Live Stock & Produce Agency, Limited

We are now prepared to purchase "novillos" & "caponos" at current rates. To neutralise the effect of the heavy fall in gold we will make special terms with owners to ship their live stock either on joint account or on commission, making liberal advances against same. Arrangements can also be made subject to the amount advanced to indemnify the owner against any claim after the animals are sold, in the event of them meeting bad markets and realising low prices. All particulars can be had on application.

ESTANCIA AND COLONY.

The daily papers have taken up the subject of "carbuncle" or "grano malo" very energetically, and rightly so, for it is certainly a terrible disease, not only on account of the losses in live stock which it occasions but also on account of the very serious risk to human beings, for it is not only communicable from the diseased animal to the human system, but may be carried by flies and may even be communicated by eating the undercooked flesh of a diseased animal. But perhaps the most serious part of the business is the effect the disease may have on our live stock export trade, for Europe and England especially, our best customer is very much on the alert for anything in the way of contagious diseases in farmstock, and should the disease in question assume epidemic proportions here we have no doubt that England would put into force very stringent regulations, which might hamper or interfere with the live stock export trade.

* * *

Carbuncle is reported to have broken out in Magdalena, and on the estancia of Sr. Santiago Esquiaga, in that partido several animals have died of the disease. The veterinary surgeon Sr. Casal has gone down there to take measures to prevent the spreading of the epidemic.

* * *

Shipowners in Liverpool have put their heads together with the object of making a study of the best means of carrying live stock, and at a meeting to be held in the near future will discuss the following points:—

- Space allotted to each animal.
- The best kind of timber for fittings.
- Waterproof flooring under the animals.
- Drainage and disinfecting.
- Sickness and cures.
- Loss of weight, and food.
- Influence of sea air, and movement, with regard to feeding.
- Mean temperature; damp, wind, and evaporation.
- Various other matters in connection with this important trade.

* * *

The Antwerp Chamber of Commerce has issued a circular in which it points out the losses caused by the abuse of the marks on the hides of animals coming from this country, and as illustrating what effect this abuse has on the market value of hides, it is stated that two marks on a hide lower the value of that hide by 3 to 4 francs, and three marks by 3 to 8 francs, which accounts for the falling off in the trade with this country. Estancieros should take note, as there is no doubt that the value of the hides is considerably lessened by misplacing the mark, as also by using a mark bigger than necessary.

* * *

"El Campo y el Sport" in its last issue has a very nice photograph of a group of Shorthorns, one bull, one cow, and three heifers, all of them animals purchased in England for export to Buenos Aires.

* * *

All camp men should know, though many appear to ignore the fact that live stock require a certain amount of salt, to keep them in good condition and sound health. Of course, in many camps salt abounds, and in such camps it is not necessary to supply the stock with rock salt, but where there is no salt in the soil it will be found by careful observers that live stock does not thrive as it should. It is not an expensive article, and all stock should have free access to lumps of salt, be it in the corral, rodeo or galpon.

* * *

For some time back there has been a steady decline in the value of cross-bred Lincoln sheep. To a certain extent, of course, this is to be accounted for by the fall in the value of export capones and the appreciation of the paper dollar, but these factors

are not in themselves sufficient to account for the very marked fall. Good cross Lincoln sheep are offering to-day all over this province but more especially in the south, at prices round about \$3 paper, sheep which were a year ago worth about double that money. Whilst it is true that export capones have fallen in value or, to be more correct, we should say that exporters seem to realise that they have all along been paying too high for capones, it is also certain that the freezing companies are paying better prices than they did a year ago. It is hard to assign any real cause for the drop in prices, but we fancy that the low price of wool at the beginning of the season, and in fact all through the season for the coarse crosses, is one of the principal reasons why so many owners are anxious to sell sheep. For our part we consider it a mistake to be in a hurry to get out of crossbred sheep, for it is not likely that the coarse wools will remain neglected for any length of time, indeed we should not be surprised to see a renewed demand for them even as early as next year, for after all is said and done, it is simply a question of fashion, and fashions change frequently and rapidly. Camp men wanting investment for their money might do a lot worse than buy sheep at present prices, for they can hardly go lower, and when the reaction comes, as come it must sooner or later, they will realise very handsome profits over and above the ordinary returns from their flocks.

* * *

We have always maintained that dipping with Lime and Sulphur is wrong in principle, but estancieros who are in favour of this system of dipping on the contrary maintain that it is right in practice. The following extract from an article in the "Farmer and Stockbreeder" which touches on the subject will be interesting:—

"Every practical buyer of Cape wools knows they are usually very wasty and badly got up for market, but with our modern machinery such defects can be practically remedied. No improvement, however, can be made in the badly grown or damaged wool fibre itself. For this reason Yorkshire manufacturers have lately learned with grave concern, and some, moreover, have proved it to their cost, that there is a growing tendency among South African farmers to ruin their wool, by dipping their sheep in that abominable stuff called Lime and Sulphur."

"Lime and Sulphur renders the wool hard and brittle and destroys its quality of elasticity. The great object of every manufacturer is to make goods to handle soft, mellow, and kind—a hard, boardy, leathery piece, no buyer wants. The fact is, this objectionable compound *dissolves* the natural protective elements which wool possesses, and being removed, there consequently follows the loss of the valuable handling property, with less weight and diminished value. It has been proved that the loss has averaged from $\frac{1}{2}$ lb to 1 lb per head, when tested with other sheep from the same flock properly dipped.

"The fact that South African wools are looked upon with such universal suspicion should, in itself, be sufficient to induce every sheep farmer to adopt more modern and scientific methods of sheep breeding and wool growing. The modern Dips made on pure scientific principles, instead of stripping the wool of its life and vitality, increase those properties, or whatever conduces to a healthy condition of the skin is equally conducive to the welfare of the fleece."

* * *

In our last week's issue, in the first paragraph under the heading of "Estancia and Colony," our readers may have noticed that a mistake crept in, in giving the rate at which the chacra lots on the Horquetas camp are selling. Of course it should read \$90 per hectarea and not 90 per square.

According to the standard of requirements set for the horse by the code of the Arabs, a pure bred horse must combine a symmetrical frame, short and nervously mobile ears, heavy but at the same time symmetrical bones, a fleeshless face, nostrils "as wide as the mouth of a Lion" beautiful dark prominent eyes, "with an expression like that of a loving woman," a long, arched neck, a broad chest and broad crupper, a narrow back, round

thighs, very long true ribs and vory short false ones, a compact cylindrical body, long thighs and hams, the latter with the hocks forming a slight angle "like those of the camel" a black, unspotted hoof, a fine, scanty mane and an abundant tail, thick at the root and thin at the extremity.

Four parts must be broad; the forehead, the chest, the hips and the limbs; four must be long; the neck, the upper part of the limbs, the abdomen, and the flanks; and four short; the crupper, the ears, the frog of the foot, and the tail. These physical characteristics prove that the horse comes of good stock and is swift; for the shape then resembles "the Greyhound, the Pigeon, and the Camel!"

The Arabs distinguish many strains among their horses and every locality, every tribe boasts of its special breed. At present there are twenty-one tribes or families distinguished in Arabia, the five best of which are ranged under the title of "Khansa" and are said to be descended from the five mares of Solomon. (The Arab always reckons the breeding of the colt by that of the female ancestors.) The oldest and noblest of these families is the "Kehilans" or "Kohlani."

Last week Messrs Funes Lagos and Co., held a liquidation sale of rams the property of various importers, when 27 rams were sold at prices from \$80 to \$170 each, or say an average of \$118.

On Sunday the 19th inst., Sr. Manuel Castellar, of Azul, sold at auction, on the estancia Fortin Pereda of Messrs Grant Bros, the following live stock:—

- 500 mestiza Durham cows al corte from \$24.50 to 28.50.
- 50 Durham heifers, pure by cross at \$50.
- 21 Durham heifers, pure by cross yearlings at \$22.
- 108 mestizo Durham steers yearling export type at \$36.50.
- 100 criollo novillos at \$24.50.
- 1000 Lincoln sheep al corte at \$3.20.
- 700 Lincoln sheep for invernada at \$3.20.
- Potros at \$42 amd mares at \$8.00.
- Total of the sales \$28,324.50.

The buyers were Messrs Wm. Purvis, Domingo di Calvo, C. S. Clarke, Miguel Erramouspe, Juan Frers, Roberto Elliot and David Maitland.

The same auctioneer has sold privately 680 criolla cows al corte the property of Sr. Francisco Otero at \$16, and 50 criolla cows de vientre, the property of Sr. Alejandro Muir at \$23, the buyers of both lots being Sres. Zapata and Lier.

Sres. Moro and Dominguez have sold from their estancia in 9 de Julio 1315 cows al corte with a good percentage of novillos, at \$20. The buyer is Sr. Juan Angel Lopez of the estancia La Juanita in Lincoln.

The sale is reported of 1000 export capones at \$2.80 gold each, the sellers being Messrs Lazaro Repetto and Sons, and the buyer Mr Fred. Miller. Another sale of live stock reported is that of 1300 head of cattle al corte from an estancia in La Plata for invernada at \$22.

Messrs Castells and Suñer have sold from their estancia at Punta Lara 435 cows and novillos and 195 calves, the former at \$21.50 and the latter at \$12.50. The buyers are Messrs Ponce de Leon and Almeyra who take the stock to their invernada La Blanca in Navarro.

At Messrs A. Bullrich and Co.'s 26th Remate Feria held at Rodigruez on Sunday the 19th inst. the following prices were obtained:—

- Novillos mestizos fat \$47 to 59.
- Novillos mestizones \$28.50 to 39.50.
- Novillos mestizones and mestizos for invernada \$22 to 36.75.
- Vacas and vaquillonas \$19.
- Cows al corte \$12.50 to 16.50.
- Sheep for butcher \$2.20 to 2.70.
- Lincoln rams \$30.
- Horses at \$13.50 and potros 21.
- Total of sale \$61,761.35.

Mr James Sidey has purchased the following lots of export steers:—

- 130 steers from Sr. J. Carabassa's estancia El Trebol at \$33 gold.
- 150 steers from Sr. F. Basavilbaso's estancia in Cañuelas at \$37 gold.
- 100 steers from Sr. C. Villate Olaguer's estancia San Carlos at \$35 gold.
- 65 steers from Mr John O'Toole's estancia La Constancia in Conesa at \$33 gold each.

Last week Messrs Roman Bravo and Co sold at auction an estancia property in the province of Corrientes. The camp, which has a frontage on the Mocoreta River and is some two leagues in extent, was sold by order of the courts in the settlement of the testamentaria of the late Señora Onieva de Rolon. It was bought in by one of the heirs at \$14.70 per hectarea a very high figure for camp in Corrientes.

On the 19th of the current month La Vicentina held their sixtieth remate-feria of live stock, when sales were made to the value of \$21,307, the following being a note of the prices ruling: Novillos at \$25, \$32.50, \$39 and \$44. Cows from \$29 to \$42. Heifers at \$21.50. Calves at \$13. Sheep for consumo at \$2.30.

The buyers were Messrs M. Alegre, A. Alegre, E. Robledo, P. Garat, T. Pitrau, A. Sicardo, J. Bonadeo, P. Lannes, C. Lafon, J. Cross, F. Lórea, and Sanguinetti.

At the annual Show and sale of Shorthorns held last month at Perth, Mr Donald McLennan bought the bull "Colonel" by Royal Star, property of Lord Lovat, and winner of the first prize, the price being £163.

Deptford, March, 23rd. No Argentine cattle or sheep were on sale in this market to-day, 900 steers and 2500 wethers from Argentina are expected for Monday's market.

PONY RACING.

HURLINGHAM—MARCH 25.

Hurlingham was favoured with perfect weather last Saturday for the opening race meeting of the season, but only comparatively a few took advantage of it to come out and see the racing. Though the stand was not well filled it, however, presented quite a gay appearance as so many ladies were present.

As regards the racing there is not much to say, except that the members of the Club were out of it in every event except the one confined to them, and that two ponies, Salvato and Curioso, stood out from the rest in a very marked manner. Curioso won the Maiden Race of five hundred metres, and Salvato the Hurlingham Stakes of eight hundred metres, in a way that showed them to be at present a good deal better than average ponies, and they both appeared trained to perfection for these kind of races in which so much depends on getting quickly away. An old friend in Ramadan ran well in the Opening Stakes, as also did Freda. We thought the mare would win at the paddock, but she was just beaten in the last few yards by La Bruja. Next time she runs she ought to earn winning brackets, as now that she holds a fourteen-hand certificate she will take some beating in her class.

The Polo Scurry we should have liked to have seen run in heats, as is generally done in these races. It is almost an impossibility to get a number of ponies off together for so short a sprint, and by dividing the race, by giving it to the winner of the best of three heats, makes it less of a fluke. At the same time we have no doubt that the fastest pony won on this occasion.

The starter, Mr Furber, had a hard afternoon's work with five sprints to get away satisfactorily, and he must be congratulated on the result of his efforts, and on the extraordinary patience he showed in spite of one or two of the jockeys doing their best to test how near it came to that of Job.

In the Premio Mestizo the horses were about forty minutes at the post, and one of them, Vengador, went a round of the course before a start was finally effected. There was a long delay, too, in starting the Maiden Race, so the last race was run off very much behind time.

The course, after the recent rains, was in capital going order, and except for the disqualification of Don Pepe in the Premio Mestizo the meeting passed off pleasantly, and gave as much sport as possible for so poor a programme.

Details are as follow:

OPENING STAKES, with \$100 added, a handicap for ponies of 56 inches or under. 600 metres.

Mr M. Orrego's La Bruja, 56 in, 73 k.....	Mr F. Canevari	1
Mr B. Bedford's Freda, 56 in, 73 k.....	Owner	2

Mr L. Grisar's Boy, 56 in, 75 k.....	Mr. Vayo	0
Mr A. Sasso's Caprichoso, 56 in, 78 k.....	Owner	0

Freda came into the straight with a lead which he kept to the paddock, La Bruja catching her here, and eventually beating her by a neck.

Dividends—La Bruja \$2.65 win and 2.40 place, Freda 2.65 place.

POLO SCURRY, value \$75, for polo ponies which have not run at Hurlingham; weight for inches, ponies of 58 inches carried 77 kilos. 300 metres.

Mr H. Scott Robson's Hark Away, 58 in, 78 k.....	Mr. Pico	1
Mr F. Martinez de Hoz' Nansen, 56 in, 72 k.....	Mr. Sasso	2

Mr M. Orrego's Vigilante, 58 in, 78 k.....	Mr. F. Canevari	0
Mr J. N. Drysdale's Kenneth, 58 in, 78 k.....	Mr. F. Bennett	0

Curioso led from the start and appeared to win very easily from Salvato by half a length. Linda beat Kenneth by the shortest of heads for third place.

Dividends—Curioso \$6.50 win and 3.45 place, Salvato 3.70 place.

"PREMIO MESTIZO," for h.b. horses that have not won at Hurlingham; catch weights not under 60 kilos. 600 metres.

Mr R. E. Figueras' Don Pepe, 66 k.....	Mr F. Canevari, disqualified	

After a long delay at the start Don Pepe and Misterioso jumped off in front together when the flag fell, and the former boring the latter all the way down the course finally finished in front by a neck, but was disqualified and the race was awarded to Misterioso, Verdulero being placed second and Vengador third.

Dividends—Misterioso \$4.40 win and 3.65 place, Verdulero 4.50 place.

HURLINGHAM STAKES, with \$100 added, a handicap for ponies of 58 inches or under. 800 metres.

Mr E. Toscano's Salvato, 58 in, 75 k.....	Mr Vayo	1

Mr J. Smith Sheehan's Colinita, 58 in, 75 k.....	Owner	0
Mr J. Ravenscroft's Try Over, 56 in, 70 k.....	Mr Bond	0

Salvato and Curioso again had the race in hand from the start, but Salvato staying the better, won fairly easily at the finish by a couple of lengths.

Dividends—Salvato \$7.20 win and 3.30 place, Curioso 2.40 place, Kenneth 3.50 place.

RACING.

PALERMO—MARCH 25.

A somewhat threatening sky on Friday afternoon made the pleasure loving public somewhat nervous, but Saturday turned out fine though a little too warm. The good programme brought out an average attendance but the racing was perhaps a bit tame, as it was preeminently a favorites' day, the highest dividend for win or place being 8.30. The point of greatest interest was the appearance of the oriental crack, Yerba Amarga, who shewed what she is made of by making hacks of her 14 opponents, winning in the easiest of gallops. The second favorite in this Classic was Ventura, on what grounds it is impossible to say, as she has run all last year making no show whatever, and only served to make some dividend for the winner. Marea and Vesper ran well, but were not any match for Yerba Amarga.

The long distance provided the best finish of the day, Guttemberg getting the better of Dinero in the last fifty metres and just being able to divide with the plucky Rob Roy, who came strongly at the finish.

Frontin in the twelve hundred metres just managed to get a neck victory from Marat who was going for a coup.

In the mile final Oriol, who at last seems to be improving was having a hard struggle with Hidalgo when Atalaya pushed between them and won another good race by half a length.

The following are the details:—

PREMIO STUD RED LANCER—For horses that have been two years in the country, have run more than once and have not won. Weight for age, \$1500 to 1st, \$100 to 2nd. 1400 metres.

P. Aguirre	1
H. Trejo	2
F. Perez	3

Also ran—Maceo, Planchet, Clase, Ayacucho, Soberano, Bari loche, Reseda, Pola, Marina and Federacion.

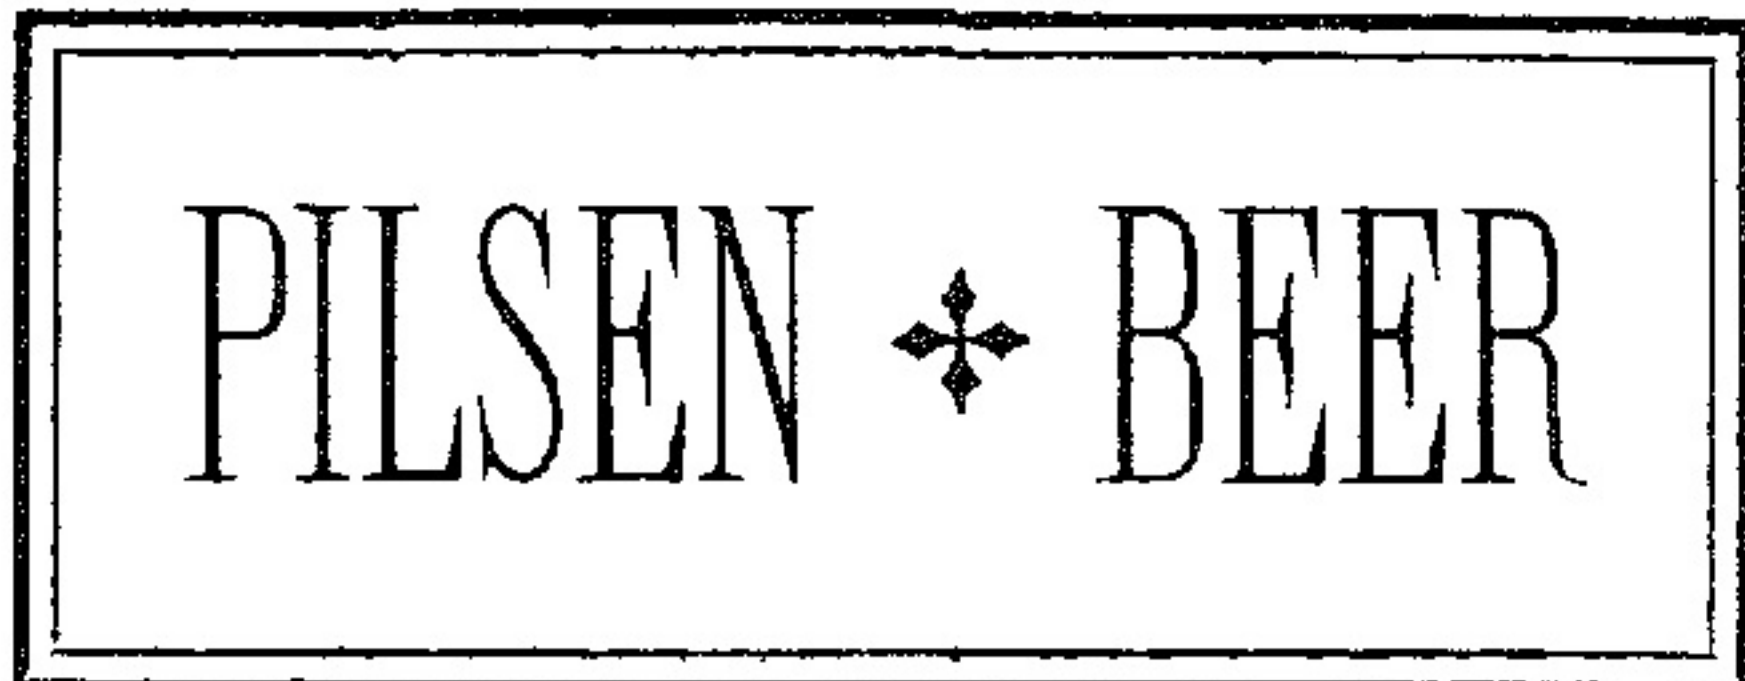

Dividends—Insular \$8.30 win and 4.55 place, Esparta 7.40 place and Kaolin 6.65.

PALERMO—MARCH 26.

This meeting, perhaps on account of the perfect day attracted more people than Saturday's, and although the card was not very well filled, the racing turned out interesting enough and was productive of much more sensation than we have had lately, including two complete upsets. The opening Mile was handsomely taken by Abeto, who seems to have got back his health and should be good enough to take a higher place in the future. Etolo, own brother to Eclairé, and good looking as are nearly all the progeny of El Amigo, took the "Maiden" in good style, but only just beat Pensamiento, who made a bold bid. In the Selling Plate, Reyezueto was unable to concede 10 kilos to Polvora, who was exploded on us from the other Bank. The St. Sanducero followed up this success by carrying off the Classic with Salto, who was too much for Cacique when it came to struggling at the finish, and who would have won by more than a head with a better start. Eureka II is now called Euskara, but neither a new name nor 61 kilos could stop him from winning the long distance in his usual hand-gallop. Ameliana at last scored a win in the 1300 metres, and of course paid handsomely. Hidalga took her revenge for her defeat the previous day, and won the final by 1/2 a length after a hard tussle with Nobleza.

PREMIO JULIA, for horses that have been a year in the country have run more than once, and have not won more than \$3000, Weight 3 years 54 kilos, 4 years 56 kilos. 3 kilos extra for every win. \$1500 to the 1st, 100 to the 2nd. 1600 metres.

THE STABLE.

To continue the subject of hands, and to return to the tie tying example, how few women are there who cannot arrange a tie neatly, and how still fewer there are who, having a safe seat in the saddle, have bad hands on a horse's mouth. That women having of necessity to ride with longer reins than men, gives them better hands does not follow at all. Again, when we are sick and ill whom would we rather have to move our head and arrange

our pillow, and whom would a horse rather have manipulating the reins attached to his bit, a man or a woman. Not one man in a thousand is any good as a nurse as regards his hands, but nine hundred and ninety-nine women out of a thousand are almost perfect in this respect, and it is the same in everything. At the same time the few men who have really good hands must always have comparatively better hands than any woman as they have the greater strength.

Strength is a necessity for the control of a horse, especially if he be a big one, and though it is all very well to impress on a bad horseman that if he does not pull his horse the horse will not pull him this advice must not be given or taken too literally. The best breakers are all strong men, so strong that they can at any time prevent a colt from knowing his own strength if necessary, and it is simply in never letting a horse know how strong he is that we can make so much use of him. Not pulling a horse so that he should not pull you means letting him have his head so long as you feel he means to have it, but snatching him up at the moment you feel that by doing so you will at once have him under control. It may not succeed at the first attempt, but the opportunity must come constantly under all conditions of hunting, playing polo, hacking, or racing.

And now a word as to bits. The man with the best hands in the world cannot make a horse go comfortably in a bit that irritates him, and I have noticed that a very large number of men who play polo here do not pay sufficient attention to their bits. The saddlers in Buenos Aires are a good deal to blame for this, as many of them sell bits that are not wide enough to fit a shetland pony, and the majority of them are so narrow and badly made that when any hold is taken of the reins the corners of the poor animal's mouth are pinched between the curb hook and the bar of the bit. Maddened by the pain so caused; and being too good hearted and plucky to refuse to gallop, the pony, of course, pulls, that is to say saves the pain to a certain extent by keeping the pressure constant, finking the repetition of it each time he is asked to stop. Personally I think curb bits with unproportionably long cheek pieces the most useless contrivances the saddler has ever produced, but if men will have them, out of regard for the animals that give them so much pleasure, let them see that their bits are wide enough to be comfortable. Boots.

To the Editor of the *River Plate Sport and Pastime*.

Dear Sir,

I was glad to see in your last issue that my notes on "Hands" of some time ago had been supplemented, though I think your correspondent has gone a trifle wide of the subject in his concluding sentences. I did not say that position on a horse had anything to do with "sticking" there. Men ride, as horses go, in all forms, and no matter whether the stirrups be short or long if a man is a good plucked one he will manage to stop, though for rough riding I certainly think that the latter should have the most power. The majority of Australian riders whom I have met have ridden fairly and, in many cases, very long, though, as a rule, I have noticed that, for such fine rough horsemen as they generally are, they have looked exceedingly well in the saddle.

That a very firm seat, if combined with patience and good temper, is of immense assistance to the hands is undoubtedly the case, but that it is absolutely necessary is, I think, hardly the case; in fact very often the man who feels himself absolutely secure in the saddle will be reckless and by want of care will allow his horse to become excited and violent, than which nothing can be worse for the mouth, as once thoroughly frightened and upset a nervous and high-couraged animal, no matter how light his mouth, will fight his bridle and necessitate the use of force for his restraint, thus bruising the bars of the mouth, and necessarily losing the sensibility to touch which is so essential to a well-schooled animal.

Criollos, as a rule do not like the "muy ginete" as a "Domador," as they say that the man who is a trifle "miedoso" is more careful and always attends more to "reining" a colt well.

I have known many magnificent horsemen who are certainly not good rough riders. Even suppose a man should have to catch at the mane or saddle to steady himself he need not let go his reins to do so.

The formation of a man's legs too has so much to do with firmness of seat that it is not every one who can attain it.

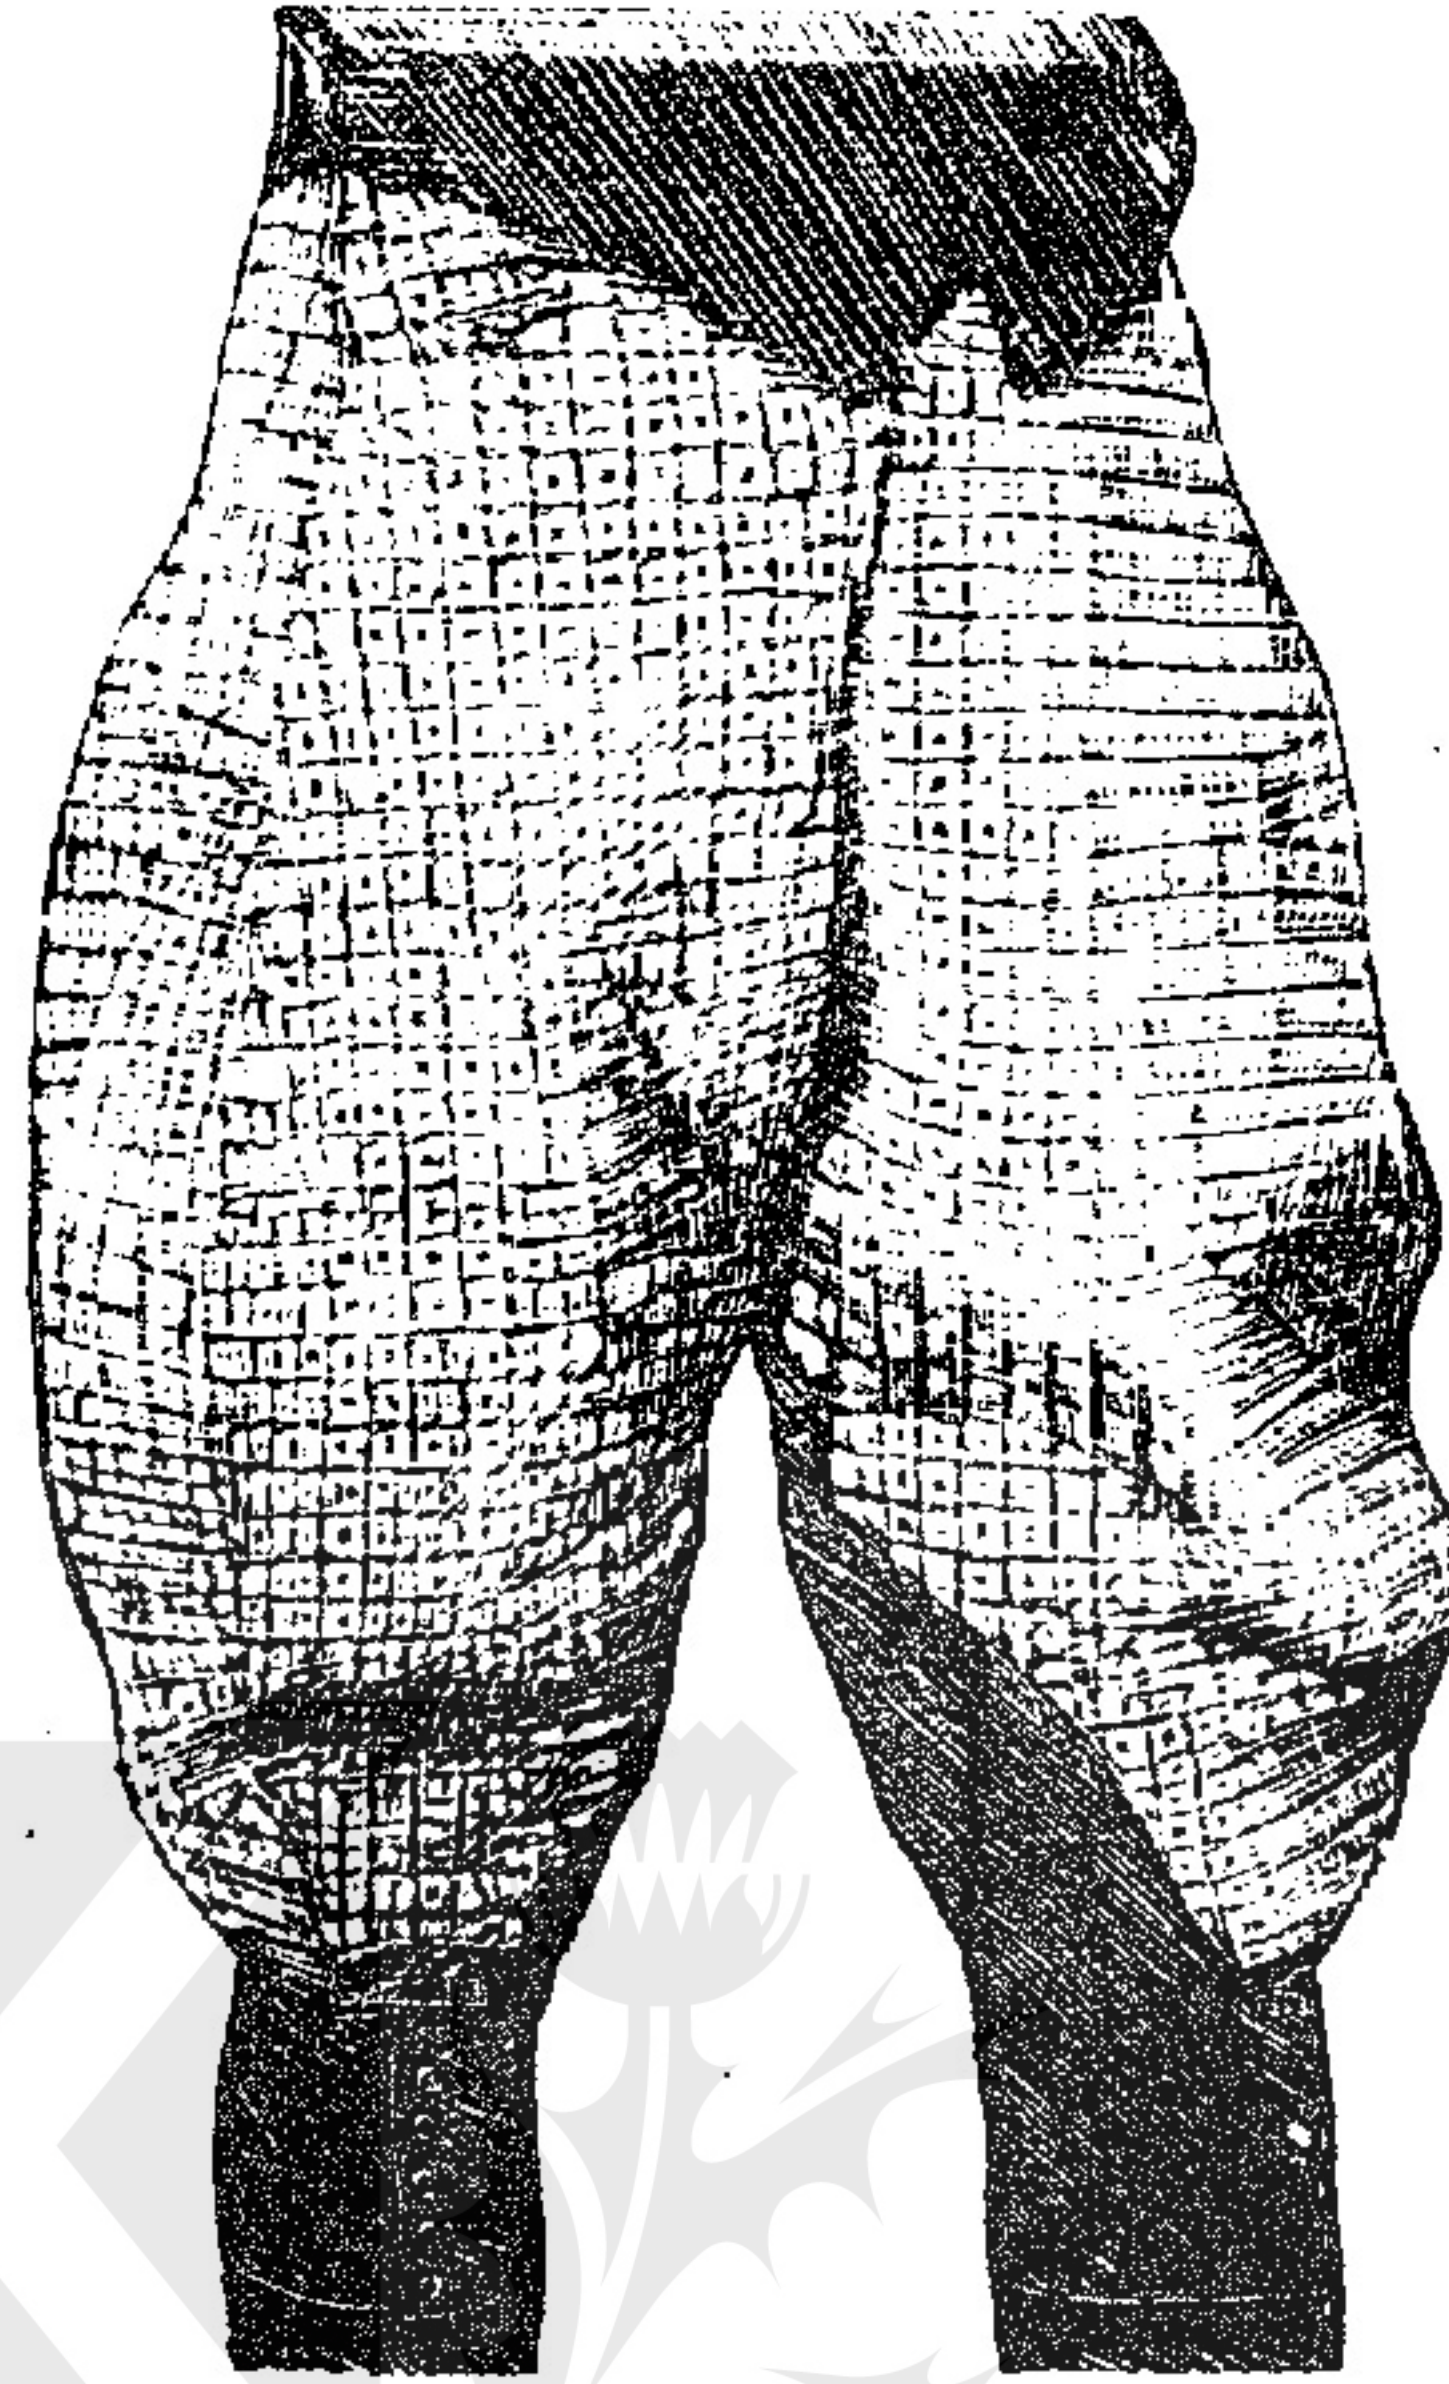

With regard to the "tie" business, though no doubt the neat and handy man, being naturally more patient and painstaking than the sloven and therefore less liable to irritability and unsteadiness of touch, has much to be said in his favour, still, I am sorry to say, I have known some truly grand horsemen who have been anything but remarkable for their neatness and who, I don't think could tie a neat bow or knot to save their lives. True "the exception proves the rule," but when the exceptions are numerous they go far to upset it.

"Hands" are as your correspondent says very difficult of definition, even by those who possess them, who by the way, are few. That they are a natural gift there can be no doubt, though often the young man who possesses them may, from want of practice, and loss of nerve above all, grow into a hopeless log on a horse as he gets older.

Hands can be neglected until they are lost the same as other talent, and I suppose we may call "hands" a talent, whilst they may be improved by study, patience and practice.—Yours very faithfully,
L.

NOTES.

The autumn regatta held under the auspices of the Union de Regatas on Saturday last was, this year, of exceptional interest, and in spite of the many counter attractions there was quite a large attendance of interested spectators, and the Asilo Naval should benefit considerably. Several of the competitors have told us that the steam launches were as bad as ever, but that they were less incommoded by the small craft than on previous occasions.

* * *

The cable brings us news of the result of the Oxford and Cambridge boat race of 1899, which apparently ended in favour of the Light Blues by some half-dozen lengths. However staunch a supporter of the Oxonians one may be, we feel sure that nobody will regret the fact that the Cantabs have at last broken through their run of ill-luck. For several years past Oxford have won regularly, in spite of which the Cambridge men have never lost heart, but have pluckily kept at it, and this in the face of much internal wrangling and unpleasantness which took place among the rowing authorities on the Cam, not so very long ago.

* * *

For those who know the two University towns it is needless to point out the great disadvantages the Cam-

bridge men labour under as compared with their rivals, for there is no comparison between the two rivers. This year, however, they left the Cam early and coached by the old Oxford stroke and captain, Mr W. A. L. Fletcher, made rapid progress, which has ended in a splendid victory. This was the fifty-sixth contest between the two Universities, and the Dark Blues are now nine races ahead.

* * *

The annual cricket matches between the Lomas and Buenos Aires clubs may be always regarded as the keenest of all our inter-club games, and although the teams last Saturday and Sunday were neither of them fully representative, the return fixture was no exception to the general rule, quite the contrary, for some excellent play was shown in every department of the game. The premier club has seldom met the powerful contingent from the southern suburb with so weak a team, and their defeat by six wickets is hardly to be wondered at in consequence, although had they not made such a wretched start two days would scarcely have proved sufficient for bringing the match to a definite conclusion.

* * *

It is, in fact, a very difficult matter to account for the extremely poor exhibition of batting made by the B.A.C.C. eleven in their first venture. Granted that the bowling was good, and we have seldom seen Mr. Brooking bowl better, there was nothing wrong with the wicket, so that there is really no excuse to put forward in defence of the miserable display given. It was just one of those extraordinary collapses that occur every now and then in cricket, and which make the game so uncertain and interesting. That the side were worth more runs was shown in their second innings which realised over two hundred runs.

* * *

Of the individual play Mr. E. L. Rumboll carried off the batting honours by compiling an excellent innings of seventy-eight, with only one chance; if we mistake not, given to third man directly after lunch. For the visitors, Mr. A. Anderson obtained the highest individual score, taking out his bat for forty-four in their second innings, but it was not free from faults, as short-slip and mid-on both had chances offered them, although neither catch was an easy one. Mr. H. A. Cowes also did well scoring twenty-five and eighteen not out, and he should prove of great service to the Lomas Club later on.

* * *

Of the bowlers, Mr. W. D. Gardom accomplished the most sensational piece of bowling during the match, as in the first innings of the home team he secured four wickets for a single run in three overs and two balls. Mr. Brooking we have already alluded to, and his splendid bowling had much to do with the visitors' victory. For the losers, Mr. T. V. M. Knox did fairly well taking eight wickets for eighty-three runs in the two innings, while Mr. R. W. Anderson, although not so successful, put in a lot of useful work and kept his end up well throughout. Mr. Webster also bowled well at times, but Mr. Rumboll failed to secure a wicket, although it is only fair to state that he was incapacitated in the second innings by a bad blow on the ankle.

* * *

The fielding was smart and crisp all through, and although there were a few chances missed little or no fault could be found with the ground fielding, which was the best we have seen for many a long day. A feature of the match was the number of cases of leg-before-wicket, no fewer than four of the Lomas batsmen losing their wickets in this manner. The weather was perfect throughout and the match a thoroughly enjoyable one from every point of view.

* * *

The Lomas second eleven were also busy on Saturday and Sunday last, being visited by the Quilmes and Banfield clubs respectively, in both of which matches they performed extremely well. Against Quilmes they made a very creditable draw, while they defeated the Banfield Club by no less than an innings and forty-two runs. The feature of this latter game was the inning

played by Mr J. B. Campbell, of whose batting we have had occasion to comment favourably on before this. He carried his bat for a hundred and three and so has joined the select band of "century" makers here.

* * *

To-morrow the Montevideo cricketers commence a short tour here with a two-day match against the Lomas Athletic Club, while on Saturday at Palermo the Buenos Aires Cricket Club will oppose them. As is so frequently the case with these out matches we are afraid that Mr. Stanham, the Montevideo captain, is experiencing no little difficulty in getting together a really representative eleven. From what we heard the clubs on this side are having a similar experience, as many are going outside for the holidays, but we hope that our visitors will have two good games and that the weather will keep fine for their trip.

* * *

We have received the programme of a race-meeting to be held under the auspices of the Gualeguay Polo Club on the 2nd prox., in Gualeguay. In all there are eight events, for which good entries have been received, the distances varying from five hundred metres to three thousand five hundred. Judging by the names of the officials which figure on the programme, the meeting should be a great success, and we shall look forward to receive an account of same.

* * *

The following two days, the 3rd and 4th prox. will be devoted to a polo tournament for which four teams have entered. The Estancia San Guillermo will be represented by Messrs. J. O'Dwyer, G. O'Dwyer, A. Rios, and L. Paredes; the Estancia Las Colas by Messrs. A. Raikes, A. Enrique, J. Garay, and J. C. Barlow, while Messrs. A. R. Nicholl, E. Robson, R. Lesano, and D. Lesano will do duty for the Estancia La Natividad, the fourth team, The Casuals, consists of Messrs. G. Barkley, E. C. Wrey, J. Peter, and Baron Ott. The tournament is sure to be keenly contested, and we trust it will be favoured with fine weather.

* * *

It is not so long since anything we had to say about the Pacific Railway generally took the form of a complaint, but all that has altered since Mr Huxtable's time, and it is in a great measure due to the present popular manager's kindly interest in the Club that a small colony of residents is being formed at Hurlingham. We noticed on Saturday that an excellent cinder path had been laid from the station to the club by the railway company and we now hear that Mr Huxtable has not only presented a handsome cup himself but has been instrumental in obtaining the presentation of another by his board of directors.

* * *

The conditions of both these cups have been left to the racing Committee to determine, but we believe it is Mr. Huxtable's wish that his cup should be run for by horses or ponies the property of members of the Hurlingham Hunt and it will therefore probably be given for a hurdle race, steeplechase or point to point. The company's cup we have seen. It is a handsome two-handled cup of the goblet design and has come out ready inscribed as far as its origin is concerned.

* * *

The new Pack for the Hurlingham draghunt has arrived, but the hounds have suffered terribly on the voyage that for a week or two it will be difficult to give an opinion as to their merit. They are nearly all young hounds, which is a good thing, though they will give the master more trouble to lick into shape than he would have had with entered hounds. One hound unfortunately died on board ship.

* * *

One of the hardest trials of the habitués of the race-course is to follow up an animal that everyone knows will some day win and pay a big double figure, and give it up as hopeless and go for something else just the day that desirable consummation is reached. A very glaring case of this sort happened at Palermo on the 26th when Ameliana sailed comfortably home in the 1300 m., and paid the

useful dividend of \$53.45. Who has not gone quietly into the box again and again to have a ticket or two on this mare, and has refrained from doing so this particular time? Many a hunter of outsiders, with a stamp of his foot, exclaimed, "the first time I ever left her out," and followed it up with a gentle murmur. Decidedly it is hard lines, but such are the vicissitudes of the turf.

* * *

Our Oriental friends not only took both the Classics on Saturday and Sunday, but two other races with Polvora and Euskara (ex Eureka II), and they are certainly getting their share of the plunder, if not something more. The Premio Criadores was taken with great ease by the now famous Yerba Amarga, daughter of Exmoor and Nellie II, and in this slashing mare our neighbours have a very formidable championess for the great races of the year, being to our mind far and away the most promising representative we have seen from the other side. She seems quite good enough to be placed on a level with Porteno and Pillito, Gonin and Ovacion, and if as rumour says, Orange has returned to form, the big prizes in the spring should produce races of exceptional interest.

* * *

The Emperor of Japan is very keen on horseracing, although he does not permit any betting transactions to take place on the course. Moreover, he has placed the price of admission to the races so high that only the very best classes can attend. In the Imperial stables there are about three thousand horses.

* * *

We have received the Committee's eighth annual report of the Albion F. C. Montevideo, which was presented at the General Meeting on the 21st inst., and from which we quote:—

"A season of exceptional activity, a great increase in the popularity of our game, and a feeling of confidence for the future affords the Committee great satisfaction and makes our duty to-night very grateful. We need hardly explain to our members that our games have been witnessed by many spectators, since our ground was the centre of attraction on Sundays and holidays last year, and at the two matches played versus Buenos Aires visitors no less than ten thousand witnessed our defeat at the hands of the Belgrano A. C., and nearly eight thousand cheered our gallant team when we tied with our "Lobos" friends. Three teams came from Buenos Aires to visit us this year, and thrice did we in turn occupy the grounds at that city. This is a signal triumph for the Albion, since no other Club in the Plate has done as much yet.

* * *

"It affords us great satisfaction to announce that we have at last obtained a good and suitable field near the Paso del Molino, and have been able to remove from that barren wilderness Punta Carretas, where water was a dear luxury and comfort an unknown thing. In September last year the Paso del Molino Tramway Company offered us a ground situated on the Avenida 19 de Abril (Road to the Prado) and after sundry details were discussed the sub-committee appointed for the purpose of carrying out the arrangement settled on most favourable terms. By the contract signed, the Club obtains the grounds for a period of from 3 to 5 years at our option, a splendid pavilion, comprising Members Room (with 40 lockers), Ladies Department, Secretary's office, and baths, etc. etc., free of charge, besides sundry minor privileges which it is unnecessary to detail. The ground is not in the very best of conditions owing to the short time that has elapsed since it was levelled, but we trust that in a month's time everything will be most satisfactory.

* * *

"We can safely say that our new field has not an equal in Montevideo as far as convenience and comfort are concerned and feel sure that an increase in our membership will be the immediate consequence of our step. It is only just to mention that Messrs. J. Sardeson, W. J. Maclean, A. J. Davie, T. W. Thomas and H. C. Lichtenberger were in charge of fixing the new arrangements and have accomplished their duties to the Committee's full satisfaction.

The inauguration of the new ground will take place on Saturday the 1st April, when a farewell match will be played against our honoured friends from H. M. S. "Basilisk," which vessel sails homeward bound on the following day."

* * *

The report—which is an exhaustive one—then goes on to deal with financial matters, etc., all of which are in a very satisfactory state. The Committee of the Albion Football Club are evidently determined to do everything possible to make the game popular in Montevideo, and in this excellent work our clubs here can lend a helping hand. It is one of the nicest football trips we have ever made, and we sincerely hope that all our clubs will arrange fixtures this coming season. We have not yet seen the new ground, but hope to do so soon, when we shall be able to give our readers an account of the same.

BATTING AND BOWLING AVERAGES.

Last Saturday's and Sunday's match at Palermo has affected the average lists considerably. In the batting J. O. Anderson still retains the lead, but with a lower average, while Rumboll has approached still nearer. Halstead falls three and Brooking four places. A. Anderson and F. H. Jacobs each rise a couple of places, and Cowes six. Lower in the list Lace falls four places and Webster drops out altogether, his average having fallen below ten. In the bowling, Webster loses a place, and Brooking rises from the sixth to the second position on the list. Rumboll falls five, J. O. Anderson one, and H. B. Anderson four places, while W. D. Gardom rises six and Knox three places.

The two matches with Montevideo this week will probably cause more changes in next week's list.

LOMAS A.C. v. B.A.C.C.

The return match of these two clubs was played on Saturday and Sunday last at Palermo, in absolutely perfect weather. The attendance was not up to the mark either day, but this is easily accounted for by the numerous counter attractions that were fixed for those days. Both teams were without some of their regular players, but the home eleven suffered most in this respect and they were far from being up to full strength. This being so that defeat by six wickets is hardly to be wondered at, although had they made anything like a decent show in the first innings we might have had to tell a different tale. As it is we find it very difficult to account for the utter collapse of the Buenos Aires players in their first attempt. The wicket was good and all conditions favourable for a good score, in spite of which Brooking and Gardom seemed to be able to do what they liked with the ball with the result that the whole side were dismissed for the paltry total of 45. They gave a better account of themselves in their second venture, but the bad start made the effort useless. The cricket displayed all-round and throughout the match was of a higher class than most inter-club games here. The bowling never became loose, some capital batting was witnessed and the fielding of both teams was far above the average. Altogether it was a very jolly match, and we have little doubt but that two days will be devoted to the meeting of these clubs in the future.

FIRST DAY.

The home captain won the toss and decided to bat on what appeared to be a good fast wicket. Rumboll and Lace opened the batting, the bowling being entrusted to Brooking, from the river end, and H. Anderson. Slow cricket was the order of the day and nine overs only produced so many runs, at which period Brooking bowled Lace. Syer followed and suffered a similar fate before he had opened his account. R. W. Anderson then joined Rumboll, but lost him at 16, also bowled by Brooking, who was sending down some excellent balls. Rumboll had made 12 and this turned out to be the highest individual score of the innings. He should have been easily caught at mid-off with his score at 9, but the let-off made little difference. J. O. Anderson filled the vacancy, but three runs later his brother was cleverly caught at slip by H. Anderson, Brooking again being the trundler. Webster came next but after seeing four runs added was clean bowled. Brooking's analysis at this point are worth quoting. He had bowled ten overs and two balls, seven of which were maidens, and had secured five wickets for four runs! Stokes now went in and helped to improve matters with some useful strokes, bringing on the first change Gardom for Anderson. This proved very successful as Stokes played the first ball on to his wicket while Plews was clean bowled with a full toss on his off-wicket, seven wickets being down for 32 runs. Knox rattled up nine in good style and

then was bowled hitting right across a straight ball from Gardom. With Fowler in, Anderson was taken high up right hand at short leg, while the substitute, O. Jacobs, scored one run and was then bowled, the total being 45.

Brooking bowled extremely well and most of his wickets were taken by the aid of a nasty leg break. Gardom, who obtained the better figures, was very lucky as his wickets were secured with very ordinary sort of balls.

With half an hour's play before lunch time, Lomas opened with A. Anderson and Rudd to the bowling of Knox, river end, and Rumboll. Runs came slowly but steadily, and when the bell rang for lunch, the two were still together, the total being 20.

On resuming, a double change was made in the attack, R. W. Anderson being placed in charge of the railway end and Webster taking Knox's place. Nine runs were added and then Rudd got in front of his wickets and was adjudged l.b.w. to Anderson. With Gardom in the cricket became terribly slow neither batsman taking any risk whatever. Webster, for example, sent down 5 successive maidens, his seven overs realising three runs only, at which period Knox again tried his hand. With the total at 40 a little collapse occurred. A. Anderson being taken at forward short leg off a poor stroke, Gardom being smartly thrown out by Syer and Halstead in attempting a drive being l.b.w. to Knox, making the score four wickets for 40. With Jacobs and Cowes together, however, matters began to look bad for the home team. J. O. Anderson took a turn with the ball, but soon handed it to Webster, who, failing to get any length in turn gave it to Knox. With the score raised to 89 Jacobs was taken at short slip off Knox, but H. B. Anderson and Cowes saw the hundred hoisted before the latter was bowled by Knox. Brooking was foolishly run out without having placed any runs to his credit, but Flint helped to add 42 to the total before getting l.b.w. to Knox. Bridger started off merrily, but at 151 lost Anderson, nicely caught by Lace off Knox, for an energetic 38. Griffin got a couple and was then bowled by Knox, the innings closing for 157 or 112 runs on.

Knox got by far the best of the analysis, his six wickets being taken at a cost of 55 runs.

There being some twenty minutes left for play the home captain took in Fowler with him to face the deliveries of Brooking and Rudd. Runs came at a good pace principally off Anderson's bat so that a change was soon deemed necessary, Bridger and then H. Anderson relieving Rudd in quick succession, but it was all of no avail and when time was called the total stood at 30, of which Anderson claimed 21 and Fowler 7.

SECOND DAY.

Sunday broke beautifully fine and a good day's cricket was looked forward to. Shortly after eleven o'clock the not outs Anderson and Fowler resumed their places the attack being in the hands of Brooking and Gardom. Runs came steadily and before long the half-century was posted, but 3 runs later Fowler was most unfortunately run out. He had shaped very well for his 17 runs and never appeared to be in any real difficulty with the bowling. Rumboll took his place and soon after Cowes took over the ball from Gardom, while H. B. Anderson relieved Brooking. J. O. Anderson now began to open out and got in one or two big drives, but at 68 in trying to repeat the dose to Cowes was clean bowled for 43 which contained 5 fours. Syer helped to add 10 and was then very smartly caught and bowled by Cowes. Stokes, the next comer, soon showed that he meant business. He played all the bowling with equal confidence and freedom, and before long the first hundred was posted. With another 7 runs added, however, Gardom upset Stokes' off-stump with a nice ball which came back considerably and beat the bat. Stokes had made 18 with all his old vigour and style and every one was sorry to see him leave. R. W. Anderson filled the vacancy and another good stand ensued, the score being carried to 148 at a good pace, at which period the luncheon interval was taken.

On resuming the usual unsteadiness prevailed, and Rumboll was badly let off by A. Anderson at third man. With only 5 added however, Anderson, in attempting to drive a ball from Brooking, missed and was bowled. Lace, who came next, only scored 6, but lent valuable aid to Rumboll, the score being taken to 185 before Bridger bowled him. Webster never troubled the scorers at all, Bridger again working the oracle, but Knox helped to add 9 runs before he found a ball from Brooking too much for him. With Plews in the second century was reached but a run later he was bowled by Brooking. With O. Jacobs in, Rumboll, in spite of a bad ankle, saw that the game was to force all that was possible, and in so doing lost his wicket, Cowes bowling him. Rumboll has played many good innings this season, but this one of 78 must be classed as one of his best efforts. His score was made up of 8 fours, 6 threes, 10 twos and singles, and was made by sound and taking cricket.

With 96 runs to win and only an hour and a quarter to get them in there was every prospect of a close finish as far as the time was concerned.

A. Anderson and Rudd again opened, and although the latter was soon out—l.b.w. for the second time in this match—the former kept at it steadily and helped by double figure contributions by

on the part of Gardom (13) and Halstead (11) and by a capital forcing innings by Cowes, the runs were hit off with time to spare.

QUILMES C.C. v. LOMAS A.C. 2ND XI.

This return match, postponed on two occasions, was played out on the Lomas ground on Saturday last, resulting in a draw. The match had been anticipated by each side, and by Lomas particularly, as at the beginning of the season a weak team sustained a severe defeat at the hands of Quilmes, the scores having been 55 against 173 for six Quilmes wickets. On this occasion the conditions were reversed for Quilmes played a by no means strong team, while Lomas, strengthened by Draper, played its full force. The match resulted in a very close and exciting one, produced high scoring and especially good all-round play by the Lomas men. Indeed we question if a higher average (30 runs per wicket) has been attained this season in a completed match, comprising so many as thirteen wickets.

In all 378 runs were made for thirteen wickets in a little under four hours batting. It is a curious fact that fast as the scoring was by Lomas, it was at precisely the same rate per minute by Quilmes, although the greater part was made by Symons alone.

Lomas batted first, five wickets, all bowled by Symons, falling before lunch for 110 runs, of which Boutell claimed 41, made by sound free cricket, including 5 fours.

On resuming, C. Gibson was at once bowled for a lively 31. (130-6-31) up to this point the Quilmes team were not dissatisfied at the result, but unfortunately the bowling at this juncture deteriorated, several chances were missed, and J. Campbell and Draper were not slow to take advantage of the weakness. Despite the numerous changes Draper by vigorous, but by no means faultless hitting, in conjunction with his partner, put on 81 runs for the last wicket, until with 210 up, Draper drove a ball hard back to Morgan, the bowler, who just touched it into the wicket, Campbell, who was backing up, being run out. Kingsland then followed in, but immediately afterwards declared with the score at 213.

With just 100 minutes in hand in which to hit off the runs, the Quilmes team began the task, and the Lomas captain that of dismissing the Quilmeros. In this, however, he was unsuccessful. From the very first ball runs came briskly but within six overs and with the score at 33 Hooton (12) lost his wicket. Symons having gauged the bowling played with extreme confidence. Change after change took place as his score gradually mounted, but despite the seven bowlers engaged in the attack, he played all with equal success, hitting with great power on both sides of the wicket, but none of his partners stayed very long with him, and at the call of time 165 runs had been scored for the loss of six wickets, Symons' score being seven short of his century comprising ten fours, and being a fine innings free from defect save for two chances of stumping.

BANFIELD A.C. v. LOMAS A.C. 2ND XI.

This match was played at Lomas on Sunday, the 26th, and resulted in an easy win for the homesters by an innings and 42 runs.

The principal feature of the match was a splendid innings of 103 (not out) by J. B. Campbell, for Lomas, and with the exception of one hard chance to square-leg, his innings was faultless.

The visiting captain winning the toss decided to bat, but owing to the brilliant bowling of both Campbell and Stirling, a very poor show was made, and excepting Boutell no one reached double figures. Campbell secured five wickets for 21 runs, and Stirling five for 20, both bowling unchanged.

Lomas going in after lunch, started with Boutell and Campbell, the first two wickets put on 27 runs, but on C. H. Lomas joining Campbell the score was carried to 96. After this a "rot" set in the the next three batsmen, Draper, Stirling, and Alexander, all being out in two overs for 0. C. Gibson coming next helped Campbell to carry the score to 182 when the innings was declared closed, Campbell being not out 103, and Gibson 35 not out.

Banfield going a second time did not fare much better as their score only reached 78. Bartlett 21 and Dowson 22 being the principal scorers. Campbell again did well in the bowling taking three wickets for 4 runs, and Davis five for 27.

The fielding on both sides was exceedingly good, especially Lomas in the first innings, no mistakes being noticeable.

Another feature of the match was a wonderful catch at point by B. W. Gardom, which he held with both hands low down.

F.C.S. INTER-DEPARTMENTAL COMPETITION. ADMINISTRATION v. ACCOUNTANTS

More than ordinary interest was displayed in this match which was played last Saturday at Lanús, as both teams held an unbeaten record, the Accountants having won all their matches, while their opponents, through ill-luck had drawn some of their games.

The Accountants batted first, and with very even scoring put together the fair total of 94, Moss and Bennett each securing five wickets.

The Administration started badly, losing two men for 2 runs, but the next two wickets took the score to 34. When Benson joined Grant, however, a totally different aspect was put on the game, both hitting out well and indulging in the most outrageous short runs, quite demoralizing the opposing fielders. The winning hit was made without further loss, and when time was called eight wickets were down for 145, Grant being run out in the last over from a hopeless call. His score contained 10 fours and excepting an early chance in the slips, was made without a fault until after the winning hit had been made. Benson's display was a very plucky one and in a very great measure was instrumental in winning the match for the Administration. Full score and analysis:—

MONTEVIDEO.

MARRIED v. SINGLE.

Played at Blanqueada on Sunday 19th March resulting in a win for the Married by an innings and 32 runs.

Both sides were short, but with the help of the ground boys managed to play nine a side. There was nothing of special merit to notice, except the bowling of Aniceto in the second innings, which was remarkably good for a boy of his age. Ellery, by extremely patient play, no offensive tactics, and helped by a few lives, managed to carry his bat out in both innings.

THE REGATTA.

Favoured by a magnificent day, a full river, and a very gentle breeze, which hardly created a ripple, the autumnal regatta held on Saturday eclipsed any of its predecessors, and was quite equal in interest to many of the spring meetings of late years.

The rowing in several of the boats showed a decided improvement, and it is to be hoped that some of the new competitors from the Buenos Aires Club will be enabled, if not to place the blue-and-white stripes at the head of the river, at least to show that there is still some life and muscle in the patriarch, who, according to the late Argentine laws, has just attained his majority.

When the first race was started, for a wonder at the correct time, the spectators could have been counted with the greatest ease, and it seemed as if the Asilo Naval would add a very small amount to its funds, but as the hours went by the crowd increased rapidly, so that at the conclusion of the day's sport the number present must have been equal to that of many of the spring meetings. Certainly the alameda was rather bare, and there was not much of a crowd in the stand, but the number on the river itself must, we think, have surpassed any previous regatta. At the last November meeting we remarked that the steam launches were on their good behaviour, but we regret to say that on Saturday they were again a complete nuisance, many of them, in fact, seemed to be running their trial over the measured mile, without regard to the convenience of the competitors or of the spectators afloat. We fear that this reckless rushing about will go on until some high functionary by bitter experience learns that a collision between two steam launches means the destruction of one or both of them, and that an involuntary dip in the waters of the Lujan, when got up in the latest fashion, is not

quite as pleasant as a pre-arranged bath in adequate costume, not to mention the risk of being scalded or drowned. We noticed, amongst other notables, His Excellency the President of the Republic and Dr. Rosa, the Minister of Finance, who were, we believe, the guests of our genial Lord Mayor.

For the first time since regattas have been held on the Lujan a protest was made against a competitor before a race, and we believe the facts of the case justify the protest most fully. In the third race, for Junior Sculls, four competitors came to the post, and one of them was objected to on account of not having won his preliminary heat; but the Committee, taking into consideration the fact of his having capsized, allowed him to compete in the final, without consulting the other scullers, a departure from the rules of the Union de Regatas which should never have been entertained for a single moment. Ultimately this sculler was allowed to start, with subjection to the protest formulated by the other competitors, who will no doubt insist on a proper investigation and definition of the rules.

The following are the details:

- I. JUNIOR FOURS, in clinkers; 800 metres.
 1. Tigre B.C.—C. S. Edey (bow), 2 A. A. Miller, 3 A. C. Williams, H. Wibberley (stroke), D. S. Munro (cox).
 2. Ruder Verein Teutonia—W. Prentice (bow), 2 W. Salomon, 3 M. Lammerhirt, P. Frers (stroke), H. Frankenberg (cox).

The above were the only competitors. Tigre getting away very well, whilst Teutonia made a most wretched start, but quickly settling down made a very fair race for the greater part of the course, Tigre drawing away at the finish to win by a bare length.
- II. BRIDGETT CHALLENGE CUP, SENIOR SCULLS, in shells. One mile.
 1. Tigre B.C.—M. M. Kay.
 2. Tigre B.C.—F. Corry-Smith.

These, the only competitors, are members of the Tigre Boat Club, the only other entry, F. Diehl of Teutonia, did not come to the post. This was simply a paddle over for the winner, as at no time during the race was he pressed in the slightest degree, the rate of stroke never rising above 24 per minute.

- III. JUNIOR SCULLS, in clinkers. 800 metres
 1. B.A.R.C.—B. B. Domselaar.
 2. Tigre B.C.—A. C. Williams

The other competitors were R. Walther, R.V.T., and H. M. Edey, T.B.C.

A very fair start, but before a quarter of the distance had been covered, Domselaar had a very useful lead, followed by Walther and Williams, Edey being last, and in this order they remained until within a hundred metres of the finish, when Walther, who had tired very much allowed Williams to pass him, and then steering badly left his water and went across the river in front of Edey, who was then making a splendid effort to come on terms with the leaders; the consequence was that Edey sculling his hardest ran into Walther and capsized him, naturally doing away with all hopes of his making a race with Domselaar who beat Williams by about a length.
- IV. INRIGGED FOURS, for members over 30 years of age. 400 metres.
 1. R. V. Teutonia—J. Hosman (bow), 2 W. Leitzen, 3 Darmstadter H. Van Houten (stroke), T. Spott (cox).
 1. B.A.R.C.—W. Lewis (bow), 2 P. R. Walsh, 3 J. Hardman, E. Danvers (stroke), E. B. Madero (cox).

The Tigre Boat Club did not come to the start, so that much of the interest of the race was lost, but a fair struggle took place between the two veteran crews, and ultimately the long steady swing of Teutonia landed them winners by rather less than a length.

- V. OPEN FOURS, in clinkers. 1000 metres
 1. Tigre B.C.—A. Southam (bow), 2 H. M. Edey, 3 A. M. in Thurn, G. L. S. Wood (stroke), D. S. Munro (cox).
 2. Tigre B.C.—A. C. Williams (bow), 2 J. C. Bellamy, 3 F. Corry Smith, H. Wibberley (stroke), S. E. Francis (cox).

In this case Teutonia were the defaulters, but fortunately the two Tigre boats rowed the best race of the day, although at the start it looked long odds in favour of Wibberley's crew who rowed all through in better form than the winners. We have seen many bad starts but never one that could compare with that of the winning crew; at the first stroke three turned his oar so deeply that it looked odds on a capsize, but the man was equal to the occasion and recovered himself in a most wonderful manner, but as if this was not enough to unsettle a crew, the same thing happened to another of the crew but he also was all there and lost no time in recovery. After this, though there was a good deal of splashing, they settled down to a fairly long stroke and gradually crept up to their opponents winning the hardest fought race of the day by about six feet. Both crews were cheered to the echo by the enthused spectators.

- VI. MIXED PAIRS, in half outrigger "pleasure" boats. 400 metres.
 1. Tigre B.C.—F. Corry Smith, Miss A. Mackern (stroke), S. E. Francis (cox).

1. Tigre B.C.—M. F. Gilderdale, Miss P. Patterson (stroke), D. S. Munro (cox).

The longer stroke of the winners told long before the race was over and they came in at the finish with a lead of rather more than a length.

VII. DOUBLE SCULLS, in clinkers, open. 800 metres.

1. B.A.R.C.—J. Negron, J. A. Ballard (stroke), J. S. Lea (cox).
2. Tigre B.C.—J. C. Bellamy, M. F. Gilderdale (stroke), S. E. Francis (cox).

3. R. V. Teutonia—W. Leitzen, E. Rosenthal (stroke), H. Frankenberg (cox).

At the very first stroke Rosenthal broke one of his sculls, whereon the other boats stopped and agreed to wait until another scull was procured. In the meantime, in order to keep up to time the race for government boats was rowed with the result given in its proper place. Started anew Tigre took the lead followed by Buenos Aires with Teutonia last. About half way Buenos Aires pulled up and ultimately beat Tigre by a length.

VIII. CANOE RACE. 300 metres.

1. R. V. Teutonia—W. Prentice.
2. B.A.R.C.—B. B. van Domselaar.

Out of ten entries only five competitors faced the starter with the above result.

IX. FOR MEN-OF-WAR BOATS, limited to six oars. 1000 metres.

As we have previously stated this race was started about an hour before the time marked in the programme. Only two boats appeared, one manned by apprentices from the Tigre Works, and the other by sailors from the Prefectura, the last named winning by three lengths, owing to their superior age, weight and strength. No sooner was the race over than another crew appeared protesting against the start having been made out of due course. After some discussion it was agreed that the winners of the first race should row against the new comers at about 5 o'clock, but when that hour arrived the first named refused to start, in consequence of which the new crew were sent on their journey alone. Whatever the ultimate decision may be it seems a pity that such an error should have been made.

X. JUNIOR DOUBLE SCULLS, in clinkers, 500 metres.

1. B.A.R.C.—J. C. Gallegos, C. M. Cuneo (stroke), J. S. Lea (cox).

2. Tigre B.C.—A. Southam, H. M. Edye (stroke), D. S. Munro (cox).

3. R. V. Teutonia—P. Frers, R. Walther (stroke), H. Frankenberg (cox).

In addition to the above another B.A.R.C. crew appeared manned by E. Tolomei and E. S. Ure, but unfortunately Ure broke a scull at the start which put them out of the race; the other crews rowing on, Buenos Aires beating Tigre by half a length.

XI. UPSET CANOE RACE, competitors have to upset three times.

Seven came to the post, Domselaar (B.A.R.C.), who was very smart in effecting his three dips, being the winner.

XII. TUB RACE. 50 metres.

Five appeared for this event, the winner being R. A. Segovia followed by J. Hardman, both of B.A.R.C.

XIII. SWIMMING RACE, across the River Lujan, in rowing costume.

Five started for this event, the winner being W. Salomon, R. V. Teutonia.

VELODROMO PALERMO—MARCH 26.

The meeting at Palermo on Sunday last was extremely well patronised, which speaks well for the success of the new track. Another beautiful day attracted large crowds to the enclosure and the spectators were well rewarded by witnessing some capital racing. These meetings, which are conducted in first-class order, reflecting the greatest credit on the officials, are becoming very popular, and deservedly so, for everything is done for the comfort of the visitors.

We give below the details of Sunday's racing:

1ST RACE.—1000 metres, Handicap, for Amateurs of 2nd and 3rd Category. Three prizes. Gold Medal of 1st Class, Gold Medal of 2nd Class, Silver Medal of 1st Class.

Final—(1) Jacquier, (2) Casalis, (3) Vigorelli. Time 1m 13secs., last round 27secs.

5TH RACE.—10 kilometres, Tandems, for Professionals.

(1) Oliveira—The Midget, (2) Jacquier—Vigorelli, (3) Listar Bugallo. Time 18m 12 2/5secs., last round 21 1/5secs.

PROGRAMME OF RACES FOR APRIL 2.

1ST RACE.—The Champion Amateur of 1000 metres, R. Pereda, will try to beat in a flying start the record of the kilometre with pacers.

2ND RACE.—Brazal Argentino of 30 kilometres, organized by "El Ciclista," with pacers, between N. Listar holder, and V. Laborde, challenger. The U. V. A. offers \$25 on this event.

3RD RACE.—The South American Champion, A. Oliveira, will try to beat in a flying start his record of 1000 metres, established by himself in 1:14 3/4.

4TH RACE.—Handicap for Amateurs of all categories, 900 metres by heats and final. Three prizes. Gold Medal 1st Class, Gold Medal 2nd Class, and a grand Silver Medal.

5TH RACE.—Revancha Race. 10 kilometres for Professionals on Tandems. Three prizes \$80, 40, and 20 in this event. The 1st prize will be \$100 if the distance is run in 14 minutes, and 30 seconds.

On the 9th of April prox. the race "Grand Prize of the Union" will be run for, over a distance of 50 kilometres, for Professionals.

THE GRAND NATIONAL.

Manifesto has added his name to those of The Lamb and The Colonel, that have won the Grand National more than once, and he also shares with Cloister the honour of being the only horse to have carried more than twelve stone to victory. A telegram on Friday afternoon last gave Manifesto as the winner, with Ford of Fyne second and Elliman third. Manifesto carried 12 st 7 lb and started at the very short odds of 5 to 1, Ford of Fyne was quoted at forties, and Elliman at twenties. This last horse ran third to Ambush at Kempton a month ago, and was thought a good deal of after this race, hence his shortened price. Manifesto last won in 1897 when he carried 11 st 3 lb in a field of twenty-eight.

MEDIA LUNA—MARCH 23.

This club started the season on Sunday the 12th with a game at the Estancia Marabú, when the following players were present: Tetley, R. Leared, F. Leared, Kennard, Johnston, Wood, Wilson, and E. Hay.

Though the first game of the season and a very hot afternoon, there was lots of "go" in the play.

On Sunday, the 19th, the game was on the Chacra ground. There was plenty of galloping, the score at the close of play being six goals all.

The sides were:—

- | | |
|---------------------|-------------------|
| 1. M. T. Johnston | 1. C. Wilson |
| 2. R. Leared | 2. F. Leared |
| 3. V. G. Kennard | 3. E. Wood |
| C. J. Tetley (back) | A. Holland (back) |

Several promising new ponies were seen out.

GYMKHANA MEETING.

A Gymkhana promoted by the Committee of the Rosario Athletic Club took place on the Club's ground, Plaza Jewell, on Saturday last, the proceeds being devoted to the funds of the Anglo-German Hospital. The time for commencement was advertised as 1 p.m., but at that hour very few spectators had arrived owing doubtless to the threatening state of the weather, but later on in the afternoon by the time the programme had got into full swing a good number had assembled, although nothing like the crowd one would have expected, considering the laudable object for which the affair was got up. A great deal of trouble had been taken by the energetic Hon. Secretary, Mr. Diego Le Bas, and the Committee to render the programme as amusing and attractive as possible, and they were certainly successful, some of the events causing roars of laughter, notably the time honoured greasy pole and the wheelbarrow race. During the afternoon various selections of music were played by the Police Band, kindly lent for the occasion by the Chief of Police. At the close of the sports a nice selection of prizes were awarded to the successful competitors, whose names are given below, Mrs. Tietgin kindly making the presentation.

SACK RACE.—5 starters. 1. H. Middleton.

VICTORIA CROSS RACE, of 400 metres, over hurdles, each competitor to dismount, pick up a dummy, remount and return to the starting point.—1. W. T. Fleming. The prize for the most attractive "muñeco" was awarded to Mrs. Tietgin.

MENAGERIE RACE, w. o.—E. Wharton, who displayed great patience under trying circumstances, the winning post apparently offering very little attraction for the goat which he drove.

COSTUME RACE, 200 metres, each competitor to dismount, put on a fancy costume and return to the starting point.—10 starters. 1. H. Middleton, 2. H. H. Spicer.

GREASY POLE.—The six performers each made several attempts to take the flag fixed as usual at the end of the pole, and caused much amusement by their frequent failures. The bunting, however, continued to flutter in the breeze. R. Dornig being the most successful was awarded the prize.

CIGAR AND UMBRELLA RACE, 200 metres. Competitors to saddle their horses, mount, and race to a point where each is presented by a lady with a cigar which she is to light. The rider then to open his umbrella, and return to the starting point where he must arrive with his umbrella open and his cigar alight.—This caused much amusement and the ladies are certainly to be congratulated upon their gallant and successful efforts. 1. C. Ripley, 2. H. Middleton.

OBSTACLE BICYCLE RACE, for ladies.—There were three competitors for this race, Mrs. Oldendorff very kindly consenting to enter to make up the necessary number. Each lady was required to successfully ride between a number of bottles, take a ball from the head of a post, carry it to the starting point and place it in a bucket, and return over a plank, afterwards to trundle a hoop, while riding; in the shortest space of time. The first attempt resulted in a dead heat between Mrs. Oldendorff and Miss Waring. In the run off Miss Waring won easily in 31 4/5 secs.

WHEELBARROW RACE.—Won easily by R. Dornig.

ROUND THE TOWN.

Holiday makers could have had little to complain of as to weather on the Saturday and Sunday of last week both of which were almost perfect days, mild, clear and yet with a definite briskness in the air that made one feel almost young again and ready to pull an oar or knock up a hundred as in the merry days of yore. It is in such matters that the creeping footsteps of time most affect us and although the years bring increasing pleasures and increasing responsibilities, not to speak of increasing width and weight, yet the taking from us of the powers of youth is never quite made up for by anything else. Still the youth and even the age of the city was out to enjoy itself on Saturday and it did so thoroughly. When the days out here are fine in the early Autumn they are perhaps the perfection of temperature and climate generally, and both Saturday and Sunday were fine days.

The Tigre drew a fair number of spectators to witness the racing in the off season regatta of Saturday and the concourse should result in some respectable amount for the Asilo Naval. A fairly long knowledge of things in general out here has, however, convinced us that in most of the charities to which we contribute in the way of fetes, festivals, etc., there is a very large leakage somewhere and the expenses mount up so heavily that the society gets but little. This, however, did not interfere with the enjoyment of the onlookers at the Regatta as there was plenty of fun in the races, and a good lunch on shore, with a good cigar after it makes any regatta an enjoyable function. The racing pure and simple was rather better than usual and there was less daylight between No. 1 and No. 2 than is usually seen and most of the events resulted in really close finishes notably the one between the two crews of the Tigre Club. The colours of the redoubtable pair Gilderdale and Bellamy were lowered by Ballard and Negron who won a well fought race with little to spare, and the stroke of the winning crew was thoroughly done up at the finish. The old club, the Buenos Aires we mean, had a very good record to show at the close of the day and we hope that the wins on Saturday will put some heart into the hitherto non-racing men and induce them to train a little for the honour of their club.

The Old Mans Race on Saturday produced a good struggle although only the Buenos Aires and the Ruder Verein put in a crew. The Tigre is too young a club we suppose for any of their active members to have reached the mature years of 30 and they consequently did not show up. Both the crews fought well and rowed plucky races, the Teutonia men getting the better of the argument although the Buenos Aires lot were highly fancied and at one time looking like winners. The ages of the crews were not excessive and barely gave them the right to be termed Old, such a name being better applied to a crew such as we once saw on the Thames, in which the stroke was verging on to seventy and the other members in their sixties and who yet managed to hold their own against a fairly useful lot of young men. Out here, however, age tells more strongly than in England and a man of fifty is in point of fact older than a man of sixty or more in the old country.

We should be ungallant—and this we trust that even the most rapid advance of Father Time will not make us—if we did not mention the race in which the ladies made their appearance. This was one of the prettiest of the day and while congratulating the winner, we leave the man factor out, on her victory, we can also felicitate the loser on her plucky effort. The cheering from the spectators showed what interest there was in the race and the appreciation of the efforts of the ladies, thus making what we believe is the first appearance of a mixed crew in these waters. A few years ago this would not have been possible but the advancement and enlightenment of the Old World is slowly but surely reaching us here and very welcome it is too if it gives us freedom from the awful reign of terror which Mrs Grundy has for so long enjoyed in this country. The Mixed Double Sculls on Saturday was a great advance and a splendid sign of the coming emancipation.

A member of the late band of the "Outsiders" as they termed themselves informs us that the principal reason for giving up the presentation of burlesque in this city was that owing to the departure of two leading members of the company the remainder found themselves unwilling as well as unable to continue the shows. At the same time we hear that although there will not be a burlesque that an entertainment on behalf of the Buenos Aires Cricket Club is being seriously thought of and that the piece fixed on is "Our Boys." The cast has been made out and all the ladies and gentlemen concerned have signified their willingness to act. As, however, the season promises to be a full one this performance will not be given for some time the idea

being to prepare the comedy by slow stages and to give it later in the year. We are glad to hear this as "Our Boys" is one of our favourite works and we should like to see it again. At the same time we trust that the usual mañanismo of this country will not infect the actors in this, and that the piece will really be produced later in the season and not put off till "some more convenient date" as is too frequently the case.

When the Choral Union announced its programme for the season there figured on it the title of "Les Cloches de Corneville" which the committee had decided to produce as the last work of the season. It was remarked by many that this opera was too old and well known to stand production by amateurs. We had a somewhat startling proof that although it may be old it is not apparently as well known as it might be, for anxious to renew our acquaintance with the music we dropped into a leading book store in the city and asked if they had a copy. After searching for it vainly the obliging assistant said "Sorry we have not got it, sir, but we can get it for you if you wish. It is one of Gilbert and Sullivan's latest works, is it not?" Truth is stranger than fiction and this is truth.

The racing at Hurlingham at the meeting of Saturday last did not bring together a very large attendance, being as one of the native papers remarked "Poca pero selecta." There were some well contested finishes and the day was perfect so that those who went thoroughly enjoyed themselves. A number of Argentine names figured on the programme and appeared at the head of the list in many cases, somewhat of a contrast to the time when it was rather the exception to see such cognomens on the card. The fact seems to be that times have got so hard that average young Englishmen and even the comparatively middle-aged ones find it too severe a strain on their purses to keep any racers. Money is not made as easily nowadays as it was ten or twelve years ago and it costs money to train ponies, the result being out of proportion to the expenditure except for rich men.

One of the competitors in the Sailing Regatta at the Tigre displayed quite a fondness for piling himself up on the bank finding bottom two or three times. As he managed to go aground when rounding one of the mark buoys it looked as if the Committee had not been quite as careful in laying out the course as they might have been, for though when beating to windward chances of grounding must always be taken, a skipper does not expect to have to use the lead when rounding a mark. The event was won by Mr. H. B. Pyne in the Onyx, who handled his craft very well and got home in 1:45:10, the corrected time being 1:27:10. The Tigre Sailing Club now number some seventy or eighty members and seems to be well in the fairway of success. It deserves to be.
