ceylon. At Albany they will disembark, and play two matches at Perth against West Australia, proceeding a fortnight later to Adelaide. Here As to the play itself too much praise cannot be | the serious work of the tour will commence with a

# NATURAL HISTORY.

According to Dr. Snelison in the "Popular Science" News," the lower animals become insane or frenzied. Cats, dogs, and monkeys are said to labour under delusions like those of insane persons. Cattle in a crowded street often work themselves into a frenzy. At the battle of Balaclava, an Arab horse attacked his attendant fiercely, and bit the finger off another soldier. A quiet horse has been known to go mad on a hot day and bite everything in its way.

According to Dr. Robert Bell, the Canadian who recently explored Labrador, there is a fish in the South of Hudson Bay which makes a nest of stones for its eggs. The fish is called "Awadosi" by the Indians, which means "stone porter," from its habit of picking up pebbles in its mouth and heaping them on the bottom at a part selected where the water is not too deep. Some of these erections comprise several tons of stones, while others are quite small. The fish deposit their eggs among the stones.

Professor Bonatelli in a note to the Venetian Institute, relates an incident showing the reasoning powers of ants. He had observed a procession of the little insects going and returning from the branch of a tree to a house touched by the latter. He cut the end twig, making a gap of about half an inch between the tree and the wall, so that the ants could no longer pass. At the end of half an hour they had found out that another twig of the tree, when moved by the breeze, came into contact with the wall every now and then. They immediately took advantage of this flying bridge and re-formed their procession, waiting each time for the moment of contact in order to pass

We find the following useful hint regarding mosquitoes in the "Shooting Times":-

" Mosquitoes are extremely frightened by dragon flies, and will not come within yards of them. If one or two dried dragon flies are suspended from fine silk under the roof of an open porch infested by mosquitoes, they will scare all of the little pests away, and they will not come back while the dragon flies are there. This has actually been tried with surprising results. It is a well-known fact that dragon flies are predatory and voracious insects, and that they subsist largely upon gnats, midges and mosquitoes, and it is but natural that the mosquito, who is a wise insect, should regard the dragon fly as a small bird regards the hawk.

Dromedaries, according to a paragraph in the "Cigarette World," are particularly fond of tobacco smoke, and can be made to do almost anything under its influence. Travellers in the Soudan, it is asserted, rely more beasts than anything else. When travelling on long to travel night and day without rest, and the beasts are kept up to their tasks by smoking cigars. The driver carries a triangular piece of wood, which is pierced at one point like a cigar-holder. This is inserted in the mouth of the beasts, the cigar being lit and pressed into the hole in the same fashion followed by man. The dromedary immediately closes its eyes and puffs away through its nostrils until the cigar is burned away. The indulgence appears to refresh it, and he continues the promenade.

The "Shooting Times," in answer to the query "Have snakes been used in wartare?" says: "If we may rely upon the historical accuracy of Cornelius Nepos, and the genuineness of certain despatches from the seat of war in Cuba, the answer would be that this has happened twice. When Hannibal was fighting Eumenes of Pergamos with a fleet of very inferior strength, he hit upon an artifice which would scarcely be sanctioned by the laws of what we are pleased to call civilised warfare. He discovered, by means of a bogus message under flag of truce, which ship the king was on board of. He then caused poisonous snakes to be enclosed in earthen jars. These he distributed among several ships, and ordered them to close upon the king's galley. In the melee that followed the jars were flung on to the deck. The curious bombs were greeted at first with ridicule, which soon changed to panic when the nature of their contents made itself manitest. The galley was extricated from the fight as soon as possible, and the captains of the others, believing the king had taken flight, followed suit, with the result that Hannibal be sorry to mention any particular player as matches. After leaving Adelaide the team will gained a complete victory. It has recently been stated, though only on the authority of an American newspaper, Lanus forwards set their opponents an example Sidney, and Queensland at Brisbane. Returning that the Cuban insurgents have employed snakes to carry combustibles, such as phosphorus and chlorate of potassium, into sugar plantations, and have managed by this means to cause an enormous amount of damage to those planters whose sympathies were with the Spanish

The latest arrival is a gigantic specimen of Daudin's Tortoise from Aldabra. The animal was, brought by ship to Marseilles, where it was taken charge of and conveyed to London. This it is stated there are authentic records with regard to it

for the last hundred and fifty years, and there can be no doubt that it is the largest living tortoise. In point of size it compares favourably with the extinct giant tortoise of the Siwalik Hills, the carapace of which was six feet long. Its weight has, perhaps, been exceeded, for it scales only about five hundredweight, and it is said that an animal of this size should weigh nearly nine hundred pounds. It seems to have suffered some. what from the voyage, and there is no doubt but that, with rest and regular feeding, it will speedily put on flesh. Several authors at the end of the 16th and beginning of the 17th century mention a man who had lost both his eyes, but could see through his nose. An account of Rosanio Association League—W. S. Penman, F.C.C.A., him is given in the "Occulus Artificialis Teledioptricus" of Joannis Zahn. It appears that he lived in the country, and had the misfortune to lose his right eye when a child, and his left, when somewhat older, by falling from a cherry-tree upon a spike, which mutilated his nose and cheek. After the wound had healed he found that he could see, through the cavity of his nose, not merely the daylight, but the colours of the flowers | Montgudeo-A. M. Frederick, Contaduria, F.C.C. del U., around him. During the next five or six years he learned to distinguish objects brought under his nose. M. E. Douillot, a French physiologist, explains the phenomenon by supposing that the membranes, and particularly theretina at the base of the eye, were sound. In several departments of the Banda Oriental the scab in sheep has assumed alarming proportions, particularly in that of Florida, and it is calculated that the loss in wool to the estancieros there will reach 45 per cent. If we add to this the destroying of the wire fencing, the disappearance of all horses, and the wholesale slaughter of cattle, sheep, etc., by the contending armies, we have a glimpse of the ruin that is being wrought by the civil war in that country, for to the forced enlistment of the peons, and consequent scarcity of hands, is due in a great measure the increase of scab.

The Rural Fair to be held in Brandzen has been postponed till the 10th of October.

The exports of live stock during August, from Buenos Aires, consisted of 3770 head of cattle, 28,840 sheep, 81 horses, 700 mules, 700 donkeys, and 94 pigs. Owing to being infested with scab 1043 sheep were not allowed to be embarked. The thirty-one steamers that carried these animals took on board 3,083,128 kilos hay, 387,684 kilos maize, 337,777 kilos bran, and 17,350 kilos linseed cake, etc.

A correspondent writing to "La Nacion" gives the following figures relating to the land under wheat throughout the Republic:

Santa Fé	#3 (#C)	 1,000,009	hectare
Buenos Aires		 370,000	u
Cordoba		 290,000	66
Entre Rios		 220,000	44
Other provinces		 120,000	u

Taking the yield per hectare at 10 hectolitres the crop will be 20,000,000 hectolitres, and deducting for internal consumption, and for seed for next year, it is estimated that there will be 1,000,000 tons available for export.

\* \*

From the published agricultural reports furnished by the Postmaster-General, Dr. Carlés, we learn that the state of the crops of wheat, linseed, alfalfa, etc., throughout the republic, are satisfactory. To the south of the Province of Buenos Aires rain is much wanted. Cattle, as a rule, are backward.

We hear that the sale of live stock held in General Acha last week was very successful, the amount realized giving \$21,850, being very satisfactory for the first sale and show held in that district.

The third shipment of bullocks and wethers during this year from Nueva Palmira, B.O., arrived this week in Campana, consigned to Messrs Dellepiane and Palacios, and consisted of 180 bullocks and 1200 Rambouillet wethers. These are from Mr Gonzalez Moreno's estancia.

The Bahia Blanca Rural Society Show was opened last Sunday with a very good attendance and with plentiful buyers, the day's sale realising some \$20,000.

On Monday last a nice camp in Las Heras was sold to Mr D. G. Dillon for \$46,526, being at the rate of \$91 the hectare.

Messrs Bullrich and Co. held a sale of stock last Sunday on Mr M. A. Ocampo's estancia La Rabona in Pergamino, with the following result: Pure Rambouillet rams, two and a half years, from \$140 to 210; same breed, one and a half years, from \$100 to 120; crossed Negretti rams, two teeth, \$60 to 105; 45 pure Lincoln 52,704 and 48,700.

rams, two years, \$250 to 350; Lincoln ewes, \$19 to 25; Rambouillet ewes, \$19 to 25; Lincoln wethers, \$8.20; Rambouillet wethers \$6.05, and rams \$45; Rambouillet rams with Lincoln strain, at \$60; pure Durham bulls, \$100 to 150; crossed Durham heifers, \$50; crossed Hereford heifers, \$53; half-bred Durham bullocks, \$43.50, 54 and 55; and a small lot of pure Durham bulls that had been brought up and kept under cover for several months, from \$300 to 370. The sale was well attended, many estancieros from the Province of Buenos Aires being present, the day's sale totalling nearly \$100,000.

The Palermo Show, which will be held under the auspices of the Buenos Aires Rural Society, and opening on the 24th of this city, gives promise of being a most successful one, especially as regards the exhibition of live stock and sheep dip stands. So far, we are sorry to state, that only one, out of the many important machinery houses we have amongst us, has applied for space, which is most regrettable, yet without doubt the unsatisfactory state of affairs in the Exhibition of 1895 has not been forgotten by our leading importers of agricultural machinery, some of which went to the extent of spending \$20,000 for the installation alone, with most disastrous results, the attendance being small and the sales nil, owing to the lack of publicity.

The Chacabuco fair and sale held on the 29th ult., organised by Sres Elizalde and Monti, gave such a satisfactory result that the same gentlemen have decided to hold another on similar lines on the 3rd of next month.

Already news has reached us from the South that a rapid improvement has taken place both in the condition of cattle and camps, owing to the recent rains.

A farmer at Kaneira, Victoria, during the recent drought in Australia, fearing to leave his seed wheat in his shed, removed it into his house, which is a solid brick structure. His hungry stock attacked his residence, broke through two doors, and got at the wheat. When this supply was exhausted the animals pursued their investigations further, and, getting access to a bedroom, ate the straw mattress that was upon the bedstead.—" Melbourne Age."

Early in August last, at the Harrington Hall sale, Mr A. E. Mansell (one of the most successful exhibitors) held his annual sale of Shropshire rams. The excessive heat and continued drought, together with the active harvest [operations in the district, militated very seriously with the large attendance anticipated. Neverth eless buyers hailed from America, Canada, and all parts of the United Kingdom and Ireland. The success of Mr Mansell, although comparatively speaking a young man, is unparalleled in the Royal and other showyards, and to whom Mr J. Bowen-Jones (president of the Shropshire Flock Book) paid high tribute when proposing his health at the luncheon.-Mr Alfred Mansell (brother to Mr A. E. Mansell), in his opening remarks on the rostrum, from personal observation enunciated the value of the use of good sires in every class of stock and proved from experience, investigation and statistics that the Shropshire had a great future before it.—Ram No. 1, Diamond King, winner of first prize at Manchester Royal, and Champion Gold Medal of England and numerous other prizes, was sold to Mr Alfred Tanner, after spirited bidding, at 17ogs. No 2, shearling ram, sire Montford Dreamer (7622), another winner R. A. S. E., was purchased by Viscount Falmouth at 37gs. Other lambs by this sire realised 31gs., 26gs., 27gs., 17gs., 15gs., etc., with an average of £37 0s. 3d. Five rams sired by that grand sheep Fair Star (5177) made from 33gs. and averaged £18 11s. 8d. Old Harry (8666), a favourite at Harrington, included in the sale, and sold for the sum of 26gs. should prove a useful investment to Mr R. C. Pryce (Broughton), as he was the sire of seven rams making up to 25gs. each. Phenomenon (8680), winner Darlington Royal, sired nine rams, which averaged £15 1s. The other sires included Morning Dream (8645), Cambridge Royal (7922), Lord Patriot (4627), and other rams of exceptional merit. The sale was conducted throughout by Mr Alfred Mansell, and the whole of the sheep passed through the ring made an average of £19 14s. 6d.

According to local experts the sugar crop of Tucuman for this season is calculated at 88,000 tons, and for the whole of the country at 106,000 tons. The total export is put at 36,000 tons, which will be entitled to the government bounty, leaving 70,000 tons and the stock in hands from last year for local consumption.

The last of the Quilmes Subscription Dances took place on Tuesday last and was a great success. The Municipal Hall, Quilmes, was prettily decorated for the occasion, and all the arrangements were excellent. The great features of the dance were, however, the floor and the music, both of which were truly perfect, and dancing was kept up with great spirit to the early hours. The committee are to be sincerely congratulated on the success of their efforts.

An underground railway operated by electricity is now in operation in Berlin. A tunnel 380 yards long and 3ft. 4in. below the level of the street has been made by the Allegemeine Electricitats Gesellschaft to connect their two factories in Brunnen Strasse and Acker Strasse. There are two curves of 50ft. and 80ft. radius respectively, and a gradient at one end of the line of 1 in 15. The line is of normal gauge and single track. The overhead system is used for conveying current to the locomotives. The latter have two motors, and are designed to draw 10 tons.

The United States Capitol at Washington is one of the most majestic buildings in the world. It was first begun in 1793, when the north wing was founded. This At midnight, on the 30th ult., the Oriental gunboat | was finished in 1800, and the south wing was begun in first occupying its present hall in 1857, the Senate its present quarters in 1859. The dome was constructed between 1856 and 1865. The cost of the building has exceeded \$30,000,000.

> A discovery among some old documents in New York of an English official manuscript has led to a proposal to repay in kind England's gracious return to United States of the log of the Mayflower. An examination of a bound volume of manuscripts which has lain neglected for generations upon the shelves of the New York Historical Society has led to the discovery of what is believed to be an original copy of the Journal of the. Clerk of the House of Commons during Cromwell's period, and ranging from the year 1650 to 1675. They are contained in sixteen folios, bound in antique calf.

> A remarkable feat of penmanship has been accomplished. It is a life-size, portrait of Milton, composed of the entire text of "Paradise Lost." The script in which this is written is so fine that the majority of persons are unable to read it at all with the naked eye, and the task is by no means an easy one, even with the aid of an ordinary magnifying-glass. Beginning at the top of the head, the poem is written in horizontal lines, marvellously close together, so that, unless the observer comes very near, the whole has the effect of shading, and he is unable to detect that the lines are made up of words and letters.

Railway construction proceeds rapidly in Japan, for the English Minister at Tokio, in a recent report on the "Railways of Japan," states: "In 1895 there were 1538 miles of private lines open to traffic. This has been actually in operation. Further lines of railway extending over 984 miles have been laid down, but are not yet opened, showing an increase of 470 miles over the In Germany beverages are now being aerated with previous year of lines laid down. Beyond this, charters have been granted for lines to exted over 476 miles." In 1895 there were 593 miles of Government railway

With that paternal affection for his people, in which, however, outsiders can seldom believe, the Czar, through one of his officials, has drawn up and issued a code of regulations for domestic servants both of country and town. These regulations define their rights and duties. We notice that the domestics have very few "rights," the regulations mostly stating the punishment—usually dismissal-which can be inflicted on them by their employers in case of error or irregularities on their part. A servant can be dismissed for rudeness either to the employer or his family; but, on the other hand, he has the right to use "reproachful expressions" to his servants - whatever the term may mean.

In the Brazilian hotels men are employed to do the household work, and they are prone to rush into the bed-rooms of the guests when occasion requires without knocking. A European lady visiting Rio de Janeiro was much annoyed at this custom, and, after mildly protesting several times without effect, she said severely to the boy who did the work in her room-"Juan, be good enough to understand that I will not allow you to open the door of my room without knocking. If you do it again I shall certainly report you to the manager. Why, I might be dressing!" "No danger of that, senora," responded Juan blandly, in his best English.

Owing to unfair monopolies, oppressive duties, and other burdens that weigh upon both capital and labour, combined with reckless, foolish, and, it all tales be true, grossly corrupt expenditure, the governing clique of the Transvaal Republic have over-reached themselves; and the statement is made, in what is usually a wellinformed quarter, that "the finances of the Transvaal are seriously embarrassed;" that the coffers of the State are practically empty; and that resort has been made to a special loan "to meet immediately pressing demands." The financial, fiscal, and industrial, like the political and social, policy pursued by the Boer and Hollander faction at Pretoria has been at once short-sighted and spendthrift; and where there should be prosperity and contentment there are distress and complainings.
